Daily Intelligencer.

BELLEVILLE, WEDNESDAY, SEPT. 1.
Rifle Shooting.

The Intelligencer has always taken a warm interest in the Volunteer Militia of the country, and has steadily advocated every measure that would conduce to maintain or increase its efficiency. Especially has this been the case with regard to the supplying of the men with the most effective of firearms and the encouraging of the force as a whole in their use; for a soldier, even if armed with the best of weapons, but unaccustomed to their use, would be at a terrible disadvantage if called upon to encounter an enemy possessed even of inferior arms, if well trained as marksmen. With this view we saw fit to condemn the restrictions placed upon target practice by the late Government, and urged that the men be supplied with a more efficient weapon than the Snider-Enfield, which had gone out of date and was vastly behind the times. This rifle was never at the best anything but a makeshift, and at a time when speed was of the utmost consequence in order to convert the old muzzle loading Enfield into breech-loaders—a course which the Prusso-German war rendered compulsory, as it demonstrated that muzzle-loaders had had their day, and within the last few years its manufacture has been very greatly lessened if not altogether discontinued. Unfortunately our Government has not been able to furnish the citizen soldiery of Canada with the Martini-Henry or other weapon of the latest improved construction; but they can at least secure a rifle which will render target shooting more general and useful now among the volunteers, by decreasing that none but rifles of the Government issue shall be used in the matches ordinarily shot with the Enfield rifle, namely those ranging up to 600 yards. Within the last few years, many of the so-called "crack shots" have procured rifles of a special make—rifles of the Enfield pattern, it is true, but still weapons so superior in precision, being fitted with wind gauges and other aids to the marksman, that the men who use the ordinary service Enfield have but the slim chance of winning a prize in competition with these specially manufactured target guns. This is so manifestly unfair, so clearly discouraging to the great body of the volunteer force, that it is no wonder that but a few men in each corps take any part in target practice, contenting themselves with firing the few rounds which they are required to do as part of their annual drill, and not a few foregoing even that. This, it will at once be seen, is in our opinion it would be well if the Government were to step in and aid it by requiring that every man granted by them for short range matches shall be shot for with rifles of the regular Government issue only. By this means all will be placed on a level, a greater interest would be taken in sporting by the men generally, and the efficiency of the whole force will be vastly increased.

The Prince Edward Rifle Association have taken the initiative in this matter, by making the requirement we have spoken of a requisite for competition in their matches, and we are glad to note that Col. Gzowski, President of the Ontario Rifle Association—a very able and experienced officer—takes the same view. In his speech at the annual meeting of the organization of which he is the head, he said:

"He did not believe in the scientific adjuncts used in shooting, such as wind gauges, etc., but thought the men should be trained under conditions as in the presence of an enemy. Acting on this principle he intended offering a prize of \$100 next year to be shot for under these conditions, and as he was going to England in October he would bring the matter before the Ontario Rifle Association, and endeavor to have the Knapdale Cup shot for with the usual military weapons without scientific aids."

These are utterances of much moment and which should command widespread attention, and the gallant Colonel's ideas and action will be approved by all who have the interest of the Volunteer militia at heart. Leave the wind gauges, telescope sights and rifles of other than the ordinary pattern and make to the long range marksmen or to organized troops of skir-mishers or sharpshooters, but place all the men in the ranks and the officers who practice at the targets on the same footing as to weapons.

WESTERN CORN CRASH.—A Western authority estimates the present year's corn crop in the United States at 1,350,000 bushels, or 12 per cent. below the crop of 1879, and 21 per cent. below the estimated crop of the year, namely, 1,700,000 bushels. The reduced crop was caused by the dry weather.

Now Condensed.

—Hon. Mr. Atkins has returned to Ottawa. —Shantymen have already started for the woods from Peterboro.

—The Military College, Kingston, opens on Monday, the 13th inst.

—On the 31st inst. the tug Golden City was burned in Toronto harbor.

—On the 30th inst., a quantity of smuggled goods were seized at Cornwall.

—Night Hon. W. P. Adams has been appointed Governor of Madoc.

—Mr. M. R. Ely has purchased Skead's saw mill near Ottawa for \$45,000.

—The screw tug Reindeer was burned to the water's edge at Quebec on the 31st inst.

—News from River Quille indicates that Hon. Mr. Letellier's health is improving.

—On the 31st inst. the bars of St. A. Boyce, three miles from Colborne, were burned.

—The building of a new paper mill is at once to be begun at Lashby by A. H. Wilson, of Montreal. (N.P.)

—Chicago lumber dealers have advanced the prices on nearly all grades of lumber from one to two dollars.

—George Irvine, the Ottawa runner, has been matched to run a Buffalo pedestrian a quarter of a mile for \$200 a side.

—The estate of James Barber, late of Georgetown, paper manufacturer, has been valued at over \$350,000.

—Over 30,000 new ties have been laid on the K. & P. R.R. track between Kingston and Shabot Lake during the past year.

—The Peterborough Review says a remarkably fine specimen of a wolf was seen three miles from the town of Peterboro, on the 29th inst.

—Mr. Selwyn, of the Geological Survey, reports the finding of a very rich seam of coal 215 feet from the surface in the Northwest, where he has been visiting.

—The Finance Committee of the Peterboro Town Council have struck the rate of one and a quarter cent on the dollar. This is the lowest rate at Peterboro for some years.

—The Chaudiere bridge when completed will cost \$360,000. Nearly \$9,000 was paid to the contractors the other day for about one third of the iron which is to enter into the bridge.

—Mrs. H. a lady well known to the elite of Montreal, and whose husband was formerly in business in St. Paul street, has been detected in smuggling silk laces and chapeaux in large quantities into the United States.

—A large acreage passed over Cleveland, O., three o'clock on Sunday morning, brilliantly illuminating everything. When over the lake it exploded with such force as to shatter buildings in the northern part of the city, fragments shooting off in different directions, like the bursting of a monster rocket.

Demonstration at the Sandbanks.

The "Harvest Home" at the Sandbanks, yesterday was a demonstration unparalleled in the history of Prince Edward Pictou. The weather was delightful, the roads in excellent condition, the location one of the most pleasant and picturesque spots in that fair County, and the fact that Sir Leonard Tilley was to be present, added largely to the number who attended. It is estimated that there were not less than 2,000 carriages and over 7,000 people on the grounds. It was an immense demonstration, and most successful in every respect.

Sir Leonard Tilley, accompanied by Hon. Robert Reid, J. C. McQuig, M. P., and other prominent gentlemen from Pictou, arrived on the grounds about half past one o'clock, having stopped an hour at Bloomfield where an address was presented to the Finance Minister, to which he made a short reply. The picnic was held in the grove near the Lake Shore House, and after the speech was over, Sir Leonard Tilley addressed the vast multitude, occupying an hour and a half in the delivery of an able and masterly address, which was listened to with intense interest, and which was received with the utmost satisfaction.

Sir Leonard Tilley subsequently drove to Belleville in company with Hon. R. Reid and other gentlemen, arriving here last evening about ten o'clock. The party took supper at J. A. Campbell's, and Mr. Tilley subsequently took the midnight express for Ottawa. The visit of Sir Leonard Tilley to the County of Prince Edward was a most pleasant one. Everywhere he met the most enthusiastic reception, and addresses of the most flattering character to himself personally, and to the Government of which he is a member, were presented at different places.

BACKS DOWN.

The Globe in its issue of Aug. 30th, completely backs down from the position which it took, despite the fact that its London correspondent to the contrary, that the negotiations of Ministers for the construction of the Pacific Railway have resulted in failure "complete, disastrous, crushing." It now says that the movement is favorable for success, an acknowledgment which, in face of its former utterances, would be humiliating to any other journal than the Globe, which is everything by turns and nothing long, and consistent only in its opposition to anything that emanates from the Conservative party.

LEGALITY OF SUNDAY CONCERNS.

An important decision was given in the Court of Queen's Bench, Toronto, on the 30th ult., by His Lordship Chief Justice Gault, in the case of The Queen v. Barnes, involving the question of the observance of the Sabbath. In May last, the Toronto police magistrate imposed a fine of \$20 and costs upon Mr. Barnes, licensee of the Royal Opera House, for having held a concert and charged admission thereon on a Sunday evening. The conviction was based on an old statute of George III, Mr. Murphy appealed the case to the Queen's Bench, where it was argued in June last. In delivering judgment, dismissing the appeal and confirming the conviction, His Lordship stated that the Court was well aware that the question in Canada was not the present time, its application, and not the act was general in its scope to London and Westminster. He said as it had never been repealed in Canada, and as none of our legislation conflicted with it, it was still in force here. He therefore dismissed the appeal, and allowed the conviction to stand. He said that consequently, not likely to be carried any further.

SMALL POX.—A gentleman who has just returned from the Upper Ottawa reports that over 100 deaths have occurred among the Indians from small-pox. The several bands have divided up into small parties, and are travelling north, leaving the dead unburied.

Marmora Correspondence.

Harvest work is now rapidly advancing towards its end, and we have great reason to feel thankful that a kind and beneficent Providence has blessed us with an abundant harvest.

A ludicrous event took place in the village a short time since. It appears a young lady who was engaged in the popular calling of manufacturing cheese not far from the Irish settlement in Madoc, became the recipient of some doleful ballads, which a certain widower and youth addressed to her eyebrows, and they both became the victims of a mauling which is impartial and relentless in its attacks, and which is supposed to arise from the unerring shafts which fly from Cupid's bow. At length the pangs which the young Thebes experienced drove him to earnestly beseech his "lady fair" to give her consent that their two hearts should beat as one, which he at length—to his great joy—obtained. So an elegant carriage was hired, and a gallant steed, in which he conveyed her—who had come so long like a furnace to light—Marmora. All the way down was the "higgin castle in the air," and dreams of future connubial bliss indulged in freely. At length the glittering spire of the village church shining luridly as the bright rays of a burning summer's sun were reflected from them. Here they intended to wait at the commodious Manor House until the approaching Sabbath when they purposed wedding their love to the R. M. cause, and to be united in the bonds of matrimony, by the Rev. Father Collins. But alas! "for human hopes and expectations of happiness," when the relatives of the young lady found out that "the bird was flown." Hastily they attached their steeds to the chariot and fled after the runaway pair, whom they found at length after a rapid drive, seated together in the private parlour together and by dint of threats, promises and objections perseveringly kept up for some time as last succeeded in preventing at least in making the would-be bride give up her intention. However, the brave youth would not consent to allow his partner to return in the family vehicle but placed her in the one he had brought her in, and the procession started on the homeward track, and the young gallant's feelings may better be imagined than described. In such cases it seems difficult to satisfy all parties, as the youth seems to be a well-to-do, steady, thriving fellow, having a farm, &c.

A great number of vehicles filled with berry pickers have been for some time passing to the rocky, northern wilds, where this fruit abounds, and have obtained a large quantity of this luscious fruit.

The late examinations for second and third class teachers have resulted disastrously for those candidates who applied from here.

The malarial fever and its formidable ally, the ague, are still ruthlessly attacking fresh victims; even the most stalwart have to succumb to their invading forces. Mrs. George Cain is the latest victim of the former disease. Her funeral took place on the 26th inst.

Mr. B. C. Johns has returned from a three years sojourn in the Black Hills and Council Bluffs, Iowa. To the latter he soon intends to return.

Some remarks just made in a daily business in exporting bull from meat to New York city for the consumption of the gourmands of that famous metropolis. It is said that there is therein great demand, being considered a dainty dish.

Ameliasburgh Correspondence.

At a granger's meeting held last week a committee was appointed to sound water and find cost of building a shipping dock for grain at Bay Side, and report at next meeting. A very convenient place this would doubtless be for a shipping place.

Barley is just yet at 69 cents.

Some of our gardeners have been bothered of a great deal of late with beet beetles. Mr. Elkanah Babbitt on the north shore has been obliged to pick his fall pears in order to save them from being stolen. He has one of the finest orchards in this township. He cut up almost two feet long from one tree which had 11 pears on weighing about 4 lbs.

The Ameliasburgh Agricultural Society are sparing no pains to have a first class show this fall.

The first meeting of the "Trenton and Bay of Quinte Navigation Company (Limited)" is held for Sept. 6th, at the town hall, Ameliasburgh.

The gentlemen who have taken the contract of destroying the dogs on Ferry point might tender for the township. There are a few that should be made away with.

Two gentlemen of this place are making repairs cleaning tomb stones and monuments making them look as good as new.

HANLAN.

HANLAN leaves for England on the 21st inst. by Great Western Railway to New York, and thence by Cunard steamer. Mr. George Hawthorne, goes with him. He takes two Warren shells along. He weighs 165 pounds, is in good health, and will put up at Rarod's on the Thames, near London, en route, and will immediately go into training so that he may go down to his boxing weight 150 pounds.

MORE N. P.—The Montreal Witness says:

"The building for the additional machinery in connection with the Hudson Cotton Mills at Hochelaga are nearly completed, and the great activity prevails in the vicinity of the mills. The mammoth eight hundred horse power engines to drive the new machinery is now on the way from the Old Yellow Mills arriving during the latter part of the present week. Looms and spinning machines are being set up and all will be in readiness to start work about the 1st of November. It is stated that when the extension is fully completed over 1,000 hands will be employed."

SEVERE STORM IN ENGLAND.

On the night of the 29th inst. heavy thunder storms prevailed throughout England, Rain fell in torrents, flooding houses, destroying crops, and doing a very large amount of damage. Several places were struck by lightning, a number of cattle and two or three persons were killed. Such terrific thunder storms have not been witnessed in England for a long time.

GRAND JUNCTION RAILWAY.

Decision in Queen's Bench against the County of Peterborough.

The Case to be Appealed to the Supreme Court.

At the sittings of the Queen's Bench on Monday before Chief Justice Gault, Justice McPhillips, of the County of Hastings, was given on the rule nisi compelling the County of Peterborough to issue debentures to the value of \$75,000, said debentures to be delivered over to trustees on behalf of the Grand Junction Railway Company, to be used on several grounds, but the decision of the Court is that the rule be made absolute for the issue of a mandamus compelling the county to issue debentures to the amount required.

Mr. McPhillips, of Jarnson & Appals, appeared on behalf of the railway; the county was not represented.

Chief Justice Gault registered the absence of counsel, who should be present at judgments in important cases. Counsel had stated that the county was willing to take the debentures at twenty years, which he stated, was a very fair proposition. But if the county refused this proposition, then a mandamus must issue. Some trouble had been given about the back interest alleged to be due, but the question as to the law passed sufficiently for the appointment of trustees. As regards interest he did not understand that the railway was entitled to back interest, and the county must be placed with the interest and coupons attached in the hands of the trustees, and when they became due, the trustees were to pay the same. The case was going to be taken to the Court of Appeal, and he did not wish to state fully any view of the case he might entertain. He wished to hear other opinion as to the true construction of the said by-law in respect to this back interest claimed, whether the by-law was viewed as an ordinary contract, or that the intention was that the accrued interest should go to the railway.

Chief Justice Gault expressed a strong hope that the Legislature would complete their interference in this matter; if not, it would be the cause of much mischief.

The rule was made absolute, the mandamus not to issue until the expiration of three months.

MORNING DESPATCHES.

AMERICAN.

PORT WATTS, Sept. 1.—Judge Lavery, in the case of Western Union Telegraph Company against the American Union Telegraph Company and the Pittsburgh, Port Wayne & Chicago Railway company, dissolved the temporary injunction restraining the railway company from distributing material, and the American Union from building its new line on the Port Wayne road. The question of validity will arise as to the admitting of the rival telegraph company's wires into the railway company's stations, to be determined hereafter.

NEW YORK, Sept. 1.—Washington special: The World says Washington is in an unhealthy condition. Malarial fever is almost an epidemic.

The Tribune says the total returns of the Postal Service for two years add a quarter of 288 millions. The entire losses of the department during that period were only thirteen hundred dollars.

NEW YORK, Sept. 1.—Robert M. Pratt, one of the most prominent portrait painters in the city, died suddenly yesterday, aged sixty-nine.

Isaac A. Knight, of Somers, West Chester County, says: "The old Yellow Mills and Monday his daughter-in-law found fault; he again threatened suicide. The daughter told him to go on and do it. He invited people into the house and saw him show and went out and while flourishing a razor about his neck cut his throat. He tried to hold the wound together, exclaiming, 'I did not mean to do it,' but he died in four hours after."

The Italian Bark from Leghorn yesterday reported they passed the British iron ship *Wasp* dismantled, abandoned and on fire.

GOVERNOR GENERAL'S MOVEMENTS.

The Governor General goes to Ottawa to present the Dominion Rifle Association prizes on the 19th of September. He will subsequently return to Quebec and leave for Montreal on Tuesday morning the 21st of September. On Friday the 24th of September he will arrive in Hamilton. These are His Excellency's movements so far as arranged.

READY FOR TRAFFIC.

The Peterborough Review says: "The Old Yellow Mills Railway bridge on which the Grand Junction is to cross the river to town, is completely repaired and is now said to be in a better condition than ever it was. The new timbers that have replaced the old ones, have been given a coat of coal-tar, and the whole structure now has a uniform appearance. The ties have all been sized; and the long timbers on which they have been laid have been moved in to the correct width of the narrow gauge. It is now ready for the first train to cross, and from present appearances it looks if it would cross before long."

Buckley's Armia Harve.

The Best SALT for the world for Cuts, Bruises, Burns, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chilblains, Corns, and all kinds of skin diseases. This salt is guaranteed to give perfect satisfaction in every case or money refunded. Price 25 cents per box. For sale by Jas. Clarke & Co. 95-ly

ACKNOWLEDGEMENT.

The Women's Christian Association feel themselves indebted to the Old Yellow Mills for their services so kindly given on Saturday evening, at their excursion for the benefit of the "Home."

E. J. FLINT, Cor. Sec.

Windsor Hotel, Campbellford.

T. BLUTE, Proprietor.

THIS is acknowledged to be the best Hotel in any of the inland towns and villages, and equal to the best in the cities. There is good boating, fishing and hunting in the vicinity. The delightful scenery around Campbellford makes it one of the most pleasant of Canadian summer retreats. Families desiring of spending a few weeks, or parties coming on Saturday and remaining over Sunday, can be accommodated at reasonable prices. Pic-nics can be arranged for by applying to Mr. T. Blute, 2633

Mortgage Sale.

Valuable Freehold Property.

IN pursuance of the power of sale contained in a Mortgage from Peter V. Dorland to the vendors, which will be produced at the time of sale, there will be offered for sale by Public Auction, on

Saturday, the 4th day of September, at 11 o'clock, A. D. 1880,

At two o'clock in the afternoon, by Charles Wilkins, Auctioneer, at the corner of Front Street, in the said City of Belleville, the following valuable property, in two parcels:

Parcel 1.—Lots Nos. 3 and 4, on the west side of Front Street, in the said City of Belleville, as laid down on a plan of lots laid out for one Robert Gordon by William Wallbridge, P. L. S., upon part of Lot No. 1, in the 1st concession of the Township of Thurlow, and Lots 15 and 16, on the east side of Gordon Street, in the said City of Belleville, as laid out on a plan of lots laid out for one Robert Gordon by William Wallbridge, P. L. S., upon part of Lot No. 3, in the 1st concession of the Township of Thurlow.

Parcel 2.—Lots 1, 2, 3, and 4, on the west side of Front Street, in the said City of Belleville, as laid down on a plan of lots laid out for one Robert Gordon by William Wallbridge, P. L. S., upon part of Lot No. 1, in the 1st concession of the Township of Thurlow, and Lots 15 and 16, on the east side of Gordon Street, in the said City of Belleville, as laid out on a plan of lots laid out for one Robert Gordon by William Wallbridge, P. L. S., upon part of Lot No. 3, in the 1st concession of the Township of Thurlow.

The vendors reserve to themselves the right of one bidding in respect of said property. Terms of payment very liberal. A deposit of ten per cent. of the purchase money must be paid at the time of sale, when the balance will be arranged. For further particulars and conditions of sale, apply to

EWART & DAVIDSON, Vendor's Solicitors, Toronto. 944141

The Intelligencer.

FOR 1881.

Will Shortly be Published.

ANNUAL ILLUSTRATED ALMANAC.

THIS work will contain over sixty pages, handsomely printed on toned paper, with a large and varied body of interesting and valuable general information, in style and handsomely illustrated.

In addition to the articles of general interest, it will contain a large amount of local information, of such a character as to make it of special value to every inhabitant of the County.

5,000 Copies

of this Almanac will be published, and gratuitously and judiciously distributed throughout the County of Hastings, and the City of Belleville, thus rendering it one of the most valuable mediums for advertising ever presented to business men.

Certain pages will be devoted to advertising, at the following rates:

One page, 1000 copies, \$12.00
One half page, 500 copies, 6.00
One third page, 300 copies, 4.00
One fourth page, 200 copies, 3.00

The attention of our business men is called to the desirability of placing their Business Cards in the family circle, where they will be preserved.

THROUGHOUT THE COMING YEAR.

We are confident the shrewdest advertisers will find this Almanac a most valuable and economical medium for extending their business.

Intelligencer Co., Corner Front St. and Market Square.

HOLLOWAY'S PILLS

This Great Household Medicine
ranks amongst the leading
necessaries of Life.

These famous Pills purify the BLOOD,
and most powerfully, yet soothingly on the

Liver, Stomach, Kidneys,

and I BOWELS, giving tone, energy, and vigor to
these great MAIN SPRINGS OF LIFE. They are
confidently recommended as a never failing
remedy in all cases where the constitution,
from whatever cause, has become im-
paired or weakened. They are wonderfully
efficacious in all ailments incidental to Females
of all ages; and as a GENERAL FAMILY
MEDICINE, are unsurpassed.

THEIR USE.

A Bird's Grave

REMARKABLE CONDUCT OF A DOVE WHOSE MATE
WAS KILLED BY A LOCOMOTIVE.

A year or so ago a little girl living near the
line of the Erie railway, two miles from Rath-
bonville, N. Y., was presented with a pair of
doves. They were in the habit of flying
about in this vicinity. One day, however, when
the male bird came into collision with the
locomotive, and was killed. The female dove
passed the spot about 7 o'clock in the morning.
The bird was killed by the shock, and in-
stantly thrown out of sight of its mate.
The female dove circled about the spot for a few
minutes in evident amazement at the sudden
disappearance of her mate. She then flew
to a mile post near by, and for a long time
gave utterance to the mournful note charac-
teristic of the dove. Suddenly she seemed to
realize what had happened to her mate. She alighted
near the spot where he had fallen, and for a
day, uttering her plaintive cry. Next
morning, just before 7 o'clock, she was seen
to fly away, and take a position on the mile
post near the spot where her mate had fallen.
The day before, when the express train
came along she flew at the locomotive, and
the cab, as if looking for her mate. She ac-
companied the locomotive for a mile or so
until she reached the spot where her mate had
fallen. She then returned to her mate, and
since then she has been seen at the same spot
every day. She never goes further
than her mate and mourning pitifully all day.

Daily Notes.

There has been a milk famine in
London, where milk sold at forty cents per
gallon, and was scarce.

A QUARTY of milk for every six
inhabitants is the rule by which the
amount of milk required to supply the
population of any city is calculated.

In the morning, says the London Live
Stock Journal, the milk of the dairy
women, causing them to leave the
quality and condition of the butter they
make, it will fill a not altogether igno-
rant.

It is said that many cattle have died
throughout Ontario and Monmouth Counties,
New Jersey, from the drouth and heat.
Some of the animals are found dead, and
indigestion, starving, and others are doing
terrible work.

The London Provisioner says: The great
American author, Ralph Waldo Emerson,
keeps two cows and milks them himself.
It is said that some of his brightest thoughts
have come to him while being licked half
way across the stable.

No Hospital needed.

No palatial hospital needed for Hop Bitters
patients, nor large salaried attendants to
sell them Hop Bitters. They do it for us, as the
toll their own story by their certain and ab-
solute cures at home.

Geo. C. ROBB,
Chief Engineer.

ONE WEEK. \$12 a day at home easily
in 12 months. Costly outfit for. Address

Daily Intelligencer. IS KISSING BRIBERY?

OR THE
Whittemuir Election Petition

CONTINUED.

"I wouldn't do it," answered His Lord-
ship angrily.

"But for argument's sake, suppose you
did? Do you think this proceeding would be
a thing?" asked Lord MacPepperrath, who
was a little more than other nice
thing? "What I am trying to prove is, that
this kinsman partake of the nature of those
other kinsmen who are never chary, and
which have a value according to the re-
coivers taste for them."

"A well then that constitutes undue influ-
ence," exclaimed Lord MacPepperrath,
abandoning his first line of retrenchment,
and taking to a second.

"Is a shake of the hands undue influ-
ence?" asked Lord Drapthead following
him up.

"What'd ye mean, mon?" asked Lord
Pepperrath, startled by the unmaking of
his own battery.

"Why, mon, I remember," said the
other judge, with his usual unflinching gravity
"I remember that when we were a candi-
date for Weobles you shook hands with a
man, and a sweep, and I used the baby of an
organ-grinder. Waur this undue influ-
ence?"

"Oh, Donald, isn't kind of ye to recall
the backsliding of my youth?" ejaculated
Lord MacPepperrath, drawing his handker-
chief across his eyes as if from emotion.
The fact is, the old fellow had been
kissed, year when he stood for Weobles,
and his conscience smote him.

"I—I don't think it was right for me to
kiss the organ-grinder's baby, and Heaven
punished me, and I'm a beast for it."

"A well, I'm a beast for ye, Ferguson,"
said Lord Drapthead, kindly.

"I should be glad to dispose of this kissing business,
because I know that the least whom
Donald MacPepperrath kissed was my own
daughter, Meggie, who came afterwards
and kissed my brother, who's a landowner
in Fashkirk, and who's as thick as the
MacPepperrath, and to tell you the truth, I be-
lieve that Donald MacPepperrath will end by
marrying my Meggie."

"A well, it's not a case of consequence,
but one of the kind of thing that Lord
MacPepperrath, shaking his colleague's
hand; and he was so much upset that he
drank a whole tumbler of beer instead of
a glass of water."

"I—I shook that sweep's hand, and had
his foot on my fingers, but Heaven punished
me, ye know, for I didna get elected!"

"No undue influence," said Lord
Drapthead; "it's like handshaking—no
more."

"As ye please," answered Lord MacPepp-
errath, who had sunk back in his chair
with a happy look on his face, for he had
not touched a finger for more than ten years
since he was elected.

"I—I shook that sweep's hand, and had
his foot on my fingers, but Heaven punished
me, ye know, for I didna get elected!"

"No undue influence," said Lord
Drapthead; "it's like handshaking—no
more."

"As ye please," answered Lord MacPepp-
errath, who had sunk back in his chair
with a happy look on his face, for he had
not touched a finger for more than ten years
since he was elected.

"I—I shook that sweep's hand, and had
his foot on my fingers, but Heaven punished
me, ye know, for I didna get elected!"

"No undue influence," said Lord
Drapthead; "it's like handshaking—no
more."

"As ye please," answered Lord MacPepp-
errath, who had sunk back in his chair
with a happy look on his face, for he had
not touched a finger for more than ten years
since he was elected.

"I—I shook that sweep's hand, and had
his foot on my fingers, but Heaven punished
me, ye know, for I didna get elected!"

"No undue influence," said Lord
Drapthead; "it's like handshaking—no
more."

"As ye please," answered Lord MacPepp-
errath, who had sunk back in his chair
with a happy look on his face, for he had
not touched a finger for more than ten years
since he was elected.

"I—I shook that sweep's hand, and had
his foot on my fingers, but Heaven punished
me, ye know, for I didna get elected!"

"No undue influence," said Lord
Drapthead; "it's like handshaking—no
more."

"As ye please," answered Lord MacPepp-
errath, who had sunk back in his chair
with a happy look on his face, for he had
not touched a finger for more than ten years
since he was elected.

"I—I shook that sweep's hand, and had
his foot on my fingers, but Heaven punished
me, ye know, for I didna get elected!"

since he was elected.

Bob Notes for September.

The general honey yield is now over in most
localities, and the surplus honey that will be
mainly in the hives should be removed at once.
The practice of leaving boxes upon the hives
after the honey season is over should be avoid-
ed. Removing the boxes and packing them away
in a clean place, they will be ready for use
the following season. Some of the boxes will
be partly filled with honey, then, if they
are single-story ones, and have the honey
removed by an extractor and the empty combs
will serve as a guide the next season. The
combs in the barrel must need washing and
drying. The surplus honey should be sold or
if the month were found they should be smoked
with brimstone. The preparations for suc-
cessful wintering are to be made now. It is
very desirable that each colony should be sup-
plied with a large number of young bees as
soon as the weather permits. In order to obtain
this and a prolific queen should be in every
hive. Young queens usually deposit their eggs
and for a longer time than old ones, and on
this account are much to be preferred.

MARKETING HONEY.—Where the amount is
small it may be sold in the home market, or
in the home market. Large quantities, will
of course, be shipped to a city market, and
a provision for quick and safe transportation
will need to be provided. A shipping case
for box honey should have a layer of straw
holding 10 to 20 lbs., or in some cases, 25
pounds. It can be made of light case wood,
nailed together. Before filling the cases see
that each box of honey is as neat and clean as
possible.

EXTRACTED HONEY.—Much of the honey is
marketed as liquid or extracted honey. The
forms in which it is put up are various. For
small packages, quart glass jars are much
used; larger packages may be either of tin,
holding 10 to 20 lbs., or in some cases, 25
pounds. American Agricultural.

The Kent House

One of our remarkable men was the Duke
of Kent, the father of our beloved Queen.
The city house where he lived in Quebec is
now used for office purposes. The Duke was
a practical man, and his life was in accord
with his principles. It is not strange, then,
that his city house should be preserved. Fur-
ther along the same street is the old house
where the body of General Montcalm was
laid on the closing day of 1775. Opposite the
St. Louis Hotel, which adjoins the Kent
House, at the corner of La Rue du Jardin,
stands the building where the remains of the
military commander, in fact, all about this
region is historic. The monument to Wolfe,
on the Plains of Abraham, and that to Wolfe
and his army, are so many points of interest
to visitors; and if anyone should be taken
sick, every drug store can supply Dr. HENRI'S STOMACH CURE, which
is as real, and more useful in such
straits, than any of our monumental celebri-
ties.

From the Hub

There is perhaps no tonic offered to the
people that possesses as much real intrinsic
value as the Hop Bitters. Just at this season
of the year, when the stomach needs an ap-
petizer, or the blood needs purifying, the
cheapest and best remedy is Hop Bitters.
An ounce of prevention is worth a pound of
cure, don't wait until you are prostrated by a
disease that may take months for you to re-
cover from.—Boston Globe.

CELEBRATED

BLACKBERRY CORDIAL.

A MOST EFFECTIVE Remedy for all Summer Complaints, such as

Cholera Morbus, Diarrhoea,

Dysentery, Cramps, &c.,

For Sale at

THE PHARMACY.

JAMES CLARK & CO.

Not like the man who for his outward sight

Was held the jingling dross of gold.

A sinewy soul and hope for the light;

Heed, blessed Jesus, my departing soul.

Sweet Saviour, give me the living faith,

That shall not be shaken by the wind of fate.

The only shelter from the storm of life,

The only refuge from a cruel fate.

I care not—take from me my mortal shell,

But give me the faith that shall not fail.

But give me the faith that shall not fail,

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

But give me the faith that shall not fail.

Copies of the WEEKLY INTELLIGENCER in wrappers ready for mailing can be had at the business office, corner of Front and Market Streets, every Thursday. Price 6 cents.

J. H. BATES, NEWSPAPER ADVERTISING AGENT, at Park Row, (Times Building), New York.
I am authorized to contract for advertisements in the DAILY and WEEKLY INTELLIGENCER at our best rates.

Daily Intelligence.

BELLEVILLE, MONDAY, SEPT. 6.
The City's Finances.

The enterprise of the INTELLIGENCER in presenting for the first time to the people of the city, full and accurate reports of the proceedings had in the various standing committees of the City Council, during the past two weeks, has earned the hearty commendation of all classes of citizens. It is in Committee that the real work of governing the city is done, hence the paper has been eagerly sought after and carefully read, with the result of causing the ratepayers to take a closer and warmer interest in the affairs of the municipality than ever before in its history.

The revelations made in the Finance Committee show that it would have been much better for the public weal, had the same interest been aroused and continued until it had been brought to a successful issue. In such case the financial condition of the municipality would have been vastly different to what it is now. The statement that during the past ten years the expenditure has exceeded the estimates by no less a sum than 150,000 and odd dollars, and that the debt amounts to \$833,000, will perhaps be considered alarming, and cause a loud outcry on the part of some people. But when it is stated that all the figures were at all times at the command of any and every ratepayer who chose to exercise his rights and look over the annual reports of the Auditors, and that the people had not sufficient interest to take the trouble to examine these reports, but returned to the Council the man who had thus betrayed their trust by exceeding the estimates year after year, it is easy to place the blame in the matter. It rests with the people themselves, whose apathy has been so great that now it has been dissipated, they are apt to rush to the opposite extreme. All this hitherto been a fatal mistake. Now an unreasoning alarm is apt to take its place. We therefore, having been instrumental in causing the facts to be brought to light in a way to excite public attention, advise a cautious mode of procedure. The position is not by no means a good one, but it is not quite so bad as appears on the surface. Alderman Jellett's scheme, as outlined more than once, will not only relieve the pressure for this year, but it is also calculated to be of much prospective benefit. It is, in brief, that the people be asked to pass a By-law for the purpose of borrowing \$300,000 for 20 years at 6 per cent interest, which means a saving of \$1,050 per year in interest would be effected, and which would render a rate of 18 mills on the dollar sufficient for all purposes. The same or a trifle higher rate, if continued in the future would wipe out the debt thus created within the next few years. This scheme is confessedly an expedient, but as we have before said there is no other course feasible at present. The danger is that, as previously, when the floating debt has been extinguished, the Council will again not only become extravagant but add to the debt by exceeding the estimates. There is but one way to prevent such a course, and that is for the people to continue to interest themselves in their own affairs. The necessary degree of interest has at last been aroused, and the INTELLIGENCER will do its best towards maintaining it.

Let the people insist that the estimate be not exceeded, and that the revenue is collected, more especially that non-resident lands be promptly sold for taxes, and in a very few years Belleville will be in as good a financial condition as any city in the Province.

Prosperity.

Evidence of prosperity in the country is gall and bitterness to the City press, and every effort is made to make it appear that the cheering signs of prosperity, as evinced by the Customs returns, are due to any except the revival of trade. Our City contemporary, in reviewing the increase of exports from Belleville for August, says:

Of course there was an increase of \$27,925, but the N. P. had no more to do with this than the moon in the moon. The exports have increased solely through shipments of ore and lumber, neither of which industries owe anything to what the N. P. has effected.

From which the organ would make it appear that the exports have increased from the excess of shipments of ore and lumber. How much the increase is due to that cause is shown in the fact that the increase of \$27,915, which is the actual increase for

August, not \$27,925—is made up as follows. Increase in shipments of ore and lumber, \$10,000. Manufactures and other goods, \$17,915. With this suffice to enlighten our neighbor and those of his readers who agree with him in opposition to the N. P.

Political Notes.

LAND SPECULATING.
The Globe says that the attack made on Sir Richard Croft for purchasing lands as an investment in the North-West, are assured on the very best authority that the purchases were made from private parties, and that over the lands he bought the Government had ceased to exercise any control.
Well, what is the difference? Does not Sir Richard buy to sell again at an advance in price, and is not that the very practice which the Globe has been denouncing? The purchaser will buy and the lands will be looked up for speculative prices just the same as if they were bought from the Government; but the Globe, which would "pitch into" any Tory who speculated in lands, will seek to excuse a political friend—ally, rather—for doing the same thing. A man's political opinions makes all the difference in the world to the Opposition organ.

The Sugar Question.

The Montreal Journal of Commerce has been quoted by the Globe as a competent and reliable authority on the sugar question. We have therefore much pleasure in presenting, in another column, an article from that journal on the subject of the prices of sugar under the present tariff. The Opposition organ has invoked this authority, and the answer to the Globe's assertions as to "robbery" and "monopoly" is, as it would itself say, "complete, disastrous, crushing." The Journal shows that every assertion made by the INTELLIGENCER in our controversy with the Globe some months ago was correct, namely that the people of Canada get a better article at a lower price than the N. P. than under the Cartwright tariff; that it is cheaper; and that the margin of profit to the refiner is small, but sufficient to enable the business to be carried on, and to profitably employ many men and much capital which would otherwise be idle. Surely these are substantial benefits derived from the N. P., but the Globe will continue to shout robbery and monopoly just the same as before its own arbitrator in the case decided against it.

Revenue Returns.

The revenue returns for July and August show a most gratifying increase over those for the same month of last year. The returns show the following result—
REVENUE FOR AUGUST.
Customs.....\$1,724,808
Excise.....408,261
Other sources.....25,669
Total.....\$2,158,738
The increase in August, 1880, over the same period last year, are as follows—
Customs.....\$361,216
Excise.....150,963
Other sources.....82,361
Total.....\$594,540
Increase in July.....\$37,799
Increase in 2 months.....\$1,437,340
The Finance Minister is to be congratulated on the result, which more than realizes his estimates as to the percentage of increase and forebodes a surplus for the year ending on June 30th, 1881.

Canada's Great Fair.

The Toronto Exhibition, which opens to-morrow, fair to be the best of the great Agricultural Fairs ever held in Ontario. The following comparison by departments shows a large increase over last year's entries:

	1879.	1880.
Horses	478	547
Cattle	384	326
Sheep	316	426
Swine	218	286
Poultry	876	1,002
Dogs	19	253
Grains, seeds and roots	465	650
Dairy products and utensils	117	185

The entries in fruit and dairy products have been doubled. The horses show an increase of 74 entries, sheep of 120, pigs of 64, poultry of 626. The dog show last year was a small affair, but this year it will assume an international character, forty entries having been made from the United States.

Return tickets to Toronto at reduced rates will be issued from all points by rail during the Fair.
As ELECTION DOCTOR—John Leith, an avowed manufacturer of Toronto, one of the leeches who hang around election booths and manage, in the heat and excitement of election contests, to "quizz" the candidate, succeeded in getting \$160 out of a son of Mr. Ryan, the Reform candidate, by misrepresentation and fraud. He went to Mr. Ryan, and told him how hard he had fought for him at the recent election—that he had spent \$20 in "assisting" him at the polls, and wanted him to fork out, offering him his I. O. U., so that it might be put on a legal footing. Mr. Ryan did not believe him, but in order to get rid of him, gave him the address of his legal agent. Instead of going to the agent, Leith went to Ryan's son, and told him that he had been sent to his father's agent, but was not of town, showing him the address of the agent, which the elder Ryan had given him. The son was finally persuaded to give him \$16. Finding out the fraud, Mr. Ryan had the law sent him to Court, and the Magistrate sentenced him to the Central Prison for three months. A most deserved punishment.

The Estimates Finally Considered.

A Rate of 18 Mills Agreed on.

Various Accounts Passed.

The sub-Committee of the Finance Committee met at 7 1/2 p. m. on Saturday, with all the members present.
The Chairman stated that, on reviewing the statement which he had made last night on information supplied him, and taking everything into account, he found that a higher rate than he had thought necessary would be required to meet the current expenses of the year. He stated the position as follows:

EXPENDITURE.	
Salaries.....	\$ 6,000
Police.....	4,000
Town and Sanitary.....	2,000
Printing.....	800
Water and Gas.....	5,000
Market.....	800
Harbor.....	800
Public Works.....	800
Interest on City Debt.....	25,000
County of Hastings.....	3,000
Reflected Expenses.....	1,500
Contingencies.....	1,500
Collection, remissions and losses.....	4,000
Total.....	\$65,200

The revenue is in round numbers, \$16,000 00
Rate of 15 mills on the dollar on an assessment \$3,475,102.....\$52,096 50

Total.....\$68,096 50
There was also the rate of 4 1/2 mills for school purposes. Then there would be the whatever amount of the \$45,000 of back taxes came in to the good, as a surplus. Taking all things into account, \$90,000 would be sufficient to pay off all our floating debt, which was made up as follows:
Back bills payable.....\$67,000
County.....4,000
Overdue debentures.....19,000
Total.....\$90,000
The above statement of revenue and expenditure, he stated, showed a considerable reduction from the estimates, as originally submitted.

The Mayor thought they could calculate on receiving two-thirds of the back taxes, or \$30,000. Why not take part of that, add it to the revenue and lower the rate, and apply the balance to the sinking fund?

The Chairman agreed with the Mayor. Ald. Geon contended strongly against the Mayor's proposition, holding that they should as far as possible provide for all the requirements each year.

The discussion was continued at very great length. Ald. Dickson and Geon held that a rate of 18 mills without more current expenses.
Ald. Nile moved, seconded by the Mayor, that a sufficient sum of the taxes in arrears be applied to the current expenses of 1880, so that the rate of 18 mills on the dollar may be struck, including school taxes. This Committee would suggest to the Finance Committee that a By-law be submitted to the ratepayers to issue debentures to pay off the indebtedness of the city, amounting to about \$90,000, including \$19,000 over-due debentures.

Ald. St. Charles protested against the ratepayers being added this year with the accumulations caused by the recklessness of the Council of the past ten years.
Ald. Dickson moved to make the rate 19 mills.

Ald. Geon moved to make the rate two cents, as 18 mills is not enough to meet the current expenses of the year.

Both amendments were lost, and the original motion was carried.
Ald. Geon voted alone for his amendment. Ald. Dickson and Geon for Ald. Nile's amendment, and Ald. Nile, the Mayor and Ald. Jellett for the original motion.

The Special Committee then adjourned and the Finance Committee met. Ald. Petrie and St. Charles being present, in addition to the members of the sub-committee, the report of which was adopted. The reports of the other Committees were then adopted.

Ald. Dickson said he would move to reduce the amount asked when the report came up in Council.
A regular report of the Poor and Sanitary Committee, recommending the payment of accounts presented previously, was read and adopted.

A petition was read from Albert Stapely, stating that he had been incapacitated by a stroke, and asking that his taxes be remitted.

The Chairman—Shall the prayer of the petition be granted?
Ald. Dickson—Not without inquiry.
The matter was, on motion of Ald. Dickson, referred to the Poor and Sanitary Committee for report.

A petition was presented from George Boulter, asking remission of a part of the taxes on the old Commercial House, near the wharf, on the ground that many of his tenants had paid no rent.
Ald. Dickson moved to reject the petition.

Ald. Petrie moved to remit one-fourth of the taxes.
The original motion was passed. Ald. Petrie alone voting against it.

Reports were read from the Solicitor as to the Cemetery Company's account, \$134, approving of it as reduced by him, also as to an account from the estate of John Sutherland for clothing furnished to a pupil named Barnhart, who had been sent to the Institution for the Deaf and Dumb by the County, but whose parents had removed to town subsequently. The City had taken upon any action in the matter of sending pupils to the Institution, and he held that the Corporation was not liable.

Ald. Dickson moved that the charges for burial, but no for vaultage, be paid.
Ald. Petrie moved to pay the whole amount, as settled upon.
The Solicitor said there were only one or two instances where vaultage had been charged, and the amount was but \$4 or \$5. The original motion was carried.

The account of the Sutherland estate was entertained.
The report of the Printing Committee, as previously submitted to the Council, was adopted.

The report of the Finance Committee was passed.
The report of the past quarter was passed.

An account of Lake & Jenkins, \$29 25, for hire of carriage on the occasion of the visit of the Governor General and other services, was passed.
Some other accounts were passed, and the Committee adjourned.

Signals Condemned.

A storm signal to be erected at Bayfield. Gloucester is reported to be growing marvellously.

Kingston has fixed the assessment at 16 mills on the dollar.
The Hamilton Board of Education want \$47,000 for the year 1881.

During August 100,000 bushels of grain was shipped from New York.
Buyers are advancing 50 cents on barley (in Napau) meat of the grain is stored.

The small pox scourge amongst the Indians up the Ottawa still continues. The shipments of gold from England during the week ending Friday were \$200,000.

A fire in Mobile Alabama, on the 3rd destroyed \$35,000 worth of property.
We have had good-bye to summer, but summer still lingers in the lap of fall as it were.

A company has been formed at O Hilla for the manufacture of sugar from amber sugar cane.
A valuable roan mare was stolen from the stables of Newton Lake, Napawa, on the 4th inst.

The steamer Winland sailed from Havre yesterday for New York with 1,000,000 francs in specie.
A Company has been formed in New York with \$50,000, to construct a ship canal between Lake Ontario and the Gulf of Mexico.

The Louisiana State Lottery office in New York has been raided by the police and several clerks arrested.
Mr. Glavin entered the House of Commons on Saturday afternoon for the first time since his illness.

The 18th Lennox and Addington Battalion, having been reorganized, has been removed from the Active Militia.
The applications for admission to the Ottawa Model School have reached 300, the total number of scholars to be admitted.

The Canada Central railway expect to have their whole line laid with steel rails this fall. They received a large consignment on Thursday.

A beautiful young woman, the reported wife of a Belgian fifty years old, has been blackmailing several prominent individuals in Montreal.

Mr. John Gourley, of London, Ont., was one of the passengers on the Cuban steamer Fern, and was undoubtedly drowned. He left London on the 22nd of August.

On the night of the 4th Major Forthright of Ottawa, who is destined to the 4th to attend the Dominion Rifle Station, died suddenly from hemorrhage of the lungs.

Hasan left New York on Saturday for the City of Richmond of the Indian line. His boat the Canada did not arrive in time to go with him, and will be sent on by the next steamer.

One night last week some ruffians visited the farm of John Kincaid at Millbank, and cut the tongue of a valuable horse, cut the tail off his hind, and destroyed the fruit in his garden and orchard.

Colonge Calhoun was completed a fortnight ago, after having been in course of construction off and on for six hundred and thirty-two years. The corner-stone was laid in the year 1248.

Advices from the Scotch iron mining district say there is no probability of the masters and men coming to an agreement, and the strike is likely to continue. Only thirty-two firms are in blast.

A St. Petersburg dispatch states that a tank of kerosene exploded at Tauris, containing 1,000 tons of the fluid. The workmen entered the reservoir with a naked light. It is believed thirty persons perished.

There is great excitement at Prince Arthur's Landing over a new lot of silver at Pigeon River. The Silver Inlet Company and a company at Prince Arthur's Landing are striving who can locate it first. The results not known yet.

MORNING DESPATCHES.

EUROPEAN.

MADRID, SEPT. 6.—Further accounts of the Logrono catastrophe show that one captain, six lieutenants, and four ensigns of a regiment from Valencia, one lieutenant of engineers, and 98 privates perished. The battalion was crossing the river on a large raft constructed on pontoons. In the middle of the stream, which is deep and rapid, the raft began to leak, and the men got alarmed and capsize. Only half the battalion escaped. The scenes at night in recognizing the bodies were heart-rending. Next day, in the presence of an immense concourse, 110 bodies were laid in two graves. King Alfonso, the Queen and royal family, headed a subscription list with \$5,000.

AMERICAN.

NEW YORK, SEPT. 6.—Sigmund Schale, collector for Miles and Betz, brewers, was arraigned yesterday, on the charge of embezzling \$3,000.
Arrived, the Anchorage from Glasgow.

The Battle of the Argandab Valley.
DETAILS OF THE FIGHT—A COMPLETE ROUT—10,000 FIGHTERS TAKEN—AYOOF HAS CROSSED THE ARGANDAB WITH THE REMNANT OF HIS TROOPS.

LONDON, SEPT. 6.—The following additional particulars have been received from Candahar: The plans for the attack were carefully made, and the best reconnoissances which put General Roberts in possession of full information regarding the location and strength of Ayoof's camp. The attack was made with four brigades, who marched cheerfully over the difficult road, dragging their artillery, and never complained of fatigue. The troops were kept steadily pressing by the flanker General Hurrell, which took place near the spot which the prospective engagement was to be waged. The long march was but rapid march over three hundred miles, between Cabul and Candahar seemed to have made the men more anxious to fight, and the reputation of the British army in Afghanistan. On arriving in face of Ayoof's camp, the assault was made at once with vigor. His entrenchment and outworks were far formidable than had been anticipated, and the defenders were driven back by a heavy artillery and infantry fire. The Ayoofs retreated slowly for a time but their lack of discipline made them defeat a foregone conclusion at also a severe loss of his own and Ayoof's army led to flight, retreating by way of the ford across the Argandab river, leaving all his camp equipment behind him. The loss of the British was considerable.

A despatch from Quetta says that in his pursuit of Ayoof Khan, General Roberts has captured 10,000 prisoners. No further details of the battle yet received.

On the 4th inst a little boy named Sweeney had his arm torn from its socket while playing amongst some machinery at Ross's Point. The father went to rescue him and laid his leg severed about six inches above the ankle.

Lost.

LOST—In Belleville on Saturday, the 14th inst., a hunting case silver Watch, 14 cased, with chain attached. The finder will be rewarded by leaving it at this office. Sept. 6th, 1880. 1074H

Wants.

WANTED—An Indian's Carriage Factory, a Helper in the Blacksmith Shop, City.

FOR SALE OR TO LET.
LOST—The office lately occupied by H. R. Ritchie, who has returned from Europe. There is a vast variety of choice goods, and at the very lowest prices.

TO LET—The office lately occupied by H. R. Ritchie, who has returned from Europe. There is a vast variety of choice goods, and at the very lowest prices.

TO LET—The office lately occupied by H. R. Ritchie, who has returned from Europe. There is a vast variety of choice goods, and at the very lowest prices.

 The stages arrive in Belleville about noon each day.

Daily Intelligencer.

BELLEVILLE, MONDAY, SEPT. 6.

5 O'CLOCK EDITION.

City and Vicinity.

POLICE.—There was but one prisoner in the cells last night.

COUNCIL.—The City Council will hold a regular meeting to-night.

WEATHER PROBABILITIES.—The following are the Toronto probabilities—Moderate to fresh westerly to northwesterly winds, fine and cooler weather.

QUEEN'S BENCH.—Mr. Justice Armour will deliver judgment to-morrow at 10 a.m., in the following case:—The Grand Junction Railway v. Belleville.

VANDALEN.—Some vandals last night took down the sign at Mr. Eugene McMahon's law office on Campbell Street. The missing "shingle" was recovered by the police, and will soon be in place again.

CHANGE OF TIME.—Two slight changes have been made in the time table of the Prince Edward County Railway, which will be found particularized under the heading "Traveller's Directory."

PEACH FESTIVAL AND LAWYER PARTY.—Mr. and Mrs. Thos. Holden have very kindly consented to open their house and grounds for an entertainment to-morrow evening, proceeds to be applied for the benefit of Bridge St. Sunday School. An interesting programme is being provided and a very pleasant evening may be expected.

EXAGGERATED.—The *Piston Gazette* says: "W. C. Blood, of the Lake Shore House, Sandbach, desires to state that the rumor of financial difficulties was very greatly exaggerated by our contemporary, and that he will be on hand, as usual, to cater to the wants of the large number of guests that are constantly visiting this favorite pleasure resort. We are very much pleased to be able to make this announcement."

CRICKET.—The Kingston *Whig* attributes the defeat of the cricket club of that city in the match here to the bad state of the ground. This is a very poor excuse for the club as the ground is certainly as good for a club as for another, and what is as favorable to the latter as to the former. It would look better to credit the defeat to the superior fielding of the Belleville Club, combined with a degree of ill-luck on the part of the visitors, which was the true cause of the result which occurred.

RAILWAY NOTES.—The Peterborough *Review* of the 4th inst. says: "Mr. Hogg, of Hastings, who had the contract for grading the Grand Junction Railway track from a little below Downer's corner to town, a distance of about three miles, completed his job yesterday." The same paper publishes the following, dated at Hastings on the 2nd: "This morning for the first time the Grand Junction construction train, went across the new bridge with some seven or eight pairs of ties and iron, and the authorities expect to be in Peterborough by the 12th of October. A large number of the employees are leaving to-day. There are only two gangs of track layers at present on the road. A large quantity of rails are now lying at the station to be in readiness."

WINE IN IT.—The Montreal *Star* of Friday evening gives the following experience of an old man resident of this vicinity: "Who is he? One of the U. S. soldiers was approached by an elderly gentleman the night before last, and in the course of conversation, was informed that it was not safe for people from the country to come to town, as they were too soft. He, although he had brayed the 'last' and the 'breeze' for over thirty years, stated that he had never seen a day of confidence man, who approached him near the Customs House, and after asking the usual questions, discovered that he had come from a place not seven miles from the old gentleman's home. Need the story be further related? A creditor was met—a cheque for \$1,000 was all the change the confidence man had—the old gentleman's good nature was touched, and he handed the stranger the money required, after which a little excuse served to separate the pair, and the confidence man proceeded to his home, near Belleville, Ont., a sadder and wiser man."

CRICKET.—The Belleville Club have accepted an invitation to play a match at Montreal during exhibition week. It is possible that they may play in Prescott and Kingston on their way home.

DOMESTIC BARR.—The juggler of the Dominion Bank recently paid a visit to this city with a view of selecting a suitable place for the financial institution. A selection is reported to have been made, the place chosen being the store formerly occupied by I. D. Graham in the Robertson Block on the west side of Front Street.

THE FARMERS' SOCIETY.—The decision on the application on Saturday night for the benefit of the Oddfellows' band was well patronized. Next Saturday night's excursion will be under the auspices of the Mechanical Institute. About ten persons left here this morning on the excursion for New York.

\$6.00.—For six dollars and sixty cents you can get a good, sound, well-trimmed, and handsome suit, well lined and trimmed, at Hannay's, the cheapest Store in the city.

BERKELEY STREET CHURCH.—Rev. Mr. Jenkinson preached his farewell sermon in Berkeley Street Church last evening, taking as his text John xvii, 1st verse: "Father the hour is come, glorify thy Son that thy Son may glorify thee." The attendance was large and the discourse was an able and eloquent one. A public reception will be given Rev. O. A. Lambly upon his return to-porrow evening.

CREDIT TO WHOM CREDIT IS DUE.—The *Napaneer* says: "Last Saturday the INTELLIGENCER copied some of our Mil Point items in full without giving credit, and the *Daily News*, of Kingston, reprints the items, giving credit to the INTELLIGENCER. Be fair, be honest, gentlemen!"

THE BEARER IS CORRECT.—We did copy with our credit the item of the *Beaver*, but this was done for a purpose which has evidently been accomplished. Our *Napaneer* contains reports of other extracts from our columns, but without the usual credit, so that forbearance had ceased to be a virtue. A war of reprisals was the only way to bring to terms so unscrupulous an appropriator of other people's labor as the *Beaver*, who, despite his appeal above, to others to be honest, shows how he regards honesty by publishing in the same issue in which it appears, our market report without credit, and now that his own weapons have hurt him he exclaims, 'The INTELLIGENCER deals honestly with all its contemporaries, but they must treat us with the same consideration, otherwise they will be paid off in their own coin, as the *Beaver* has been.'

FOUR COURT.

(Before Thos. Holden, J. P. M.)

MONDAY, SEPT. 6.

William Arthur was allowed to go with a caution.

Trenton Items.

The Department of Marine and Fisheries are advertising for tenders up to Sept. 27th to furnish boats for Trenton harbor, also for taking care of them during the winter and placing them again in the spring.

The contractor for the pier of the new swing bridge has a failure in the coffer dam he placed down. The steam pump reduced the water only three feet. There seems to be a sea in the rock in the centre of the dam which lets in the water.

Marine.

The *scow Glasgow* sunk in the Reach on Saturday night. She is loaded with brick.

The *Alexandra* brought a very heavy freight on Saturday night.

The *sch. Florence* has arrived from Oswego and is loading lumber at Sutherland's mill.

The schooner *Avalanche*, from Oswego, arrived last evening. She is passing up the channel and when but a short distance from the dock the vessel ran on a saw cut and there her progress was temporarily stopped. A line was made fast to the dock and with willing hands to work the windlass she soon reached the dock. She will load with sails for Oswego.

The *sch. Parthenon*, and *John Eagles* have arrived from Fair Haven with coal for Rathbun & Son.

COMMERCIAL NOTES.

THE HOP MARKET.—The Montreal *Star* says Samples of new hops have been received here from the Eastern Townships, but no sales have transpired as yet. Old crop is selling sparingly at 20c to 25c. The samples referred to are of splendid quality and the crop generally is said to be good. As to quantity, there is no definite information, but it will be fully equal to that of last year.

CATTLE.—New York cattle dealers are said to have received word that the large regulating entry of cattle into England are to be considerably modified in a few weeks.

Lumber Notes.

Messrs Irving & Boyd of Peterborough have sold a raft in Quebec at 35c for the white and 25c for the red pine in it. The following is the rate of wages this season offered at Ottawa:—Sawing men, \$15 per month; square timber men, \$24 a month; liners, \$25 to \$30; scorers, \$15 to \$22; hewers, \$35 to 45 cobs, \$24 to \$28.

NEW LIME OR STEAMERS.—It is reported upon excellent authority that the French Government has just decided to grant the subsidy of one hundred thousand dollars to the Franco-Canadian line of steamers between the ports of Montreal and Havre.

CANADA'S LIVERPOOL AGENT.—Mr. John Dyke, the Liverpool employment agent for the Dominion at Liverpool, having obtained leave of absence from the Government, is now on his way to his country, which he visits with a view to recuperating his health, which we regret to learn has been indifferent for some time. Mr. Dyke while here purposes extending his acquaintance with the country, with a view to increasing the efficiency of the Liverpool work which he has engaged in, and we trust that he will enjoy his well merited vacation.

AGRICULTURAL FAIRS.

WEST HASTINGS AGRICULTURAL SOCIETY AND BELLEVILLE AGRICULTURAL SOCIETY, at Belleville on Tuesday and Wednesday, October 5th and 6th.

NORTH HASTINGS, at Garner's, Huntingdon, Thursday, October 7th.

TYNDEN TOWNSHIP, at Shannonville, Saturday, October 9.

EAST HASTINGS, at Thrasher's Corner, Wednesday, October 13.

ANANDASAWA TOWNSHIP, Saturday Oct 9th.

SOVERAIGNS, at Danversville on Saturday, Oct. 16.

HILLIER, at Pleasant Valley, Saturday, Oct. 16.

LEWIS, at Napanee, October 5th and 6th.

ADDINGTON COUNTY, at Newburg, Saturday, October 16.

UNIONVILLE, at Hamilton, Sept. 20th to October 2nd.

WESTERN, at London, October 14th to 18th.

INDUSTRIAL, Toronto, Sept. 10th to 13th.

MIDLAND CENTRAL, at Kingston, October 5, 6, 7 and 8.

SCOTIA VICTORIA, at Lindsay, October 1 and 2.

MONTREAL, at Port Hope, Oct. 5, 6 and 7.

DOMINION, at Montreal, Sept. 14 to Sept. 24.

NEW YORK STATE, at Albany, Sept. 13, 14, 15, 16 and 17.

EAST PETERBOROUGH, at Norwood, Oct. 12th and 13th.

WEST PETERBOROUGH, at Peterborough, Oct. 14th and 15th.

AN ESTIMATE OF EUROPEAN CROPS.—French agricultural authorities estimate that the French harvest will be 30 per cent above the average, those of Roumania, and upper and lower Bavaria 25 per cent, South Italy and Wurtemberg 15 per cent, Bessarabia 10 per cent, and Hungary, Poland, and Belgium 5 per cent above the average. The harvest of Prussia, the Palatinate, Baden, Switzerland, Denmark, Sweden, Norway, Central Italy, Holland, South Russia, Serbia, and Egypt will be up to the average, and those of Austria and Mecklenburg 5 per cent below. Those of Great Britain, Ireland, and Saxony will be 10 per cent, Courland 20 per cent, Gotha 25 per cent, and Central Russia 40 per cent below the average.

THE IMPERIAL PARLIAMENT.—The Imperial Parliament has presented some lively scenes in the last few days, as much so that the *Times* fall with joy the expected prorogation to-morrow. On Thursday night Mr. Foster, Sir Wm. Harcourt, and John Bright, used some indignant language towards the Lords on account of their rejection of the Irish Home Rule Bill. Mr. Chamberlain, who is a member of the House—thereby, was carried away by his feelings, and used some unparliamentary language, and was suspended. The House and the Lords, as agreed to in the Commons, passed the Lords on Saturday, and the Appropriation Bill will be passed to-day.

A FRENCH DELEGATE.—On the 4th inst. Monsieur de la Londe, Mayor of Lougouev, France, arrived in Montreal, en New York, to make a tour of the Dominion, and to report subsequently as to the prospects of the Dominion, commercially and from an agricultural point of view, so that he may give his compatriots a chance of learning to what extent the investment of French capital in this country may be safe and profitable.

MONTREAL'S GRAIN TRADE.—The total receipts of wheat, corn, peas, and barley at Montreal from the first of January to the 1st of September were 13,245,570 bushels, an increase over the corresponding period last year of 2,733,749 bushels. Flour, 40,114 bbls. Meal, increase 17,433 bbls.

A FOOT ONCE MORE.—"For ten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or cure her, and I used up a small fortune in humbug stuff. Six months ago I saw a U. S. flag with Hop Bitters on it, and I thought I would be fool once more. I tried it, but my folly proved to be wisdom. Two bottles cured her, she is now as well and strong as any man's wife, and it cost me only two dollars. Such folly pays.—H. W. Detroit, Mich."

DIVORCE.—The Canada *Gazette* of Saturday contains the following notice:—"Notice is given that an application will be made to Parliament next session on behalf of Matthew Gardner, of the Township of Sydney, in the County of Grey, farmer, for a Bill of Divorce from Elizabeth Ann Gardner, his wife, on ground of adultery."

AFTERNOON DISPATCHES.

CALCUTTA, Sept. 6.—The Bombay Government is ready to undertake a relief measure necessary. Unless copious rains occur in the next few days there will be apprehension of a scarcity if not a famine over an area almost as extensive as that of 1876. There was, however, some rain on Saturday.

CALCUTTA, Sept. 6.—One hundred and forty houses were burned in the town of Serinagar, Cashmere. There was some loss of life and a number of persons injured.

LOVING, Sept. 6.—A St. Petersburg correspondent says the railway from that city to Simferopol was watched night and day by 9,000 peasants and 40,000 troops during the Emperor's recent journey to Livadia.

SINCE, Sept. 6.—There has been heavy rain here and in the Northwest, relieving anxiety about crops. More rain is wanted in the Pacific.

"TALKERS," the new work wonder for whitening the teeth, delightfully refreshing to the mouth. To try is to become a friend to kind, irresistible, popular Dentifrice of the day.

MAN'S NOBLEST WORK.—This is an age of great works and wonderful inventions. Steam, electricity, water, air, are made to serve man, but unquestionably the greatest invention of the day is the man himself. He is the noblest work of God, and his duty is to serve man, to be a blessing to his fellow men, and to be a credit to his Creator. He is the noblest work of God, and his duty is to serve man, to be a blessing to his fellow men, and to be a credit to his Creator.

BUCKINGHAM'S REMEDY FOR THE RHEUMATISM.—The RHEUMATISM is the worst of all diseases, and it is the duty of every man to be prepared to meet it. Buckingham's Remedy is the only one that will cure it, and it is the duty of every man to be prepared to meet it.

BELLEVILLE, TUESDAY, SEPT. 7.

Valuation for Duty

This question has agitated the City since very much of late, but that it has been shown that the Mackenzie Government passed, or at all events re-enacted the law in question; that they declared in Parliament that it should be enforced; that they issued several circulars instructing customs officers to carry out the law, and that they really did not do so, our Opposition contemporaries, finding that they had got themselves in a tight place, have abandoned the discussion. The reports of the discussions in Parliament on the subject will complete their discomfiture. In the discussion which took place in 1877, the report informs us:

"Sir John Macdonald asked if there was any regulation or act providing that a merchant exporting goods which he had purchased for cash, for example in New York, a certain sum additional could be added to the cash price in estimating the value of the goods for duty."

"The present Government, it will thus be seen, have been abusing for doing exactly what Mr. Macdonald's Minister of Customs said was their duty under the circumstances. The matter came up again in 1878, when the following discussion took place:

"Mr. Jones (London) thought a more efficient system of appraising goods for duty, than the one which was in vogue, was that of the United States, where the value of goods was ascertained by the price they were sold for in the market of the country where they were sold."

"Mr. Plumb said he believed the manufacturers of the United States were in the habit of duplicating invoices, in order to pay their goods into the country at less than their value."

"Mr. Burpee (Minister of Customs) said this subject had received great attention from Government during the past two years, and they now issued the duty on the value of the goods at the place they were purchased. They paid great attention to the matter in the large ports of Montreal and Toronto, and in the smaller ports, as far as they were able, but of course they could not afford to do so in all the smaller ports."

What a mass of it the Globe and its echoes have made in condemning in their opponents, what they approved in their friends!

Grand Junction Railway.

The *Peterborough Times* gives the following advice to the County Council of the County of Peterborough:—"The Court of Queen's Bench at Toronto have decided that the County of Peterborough is entitled to pay over to the Grand Junction Railway, or rather into the hands of Trustees for the purpose for which the bonus was granted, the \$75,000 of debentures, which have been in dispute between the County and the Company. We observe that it is stated that the case will be appealed to a higher court, but we hope the better counsels will prevail. Circumstances have considerably altered since the opposition to the payment of the bonus was first mooted, and the Company has given the best possible evidence of their good faith, by pushing the road on to completion, bonus or no bonus, so that it will probably be in operation and available for the carriage of grain this fall, a circumstance which will materially affect the grain market in favor of the farmer. Continued litigation will only involve the County in additional legal expenses and would be throwing good money after bad, and besides we believe most people will now admit the Railway Company have honestly fulfilled their part of the contract and are entitled to favorable consideration."

News Condensed.

—Hon. Mr. Mowat has returned from Europe.

—A distressing drought prevails in the State of Vermont.

—The Bank of Commerce are to erect a fine building in Toronto next year.

—"In the cool September morn" is both poetry and fact just now.

—Several valuable horses have been stolen in the Township of Watford, Ont.

—The Pacific Railway Commissioners arrived at Winnipeg on Saturday night.

—On the 4th inst. Alice Savage while bathing at Back River, near Montreal, was drowned.

—Dr. Cassini, of Toronto, has been elected President of the Canada Medical Association for 1880-1.

—On the 6th inst. the knitting factory of Mr. Simpson, Toronto, was partly destroyed by fire.

—In a few more days the juicy, jolly cider will start on its mission of making everybody happy.

—The Toronto police have just been supplied with white summer helmets. Better late than never.

—The leaders of May Pinks' blonde have been arrested in London for giving an immoral show and fine \$50.00.

—Tommy Kitz, sentenced to the Reformatory for four years, escaped from the bailiff at Toronto, on the 9th inst.

—Peaches said in Toronto Monday at from 15c to 50c per basket, the latter price being the highest paid for choice fruit.

—The managers of the Great Western Railway have determined to increase their workshops at Hamilton by adding thereto a foundry in which to cast their carriage wheels, and other work used on the road.

—Another attempt has been made to blow up the Emperor of Russia on his journey to Livadia. Two mines of dynamite were discovered at different points on the route of his journey.

—A boat belonging to Prince Galitzin, founder on the 3rd inst. off the coast of Finisterre, Viscount Fleury, Mr. Hennessy, an American lady, and two natives of England were drowned.

—On the 6th inst. at Niagara while Mr. Nash was sitting on the bank of the river, the youngest brother was travelling a rowing, which accidentally went off. The hull broke in the back of Benjamin Nash's neck. He is in a very precarious condition.

Child's Play.

There is something very childish in the action of the Council in connection with the railway siding near the ferry slip. A few days ago the Council deliberated upon a resolution granting permission to lay down this siding under the supervision of the Street Surveyor. The work was done, the Street Surveyor overlooking it, and it is presumed was to his satisfaction. Last night the Council as deliberately undid the action of the previous meeting and ordered the track to be taken up. It was stated by some of the members that the work did not meet the satisfaction of the Street Surveyor, but in the absence of any report from him to the contrary, we must assume that it met his approval, for we do not suppose he would have committed such a dereliction of duty as to have permitted the work to have gone on and been completed unless it had been properly done.

There is no doubt that those having occasion to cross the tracks there find them objectionable, but if the roadway were properly graded on either side, notwithstanding the curve, the road might be made as good as any part of Front Street, which is bisected throughout by the Street Railway. Petitions were presented to the Council, complaining of the siding, for it was exceedingly difficult to cross. But in view of the fact that the siding was granted by the Council to lay down this siding, which involved the expenditure of several hundred dollars, the Council should at least have referred the matter to the Public Works Committee before reversing their action. It is unjust to the parties interested, and presents the Council in a most unbecoming light.

"The Bright Future."

Below we give an article from the *Montreal Witness* of last evening. Without touching for the truth of its statements, there is no doubt that the main features of the article are correct, and that the mission of Sir John Macdonald has been, instead of the Globe would have had it, "a failure complete, disastrous, crushing," a complete financial success, and in view of what has been accomplished, we may well anticipate a "bright future" for the Dominion.

THE BRIGHT FUTURE.

IN FINANCIAL CIRCLES—SIR JOHN MACDONALD'S MISSION TO THE UNITED STATES—FINANCIAL CAPITAL—THE STOCK MARKET.

The absence of any satisfactory news from England last week with regard to the mission of Sir John Macdonald, caused a flutter of anxiety among "outer circles" where the delay was naturally constructed into a "failure." The "inner circles," however, who were within the inner precincts and understood the "true inwardness" of the mission, smiled and looked handsomely innocent when questioned upon the matter. Sir John Macdonald, as has been in the predicament of the assembly, how happy he would be to get away from the "outer circles" and the "inner circles," the fact of it being that no less than three powerful syndicates have been actually organized for the purpose of spending a humble million or more in unloading the wilds of the North-West.

One of these syndicates, it is understood, is represented by Lord Dunsare (who was in the case), and Brown & Paley, (the English bankers), and a host of others; the second by Sir Paul & Minneapolis, Railway people (Messrs. Geo. Stephen & Co., and J. D. Smith & Co.) with heavy American backers, and the third by Earl Dunsare, Thos. Brassey & Co., and while a powerful French syndicate.

HOVERS AROUND THE OUTER BORDER, ready to join which ever one of the three is successful in getting the contract. Sir John, it is hardly necessary to say, has turned this competition to make a satisfactory arrangement, as by slightly increasing the money bonus he has been enabled to retain in the hands of the Government, the large share of the land, thus giving the Government an opportunity to share in the profits of the increase in the value of land as the road is built, in addition to the profits of the syndicates. It is understood here that the negotiations were

VIRTUALLY COMPLETED A WEEK AGO, and that the time since has been spent in harmonizing the conflicting interests and in bringing the three powerful syndicates into a harmonious whole. Sir John evidently having a lively recollection of the intestine rivalry between the syndicates, he has been instrumental in destroying his scheme of 1875. It was whispered to-day that Sir John had succeeded in uniting the various syndicates, and that he would announce, prior to his sailing on the inst. for the formation of one of

THE WEALTHIEST, MOST ENTERPRISE AND STRONGEST SYNDICATE, that has ever undertaken a gigantic work in any part of the world—a syndicate, the combined private wealth of whose members alone would warrant the personal undertaking of the construction of the road and the expenditure of a hundred million or more, and that the syndicate would be formed by the joint interest of the construction of the railway and the opening of the natural resource of the country to be sure to offer.

STOCK MARKET REFLECTED THIS INFORMATION, this morning in showing a substantial advance on everything. A very buoyant feeling pervaded the street, while the money market was investing in this country is creating great interest.

MORNING DESPATCHES.

EUROPEAN.

CANADIAN, Sept. 7.—Cabal despatches report the village fall of the enemy's dead and wounded. The Calabrois regiments dispersed. The Kiribos cavalry are seeking to come to terms. Gen. Phayre will be at the stage of Candahar, and will halt for the present.

PARIS, Sept. 10.—The recent mysterious death of Mr. W. seems now to be explained. It is stated that Lieut. Jung, at the express request of Gambetta, took the missing papers and the Kiribos cavalry, who remained two days. Gambetta's conduct in the affair calls for explanation.

St. Louis, Sept. 7.—De Wooten, of Golo, will not come off after all. The affair will be fought in the courts.

CITY COUNCIL.

The Estimates at Last Discussed.

THE LONGEST SESSION ON RECORD.

MONDAY, SEPT. 6.

The Council met at 8 o'clock.

PRESENT:—The Mayor, and Aldermen Jas. Smith, Jelliff, Dickson, Holden, Geo. Van Dusen, Ostrom, Frost, Costello, Robertson, Carley, A. L. Smith, Noel, Hamblin, Wallbridge, Petrie, McIninch, Lingham and St. Charles.

The minutes of the last meeting were read and approved.

REPORTS.

The following were presented and read.

From 134 residents of Prince Edward for the removal of the switch at Downey & Preston's elevator, which they allege to be an impediment to traffic.

From 120 merchants of the city to the same effect.

From James Gordon, re taxes on the Masonic Hall.

From Percy Daulton, regarding taxation.

From Wm. Tillston, regarding taxation.

Some accounts were presented, and the petitions regarding the railway siding were allowed to lie on the table.

REPORTS.

In presenting the report of the Finance Committee, Ald. Jelliff said he wished the estimates to be discussed and the rate decided to-night, as time is passing fast and the rolls ought to be made out as soon as possible. He hoped when the report came up for discussion members would speak as briefly as possible, so that the matter might be settled to-night.

The reports of the Harbor and City Property, Poor and Sanitary, Water and Gas and Finance Committees, all of which have been anticipated by the reports already published, were presented.

INQUIRIES.

Ald. Ostrom inquired how any action been taken by the Finance Committee with reference to the statement of assets.

Ald. Jelliff said the time of the Committee had been taken up by the estimates.

Ald. J. A. Smith asked concerning a waste of gas at No. 2 engine house, as Capt. Cummins told him that there is but little gas used, although the bill is heavy.

Ald. Hamblin said he would inquire of Mr. Robertson, manager of the gas works.

Ald. Robertson stated, in reply to Ald. Jelliff, that he had applied to the Department of Marine and Fisheries for an appropriation for the rebuilding of the lighthouse.

He believed that a satisfactory arrangement would be made with the Government.

Ald. Jelliff asked where the clerk got the figures as to lighting account and water supply for 1879, which he claimed were incorrect, there being shown a surplus of \$300, instead of a deficit of \$1,100.

The clerk said he got his figures from the Auditor's report. The difference was made up by the clerk's own calculations.

Mr. Bentley, Auditor, said if the unpaid accounts of 1878 had been deducted, the figures would be found to be correct.

Ald. Frost asked was it correct that work on the streets had ceased?

Ald. Lingham said no new work was to be done on until the estimates were passed.

Ald. A. L. Smith asked had the Grand Truck \$50,000 of the accounts which had been granted them, and if they had been granted them, and if there was any prospect of their doing so.

The Solicitor, at the request of the Mayor, replied and said the contract had not been carried out. The matter had been brought before the Council at different times, and it had not been deemed expedient to pass it.

Ald. Ostrom asked why certain market rents had not been collected, and whose duty it was to collect them?

The Solicitor said they had to get possession of the stalls to alter them. He had got judgments against some of the delinquents but could collect nothing from them and did not press the others, as it was useless.

NOTICES.

Ald. Jelliff gave notice of By-laws for municipal, school and separate school taxes, and for the appointment of Collector or Collectors.

Ald. Dickson gave notice of By-law to fix the number of policemen and their salaries.

Ald. Niles gave notice of a By-law to amend the Cow By-law and the By-law under which the Inspector acts.

Ald. Robertson gave notice of motion for the opening of Ann, Alexander and Foris Streets.

BY-LAWS.

Ald. Jelliff introduced the tax By-laws and Ald. Dickson introduced his regarding the police.—Read a first time.

NOTICES.

Ald. Ostrom moved for a return of the street work done in each ward so far this year, and of the expenditure in each Ward up to the present.—Carried.

Ald. Dickson's motion regarding local taxation, and that of Ald. Brennan regarding water for Foster Ward, were allowed to lie over.

WAYS AND MEANS.

Council went into Committee on Ways and Means. Ald. Green in the chair.

The report of the Finance Committee was first taken up.

On the clause regarding the Police, Ald. Robertson said he thought they could not now interfere with the police, as the Commissioners had already made their requisition.

Ald. Dickson said his By-law could only come into force when existing contracts expire.

Ald. Robertson argued at length against the clause, as the force was highly efficient, and the saving proposed was so small that it might be lost to the City by slight inattention in the case of fire.

Ald. Holden said if no reduction can be made until the close of the year, the newly proposed estimates must be wrong. They would not be exactly how they stand, and what rate is required to meet the estimates are passed. The deficit of last year was not provided for. He would move that the estimates be referred back to the Finance Committee for reconsideration and the preparation of a proper statement.

Ald. Jelliff said the passage of the clause to police could not affect the estimates this year.

Ald. Dickson thought the engagement of the men was quarterly, at all events the By-law would come into effect as soon as possible.

The reduction to be effected was \$800. The force was thoroughly efficient, but they had to take the bad state of our finances into consideration. Peterborough, which has at least as

had an element as quiet here, is governed by a twoplaceman, whilst in Bradford there are 100 men in the Kingston pay of the men will not meet the current expenses of the City. The expenditure had been exceeding the revenue, and retrenchment was absolutely necessary, the increase of expenditure in every department having been out of all proportion to the increase in wealth of the city. He continued to argue that the pay of the policemen was fully as good as, if not better than, most of the mechanics receive.

Ald. Jelliff again argued that this matter should not be put off until next year, and did not affect the expenditure this year, and might be taken up as well at any other time. He wanted to see estimates showing all the expenditure and a rate struck to cover this year's expenditure.

Ald. Jelliff said he presented the report as that of the Committee, but he disclaimed from it, and was prepared to move that the force be paid, from Jan. 1st, as follows: "Chief \$800; first Sergeant \$475; second Sergeant \$450; and three men \$425 each. This would make a greater saving than was proposed by Ald. Dickson's By-law.

Ald. Dickson—Make your sergeants alike, and I'll support you.

Ald. Jelliff warmly urged that both sergeants be paid alike, and said that Sergt. McCruden, who had served the City for twelve years, was entitled to equal remuneration with Sergt. Snider.

Ald. Ostrom thought it dangerous to interfere with the police force, and considered it the latter to reduce the sum to be expended by the Commissioners, and let them deal with the force as they please.

Ald. Dickson explained that the Council had nothing to do with the personnel of the force.

Ald. Petrie said the expense of the Police force had been increased by forty per cent. within a few years, and they now had less duty to perform than formerly. Sergt. McCruden should not stand second to Sergt. Snider, with his vote.

Ald. Robertson protested against personal allusions, as the Council did not appoint the men.

Ald. Petrie contended that he did not think it fair that the Sergeants should get so much less than the Chief, and he wished to say so that he could for the taxpayers.

Ald. Jelliff altered his motion so as to make the Sergeants \$475 each, which would effect a saving of \$1,150.

Ald. Dickson did not see why the reduction should not go into effect as soon as existing contracts permit, as we could do so well with two men less after the 1st of October as after the 1st of January. The minimum number of men was proposed by Ald. Jelliff, so that there was no provision for supplying a vacancy in the case of sickness.

Ald. Jelliff said they wished to give a little more to the force.

Ald. Frost was personally opposed to reducing the number of the force or the pay of the men, but the people wished it, and he would vote to carry out their views.

Ald. St. Charles moved to fix the force as follows: Chief \$500; two Sergeants \$450 each, and 4 men at \$425 each.

Ald. Hamblin thought we could do with two men less. Watertown had been a very noisy place when it had twelve men, but they cut the force down to two men, and all became quiet.

Ald. St. Charles' motion was lost and that of Ald. Jelliff carried.

The next clause, for the reduction of the Clerk's salary, was discussed.

Ald. Robertson contended that they could not legally pass this resolution, as the salary is an annual one fixed by By-law.

Ald. Dickson—If we have not power it will fall to the ground.

The Solicitor was asked to decide the point of law, but he wished to consider it.

Ald. Bates moved to reduce the Clerk's salary by striking out the \$200 paid him as Clerk of the Police Court.

Ald. Jelliff said this was out of order, as the salary is fixed by By-law. It would be necessary to move in the matter by By-law. The motion was withdrawn as being out of order.

The Solicitor examined the statute and said there was no provision for a Clerk to the Commissioners, but he thought the Council would be better to pay any reasonable fee to the Solicitor. He should like time to look into the matter.

Ald. Jelliff moved to lay the matter over for report from the Solicitor.

Ald. Dickson said he saw no authority for the Commissioners to pay a clerk, but it was the intention of the Council to pay the Clerk \$1,000 a year for his services as Clerk, so if the Commissioners had power to pay him \$100 a year, the Council could reduce his salary as Clerk correspondingly.

Ald. Jelliff said no object in going on now, as the reduction could not take effect until January next.

Ald. Dickson held that the Commissioners had exceeded their powers by paying a salary to the Clerk.

Ald. Robertson moved to fix the salary at \$1,000 for all services rendered to the City. This was lost after discussion and Ald. Jelliff's amendment was carried.

On the clause proposing a reduction of \$100 in the Harbor Master's salary.

Ald. Robertson objected that the matter could be dealt with by By-law.

The Mayor ruled that the report could be passed, but the clause would be of no effect.

Ald. Robertson opposed the clause, considering that the pay was not too great for the work performed.

Ald. Holden considered that the matter should have been referred to the Harbor Committee, and besides the proposed reduction could not benefit the City, as the harbor funds had to be applied to the harbor.

Ald. Jelliff moved to fix the salary at \$400, and providing that the matter be dealt with by By-law.

Ald. Ostrom would support a reduction to \$300, as men conversant with vessels would take the position at that.

Ald. Dickson wished the Council to affirm the principle of reducing the salaries, which they could do now as well as at any other time.

Ald. Robertson again spoke against the reduction of salaries.

Ald. Van Dusen considered that they should agree to the reduction of salaries, and then legislate by By-law on the subject.

Ald. Dickson would vote against the amendment, as it simply amplified what the clause proposed.

Ald. Ostrom moved to fix the salary at \$300.—Lost.

Ald. Jelliff's amendment was also lost, and the clause was carried.

The next clause was that fixing the rate at 18 mills for municipal and school purposes.

Ald. Geis, who was called away, in leaving the chair, spoke in opposition to the rate of 18 mills as being in his opinion too low, it will not meet the current expenses of the City.

Ald. Van Dusen was called to the chair.

Ald. Jelliff explained, as previously, that the debt, including floating debt, is \$410,000, a large proportion of which bears 7 per cent. interest, and our annual interest account is \$25,000. The rate of 18 mills will not cover the expenses of the year—it would take about 20 mills—barring the hard times and the large amount of the floating debt.

Ald. Jelliff said he had a surplus made up of last year's, which anticipated the receipt of \$30,000 within the next few months, he would apply part of that to pay current expenses and to supply the balance to the sinking fund. He would take 22½ mills to meet all expenditure, including the deficit of last year and extraordinary expenses of this year. A sinking fund of \$1,500 per year had been levied for and used in current expenses, so he had struck it out, but proposed to be paid, and said that Sergt. McCruden, who had served the City for twelve years, was entitled to equal remuneration with Sergt. Snider.

Ald. Ostrom thought it dangerous to interfere with the police force, and considered it the latter to reduce the sum to be expended by the Commissioners, and let them deal with the force as they please.

Ald. Dickson explained that the Council had nothing to do with the personnel of the force.

Ald. Petrie said the expense of the Police force had been increased by forty per cent. within a few years, and they now had less duty to perform than formerly. Sergt. McCruden should not stand second to Sergt. Snider, with his vote.

Ald. Robertson protested against personal allusions, as the Council did not appoint the men.

Ald. Petrie contended that he did not think it fair that the Sergeants should get so much less than the Chief, and he wished to say so that he could for the taxpayers.

Ald. Jelliff altered his motion so as to make the Sergeants \$475 each, which would effect a saving of \$1,150.

Daily Intelligencer.

BELLEVILLE, TUESDAY, SEPT. 7.

5 O'CLOCK EDITION.

City and Vicinity.

POLICE.—There were no inmates of the cells last night.

DULL.—The harbor was very dull to-day, neither an arrival nor a departure having occurred up to noon.

FALL RECAP.—Yachtmen are reminded of the meeting at Hamilton for the purpose of arranging for the fall regatta.

O'BRIEN'S BRIDGE.—The County Surveyor issues a timely caution to teamsters and drivers who have occasion to cross O'Brien's Bridge. See advertisement.

WEATHER PROBABILITIES.—The following are the Toronto probabilities:—Moderate to fresh northerly to northeasterly winds, fine cool weather.

LONGEST ON RECORD.—The sitting of the City Council which terminated at 2:15 this morning was the longest which that body has ever held, it having endured 64 hours.

BRANTON'S MONTHLY.—The August issue of this publication contains an excellent account of the last races of the season, besides much other sporting matter of interest.

THE CANADIAN MONTHLY for September has a choice list of contents, some of the papers being contributions from some of the cleverest writers in the Dominion. Published by the Rose-Belford Co. Toronto, at \$3 a year.

ANTHROPOLOGY HALL.—Mr. Mark Mundy, having purchased the drug business formerly carried on by the late James H. Hamby, makes announcement of his intentions in our advertising columns, which see for particulars.

STILL ON HAND.—Those bees still practicing the fruit, confectionery and groceries on Front Street, and in fact extend their flight to the wharves, where sugar hog-heads are to be found. Under present circumstances they are nothing short of a nuisance.

PERSONAL.—Mr. T. E. P. Trow, formerly manager of the Merchants Bank here, and now manager of the same Bank at Ingersoll, is in the City, the guest of Mr. N. B. Falkner. We need hardly say he received a hearty greeting from his numerous friends.

BURNS AND HIS MUSE.—Mr. J. T. Watson, the celebrated orator and humorist, is to deliver a lecture—said to be the best in his repertoire—in the City Hall on Friday night. Mr. Watson is spoken of in terms of warm praise by the press generally, and we believe his reputation to be well deserved. His lecture ought to attract a large audience.

STRIKE.—A cable despatch says:—"The Lancashire weavers have determined to attack the employers in detail. The men in a district not yet named are to be supported in idleness by the neighboring districts until the masters concede an advance. The latter are likely to meet this movement by a general lockout. The weavers are also furthering the emigration scheme."

BURGLARIES AND VANDALISM.—Several burglaries were committed on the front of Thurlow on Sunday night. The house of Mr. Robert Garbutt and Mr. Edward Carscallen were entered and \$20 stolen from the former and \$10 from the latter, whilst unsuccessful attempts were made to enter other houses in the same neighborhood. At the Fowler farm a contemptible outrage was committed, a cow being mutilated by cutting off one of its tails. It is to be hoped that the offenders will be caught.

THE ESTIMATES.—At last the civic estimates have been passed, after a long time spent in their preparation and consideration. Now it is incumbent on the ratepayers to see to it that the appropriations are not exceeded. That for streets and sidewalks has been nearly all spent, and as there has been a strong disposition on the part of some of the Aldermen to increase the future action of the Public Works Committee and the Council on the subject should be closely scrutinized.

\$6.00.—For six dollars and sixty cents you can get a good, useful Scotch Tweed suit, well lined and trimmed, at Hennessy's, the cheapest Store in the city.

Trenton Notes.

TRENTON, Sept. 6th, 1880.
About half-past 3 o'clock p. m. on the 6th inst., the Depot House, owned and occupied by John Turner, was totally destroyed by fire. It was situated near the limits of the town. In the north before the fire brigade reached the spot. The house was destroyed before they arrived, but they did good service in preventing the fire from spreading. Nearly all the furniture was saved. Loss about \$25,000. Insured in the Standard Ins. Co. for \$14,000. Cause of the fire supposed to be from the kitchen chimney. A high wind prevailed at the time, and by great efforts the sheds attached to the hotel were saved.

On Sunday, Oct. 10th, the Lord Bishop of Ontario will hold a confirmation at St. George's Church here.

G. H. Gordon, Esq. is hiring quite a number of men for his shanty in Michigan, case or money refunded. Price 25 cents per box. For sale by Jas. Clarke & Co. 95-ly

Buckley's Arctic Salve. The BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chilblains, Corns, and all kinds of Skin Eruptions. This salve is guaranteed to give perfect relief in every case or money refunded. Price 25 cents per box. For sale by Jas. Clarke & Co. 95-ly

Police Court.

(Before Thos. Halden, Esq., P. M.)

TUESDAY, SEPT. 7.

LARCENY.
Henry Hawkins was convicted of stealing a piece of print from Thos. MacDonald, but was not sentenced.

RAPE.
Henry Hawkins and Frank Braden were charged with committing a rape upon the person of Harriet McDonald. They were remanded till to-morrow for trial.

Matthew Veir charged his wife with assaulting him. The case was dismissed.

Harbor and City Property Committee.

A meeting of the Harbor and City property committee was held last night.

Present.—Ald. Robertson, chairman; Jollett, Ostrom, Holden, Hamby, Absent Ald. Molninch and Brennan.

An account of the estate of the late James Hamby, amounting to \$19.74 was ordered to be paid.

The committee ratified the transfer of a lot from J. B. Dewry to J. D. Macaulay, as petitioned for.

SPORTING NOTES.
A splendid match at lacrosse was played in Toronto on Saturday, between the Toronto and the Shamrocks of Montreal. The latter won the first game in 8 minutes, the third in a little less than a minute, and the fourth in 1 hour and 23 minutes. The Toronto took the second game in 10 minutes. Rain fell heavily for upwards of an hour.

The cricket match between the Toronto and Hamilton Clubs at Toronto on Saturday was interrupted by rain and resulted in a draw. Toronto finished an innings for 93, and Hamilton had made 24 for three wickets when time was called.

The Hamilton Spectator and Times types beat those of the Globe and Mail at base ball at Toronto on Saturday by 22 to 11. The Kingston News says:—"As we anticipated, the first prize of \$60 at the Clayton regatta was carried off on Friday by the Emma, of this city. A great many yachts entered the race, among which were the Peerless, of Gananoque, Victorine, Beattie, Comet, Troubler, Letter B. and others. In starting, the Emma was the third boat to get off, being two minutes behind the Peerless; but a heavy squall, such as struck the Ella and Katie Gray in their race here last year, put the sailing qualities of the different crews to the test and the Emma, riding in fine style, walked right to the front, leaving all her competitors in confusion astern. The lead thus got was held to the end, and the Emma crossed the winning buoy first, Peerless second fifteen minutes later."

Japanese Quarterly Fair.
NAPANEX Sept. 7th 1880.

The September quarterly fair was held here to-day. There was a large attendance but only about 130 head of cattle were offered for sale, of which Kingston butchers secured about 90. Welsh & Reid bought 50; Elliott took principally heavy stock. Dry cows and light steers, were bought from \$16 to \$50 dollars. Oxen ranged from \$90 to \$80 a pair and \$80 to \$100. Several fine young horses were offered at from \$80 to \$90 with no buyers.

A foot once more.
"For ten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or, as I said, and I used up a small fortune in humbug pills. Six months ago I saw a U. S. flag with 'Foot Bitters' on it, and I thought I would buy a few bottles. I tried it, but my wife would not touch it. I saw a U. S. flag with 'Foot Bitters' on it, and I thought I would buy a few bottles. I tried it, but my wife would not touch it. I saw a U. S. flag with 'Foot Bitters' on it, and I thought I would buy a few bottles. I tried it, but my wife would not touch it."

TRADE RELATIONS WITH FRANCE.—The Montreal Witness says:—"The prospect of a brisk trade with France next year seems very bright, and among the elements of it will be the phosphate mining. It appears that Messrs. Dion Brothers, of Granville, France, have had considerable experience in the manufacture of super-phosphates, and that they turn out 37,800 tons annually. For the past ten days the eldest member of the firm has been prospecting through the Ottawa Valley, and so satisfied is he that he has secured one hundred thousand acres for future work. To be united with this phosphates working scheme is that of cattle exportation, a Mr. Escud having been so satisfied with his experiment of sending sheep to France that he will cooperate with the Dion Brothers, who will send their phosphate as ballast, while Mr. Escud will make cattle the supercargo along with such cereals as shippers may desire to export."

AFGHAN AFFAIRS.
LONDON, Sept. 6.—Gen. Roberts telegraphs from Candahar, September 3.—All of Ayob. Khan's guns have now been brought in. (Times says they number 32 pieces.) Ayob Khan fled to Kalkret without stopping. He is probably in Zamin-dar today. Hamid Khan and the other arif and chiefs, with two exceptions, are with him. He had no baggage and no troops except a few Herat horse men. He is said to have announced the intention of going straight to Herat.

Mrs. Noble's Work.
This is an age of great works and wonder ful inventions. Steam, electricity, water, air are all made to serve man, but unquestionably the greatest inventions are those which preserve man's health and prolong his life, and among the greatest of these is Dr. Kiro's New Discovery for Consumption. Its effects are happy to those who once looked forward to an early grave. For Coughs, Colds, Bronchitis, Asthma, loss of voice, Hay Fever, Hoarseness, Croup, and any affliction whatever of the Throat, Chest or Lungs, Dr. Kiro's New Discovery will positively cure. We can cheerfully recommend it as a cure for Throat and Lung Affections. Trial bottles ten cents; regular size \$1. For sale by Jas. Clarke & Co.

"FRAGRANCE" the newest wonder for whitening the teeth, delightfully refreshing to the mouth. To try it is to become a friend to the pleasant, irrefragable, popular Dentifrice of the day.

Buckley's Arctic Salve. The BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chilblains, Corns, and all kinds of Skin Eruptions. This salve is guaranteed to give perfect relief in every case or money refunded. Price 25 cents per box. For sale by Jas. Clarke & Co. 95-ly

AFTERNOON DISPATCHES.

ATHENS, Sept. 12.—Progress in recruiting for the Greek army has reached the rate of six hundred daily.

LONDON, Sept. 7.—A Berlin correspondent hears positively that Bismarck, National Liberal leader, has been designated as Minister of the Interior and Vice President of the Bundesrat.

The Imperial Bank of Germany has ordered its Bremen and Hamburg branches to temporarily stop gold payments. [This is possibly the origin of the former report that the Bank had suspended gold payments.]

LONDON, Sept. 7.—A Berlin despatch says the powers are under no illusion, to order the Pasha, with his troops to co-operate with the allied squadrons in the Turkish waters.

A Constantinople despatch says the Turkish newspapers have been authorized to contradict the statement that Riza Pasha has broken off negotiations with the Albanian League, and is about to take force.

WASHINGTON, Sept. 7.—Indications for the lower lakes, partly cloudy.

Commercial.

Cheese Markets.

LITTLE FALLS, N. Y.
Sept. 6.—Quotations to-day, 11½ to 12½; bulk at 12½.

UTICA, N. Y.
Sept. 6.—Sales, 6,000; ruling 1½.

WHEAT.—\$1.10.
BARK.—\$2.00 to 60¢.
RYE.—\$5.00.
OATS.—\$3.00 to 32¢.
FEED.—No. 1, \$1.00 to 1.05; No. 2, \$1.00 to 1.05; No. 3, \$1.00 to 1.05; No. 4, \$1.00 to 1.05; No. 5, \$1.00 to 1.05; No. 6, \$1.00 to 1.05; No. 7, \$1.00 to 1.05; No. 8, \$1.00 to 1.05; No. 9, \$1.00 to 1.05; POLICE.—Two prisoners and one tramp were registered at the police station last night.

Colin—Last night was the coldest for several weeks past, and there was a light frost towards morning, but not sufficient to do any damage.

WEATHER PROBABILITIES.—The following are the Toronto probabilities—Moderate to fresh northerly winds, continued cool weather, probably frost to-night in some localities.

DOMINION BANK.—The promises collected for the agency here of the Dominion Bank are not in the Robertson Block, as stated, but in the Metropolitan block, being part of the offices formerly occupied by the Consolidated Bank.

GRAND JUNCTION VS. BELLEVILLE.—Judgment has gone against the Corporation in the suit instituted by the Grand Junction Railway Company to compel the delivery of the debentures representing the city loan of \$50,000 at the time when the By-law was passed. A large bill of costs will thus be thrown on the city.

A NEW MAGAZINE.—The *Canadian North West* is the name of a newly printed monthly journal, devoted to the settlement and development of Manitoba, the first number of which we have received. It is published by Mr. James Weidman, Selkirk. It is creditable to both publisher and place. Many of the leading men of the Province have promised to contribute.

LOCAL LEGAL.—In the Court of Appeal, Toronto, on the 5th inst., Crickshaw v. Corby.—Judgment. Appeal allowed and rule to set aside discharged with costs. Cameron v. Ontario M. & M. Co.—Judgment. The Court held that the defendants held one-half of the land in question in trust for the plaintiff. With this variation appeal to be dismissed with costs.

THE "MADCAP" SUCCESSORS.—The yacht *Madcap*, which Outhbert built in this city, and which Commodore Boswell, of the Royal Canadian Yacht Club, purchased here last year, the *Princes of Wales* prize in the R. C. Y. C. regatta at Toronto yesterday. The *Madcap* was not in the race and had nothing but her lower canvas, but she went over the course and beat the *Orion* by 16 minutes.

RUNAWAY.—Last evening a horse belonging to Mr. H. A. Thompson and driven by his son, a boy of 13 years old, ran away on Bridge Street west. Turning the corner of Coleman Street very sharply, horse, wagon and driver upset together, the wagon falling on the boy, who fortunately escaped with but a scratch or two. The horse was also very slightly hurt, and the wagon was but little damaged.

DEAF AND DUMB TWIT.—This institution was reopened to-day with a large attendance of pupils. The buildings have been thoroughly renovated, the grounds improved, and every provision made for the comfort of the pupils. There has been but one change in the personnel of the staff of instructors, which has been occasioned by the retirement of Mr. Wall, bridge, whose place will be filled by Miss Templeton.

THE COW BY-LAW.—The manner in which the Cow by-law is enforced is farcical and a change ought to be made and, once that is it is intended to have the cow nuisance get rid of. A gentleman who lives on Ann Street states that there are daily half a dozen cows or more browsing on that street, and that on Sundays the number is still larger. These animals damage shade trees, the young trees in particular, which they ride down and eat the tops off. Ald. Niles proposes to move in the matter in the Council; it is to be hoped that he will do so in the right direction, and that without delay.

ANNUAL REGATTA.—At a meeting of the Bay of Quinte Yacht Club last night, 20 new members were admitted. It was resolved to hold the annual regatta over the usual course on Massasauga Bay, commonly known as Big Bay, on Friday, the 24th inst. But one race will be sailed, which will be open to all yachts of twelve tons and under. The prizes will be as follows: First \$80; second \$50; fourth \$15; entrance from 10 per cent to be deducted from winners. At least five yachts to start, or no fourth prize will be awarded. In order to allow the smaller craft a chance, the time allowed has been fixed on a liberal scale, namely one minute per ton. There will probably be a large entry and a highly successful regatta. Another meeting of the Club will be held on Friday evening, 17th inst.

\$6.00.—For six dollars and sixty cents you can get a good, useful Scotch Tweed suit, well lined and trimmed, at Honnery's, the cheapest store in the city.

POLICE COURT.

(Before Thos. Holden, Esq., P. M.)

WEDNESDAY, Sept. 8.

DRUNK.

Lloyd Borden and James McDonald first offence, was discharged.

RAPE.

Henry Hawkins was charged with committing a rape upon the person of Harriet McDougal. The girl testified to the commission of the offence, and Dr. Farley deposed that she had been slightly injured. The Magistrate, after reviewing the evidence, remarked that the case was one of indecent assault, of which he found the prisoner guilty, and sentenced him to be imprisoned for three months in gaol.

Frank Reddon, convicted yesterday of stealing some cotton print from the same girl, was also sent to gaol for three months.

MURDER.

The *sch. British Queen* is being repaired at Mitchell & Gough's dry dock, Oswego. The *sch. Nellie P. Dwyer* arrived at Oswego on Monday from Napawa, with the first cargo of barley and rye of the season for Messrs Irwin & Sloan.

The *sch. McClellan* has arrived from Dexter and will land lumber at Alex. Sutherland's.

The *sch. John J. Pugh*, and *Portland* have cleared Oswego with lumber and laid from the eagle mill and the Florence from W. Sutherland's.

TYPED NOTES.

The barn of Mr. Scamth, which was burned a few days ago, was insured for \$300 on building and contents.

A fashionable wedding is to take place here next week.

A boat race between Edward Hiron and Wan, Hiron, is to take place on Tuesday next on the lake here, for \$10 a side.

Sporting Notes.

Gov. Alford on 5th day, says the Clayton Independent, caught 3,238 fish. In 70 days, 1870, he caught 9,029 and in 30 days, 1880, 4,250.

A cricket match was played Saturday at Oswego Falls between the Onondaga club of Syracuse and the Oswego Falls club, and very nearly resulted in a one-sided victory for the latter. The Onondagas went to the bat first and were disposed of for the small score of 23 runs; Oswego Falls followed with 70, of which M. Ellis made 33, H. Buckus 15 and J. Gill 15. The Onondagas making about 48 in their second innings (of 70, W. Sharp made 20), left their total of both innings 71 runs to the Oswego Falls' 70 in one innings, the latter thus winning the match by 10 wickets.

Only a few barrels of barley have yet been marked for which \$2.00 was paid. Yesterday barley was quoted nominal in Oswego at 85 to 87.

In Toronto the street price of barley to-day was from 85 to 87.

WHEAT—\$1.10. BARLEY—50c to 60c. RYE—50c to 60c. CORN—30c to 35c. PEAS—60c. LAMBS—\$1.75 to 1.90 per pound.

Butter—\$1.00 to 1.10. Eggs—\$1.00 to 1.10. Hides—\$1.00 to 1.10. Sheepskins—\$1.00 to 1.10. Wool—\$1.00 to 1.10. Tallow—\$1.00 to 1.10. Fat—\$1.00 to 1.10. Pork—\$1.00 to 1.10. Beef—\$1.00 to 1.10. Mutton—\$1.00 to 1.10. Chicken—\$1.00 to 1.10. Turkey—\$1.00 to 1.10.

AFGHAN AFFAIRS.

LONDON, Sept. 7.—A despatch from Simla says: "The losses of Ayach Khan, as far as ascertainable, are already estimated at a thousand men."

CANADIAN, Sept. 7.—Cavalry patrols report the villages full of the enemy's dead and wounded. The Canadian regiments are dispersing. The Khalibz cavalry are seeking to cross the river. Gen. Playfair is within two stages of Candahar and will halt for the present.

AFTERNOON DISPATCHES.

TERRIBLE CALAMITY.

Explosion in an English Coal Mine.

OVER 200 LIVES LOST.

LONDON, Sept. 8.—A correspondent with Gen. Playfair's command telegraphs from Kill, Ab Dala: "A portion of this division has already begun to retreat its steps. The 63rd regiment, which was in the front, has been cut off and remains there in readiness to act against the outposts among the Khan of Khalibz's troops and tribes."

LONDON, Sept. 8.—An explosion occurred this morning at the Seaham colliery, near Durham. Both shafts of the mine are blocked, though they are half a mile apart. Between 250 and 300 men are in the pit. It is known that a large number of men were in the mine at the time of the explosion.

A terrible explosion occurred at 2 o'clock this morning, at the Seaham pit, Durham. On the north shaft, about 5 miles south of Sunderland, 250 men were in the pit, and from that time up to 11 o'clock all efforts to reach them were unsuccessful. Communication has, however, been made between the men and the surface, and they are safe. The greatest excitement prevails in the neighborhood. The wives and families of the imprisoned or slaughtered miners surround the mouth of the pit, with loud cries and lamentations. The eighteen men, whom communication has been made, but who do not know how many have been killed, but fear that they are the only survivors of the catastrophe. The superintendent of the colliery and his assistants are paying forth every effort to ventilate the pit sufficiently to allow a thorough exploration to be made of the more remote parts of the workings, where it is supposed the majority of the men were when the explosion took place. The immediate cause of the ignition of the fire damp cannot be more than surmised, as the rules of the mine with respect to the use of lamps were as strict as possible. It was supposed to be as safe as any in the kingdom. Large numbers of people have arrived at the scene of the disaster from Sunderland. Nothing can be seen except the smoke which rises from below. There is every reason to believe that this is to be one of the most disastrous mining calamities on record.

WASHINGTON, Sept. 8.—Indications for the lower lakes stationary temperature, partly cloudy, or rain.

FATAL CATTLE DISEASE.—A fatal cattle disease in dangerous proximity to our borders, has broken out in Oswego where seven cattle have been killed by a disorder affecting the bladder. As the heart, liver, and lungs are not touched, the disease is a form of the dreaded pleuro-pneumonia, nevertheless caution against importations from that quarter should be observed. The cattle lake and contagion have been secluded, and the Government are taking measures to prevent the spread of the disease.

"Elfrida" sends in the following little gem—

Let us gather up the sunbeams
Lying all about our path.
Let us keep the wheat and roses,
Let us find our own little joys,
Let us find our own little joys,
Let us find our own little joys.

All right, Elfrida, you see in all the sunbeams, but please excuse me. People who are not poets are kept to their own little joys, and let us find our own little joys, and let us find our own little joys.

"For ten years my life was confined to her, but with such a completion of ailments that no doctor could tell what was the matter or how to cure her, and I used up a small fortune in vain."

"Six months ago I saw a U.S. ship with two sailors and a lady, and I thought I had found a cure. I tried the lady's medicine, and it cost me no money and brought my wife and I to our old life. I feel that I am a new man."

"I feel that I am a new man."

"I feel that I am a new man."

"I feel that I am a new man."

"I feel that I am a new man."

"I feel that I am a new man."

"I feel that I am a new man."

"I feel that I am a new man."

"I feel that I am a new man."

"I feel that I am a new man."

"I feel that I am a new man."

Buckley's Arctic Salve.

The best salve in the world for Cuts, Bruises, Sprains, Ulcers, Salt Rheum, Chapped Hands, Chafing, Corns, and all other skin eruptions. This salve is guaranteed to give perfect relief in every case of any kind of skin disease. Price 25 cents per box. For sale by J. W. Clarke & Co., 65-ly

"TALKING" the newest wonder in

whistling the teeth, delightfully refreshing to the mouth. To try is to become a friend to the pleasant, irrefragable, popular Testimonial of the day.

DEATH.

Died in Hastings on Friday, Aug. 28th, of consumption, ALICE ARTHUR, wife of John Brown, aged 14 years, 11 months.

Commercial.

CHICAGO MARKET.

INTERLACED RAILWAY. Belleville, Sept. 8, 1880

The receipts of grain to date have been light, with but slight changes to note in prices.

Rye dropped yesterday to 65c. To-day for a small lot 67c was paid, but the market price is still quoted over 65c. The street price in Toronto to-day was from 65c to 67c.

For a small lot of peas 62c was offered to-day, but the ruling price was not over 60c. Peas are quoted in Toronto, dull and weaker at 55c to 57c.

Out are in demand for home consumption at 30 to 32c per bush.

Only a few barrels of barley have yet been marked for which \$2.00 was paid.

Yesterday barley was quoted nominal in Oswego at 85 to 87.

In Toronto the street price of barley to-day was from 85 to 87.

DOMINION IRON LADDER WORKS, KINGSTON.

Patent Iron Ladders with Fire Escape attached.

THE subscriber has been manufacturing the above ladders with the fire escape, attached for a number of years past and has placed them on the best private residences, hotels, banks, hospitals, charitable institutions, county buildings, military colleges, and other Government buildings in Kingston and Ottawa.

In this city I have placed my ladders on the private residences of John Bell, Esq., W. H. Ponton, Esq., T. S. Carman, Esq., T. C. Wallbridge, Esq., on the factory of J. H. Burrell, on the Roman Catholic Church, and Convent.

Parties wishing to have my ladders, can do so by leaving their order at the hardware store of James Smith (late Gillen & Keith's old stand), where they will see sample of ladders, and testimonials from parties who have them in use.

I place my ladders on the building, with Fire Escape attached, firmly fixed and painted, for one hundred feet.

All orders promptly attended to.

GEORGE A. RUMRILL, Belleville, June 10th, 1880. 543dm

CONSUMPTION Can Be Cured.

THE 1880 cure has been the cure of the most various diseases of the Throat and Lung, such as Catarrh, Tracheitis, Bronchitis, Asthma, Consumption, Catarrh of the Larynx, and Catarrh of the Esophagus. Also Diseases of the Throat and Lung.

Our system of practice consists in the most improved Medication, combined with proper Constitutional Treatment. Having devoted all my time, energy and skill for the past twenty years to the treatment of the various diseases of the Throat and Lung.

HEAD, THROAT & CHEST. We prescribe the most perfect remedies and appliances for the immediate cure of all these troublesome affections. By the application of the most perfect remedies, given from all parts of Canada, from Ontario, Quebec, &c., it is possible to cure personally at the Institute, write for "List of Questions" and Medical Treatise. Address, DETROIT THROAT & LUNG INSTITUTE, 253 Woodward Avenue, DETROIT, MICH.

The Revised Bible.

A London letter to the Chicago Times gives a partial review of the revised New Testament, the last proof sheets of which have received the approval of the Queen's printer. The history of the work it outlines, and the following instances of change are given:—

The new revision of the New Testament issued from the University press will at first shock the Protestant world. It is not certain as to the fate of the Holy Scriptures. The American revisers could probably copyright their share of the work, but the expression of one: "It does not appear to me, for the sake of pecuniary profit, to deprive all persons save one of the right of publishing Bibles, when we are asked to give our minds to bring it into general use," probably expresses the sense of a majority.

A Sea of Flame.

Immense Forest Fires Around Upton, Quebec.

ONE HUNDRED FAMILIES BURNT OUT.

TWO HUNDRED THOUSAND DOLLARS' WORTH OF PROPERTY DESTROYED.

Several Lives Reported Lost.

Upton, Que., Sept. 8.—For some time past bush fires have been raging in the forests of Quebec province, but little attention was paid to them as they are looked upon as the best method of clearing the land.

There has been a severe drought during the past few weeks, and a high wind has fanned the flames, until on Monday the inhabitants of Upton saw with dismay the flames coming toward them, with a steady sweep as fast as a man could run, swaying up everything in its course. The fire ran along rail fences, burning the grain, and the wind sent the sparks in all directions. So quickly was one farm after another enveloped that men, women and children, had barely time to escape out of its line until the fire was upon them again.

As the night drew on the flames increased, while the wind, in its course, tore miles in length, covering a width of four miles, the eye rested upon nothing but roaring, crackling flames. Families came flying into the village, carrying in their scanty dresses, some carrying articles of furniture. Great consternation prevailed. Cattle ran helter. After the forest was swept away the men bravely battled with the fire until

ALL HOME WAS LOST.

and then fled with difficulty. From St. Helen, St. Germain, St. Guillaume and other towns the fugitives. In some instances the flying inhabitants were compelled to abandon their vehicles and take to horseback, while in many instances men hurried to show away their coats in order to save their lives. All night long the fire burned. House after house and barn filled with the best crops known for years were wrecked up. By 9 p. m. everything that could be burned was destroyed.

The bodies of Pierre Currier, aged 81, Joseph Currier, 28, and Telesphore Currier, 16, were found burned to a crisp. Many persons are reported injured. As communication with the surrounding country has been cut off, the full extent of the disaster has not yet been ascertained. It is certain that 75 families have been burned out of homes and are now representing 450 persons. It is feared that the

will be much greater than yet ascertained. The damage to property is estimated at \$100,000. The sufferers are destitute, and prompt assistance is needed. Mr. Gauthier, while riding through the fire to visit a patient, was thrown by his frightened horse into a heap of ashes and badly burned. His Cole, finding his escape cut off, fought the fire desperately, and succeeded in saving his property. Xavier Boisseau, a farmer on St. Germain road, is probably fatally injured.

ONE HUNDRED FAMILIES DESTITUTE.

LATER.—No further destruction of buildings is reported, but there has been a great deal of lumber, hemlock bark, and grain burnt to dust. There are grave fears entertained for to-night's safety, as the wind is beginning to rise. There are about one hundred families destitute and homeless in the ranges of St. Helen, St. Theodore, St. Germain, St. Charles, and St. Valentin. The estimated loss up to the present is two hundred thousand dollars. Bush fires are still raging, and the inhabitants are bravely trying to subvert the same, but with little success. An example of the most

HEROIC SELF-DEVOTION occurred during this terrible conflagration. News having been brought that a family by the name of Christie were completely hemmed by the fire, and that no one could render them any assistance, a young man named Tessier gallantly volunteered to endeavor to reach them. He had already shown his courage by a tramp over a formed a perfect sea of fire. In spite of the most urgent request of his friends, and the alleged impossibility of being able to render any assistance, he persevered in his determination to go, and finally managed to reach the house of the Christies, but not without bearing upon him terrible marks of the fury of the flames. His face showed a terrible burning, the skin actually peeling off his face in large flakes. He found that the fire had not reached the Christies' house and that there was no immediate danger. No words can express the heroic courage of this young fellow in so manful a struggle, in spite of his sufferings, to endeavor to rescue or be of some use to his imperiled friends. Dr. Gauthier, who is attending him, reports to-day that his recovery is very doubtful. The deepest sympathy is expressed for him by all.

ANOTHER ALMOST MIRACULOUS ESCAPE was that of Messrs. Charles and Lorenzo Warner, of Upton. They had gone on the morning of the 6th to their property in the St. Germain road to endeavor to save some of the hemlock bark they had there from the fire which was raging in the vicinity. While engaged in getting their bark piled on a small pile of cleared land, the fire became comparatively close to them, and they were obliged to get out of the fire. They had brought for their horses. Finding all avenues of escape closed they were obliged to remain until daylight in the morning of the 8th, together with two men who were with them and three horses. The fire was raging around them like a sea of flame, and they were obliged to lie on their faces to avoid suffocation during the night. Fortunately the fire having some what abated, they were enabled to make their escape, but not without the greatest danger, as it was impossible to lead the horses over the burning ground, and they had to cut their way through burning trees that were falling across the road. The Messrs. Warner are the oldest and most respected residents in Upton, Mr. Chas. Warner being postmaster here, and the most intense anxiety was felt for their safety by their numerous friends, some of whom were

on their way to their assistance when they met returning safe and sound after passing a terrible night, which will be long remembered. In St. Theodore parish the passage of the fire was so rapid that in one case, where a corpse was laid out in the house ready for burial, they were obliged to bury the body close to the house to save it from being burnt and fire for their lives, leaving everything to the fire. Latest reports from St. Helen state that the fire is still in that vicinity, and that several houses have been destroyed.

Daily Intelligence.

RELLVILLE, FRIDAY, SEPT. 10.

The Bright Outlook.

In other columns we give, from the Montreal *Witness* of yesterday, further particulars respecting the Pacific Railway negotiations in England. Whether the details of the scheme as there given are correct, is a question which can only be known when the Ministers return and report upon what they have done. But that Sir John A. Macdonald has been successful in his mission—successful far beyond what he and his colleagues anticipated—may be accepted as a fact. In confirmation of the report of what appears in the *Witness*, we copy the following despatch to the Ottawa *Citizen* from London:—"Sir John A. Macdonald and the other Canadian Government commissioners have been successful in the financial arrangement for the construction of the Canadian Pacific Railway, it having been concluded this afternoon. The contract is taken jointly by a banking firm in London, a French financial association, and a firm of financiers in New York. The contracting parties will receive from the Canadian Government a certain number of millions sterling in cash or its equivalent, to be provided by issue of the Canadian Government, the bonds to be backed by an Imperial guarantee, and a certain number of millions of acres of land; and, in consideration of these grants, the contracting parties undertake to form a company to be called the Canadian Pacific Railway Company, which shall construct and work the line in perpetuity. The Government furthermore gives the contracting parties, in addition to the surveys already made, the whole of the line thus far built. The cost of these items is put down at between £5,000,000 and £6,000,000 sterling."

Of course the Globe will not be satisfied. That journal has gone so far as to admit that, instead of Sir John A. Macdonald's mission being a "failure complete, disastrous, crushing," which it first pronounced it to be, he has been able to "make arrangements with a strong syndicate of capitalists for the construction of the Pacific Railway." This is an admission, certainly. But then the details of the scheme are not given—they are "withheld"—they are purposely kept back from the people to conceal some dark, deep design, some foul act of corruption—to cover some fiendish plot on the rights and liberties of the people. "The details of the bargain are not only withheld," but "there is no intention to publish them." And even then there will not be given the terms for the people or their representatives to discuss the terms—they will be forced upon the people by the servile majority at the back of Sir John A. Macdonald, and the country will go to the dogs.

But as Sir John will not furnish details, the *Globe's* mill has ground up some for the occasion, and after careful calculations, makes the country pay to this strong and wealthy syndicate some \$123,525,000, and the *Globe* then benevolently asks the people if they will "endorse secrecy as to the terms one day after the return of the Ministers." What balderdash! To read the *Globe's* editorials on the Pacific Railway question, to use its own choice language, "is enough to sicken a horse."

The Canada Life.

The report of the Canada Life Assurance Company, is an eminently satisfactory one. All through the hard times this Company, by wise and careful management, was able to maintain and even to increase its business and profits; and the operations of last year were more profitable and the business much larger than in any previous year in its history. The net result of the insurance effected was 2,107 policies, aggregating nearly \$4,000,000; while, over and above this, 171 applications were declined and not carried out. During the year 12,686 policies, aggregating \$21,600,000, were kept in force, and the revenue from policies and investments amounted to nearly \$850,000; the total assets being \$4,800,000. The death claims for the year amounted to \$102,000, or 100,000 less than had been provided for. This is a statement almost without parallel in insurance history. The Company, to let its assurance share in its prosperity, has extended its system of interest, moderate profits, and policies becoming claims before the next division will be on-

cluded to a bonus of 14 per cent. per annum, dating from the 30th April 1875. Minimum policies will also share in this bonus, rendering them good for their face value for the next five years. The dividend paid, after an ample allowance had been added to the reserve, amounted to no less than \$700,000; and in addition to the 10 per cent dividend the shareholders received \$17,500 per share, while \$115,000 was carried to proprietors' accounts. The reserves for risks, &c., are calculated upon the highest legal basis of 44 per cent, thus affording the amplest security to policy holders. Had the reserve been based upon the 5 per cent, as called for by the law, the profits of the last five years would have amounted to \$900,000; but the Company believe in giving the very highest security to its policy holders. On the whole the progress and prosperity of the Canada Life is almost short of marvellous; and the President, Directors and officers, to whose skill, prudence and untiring energy these results are mainly due, deserve the warmest thanks of its shareholders and policy holders throughout the Dominion. Shares were sold yesterday at 300.

The foregoing synopsis of the annual report of the Canada Life Assurance Company is from the *Mail* of the 8th inst. Mr. Thos. Donnelly is Agent for Belleville, and an evidence of the amount of business done in this section of country, we may mention that Mr. Donnelly sent last year to the Head Office, no less than \$112,500.

News Condensed.

—An insurance threatens in Armenia.
—The bank fires near Upton, Quebec, are still raging.
—Another large party has left Paris for Manitoba.

—On the 9th inst., the plating mill of Matheson Bros. & Co. at Ingersoll, was burned.
—A London policeman has fallen here to 230,000 feet by a remote relative in Louisiana, U. S.

—At St. John, N. B., on the 9th inst., two children were drowned while crossing the river.
—On the 8th inst., Geo. W. Knapp, of Niagara Falls, N. Y., committed suicide by jumping off Utica Falls.
—A batch of Irish servant girls who recently arrived at Ottawa have all been furnished with places.
—The Colorado beetle has made its appearance in the north of Scotland, and is creating great havoc.
—A Pere dispatch says the Arabs who attacked the Italian steamer off Khailaf have been captured.
—It is anticipated that coal will reach a fabulously high price during the coming winter throughout Great Britain.
—The deadlock still exists among the Hamilton Police Commissioners regarding the appointment of a Chief of Police.
—Twelve vessels by the same agency that struck the *Vera Cruz* have been reported, two steamers and ten sail vessels.
—On average five cases of iron ore are shipped weekly over the Kingston and Pembroke Railway from the Mississippi mines.
—Napoleon's rate this year is two cents on the dollar. It is one of the most happily taxed towns in Canada.
—The profits of the harvest of grain in Winnipeg. It is 84 cents per bushel.
—An express train from Glasgow, collided with a freight train on the 8th inst. Three persons were killed and eight injured.
—The cattle disease has made its appearance on a farm in Essex, England. The whole of the cattle affected were immediately destroyed.

—Sir Charles Tupper and the Hon. J. Pope have left for Canada on the 9th. Sir John Macdonald and Sir A. T. Galt will sail on the 16th inst.
—A Paris despatch says—A water spout at Fay destroyed three houses and caused much other damage. It is feared several persons were killed.
—The railway station at Knowlton, Quebec, with the books of the Company and about nine hundred dollars in money were burned on the 9th inst.
—On the 5th inst., the schooner *Joe Belle*, of Cleveland, went ashore at Geneva, Ohio, and is a total wreck. James Rogers and Alpha Crow, were drowned.
—The 97th regiment, now stationed at Halifax, N. S., will leave there next month to re-join the first battalion of the 20th regiment quartered at Cyprus.

—During Sunday's storm a number of calves were drowned in a pond a few miles west of Brantford. In a pond which formed quickly and imprisoned them.
—A London paper says that although the Princess Louise is better for her sea-voyage to England, she is still in very delicate health and suffers from almost sleeplessness.

—Capt. Wise, late of the Royal College Kingston, has been gazetted to the 28th Canadian Infantry, and Cadet Frer to the 38th regiment. The latter corps has just embarked for India.

—At a meeting of the promoters of the Pacific Junction Railway, held in Toronto, on the 9th inst. it was decided to memorialize the local Government for a grant of \$8,000 per mile, whereever to build the line.

—The managers of the Quebec copper mines situated near West Brome, Quebec, are building a dam on the river near the mines, and are to put in a powerful crusher at once. The mine is said to yield a very large per cent. of pure copper.

—A sensation was created on Cathcart street, Ottawa, on Wednesday, by a father publicly chastising a child. He administered a severe castigation with a rawhide, and then took his home.

A DEBATED CHURCH.—The *Kingston Whig* says that near Monrovia, Adington County, is a deserted church, "From the 10th of June, 1879, to the 22nd Aug., 1880, neither a class meeting, prayer meeting or Sabbath School was held there in the C. M. Church. Bitterness has existed among the church people ever since the great Bon-Storms trial. Rev. T. C. Brown, of Wilton, preached on the 22nd ult., and invited the audience to remain to a fellowship meeting. They all declined."

Social in John Street Presbyterian Church.

A Luncheon Social was held last night in the Lecture Room of this Church. The attendance was so large that many could not find seats. The occasion was an interesting one to welcome Mr. Northrup and Mrs. Ritchie, who were delegates to the Raikes' Centenary celebration. His Worship, Mayor Patterson, presided, and the meeting was opened with prayer by Rev. Mr. Lamely.

The Mayor said he was pleased to see so many present, and he would call upon the Pastor to address the meeting.

The Rev. David Mitchell then spoke of the joy he felt in presence of so many who had met to give friendly welcome to those members of the church who had gone to take part in the Centenary meetings in England. It was not always complimentary to say our friends that we were glad to see them go away, but they had all felt pleasure in witnessing the departure in June last of their friends for England. Mr. Northrup, in particular, who had labored for so many years as the Superintendent of the Sabbath School, as an Elder in the church, and as the devoted friend of the community, and who by his untiring and unintermitted work had built up for himself a monument that would never die, required change and such rest as can only be obtained from a sea voyage.

They were now met to welcome Mr. Northrup home again, and also Mr. and Mrs. Ritchie, the latter having likewise been a delegate. There were some things which were improved by a sea voyage, and while nothing was wanting in the work of their friends in the past, and especially in that of their beloved Superintendent, they could not but look for their labors in the future being even more valuable, having enjoyed the stimulus arising from travel, from fresh scenery, from meeting with Christians of all lands and of every denomination, and from taking part in the greatest celebration of the age. In the name of those assembled, Mr. Mitchell gave welcome to the friends, and in particular to Mr. Northrup, Superintendent.

After a hymn by the children commencing, "Home again, home again, from a foreign shore," Mr. Northrup replied to the address of welcome. He expressed the surprise and sense of honor with which he had received the proposal to go as a delegate to the Raikes' celebration. He enjoyed the voyage and was happy to say he had been singularly free from sickness. He could not describe the feelings with which he regarded the meetings in which he and his fellow delegate had taken part. The children's gathering at the Crystal Palace was exceedingly interesting. It was delightful to hear such a multitude rendering hymns of praise. By their firmness the delegates from Canada were prevented from being classed in general with "those from America." The Canadians held their own; in particular, he was proud to say the Hon. Vice-Chancellor Blake distinguished himself, not only by his eloquence, but also by the firm stand he took upon the question of Temperance. Rev. Dr. Burns, of Halifax, became a special favorite wherever he went, and at Brighton he took exception to some remarks which had fallen from speakers referring to Sabbath recreation, in such a manner as to call forth loud applause. Mr. Northrup said that while he was pained by what he saw of intemperance and profanity of the Sabbath, he felt much interested in the christian life and enterprise which were to be seen in London, and Scotland, and Ireland, and also in Paris. The London City Missionaries were a noble band of workers. The enterprise represented by Mr. Quarrier in Glasgow was most encouraging. The labours of the Rev. Mr. McAll and others in and around Paris, were most fruitful of results. He could not say more than a flying visit to Scotland and Ireland, but he was delighted with the people, with the scenery, and with the christian work which was everywhere manifest. When in England he was delighted, but Scotland seemed more attractive still, and Ireland was so much more so than Scotland that he could hardly tear himself away from the "Isle of the Shamrock." Mr. Northrup concluded by thanking the friends present for the hearty reception tendered to Mrs. Ritchie and himself.

An hour's intermission followed, and ice cream, coffee and cake were served by the ladies, who had a tastefully decorated table, which was also beautifully decorated with flowers.

The children sang another hymn, and then Mr. Thos. Ritchie made some interesting remarks, in the course of which he humorously described some national characteristics of Scotland and Ireland. After votes of thanks to the Ladies, the Choir, and the Mayor, the Pastor pronounced the benediction, and the meeting adjourned.

The Toronto Exhibition.

The attendance at the Toronto exhibition yesterday was much more satisfactory than on the previous day, and the weather, together with the visit of the Detroit delegation, drew a large crowd in the afternoon. The Manitoba products were expected to be in position last evening. Several additions have been made to the Art Gallery, and the collection now presents a much more complete and creditable appearance. The test of portable steam engine took place yesterday and was very satisfactory. There are also portable engines under steam in connection with the agricultural implement hall, and the farm machinery is kept in almost constant motion.

How REPORTS ARE MANUFACTURED.—The *Winnipeg Free Press* having stated that sixteen persons were leaving Manitoba for Dakota because they were "discouraged by the land regulations," the *Times* looked into the matter, and discovered that the sixteen persons of its contemporary were only eight, and consisted of a clergyman and his wife, and a man leaving because he had not got a call. This is a most exodus story knocked on the head, but for all that its soul will go marching on through the columns of the moral Reform press for weeks to come.

The Bright Outlook.

Money From England—Who Formed the Syndicate—Sir John Macdonald.

(From the Montreal *Witness*.)

As mentioned in our local column last Monday, the delay in announcing the final completion of the Pacific Railway scheme was owing to efforts being made to harden the various elements of the syndicate to get possession of the Canada Pacific Railway. Our statement of the case has since been confirmed, and we have now to announce that the different syndicates have finally been consolidated and that the parties undertaking the scheme are among the greatest financiers of the world.

It is understood that a cabinet meeting was held at Ottawa on Monday afternoon, when the proposed agreement was laid before the Ministers, and that it met with their hearty commendation. The Ministers in England have kept the matter extremely quiet, but the syndicate, it is understood in financial circles, is composed of the following well known capitalists:—Rothschilds, Baring, Morton, Rose & Co., J. P. Morgan, Mills, Brown, Puleston and others in England, a strong French financial corporation in Paris, and Messrs. Geo. Stephen, R. B. Angus, and D. A. Smith, connected with the well known American capitalists who are working with them in America. Thus it will be seen that all the names that have been so prominently mentioned in connection with the scheme are herein included. Some satisfaction is felt here that the Stephen party is included in the syndicate as their familiarity with the country and their being on the spot will enable them to watch matters closely, and prevent a repetition of the reckless expenditure that characterized the construction of the Grand Trunk and brought such great discredit on Canadian investments. It is understood that the portion of the road already constructed will be valued at \$10,000,000, and that the greater portion of the bonus the Government is to pay. The negotiations were completed to-day yesterday to enable Sir John Macdonald to sail to-day as was first intended. An extra session of Parliament will at once be summoned to formally ratify the agreement.

The "Street" is jubilant over the news. Our reporter in interviewing one of the "lights" asked him if the success of the scheme had not already been largely discounted.

"Why, no, my dear fellow," he replied. "The street have no doubt discounted the matter to a certain extent, but the great body of outside investors have not yet taken any stock in it, and will, as they always do, come in at even higher prices. The fact of the President of the Bank of Montreal being one of the leading members of the syndicate, and of the President of the Merchants' Bank being another, will enable them to greatly benefit their respective corporations, while the extra session of Parliament, and the interest everywhere felt in the matter, will make a harvest for the telegraph companies. Everything must improve and go much higher."

MORNING DESPATCHES.

EUROPEAN.

MADRID, Sept. 10.—The Minister of Foreign Affairs sent a memorandum to the Spanish Minister at Washington, setting forth the basis for the future treaty of commerce with the United States, applicable to the most important articles of commerce between Cuba and the United States.

AMERICAN.

SAN FRANCISCO, Sept. 10.—Last evening the streets around the Pacific Hotel, where President Hayes is, was thronged and the court was highly decorated. The President appeared on the balcony and was received with cheers. He thanked the audience for the kind reception, expressing himself from a speech on account of fatigue.

MACKEREL

IN KITS.

JUST RECEIVED, AT HUGH WALKER'S, PUBLIC NOTICE.

TO THE INHABITANTS OF BELLEVILLE AND VICINITY.

MARK MUNDY having purchased the Drug Business recently carried on by the late Mr. Jas. H. Hambley, begs to announce that he is determined to maintain the well known reputation of the establishment for pure Drugs, Chemicals, &c., and thereby combined with close personal attention, to merit the support of his former customers, and as many new ones as will favor him with their patronage.

APOTHECARIES HALL, Belleville, Sept. 7th, 1880.

VITALINE.

CURES SCROFULA, SALT RHEUM, ERYSIPELAS, PIMPLES, RING-WORM, TETTER, &c., &c.

CURES DYSPEPSIA, JAUNDICE, CONSTIPATION, PILES, HEADACHE, NEURALGIA, &c., &c.

VITALINE Cures Female Complaints. VITALINE is sold by all Druggists. PRICE, 10¢ per bottle.

THE GRAY MEDICINE CO., TORONTO.

THE YAMBER OUTLOOK.—The Kingston *Whig* says:—"Further particulars have been received which make the foulness of the outrage more distressing. Mr. Scott, the victim, was rendered unconscious from the treatment he received and remained so for some hours. It is stated that very little hopes are entertained of his recovery. The constable in whose hands the warrant was placed was H. Joyner. When he was tempted to arrest Wager he was called and another constable was called and the arrest made. Parties are now searching for Wager, but it is doubtful if he will be captured, as he is thoroughly acquainted with the country and will keep in the woods. This is the second time he has outraged women."

THE GREATEST REMEDY KNOWN.—Dr. King's New Discovery for Consumption is certainly the greatest medical remedy ever placed within the reach of suffering humanity. Thousands of once hopeless sufferers now loudly proclaim their praise for this wonderful Discovery to which they owe their lives. Not only does it positively cure Consumption, Coughs, Colds, Asthma, Phthisis, Hay Fever, Hoarseness and all affections of the Throat, Chest and Lungs, but it cures the system generally, and it is by magic. We do not ask you to buy a large bottle for ten cents, but we will give you a trial bottle for one cent. Write to call for our free drug list. J. A. Clark & Co. get a trial bottle for ten cents, which will convince the most skeptical of its wonderful merits, and show you what a regular one dollar size bottle is worth.

FOR SALE BY J. A. CLARK & CO.

Board and Lodging.

BOARD WANTED in a private family, for a single gentleman. References given. Address A. B., INTELLIGENCER office. It

Personal.

AS THE person who addressed an anonymous letter to a lady on George St. has not accepted her invitation to a friendly interview, she is saved from meeting with other's friends a most curious and absurd story, which does not face those who are concerned in the consequences such conduct deserves.

BELLEVILLE, SATURDAY, SEPT. 11.

5 O'CLOCK EDITION.

City and Vicinity.

POLICE.—There was one prisoner in the cells last night.

BOARD OF EDUCATION.—A regular meeting of the Board will be held on Tuesday night.

GRAIN, COAL, ETC.—The attention of the reader is directed to the announcement of Messrs. Downey & Preston, Grain, Coal and Commission merchants.

FISHING.—Those who are fond of trolling for black bass can now enjoy the sport to perfection, fishing from Ferry Point westward and return.

P. E. COUNTY SHOW.—The Prince Edward County Agricultural Society will hold their annual exhibition at Pictou, on Friday, 15th of October.

CONFECTION.—In the report of the proceedings of the City Council it was stated that Alderman S. C. Charles moved that the salary of the Chief of Police be reduced to \$200. It should have been "reduced to \$300."

MILK SKIMMING.—Our Tweak correspondent writes that Robert Tule, son of a well-known farmer, was brought before J. A. Reid and Wm. Wray J. P., for skimming his milk before being sent to the Victoria Cheese Factory. The magistrate fined him twenty dollars and costs.

ROBERT BURNS.—Mr. J. B. Watson's lecture on "Robert Burns and his Muse," which was to have been delivered last night, was postponed on account of the small attendance. Mr. Watson, however, gave those present ample proof of his ability as an orator and humorist.

CRICKET.—The international match which is to be played here on Wednesday next, between the Belleville and Onondaga (of Syracuse N. Y.) cricket clubs promises to be of much interest. The match will be played on the field at Syracuse on the 6th of July, and no doubt the home players will make a strong effort to retrieve the laurels lost on that occasion.

ENLARGED.—The reading room of the employees of the Grand Trunk Railway at this depot is now an important fixture and an appreciated rendezvous of those who desire to con over the news of the day, or read works of art or fiction. The library embraces 360 volumes of choice literature, a large variety of magazines and periodicals as well as the leading dailies of the Dominion. It is well fitted up, neatly kept, and is highly appreciated by the men.

TALL CORN.—A correspondent at Thomaburg gives his observations about tall corn as follows:—"I measured a stalk of corn left at J. T. Latchford's Hotel, Thomaburg, by Mr. George Rutledge, who raised it on his farm, lot No. 3, con. 7, Hungerford. It measured 124 1/2 inches from root to top and the top ear shot from the stalk at 7 1/2 inches. The corn was sown broadcast for corn feed, and when seen at a distance looks more like a grove of young oaks than a field of corn."

BUSH FIRES.—Numerous bush fires have been burning lately along the line of the Grand Trunk. A swamp near Trenton has been burned, and last night there was a heavy fire a little west of Sidney siding, where the flames made their way to the track and did some little damage to the ties. The smoke from this fire was thick in town last night, and almost put a stop to navigation on the bay. Our informant gave it as his opinion that but little further damage was likely to result from this fire.

STATE FUNDS.—The Kingston News restoration its offensive remarks as to alleged discriminations against Kingston youths in regattas at Belleville, which statement it says is founded on "personal knowledge of facts." Let our contemporary give the facts, rather than a statement from him, and we will challenge it to do so. Kingston crickets have not always been beaten by the Belleville Club, and it was not our intention to convey such an impression, and if there is no Portsmouth Club, the record of a game played a few weeks ago between Kingston and Portsmouth is recorded in the Kingston papers, mailed people into the belief that there was such an organization.

"ROBERT BURNS AND HIS MUSE."

Mr. J. B. Watson is to deliver his lecture, entitled as above, under the auspices of the St. Andrew's Society on Tuesday evening, 21st inst.

ACCIDENT.—The yacht *Gracie* accidentally collided with the schooner *Perisla* fore yard at Ferry Point yesterday afternoon, with the result that the yacht's topmast was broken and her cross-trees badly bent.

WEATHER PROBABILITIES.—The following are the Toronto probabilities—Lakes south westerly to south westerly winds, gradually increasing in force; fine weather; gradually followed by increasing cloudiness and rain areas to-morrow.

FOR THE HAIR.—W. H. Mitchell—hair dresser—advertises a preparation for the hair, which is said by those who have used it, to be very much superior to a great deal of the stuff that is sold. See advertisement.

NEW AWAY.—As Mr. Finlay Osborne, of Tyndeville was coming to the city this morning accompanied by his daughter, his horse became frightened at the cars and ran away, throwing out both occupants of the buggy. Mr. Osborne was considerably bruised and his daughter received such injuries that it was necessary to resort to medical aid in her case.

BOAT RACE.—The Kingston *Whig* of the 10th inst. says: "A boat race occurred at Mill Point last night between G. Hancock and C. E. Hubbs, for a purse of thirty-five dollars. The distance was three miles with a turn. Hancock was allowed one hundred feet start. When the mile from the starting point was rounded, the turning buoy lights thought to show his friends what he could do and came in winner by easily three hundred yards."

AMBER SUGAR CANE.—The Pictou *Gazette* says: "We are pleased to observe that some of the farmers of this county have taken the initiative in the raising of amber sugar cane, and that quite a quantity has been raised in the townships of Athol and Hallowell, this season. The cane was brought from Dakota last spring, and a goodly number purchased it for the purpose of trying the experiment of raising it. The result has proved very gratifying, as the stalks have grown from 10 to 15 feet in height, and yield a great deal of the juice from which is made the syrup. Mr. Allan C. Young, of Athol, has just completed machinery for extracting the juice, and converting it into syrup. A sample of this syrup has been handed to us, and can be seen at this office. We hope the introduction of the new industry into this country will realize all the expectations of its promoters."

ORDERS SOLICITED.—My ordered clothing department is now complete with the latest novelties of the season, consisting of Irish, Scotch, English, French, German and Canadian tweeds and worsteds, of which I guarantee to fit and trim equal to any tailoring house in Canada, and at the lowest possible price. JAY HENNESSY.

Campbellford Notes.

Campbellford, Sept. 11th, 1880.

It was announced by the Rev. Mr. Hinds, of Christ Church, on Sunday last, that the Rev. Mr. Fomeroy, of St. John's Church, Belleville, would preach at Campbellford on Sunday next, and the Rev. Mr. Hinds would conduct the services at St. John's, Belleville, the same day.

Since the opening up of the G. J. Railway our village has been very attractive. Almost every day a train brings new arrivals at the Windsor Hotel. We now see the names of Professor Williamson, Queen's College, Kingston; Miss Laura Hopkins, Ottawa; Miss McDonald, Kingston; Mr. Ireland and lady, New York, &c., &c.

Messrs. Rathbun & Son commenced their new buildings. The spot selected is where the station was first intended to have been, somewhat nearer the village of course.

Campbellford can boast of one of the best conducted schools in the Dominion, under the instruction of five efficient teachers.

Ferry Point Items.

The hum of business is plainly manifest at the Eagle Mill and the usual activity is apparent in its vicinity. It gives employment to 80 men, whose pay amounts to nearly \$1,000 per month. The average cut is 60,000 feet per day, and the average monthly shipments 1,500,000 feet. The cut, which is put on the Albany market, is sent via Oswego. The mill now has a large supply of logs on hand, and a large tow from Trenton will be added to its already large stock. The mill will run until cold weather necessitates its stoppage.

Mrs. Royal Pansol, whose mishap was recorded in yesterday's issue, was taken home by her husband after receiving the necessary aid from Dr. Williams.

Trade in the business establishments here is not very brisk just now, but its improvement is expected as the season advances.

The Point now boasts of the possession of two hotels, two groceries, two blacksmiths and one wagon shop and a cooper and tin shop, to supply the wants of the residents.

A man named Young left his team in charge of a little boy near the hotel. The boy, landing yesterday morning. The boy, driving the team's whistle caused the horses to run off, but they were stopped after going a short distance. A broken wagon tongue and a badly scared man were the consequences.

Threshing in the vicinity is about over, but the work of fall ploughing has not generally begun yet, as the ground is too hard and dry. In some places two teams have been put on one plough, but not with satisfactory results.

Trolling is very good here just now, and the lake of bass each fine afternoon is very good.

CAPITAL PUNISHMENT.—It has been attempted to be demonstrated time and again that capital punishment is an incentive to rather than a deterrent from homicide. But unfortunately experience, which is the most convincing of all arguments, completely upsets this demonstration of the way things ought to be. Michigan has dispensed with capital punishment for thirty-four years, and in the night of last week there were recorded there twenty-two murders and attempts to murder in the State. The gallows is something of a safeguard after all.

POLICE COURT.

(Before Thos. Holden, Mag., P. M.)

SATURDAY, Sept. 11.

DRUNK.

Wm. J. Sargant was dismissed.

WAGES.

Elizabeth Booth and George Sterling for balance of wages alleged to be due. Judgment was given for \$4.

DISORDERLY HOUSE.

Mrs. Barnhart was charged with keeping a disorderly house, and Ann Barnhart, Lavina Hightower and Charles Barnhart, with being inmates. The evidence of the witnesses was somewhat contradictory, and the girls and the young man were held, whilst Mrs. Barnhart was discharged. The prisoners were remanded till Monday.

Marmora Correspondence.

A former resident of this section writing from the North-west says, "When we passed through Portage La Prairie I went into a hotel called the 'Hastings House' and on the table I was surprised to see the familiar face of the Intelligencer."

Mr. D. Stewart has now begun operations in the Peleg Mine, which has long been leased by A. Mulren, Esq., and it is supposed that he is intending to make a purchase of the property and steadily working the mine in connection with it.

Capt. Miller is also prospecting on a large scale near Malone, but in small quantities as yet he has been found.

A new quarry, it is said, is to be built at the Gating Mine.

The Methodist festival has been postponed until Thursday next, Sept. 16th. The Norwood brass band is to be in attendance during the day.

COMMERCIAL NOTES.

The Hop crop in the Prince Edward district is reported as not being over a two-thirds crop this season.

In Montreal small sales of choice 1879 Hops have been made at 25c to 26c per lb.

TREASURY.—Sales of timber in Quebec during the last fortnight was a lot of 100,000 feet white pine of 72ft and 17 in average at 26c. A good rate of Pine 69 feet average at 22 1/2 and Red pine 35 to 40 feet average at 21c.

Chicago Ahead.

All the world now looks up to Chicago as the great western metropolis of America, being far ahead of all competing cities; but none the less, in its line, is the Electric Bitter. From their real intrinsic value they have advanced to the front, and are now far ahead of every other remedy, positively curing every ailment of the stomach, bowels, and all the kindred troubles. For sale by J. A. Clarke & Co. at fifty cents per bottle.

AFTERNOON DISPATCHES.

San Francisco, Cal., Sept. 10.—A California dispatch says there is a great excitement over the report that the spring in that place carries large quantities of gold in solution. It is said that the owner of a spring has been extracting gold from the water by a secret process, and has converted. For sale by J. A. Clarke & Co. at fifty cents per bottle.

BALTIMORE, Sept. 11.—Smith & Wyck's Air Car Factory was burned this morning; loss, \$50,000. 400 hands are out of employment.

HAVRE, Sept. 11.—The steamer *Frisia* from Hamburg to New York to-day took 1,800,000 francs in gold; 11 indications for the lower lakes, clear or partly cloudy.

WEST PETERBOROUGH, at Peterborough, Oct. 14th and 15th.

A fool once more.

"For ten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or cure her, and I used up a small fortune in buying quack remedies. I saw in a paper a flag with Hop Bitters on it, and I thought I would be a fool once more. I tried it, but my wife proved to be a widow. Two bottles cured her, she is now as well and strong as any man's wife, and it cost me only two dollars." Such poly-syllables.—H. W. Detroit, Mich.

The Greatest Remedy Known.

Dr. King's New Discovery for Consumptive Coughs is the greatest medical remedy ever placed within the reach of the afflicted humanity. Thousands of once hopeless sufferers now loudly proclaim their praise for the wonderful Discovery which they owe to their lives. Not only does it positively cure Consumption, but Coughs, Colds, Asthma, Bronchitis, Hay Fever, Hoarseness and all the affections of the Throat, Chest and Lungs yield at once to its wonderful curative powers as if by magic. Do not ask you to buy a large bottle for ten cents, which will convince the most skeptical of its wonderful merits, and will do for you what a regular one dollar size bottle will do. For sale by J. A. Clarke & Co.

"TREASURY," the newest wonder for whitening the teeth, bleaching the hair, and removing all blemishes from the skin. To try it is to become a friend of the day. Irresistible, popular, Dentifrice of the day.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. LEWIS, Station D, New York City, 450 Sixth Ave.

BUCKLEY'S ATONIC SALVE.

The Best SALVE in the world for Cuts, Bruises, Burns, Ulcers, Salt Rheum, Itchy Chapped Hands, Chills, Croup, and all kinds of Skin Eruptions. This salve is guaranteed to give perfect satisfaction in every case or money refunded. Price 25 cents per box. For sale by J. A. Clarke & Co. 55-1

Commercial.

Wheat is being delivered at 11.10 for fall. No spring wheat offering.

Barley took an upward turn to-day. 65c was readily paid for No. 1 samples full weight, 60lb to 25 lb bush, to be delivered for 100 lb less than full weight. As high as 70c was paid for a small lot, but it was considered an extreme price.

Rye was firm at 75c to-day, in some cases a cent or two more being paid.

Oats—No. 1, 32c to 33c. No. 2, 31c to 32c. No. 3, 30c to 31c.

Peas jumped to 60c to-day, 55c being the ruling price.

A lot of wool are offering to-day. As high as 30c was paid.

For farmer's hides \$8 per 100 lb. in paid, and for butchers' inspected \$9 per 100 lb.

Stagnation was brisk at \$1 for the best.

Trains are run by Belleville time. E. H. BRENNAN, Superintendent.

May 31st, 1880.

MANHOOD: HOW LOST, HOW RESTORED.

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to success, etc., resulting from excess.

Price, in a sealed envelope, only 6 cents, or two postage stamps. The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of medicine, or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land. Address: THE CULVERWELL MEDICAL CO., 111 N. St., New York.

Post Office Box 4585.

SUMMER SERVICE.

ALLAN LINE.

DOMINION IRON LADDER WORKS, KINGSTON.

Patent Iron Ladders with Fire Escape attached.

This subscriber has been manufacturing the above ladders with the fire escape, attached for a number of years past and has placed them on the best private residences, on several churches, on all public schools, hotels, banks, hospitals, charitable institutions, government buildings, military colleges, and other Government buildings in Kingston and Ottawa.

In this city I have placed my ladders on the private residences of John Bell, Esq., W. H. Ponton, Esq., T. S. Carrington, Esq., T. C. Wall, Esq., on the factory of E. Burrell, on the Roman Catholic Church, and on the convent.

Parties wishing to have their ladders made to do so by leaving their orders at the hardware store of James Smith (late O'Brien & Keith's old stand), where they will see sample ladders, and testimonials from parties who have them in use.

I place my ladders on the building, with Fire Escape attached, firmly fixed and painted, for 40¢ per running foot.

All orders promptly attended to.

GEORGE A. RUMRILL, Belleville, June 10th, 1880. 3443m

A Trip to the North-West.

RAPID CITY, N. W. T., August 11th.

We arrived in Rapid City, N. W. T., early this morning and took our departure early next morning. We knew that we had a heavy road before us, as the route was not yet opened.

There is a great deal of money to be made in the North-West, and several of the men who are going there are already assuming a settled appearance. Thoroughly—the water power at the mouth of the Missouri River, in a broad valley, is the best advantage, for the city of the future, Rapid City is built on the city of the future.

Solkirk.

ANOTHER SEAT WON BY THE GOVERNMENT.

Ever since the 14th of March, 1879, when the tariff which is now in force was introduced into the Dominion Parliament, the opponents of the Government have never tired of asserting that the country was a unit against the said tariff, popularly known as the National Policy, which in turn has been abbreviated to N. P. From Halifax to Vancouver, we were assured, the people only needed the opportunity to pronounce against the hated thing; but curiously enough the action of the people has not borne out the statements made on their behalf by the organs and orators of the Opposition. In Nova Scotia a vacancy occurred, but the N. P. candidate had an easy victory; in Quebec, Charlevoix and Argenteuil were won from the Opposition; in Ontario the contests which have resulted since the tariff was changed have added nothing to the strength of the free-traders; British Columbia has pronounced similarly in the one election held there; and Manitoba, with one and a half years' experience of the working of the tariff, displaces the Hon. D. A. Smith, to elect a gentleman in full sympathy with the Government in its trade policy.

Mr. Smith possesses great wealth and much influence; he had represented the division since its creation; he tried to shake off the odium of Gritism by professing independence; but he had too thoroughly identified himself with the Opposition to escape condemnation. The majority against him is very large when the voting strength of the constituency is taken into account, and when his past connection with the riding is considered, and the result shows that Manitoba, like British Columbia, Ontario, Quebec and Nova Scotia, has no desire to return to the hard times induced by the slaughtering of the manufactured products of the United States in our markets. New Brunswick and Prince Edward Island have not as yet been called upon to pronounce on the tariff, but the result of any election in either of those Provinces is not likely to be less favorable than in the other members of the Confederation.

The result in Solkirk is of little importance in one sense, as the gain of a seat to the Government is of no consequence, but as showing that the Prairie Province is in hearty accord with their policy, by giving a verdict in favor of a common sense trade policy where such was refused in 1875, the result is satisfying in the highest degree, and we congratulate the Government and the country upon it.

A Deserved Rebuke.

The Toronto Telegram thus fittingly rebukes the Globe for printing a base attack on Sir Leonard Tilley:—"Not content with pouring bile and venom into its opponents through its editorial columns, the Globe has descended one more rung in the ladder of infamy journalism, and now opens its correspondence columns to letter-writers if it does not inspire the correspondents—of whom there are a few ever anxious to throw mud. The first man to be assailed with this species of brigandage was, of course, Mr. Goldwin Smith. The next is the man who, after Mr. Smith seems to enjoy the largest share in the honor of Mr. Gordon Brown's hatred—Sir Leonard Tilley. Unable to detect a speck upon the moral character of this true-hearted Canadian, Mr. Gordon Brown exults in printing a letter imputing to Sir Leonard hypocrisy. That the assent of the letter was no oversight is attested by the insertion of a reply, in which it is said Sir Leonard 'is not willing to make himself all things to all men, gain votes.' When Mr. Tilley was governor of New Brunswick, no such letters would have found a place in the Globe, but since Sir Leonard Tilley has been Finance Minister he has been considered a fair mark for journalistic filth. As lieutenant-governor Mr. Tilley was an acceptable, but none the less, ornamental figurehead; as the careful financier, who is trying to avert the tide of ruin, Sir Leonard Tilley is another man altogether. All true Canadians take a pride in Canadian institutions, and the time when the Globe was esteemed a monument of journalistic enterprise and power, and it deserved to be esteemed. But that day passed away when the late Senator devoted himself to commerce."

SHOCKING OCCURRENCE.

Two Little Girls Attacked by a Cow and One of them Badly Hurt.

On Sunday, 12th inst., as the children from the Methodist Sunday School, Trenton, were going home, two little girls—one the daughter of Capt. Porto and the other the daughter of Isaac Nelson, Esq.—were attacked by a cow which was being driven by a man. The cow charged on the children and impaled the little daughter of Mr. Nelson upon her horns. The horn struck the child on the left cheek and tore the flesh through to the mouth and passed on and fastened in the opposite cheek, and that so strongly that the poor child was lifted up and borne along on the cow's horn for a distance of 25 yards, when the animal bent down her head and let the child drop off. When the cow first lifted the child, her companion, Ethel Porto, clung to her hand and tried to pull her away from the cow. In fact it is strange how the little girl escaped, as she was on the side nearest to the cow when she rushed at them. Little Miss Nelson is only four years old, and may not be so badly disfigured as she was older. At present she is a great sufferer and the end cannot be calculated. The cow is said to have been known to attack children before.

Trenton Notes.

Trenton, Sept. 12.
Rev. Dr. Woodhead had a very narrow escape last Wednesday evening. He was at the G. R. depot to meet a friend, and in attempting to get off the train while in motion he fell between the cars and the platform. A gentleman who saw him fall told him to lie down, thus escaping a horrible death.

The steam barge Indian, belonging to Messrs. Gilmore & Co. got aground opposite the mill last Saturday. A tug was sent for, which worked nearly all day Sunday before she got free. The barge was laden with 125,000 feet of lumber. A tug came to look up 20,000 feet of her load before the tug came.

The contractors for the new wing bridge have resumed work. They have employed a couple of divers to examine the bottom of the coffer dam, and will place a new coffer dam down. The county has granted him an extension of time for the completion of the contract.

Madoc Correspondence.

Madoc, Sept. 13.
The funeral of the late George Rollins took place from the residence of his father, Samuel Rollins, on Saturday, 11th inst., and was largely attended. He was a young man who was highly respected by all who knew him, and his parents have the sympathy of the whole community. The procession was headed by the Oddfellow's band, and the lodge of which deceased was a member.

Grain has begun to come in, of which our farmers have a good crop, and if the prices would only advance, there would be a rush for the next month.

The parsonage being erected by the members of the Church of England is of brick and almost ready for the roofing. It is a good size and will be a welcome addition to our village, and will be appreciated by their minister.

The M. E. Church is being pushed forward rapidly, and will be a credit to the congregation.

Mining is being pushed along and looks as if it was going to be permanent. The owners of the slate quarry are manufacturing slate of a good quality.

Bear Hunting at Home.

Seven Bears Killed in Twenty-four Hours in the Sine Settlement.

The Stirling News Argus relates the extraordinary success of a party in hunting bears in the Township of Rawdon, as follows:—"On Wednesday afternoon last a short season of sport commenced in the Sine settlement, such as has not been enjoyed in this township for many years. About four o'clock the family of George Tucker, living in the 6th concession, discovered a she-bear and two cubs on the place. The alarm was given, and the whole neighborhood turned out, forty-seven persons in all, thirteen of whom were women. The three bears were followed from farm to farm for about two hours, the hunters being armed with rifles, bowing pieces, tin pans, bells, clubs, and every conceivable kind of weapon. A stranger might have thought all the bees of the township had been brought to the place. The bears were brought to bay; Wm. Sarles and Lewis Deane brought down the old one on the farm of John Wright, while Wm. Waller and D. Sealey, Jr. who chanced that way, and took a hand in the sport—each killed a cub, on the farms of Walter and Wesley Sine, respectively, which it was supposed, ended the hunt.

"Not so, however, for next (yesterday) morning, about seven o'clock, a she-bear with three cubs was seen on Mr. Geo. Hatten's place, in the seventh concession, and again the chase commenced. This time only about thirty turned out, and the thing was pursued in a little more business-like style. These three old bears and one cub were shot by Lewis Deane, on Jas. Tanner's farm, a second cub by Wesley Sine, also on Tanner's farm, and the last by Jacob Sine, on the farm of Mark McMurtry. The skins were sold, realizing about \$8, and the money divided among the crowd, and the carcasses were also shared out, each one of the crowd receiving a 'feed.' In the first hunt, those who shot the game claimed it.

"The whole incident is remarkable, as such a thing seems hardly possible as that two families of bears should be living in a wild state on so thickly populated a township as Rawdon, and especially in the Sine settlement. Two years ago Sine saw a grown bear on his farm, only about four miles from Siding, in the fifth concession, but it did not occur that more might be found."

Correspondence.

Willist correspondents will be accorded space for the expression of their views on topics of public interest, it being in all cases understood that the views expressed are simply those of the correspondents themselves.

For the Intelligencer.
"Bumpy-Bump," or "Holiday in the North."

MR. EDITOR.—I notice in the Weekly Intelligencer of 29th Aug. a strange but somewhat laughable communication, not signed. Taking for granted that the title was the concluding part of the "honeymoon," I proceeded to make a few comments thereon.

"Bumpy-bump" and the rough roads, broken and jagged, and the hills on top of a young married couple, especially that part where the parties went "backwards, forwards, up and down, now in your own place, next moment in the lap of one sitting next you." How delightful to young beginners, and the latter agreeable, but where could this writer have been all his days until he arrived at marriage, able age, not to know of bad roads? I might suppose that in infancy he had been rolled up in a long-handled, allowing room for exposure, and had only lately come to the light just in time to find that we have bad roads in Canada.

As to the Hastings Road, it, no doubt, is not a gravel road, but it is far better road than the one used to have in the County 50 years ago. A road that can be travelled over from Bridgewater or Madoc easily in a day, as I and others have, and in some cases 60 miles has been made in a day, it is therefore decidedly wrong to give such a fearful description of the road as your anonymous correspondent has given, as his account is highly colored. I should be pleased when he takes his next wedding trip "North" to be along to enjoy the most interesting performance he so graphically describes.

The next thing I would notice is his visit to Bancroft. He states:—"We visited York River (sometimes called Bancroft) which the people of that part object to." Did he get his information from Mr. Clark, or any member of his family, or any one else at Bancroft? or did he not rather obtain it from a tit-bit-lace point of view? Yet, it matters not, the place has its proper name as a village, and York River runs through it.

Again, your correspondent enters into the District Court line. He does not know anything about the real position of that part of the county, and no doubt obtained his information, as to the "Geographical Centre," and the "Granitic, Pelagitic, Algonquian, Rock," at that point, but which he affords no information, it may be these things escaped his notice while at L'Amable.

I trust when the next wedding trip is taken the road may be better, for I am a lover of gravel roads, yet I cannot call that a bad road that I can travel over from 50 to 65 miles between breakfast and bedtime, and I would not write a word about the gentleman's visit "North" only I don't like to have our roads made any worse to the outside world than they really are, be the parties married or a bachelor.

Yours, &c., &c., BILLA FLINT.

Belleville, 13th Sept. 1880.

MORNING DESPATCHES.

EUROPEAN.

MADRID, Sept. 13.—At the baptism of the new born Princess to-morrow, the patriarch of the Indies, Cardinal Beaudouin, will baptize her with water brought from the river Jordan in Palestine for this special purpose in June last. At the christening the Cardinal bishop of Toledo will represent the Pope. The form to be used is the same that served centuries ago for St. Basil, Donago and was brought down from a celebrated convent in Austria. It is stated as good authority that Canova del Castillo intends proposing to King Alfonso to grant a plenary amnesty to the most of the Cubans detained in Spanish forts or prisons at present servitude on the occasion of the Queen's delivery. Calixto and about 30 others would be excluded from the amnesty.

AMERICAN.

OWENSON, Ky., Sept. 13.—At a picnic twelve miles from here yesterday, a drunken row occurred between three brothers named Smith, and the betters named Hammond and a half brother of the Hammonds named Acres. Acres was shot in the head and instantly killed. His half brothers Hammond were all wounded, Jonathan and Sam mortality. The Smiths have avoided arrest. They are sons of G. W. Smith, Justice of the Peace, and are good citizens.

NEW YORK, Sept. 13.—Arrived, the *Edipia* from Glasgow, the *Ottawa* from Hull, the *Harold* from Quebec, and the *St. George's* from St. John's. The *Edipia* adopted a memorial to the Governments of Great Britain and the United States, which has just reached the state department. It asks the Government to take measures to prevent misrepresentation, by which a large number of persons are induced to abandon England and emigrate to America, where, instead of being welcomed, they are met by a cold and returned by charity of their countrymen. The memorial asks that information about this country be extensively circulated throughout Europe to prevent misrepresentation by agents of transportation lines.

NEW YORK, Sept. 13.—The brig *Captain* arrived yesterday bringing the captain and crew of the British brig *S. A. Snow*, abandoned in a sinking condition in mid-ocean during a severe hurricane on August 26th. The captain of the bark which arrived from London yesterday states that he passed 16 large icebergs in the neighborhood of the banks of Newfoundland on the 24th and 25th August.

Samuel Thompson, of Newark, re-motored Saturday night with a stranger he met on the street. The stranger, John Warren, without a word, shot Thompson through the head. He will probably recover.

Chicago Ahead.

All the world now looks up to Chicago as the great western metropolis of America, but none the less, in its life, is Electric Bitters. From their real intrinsic value they have secured to the front, and are now far ahead of everything else. To try them is to be convinced. For sale by Jas. Clarke & Co. at fifty cents per bottle.

THE SHAMING DISASTER.—Thirty corpses had been recovered from the *Beulah* pit up to seven on Friday evening, when the search was suspended in consequence of an accumulation of gas. The Government Inspector has officially announced his conclusion that the number of dead is close upon 165.

For Sale or to Let.

TO RENT IN RUTHERLAND'S TERRACE.—The house at present occupied by Mr. Wolfe, or also the house lately occupied by Mr. Frederick Lingham. Apply to N. B. FALKNER.

TO LET.—The store on the east side of Front Street next the Bank of Commerce, now under lease to Hiram & Sutcliffe. Possession given on the 15th day of October next, at which date present lease will have expired. JOHN BELL.

\$2,600 WILL BUY A Farm, twenty or thirty acres, with a grocery, near door to Moore, J. W. Yonkman & Co's. drug store. Apply to

TO LET.

THAT commodious store formerly occupied by Mr. John Cook as a grocery, near door to Moore, J. W. Yonkman & Co's. drug store. Apply to

T. LOCKERTY, Tolsonian, 2 doors north, d. st.

MITCHELL'S CANADIAN HAIR RESTORER

HAIR RENEWER.

Grey and Faded Hair Restored to its Natural Color.

Equal to the best and cheaper than similar preparations imported, which often injure and destroy the hair. Price, fifty cents.

Read the following testimonial:—

BELLEVILLE, Sept. 3rd, 1877.
MR. W. H. MITCHELL,
DEAR SIR:—I have used your Canadian Hair Restorer, and find it to be a good article, the best I have ever used, and knowing all the ingredients of which it is composed, I can recommend it to the public as a valuable preparation, free from all poisonous qualities. JAMES FORD CURRIE, M.D.

For Sale by all Druggists. 1124ly

For Picton, Daily, at 3 p. m.
For Picton, Daily, at 3 p. m.
The stages arrive in Belleville about noon each day.

Daily Intelligencer.

BELLEVILLE, MONDAY, SEPT. 13.

5 O'CLOCK EDITION.

City and Vicinity.

THE CELLS.—Two prisoners occupied the cells since Saturday night.

THE RIFLE.—A meeting of the 49th Battalion Rifle Corps will be held at Hamley's to-night, to arrange for the annual prize meeting.

SWARMING.—A hive of bees swarmed on the north side of the market building on Saturday—rather an unusual sort of locality for such an occurrence.

COLLISION.—A collision occurred between two baggies on Front Street on Saturday night. The driver of one of the vehicles was thrown out and had an arm broken by the fall.

THE TORONTO AND OTTAWA.—Says the Toronto World: "It is reported that the result of the examination of the Toronto & Ottawa R.R. by Mr. Gooderham's engineers is an estimated cost of \$60,000 to build the road from Toronto to Ottawa."

IRON MINING.—A gentleman who has lately visited the Madoc iron mines gives a highly encouraging account of them. Work is being carried on vigorously, the output is very large, but will at once be increased, and the permanency of the deposits has been manifested beyond question by the latest operations of the miners.

A NEW DRESS.—The Kingston Whig appeared on Saturday in a new dress of type, which adds much to the appearance of the paper. The Whig is now one of the handsomest, as it has always of late years been one of the newsmen of our exchanges.

CRICKET.—The long delayed and much sought for contest between the Onondaga Cricket Club of Syracuse, N. Y., and the Belleville Club will take place on the grounds of the latter organization here tomorrow. Both teams are expected to present their best material for this occasion, and therefore an excellent game may be witnessed by all who take an interest in that class of sport. The Syracuse Club will arrive tomorrow morning on the 6 o'clock train.

RETURNED.—Mr. Hambley, of the Hastings Land Purchasing Association, has returned and is looking well after his long journey. Messrs. Ashley and Hamilton are expected on Wednesday. Mr. Hambley reports having located a splendid tract of 33,600 acres 165 miles from Winnipeg, on the line of the Manitoba and West Western Colonization Railway.

RAIN.—There was a very welcome fall of rain, which lasted for two or three hours, during the night or early morning. The quantity of rain that fell, whilst it will not suffice for the purpose of the farmers in general, has yet been sufficient to refresh the cisterns and lay the dust in the city, and probably to quench some of the bush fires in the neighborhood.

LAWN SOCIAL.—A Lawn Social will take place at the residence of Mr. R. Newbery, South John Street, on Tuesday evening next, Sept. 14th, at the hour of half past 7 o'clock p. m., under the auspices of the "Gladie Aid" of the City of Hastings.

THE GRAND JUNCTION.—The Peterborough Times says:—"The completion of the grading of the above railway into town is near at hand, and very soon the music of the steam whistles will be heard between Belleville and Peterborough." Last Tuesday the Secretary, Mr. Sutherland, distributed several thousand dollars in paying up the men and settling accounts here. The Review adds:—"The Grand Junction Railway Company are discharging a large number of the workmen on this end of the line, the work upon which they were employed having been completed. The line from Downer's Corners to the Midland Railway track is ready for the line and rails, the latter are being placed all along the line, waiting for the ties to come. The men will be paid off next Tuesday. They expect to run a train to Peterborough in about three weeks' time."

APPOINTMENT.—Mr. W. H. Bigger, barrister of this city, has been gazetted as a Notary Public for Ontario.

PERMISSION.—Mr. Harry Lawlor, medical student, who has been domiciliated in town for eighteen months past, will leave for Kingston tomorrow.

WEATHER PROBABILITIES.—The following are the forecasts for the week ending September 13th:—Lakes fresh to brisk westerly to westerly winds, fine and cooler weather, and fairly cool weather to-morrow.

VANDALISM.—On Saturday night some unknown vagabond removed one of the rods which form the top railing of the upper bridge and threw the same into the river, where it was recovered. Such conduct is purely mischievous and deserves severe punishment.

LITTLE'S LIVING AGE.—The numbers of The Living Age for the week ending September 4th and 11th respectively, contain the following articles: Mario Antoinette, Quarterly; The Place of Socrates in Greek Philosophy, Westminster; A Reindeer Ride through Lapland, Blackwood; Minutes, and "The Ship of Fools," Cornhill; Magoon, Good Words; Annals, Macmillan; Aristotle on Free Will, A Scotch Tutor, and Canons, Spectator; Early Friendships, Globe; and in the way of fiction, "The Portrait of a Painter by Himself," and "A Trip, and what followed," with the usual amount of poetry. For fifty two numbers of sixty-four large pages each (or more than 3,300 pages a year), the subscription price (\$8) is low; while for \$10.50 the publishers offer to send any one of the American \$4 monthlies or weeklies with The Living Age for a year, including the extra numbers of the latter, both postpaid. Little & Co., Boston, are the publishers.

ORDERS SOLICITED.—My ordered clothing department is now complete with the latest novelties of the season, consisting of Irish, Scotch, English, French, German and Canadian tweeds and worsteds, of which I guarantee to fit and trim equal to any tailoring house in Canada, and at the lowest possible price. JAS. HENNESSY.

COLOUR COURT.

(Before Thos. Holden, Esq., P. M.)

MONDAY, SEPT. 13.

DRUMHEADY HOUSE.

Charles Harshart, Ann Harshart and Lavina Harshart, remanded as inmates of a disorderly house, were discharged.

George Elmy was discharged.

VAGRANCY.

Fred Conlin, a boy, was allowed to go. Mary Rest was sent to goal for six months.

Assault.

Daniel Chrysler, charged with loitering and resisting the police, was fined \$1 and costs.

INDIAN AFFAIRS.

THE AFGHAN SITUATION.

AN OUTBREAK IN HERAT.

LONDON, Sept. 12.

The Victory of India telegraphed that Major McGregor's brigade marched from Candahar on the 8th inst. to ease the pressure there with regard to supplies. General Roberts accompanied Major McGregor, and will meet General Sandeman at Kala Abdullah to discuss questions relative to the transport of supplies between Sibi and Candahar.

SIBI, Sept. 12.—A serious insurrection has broken out in Herat. The Governor of the city has been murdered. Ayaz Khan, accompanied by his principal officers and several hundred horsemen, have passed Zambidar on the way to Herat. Major McGregor, with a brigade of British troops, has marched for Kala Abdullah, near the Pishawar Pass.

AFTERNOON DISPATCHES.

LONDON, Sept. 13.—A meeting will be held at Aconington and Great Harwood this evening to ascertain the feeling of the cotton operatives. The Wages Committee will also meet at Blackburn this evening to consider the result of these meetings.

A despatch from Constantinople on Saturday says that on Wednesday the Sultan, who had seemed to be in a conciliatory mood, and had changed his tone and reproached Abdin Pasha, the late Minister of Foreign Affairs, with making unnecessary concessions to the powers in the Danubian affair. There can be no doubt that the change of tone of the Albanians and of the palace are intimately connected, but it is not easy to determine whether the Albanian menace of resistance frightened the Sultan, causing him to abandon his intention to cede Dulcigno, or whether he never really intended to cede it, and privately instigated renewed resistance.

WASHINGTON, Sept. 13.—In a letter from the late James Southwell, writing to cooler winds; partly cloudy, occasional rains.

FOR ALL FEMALE COMPLAINTS.

Nothing equals Dr. Pierce's Favorite Prescription. It is a most powerful and reliable tonic, also combining the most valuable nerve properties, especially adapted to the wants of debilitated ladies suffering from weak back, in and fever, congestion, inflammation, or ulceration, or from nervousness, or neuralgic pain. Mr. G. W. Seymour, druggist of Canton, N. Y., writes Dr. Pierce as follows: "The demand for your favorite prescription is wonderful, and one man stated to me that his wife had taken a day's work in five months, when she commenced taking your favorite prescription, took two bottles and is now on the third bottle, and is able to do her household work and milk four cows twice a day." Dr. Pierce's Favorite Prescription is sold by all dealers in medicines.

The Greatest Remedy Known.

Dr. King's New Discovery for Consumption is certainly the greatest medical remedy ever placed within the reach of suffering humanity. Thousands of once hopeless sufferers now proclaim their praise for this wonderful Discovery to which they owe their lives. Not only does it positively cure Coughs, Colds, Asthma, Chronic Bronchitis, Hay Fever, Hoarseness, and all of the Throat, Chest and Lung ailments of which the human race is afflicted, but it cures the most inveterate curative powers as well. We therefore earnestly request you to call on a bottle for ten cents, and get a trial. You will find it to be so, and receive the most skeptical of its wonderful merits, and will do. For sale by Jas. Clarke & Co.

Honored and Blessed.

When a board of eminent physicians and chemists announced the discovery that by dissolving some well known valuable remedy, the most powerful and reliable tonic, also combining the most valuable nerve properties, especially adapted to the wants of debilitated ladies suffering from weak back, in and fever, congestion, inflammation, or ulceration, or from nervousness, or neuralgic pain. Mr. G. W. Seymour, druggist of Canton, N. Y., writes Dr. Pierce as follows: "The demand for your favorite prescription is wonderful, and one man stated to me that his wife had taken a day's work in five months, when she commenced taking your favorite prescription, took two bottles and is now on the third bottle, and is able to do her household work and milk four cows twice a day." Dr. Pierce's Favorite Prescription is sold by all dealers in medicines.

Daily Intelligencer.
BRIDGEVILLE, TUESDAY, SEPT. 14.
Land-Grabbing.

The Globe says, in its issue of the 10th inst.:

The Belleville Intelligencer knows perfectly well that the Globe has never denominated any body for buying land on speculation in the North-West, no matter what his political views may be, and yet it accuses us of conducting the practice. What we have condemned, and what every enlightened Conservative condemns, is the system which permits and encourages such a practice. So long as the system exists, no man is to be condemned for taking advantage of it. This charge is of a piece with the untruths about the Globe's hostility to manufacturers. Like the land speculators, they have a legal right to take advantage of a protective tariff to make as much money as they can. The authors of the system are in each case responsible for the harm done, not those who, under cover of that system, invest their money in ways which have been made legitimate by Act of Parliament or order in Council.

We cannot—and we incline to the opinion that most people will be similarly convinced—draw the only distinction which the Opposition organ does, as above. In our opinion wrong is still wrong, although the action which is plainly not right, may not be expressly forbidden by law. It clearly cannot be right on the face of it for Sir Richard Cartwright to denounce land speculation and yet to speculate in land; and it is clearly not proper for the Globe to attack the land regulations for—as it asserts—permitting and encouraging the buying of land on speculation and at the same time to hold the speculators as being free from blame. Certainly if land speculation be wrong, the land speculators cannot be in the right, and therefore they must be worthy of reproof. Let our contemporary furnish up its logic and see if the denunciation of the regulations which it says do not forbid a practice which it condemns as improper and injurious to the country, does not involve the individuals who thus do what it in express terms declares should be provided against. Any conclusion other than this is the very latest kind of logic.

The U. S. Electoral Vote.

The census recently taken in the United States promises to have an important effect on the political power of the different sections of the country. The Philadelphia Times has made a compilation and classification of the figures, which shows the gains and losses by States, but the recapitulation, which follows, will suffice to show all that is required:

	1870	1880	Loss	Gain
New England States	1,110,000	1,200,000	90,000	—
Central States	1,110,000	1,200,000	90,000	—
Western States	69,000	77,000	8,000	—
Pacific States	69,000	77,000	8,000	—
Slave States	38,000	144,000	106,000	—

By this table it will be seen that New England loses three votes in the electoral college; the great central states lose five; the western States gain eight; the Pacific States gain one, and the old slave States gain six. This estimate is forecast on the assumption that the number of congressmen will be increased to three hundred; but the result would be proportionately the same no matter how large the House of Representatives may be made, as the population must govern in any case. The Times remarks that Texas, which was, within the memory of many present readers, the Botany Bay of the continent, now equals Virginia and Michigan, and is clearly abreast of Massachusetts, Kentucky and Indiana as a mighty commonwealth, and is certain to surpass them all before the close of the next decade. The Pacific States have made little progress and give no token of a large increase in the future. They have now a power in the electoral college greatly in excess of their population when compared with the older States. The west and the southwest show the highest degree of advancement. Kansas, Minnesota, Nebraska and Texas give the belt of the United States to what agricultural emigrants look with the greatest favor.

AFRICA.—The French expedition which started up the Niger in April last was attacked by a thousand natives and forced to retire with fourteen killed, eleven wounded, and all the baggage lost. It retired and started on another route.

AFRICA.—There is likely to be a large business transacted at the Toronto market within the next two months. Shipments to Great Britain is a thought will exceed those of last year. Packing operations have begun and winter sales will be ready very shortly.

News Condensed.

—Reports cattle are reported to be very scarce in Quebec.
—The health of Hon. Mr. Laflamme has greatly improved.

—The body of a woman, apparently thirty years of age, was found floating in the Toronto bay on the 13th inst. She was dressed in black, and could not have been long in the water when discovered. There were no articles on her person that would lead to her identification.

Grave Desecration.

The monument erected to the memory of Robert McAnley, a prominent Orange Young Briton of Ottawa, has been destroyed by some fiend. It will be remembered that the body of McAnley was found in October, 1878, with a bullet hole in the head. The evidence that came out at the inquest went to show that a murder had been committed, and that the man who had slain the victim was the man who had been buried in the grave. The body of McAnley was found in the grave, and the evidence that came out at the inquest went to show that a murder had been committed, and that the man who had slain the victim was the man who had been buried in the grave.

Toronto Exhibition.

The second week of the exhibition opened quite favorably, the weather, though cool, being very pleasant. Before noon a large number were on the grounds, and the Caledonian games in the afternoon drew out the largest crowd that has been in attendance since Saturday. Arrivals at the live stock department have been very numerous, and a large and creditable display will be made. The poultry show will not be opened until to-day. The floral exhibit is being removed to make room for the fruit display, which will also be ready for inspection on Tuesday morning. In the main building the Manitoba exhibit is the centre of attraction.

The Barely Trade.

The shipment of barley to Oswego began on the 7th instant, twenty days earlier than last year. The schooner Richmond to-day loaded 9,000 bushels, and the Janet McDonald 5,000 bushels, at Wolfe Island. Freight to Oswego range from 2c. to 2 1/2 c. It is expected that trade will be lively for the next few weeks. There is no change in prices to report.

The Latest Swindling Trick.

How a Few Public Men were Taken in and Obligated to "Fork Over" in Order to Escape Exposure.

The Montreal Star gives the following as the latest swindling trick:—"Within the last few months a man and his wife, hailing from Belgium, took up their abode in a house near the corner of Vito and Germain streets. Soon after 'settling down' an advertisement appeared in a French journal, the contents of which the following is a correct translation:

HAVANA CIGARS.—Gentlemen desiring the best of Havana Cigars, wholesale or retail, will please call at—Vito street. Although the address indicated was to all appearance a private house, a number of parties called to see the fragrant Havanas, the first caller being an auctioneer. He was shown into a room nicely furnished, and after waiting an instant a handsome young lady seated herself by the side of the thoroughly surprised visitor. At first he felt inclined to talk of the business that had led him thither, but gradually he allowed himself to forget it altogether, as his spirits rose higher with the wine liberally supplied him by his fair hostess. At length the pair got very familiar and the gentleman began to take liberties (l) with his fair hostess. But alas! while the auctioneer was reveling in the height of ecstatic bliss, the door of the apartment opened and a fierce-looking husband appeared upon the scene, with a revolver in each hand. The unfortunate culprit endeavored to explain, but the infuriated Belgian would not listen to reason, and made desperate threats of blowing his brains about the apartment. The end of the affair was that the auctioneer was allowed to go on payment of \$200 to the injured (l) husband. The next person to swell the list was a Craig street saloon keeper, whose experience was exactly similar to that of the other, the only difference being that he got the half price.

The third hailing of the line showed an ex-alderman dangling on the hook, whose appearance indicated him to be the possessor of more than his share of this world's goods. When the enraged husband appeared in the room and surprised the pair, the wife, as usual, looking horrified and appealing for pardon, the ex-official took in the situation at a glance. Throwing off his coat he pounced upon the Belgian, and in an instant he disarmed him by sending the pistol flying across the room. He then terminated the affair by kicking the other for about ten minutes, until he screamed for mercy. In order to observe the *modus operandi* of the pair, reporter called yesterday at the address indicated, but was refused admittance. On knocking the door, it appeared to him that the sharpest fear exposure, and will for a time refuse to admit any one. The detective knew of the case, but owing to the difficulty of getting a prosecutor it is likely that husband and wife will go unpunished.

Nihilism in England.

ATTEMPT TO BLOW UP A TRAIN WITH A RUSSIAN PRINCE ON BOARD. MIRACULOUS ESCAPE OF THE PASSENGERS.

LONDON, Sept. 13. A most diabolical attempt was made to-day to wreck the down express on the North Western Railway. This train, which comes from Edinburgh and Glasgow, it appears, was supposed to carry among its passengers the Russian Grand Duke Constantine, Admiral Popoff, of the Russian army, and some other Russian officials who had been visiting Greenock for the purpose of examining certain new vessels now in course of construction there. The nihilist refugees in England, it is believed, had concocted the plan of blowing up the train and destroying these officials, as well as the other passengers, for the purpose of demonstrating that even in England the life of a Russian Prince and his aides were not safe from their vengeance. By a most providential interposition, this well laid plot failed of accomplishment, although the escape was a very narrow one. Near the station of Busby, a village not far from London, some plate-layers working on the track discovered, at a spot over two hundred yards from the village, some fish-plates which had been tampered with. The foreman of the plate-layers made an examination, which resulted in the discovery that 4 lbs. of dynamite had been placed under the plates. The plates which joined two of the rails had been removed and the dynamite placed underneath. The dynamite was connected to an india-rubber tube containing gunpowder. The locomotive in its passage cut this tube in half, but at a point where, by an almost miraculous accident, the severed ends which were intended to fire the dynamite had been misplaced. They failed to explode, and the train passed in safety over what was designed to blow it and its passengers into eternity. This train had passed only a few minutes when the discovery was made. Intelligence of the affair was at once sent to London, and the most skilled detectives of Scotland Yard with their foreign auxiliaries are now seeking to discover those who devised and tried to execute this horrible plot. Happily the chances of their detection are good. A careful record is kept of all refugees from Russia, and suspicion already attaches to a lady and gentleman who have been often seen near by, and to some companions of theirs who frequently met them at a house near that place.

Evidence of Prosperity.

The statement of the business of the Post Office Savings Bank for the past year, as compared with the eleven preceding years of its existence, has been published. Both the number and average amount of deposits have greatly increased during the past year. This appears on the face of it satisfactory, and we have no reason to doubt that it is an indication of true prosperity.

A Boy named Montreal.

A boy named Montreal, a day or two ago, received a letter that terminated fatally.

Correspondence.

Whilst correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views expressed are simply those of the correspondents themselves.

For the Intelligencer.

Charles McDavitt, Reeve Bangor, et al.

Mr. Editor,—"When I wrote a communication for your issue of 13th August, I had no design in so doing to wound the feelings of 'Charles McDavitt,' Esq., 'Reeve Bangor, et al.," and regret that he should take the matter so seriously to heart, but as he seems from his communication to your issue of 13th August, to feel that I will make him this proposition, if he will consent thereto. We will call a jury of 12 young ladies, he choosing one-half and we will leave the matter in dispute to them, and their decision shall be final. If it is agreed with me as to 'Charles McDavitt, Reeve Bangor, et al.," and give in a verdict that I have done wrong in stating that he 'leads a most miserable life for the want of a lady to fill the place of wife and housekeeper,' then I will do all in my power to make the 'couple honorable.' I will pull off my hat and make a low bow, or apologize through the press.

There is another part of 'Charles McDavitt, Reeve Bangor, et al.' letter, which, I must state, I do not agree with me as to the Hon. bills in question that unmarried men, not being troubled with the cares of domestic life, have too much leisure time to study the designs of men engineering projects for the advancement of their particular aggrandizement! If by this he means in reference to a petition I took out to for a change of the Division Court, I would just state, that I felt it my duty to consult his lordship as well as Reeveship on the subject, before circulating the petition for signatures in his municipality, and to do this in a friendly manner was the sole object of my visit, and in conferring with him on the subject I altered the petition at his suggestion and placed the name of Maynooth before Bancroft, the Reeve agreeing to copy it and circulate it, and as I understood I was to send it to me at Bancroft or Belleville, which he did not do, nor did he circulate the petition as agreed to, Bancroft having been left out, no doubt designedly.

Had the Reeve said otherwise I should not have left the amended petition for him to alter contrary to what I considered was a mutual understanding between us. If this is what bachelors do the sooner he gets married the better, and by so doing he may possibly learn not to use deception with a Benedict.

Yours, &c., &c.

BILLA FLINT.

Belleville, 13th Sept. 1880.

MORNING DESPATCHES.

EUROPEAN.

LONDON, Sept. 14.—Arrived out, Radnorshire, Gloucester, Yeddo, Kepler, North British and Ben Lomond.

AMERICAN.

AUGUSTA, Me., Sept. 14.—No returns to show how the vote on the constitutional amendments have gone. The vote for governor is very close in this State. It is impossible to tell what the result is to-night.

BIRMINGHAM, Ala., Sept. 14.—Ben. Smith and Louis Leard fought a prize fight yesterday for the colored championship of Alabama. Smith won in about five minutes.

ST. JOHNS, N.B., Sept. 14.—Jas. Gordon Bennett and Elliot Borowski made a wager as to their relative proficiency as stepladders. On the respective capacity of the two favorite stepladders Bennett gave odds of \$2,000 to \$400. The match was set for yesterday, but Bennett failed to appear and paid forfeit.

JACKSONVILLE, Fla., Sept. 14.—The Capt. of the schooner *Rosa Eppinger* arrived, reports his vessel lost on Sept. 29th on the Florida coast. His son and a colored boy were lost.

Another captain arrived reports that on Sunday he saw a wrecked steamer east of Cape Canaveral. He saw plenty of wrecks along the beach, containing guns from Jupiter light to St. Augustine.

ST. JOHN'S, N.B., Sept. 14.—The steamship *Flavor* wrecked on Great Island reef, but was successfully towed into port yesterday. Her cargo boxes were found to contain powerful magnets, to which her deviation from the course is attributed.

NEW YORK, Sept.—The *Times*' Augusta special says the result is a disappointment to the Republicans. It is attributable to the liberal use of money in large towns where voters could be easily reached.

Washington special: The *Herald* says the United States steamer has been sent to Gen. Boulanger to strengthen the hands of the *charge d'affaires* in making the demand for the punishment of the murders of Parsons, the American missionary.

BROOKLYN, Sept. 14.—Wm. Matthias fired three shots at his wife last night without hitting her, and then shot himself, probably fatally.

NEW YORK, Sept. 14.—Jacob Sheffer, the well known billiardist, is ill, and it is feared he will not be able to play the coming match with Sloan.

The *Tribune* says the trade in live cattle between this country and Europe, begun a few years ago as an experiment, has increased to a remarkable extent, and is superseding that in dressed meats. The shipments last season were 145,324 head; thus far this year 118,000. The amount of trade in money is from \$32,000,000 to \$35,000,000 a year for the entire trade of the country.

NEW YORK, Sept. 14.—Arrived, the *St. Laurent* from Havre.

RAILWAY MAKING.

Messrs. Bowie and McTavish, having returned to Ottawa, from an inspection of the several hundred miles of railway located west of Winnipeg, the work of construction will be pushed on vigorously. It is said the workshops and repairing sheds for the central prairie section will be established at Odanah, adjoining the station in that town.

Chicago Ahead.

All the world looks up to Chicago as the great western metropolis of America, being far ahead of all competing cities; but none of the cities in line, is so quick to retaliate. From their rival interest value they have advanced to the front, and are now far ahead of all other remedies, positively curing what everything else fails to cure. There is no to be convinced. For sale by Jas Clarke & Co at fifty cents per bottle.

"TEABERRY," the newest wonder for whitening the teeth, delightfully refreshing the mouth. To try it is to become a friend to the healthy, irrefragable, popular Dentifrice of the day.

For Sale or to Let.

TO RENT IN SUTHERLAND'S TERRACE.—The house at present occupied by Mr. Wells, of the Customs, also the house lately occupied by Mr. Fredrick Lingham. Apply to N. B. FAIRBANKS. Aug. 24, 1880. 4M

TO LET.—The store on the east side of Front Street next the Bank of Commerce, now under lease to Hartman & Siskel. For possession given on the 15th day of October next, at which date present lease will have expired. Apply to JOHN BELLE. Dated 4th August, 1880. 9003

\$2,600 WILL BUY A Farm, twenty minutes walk from Belleville. Apply to BUCKNER & HENDERSON, Bridge Street. 10441m

TO LET.

THAT commodious store formerly occupied by Mr. John Cook as a grocery, next door to Messrs. L. W. YOUNG & CO., drug store. Apply to T. LOCKEY, Townsmead, 2 doors north, d. M. Feb. 21, 1880.

CARI.

HAVING retired from the Bread Baking, I take this mode of thanking the public for their kind patronage to myself and my father before me for the last twenty five years, and would respectfully bespeak for Mr. Dickson, my successor, the favorable consideration of my old friends and customers throughout the town and country. They may rely upon having a good and an honest article.

P. H. HAMBLBY.
Belleville, Sept. 14, 1880.

MITCHELL'S CANADIAN HAIR RESTORER.

HAIR RESTORER.
Equal to the best and cheaper than similar preparations imported, which often injure and destroy the hair. Price only 50c a bottle. Read the following testimonial:—

DEAR MR. MITCHELL, I have used your Canadian Hair Restorer, and find it to be a good article, the best in fact. I have used, and know, all the ingredients of which it is composed. I can recommend it to the public as a valuable preparation, free from all poisonous qualities.

Arrive from Madoc and way stations at 10 a.m.
Arrive from Hastings, Campbellford, and Stirling, at 10:30.
Trains are run by Belleville time.
E. H. BRENNAN, Superintendent.

MANHOOD.
HOW LOST, HOW RESTORED.
We have recently published a new edition of Dr. Gully's "Manhood," a valuable treatise on the treatment of Nervous Debility, Mental and Physical Incapacity, Impotency, and all the various ailments resulting from over-exhaustion of the system, in a sealed envelope, only 6 cents, or two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming nervous diseases can be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.
This Lecture should be in the hands of every youth and every man of the land.

MANHOOD.
HOW LOST, HOW RESTORED.
We have recently published a new edition of Dr. Gully's "Manhood," a valuable treatise on the treatment of Nervous Debility, Mental and Physical Incapacity, Impotency, and all the various ailments resulting from over-exhaustion of the system, in a sealed envelope, only 6 cents, or two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming nervous diseases can be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.
This Lecture should be in the hands of every youth and every man of the land.

BELLEVILLE, WEDNESDAY, SEPT. 15.
N. P. Notes.

A new paper-box factory has been opened in London, Ont.
A tobacco factory is to be established in Toronto by "The Virginia Tobacco Company," composed of General Peyton Wines, of Virginia, several other Americans and Torontonians, having a capital of \$200,000. The factory was commenced on the 14th of June last and has been completed. One million of boxes were used in the building. The steamship *Montreal* landed 100 tons of machinery on Wednesday for a new mill for the manufacture of Winceys at Bradford, Ont. Mr. Slater, of Yorkshire, England, is the owner, and he will give constant employment to 250 persons in the establishment.

The last Ontario Gazette contains applications for the incorporation of the Fentill Canning and Fruit Drying Company, with a capital of \$10,000, and of the Desert Lake Iron Company, with a capital of \$50,000, a notice of partnership of a new firm of woolen manufacturers at Almonte, and applications for the incorporation of the Essex Dunn Manufacturing Company, with a capital of \$20,000; of the St. Lawrence Foundry Company, with a capital of \$100,000; of the Roberts Iron Company of Frontenac, with a capital of \$100,000; and of the Virginia Tobacco Company, with a capital of \$200,000. A large number of the applicants in the iron companies are Americans. The above are a few more effects of the N. P.

Owing to the increase of business the Guelph Carriage Goods Company have commenced to enlarge their premises to make room for larger machinery and the employment of more men.

Political Notes.

THAT EXPOS.

The Toronto *World*—A Liberal-Reform journal—says, very sensibly—"Some of our Reform contemporaries are too much given to howling 'exposure' and other similar cries. We are convinced that more than enough has been said on this question. We do not believe that our people are leaving Canada in droves as some effix and inflex of people at our gates on the borders, though because public attention has recently been called to the matter, some imagine that it is now occurring for the first time." Our contemporary is not so sensible in stating that the N. P., whilst not having driven people away from Canada, has failed to keep them in the country. What, then, would have become of the large number of additional hands employed in various lines of commerce, agriculture, and in the new industrial establishments which have sprung into existence since March, 1879? But for the N. P. these persons and those dependent on them certainly would not have had employment, and just as certainly they could not have remained in Canada if unemployed.

SPRING WHEAT AGAIN.

The *Telegraph* Reviewer wants an explanation as to how it is that the N. P. does the farmer no good, that Canada No. 2 spring wheat from twelve to thirteen cents per bushel more in the Montreal market than American spring wheat of the same quality; or how is it that Canadian spring wheat is worth nearly as much in Peterboro' as American in Montreal? The Reviewer had better ask an easy one. The *Reform* press are not much on corn-drum.

THE PACIFIC RAILWAY.

The *Globe* has excelled itself on the Pacific Railway question, says the *Mail*. In 1870 it urged its immediate construction then when Sir John Macdonald took it up it was a mad scheme; in 1873, under Mr. Mackenzie, it was now more a great and patriotic work; in 1874 the great building it out of the lands was eminently statesmanlike; in 1878 the British Columbia section was an indispensable link; in 1879 the whole scheme began once again to be a mad one; in 1880 the British Columbia branch was a monstrous undertaking; then it would be nothing short of an outrage to build the road out of the lands; later on, it was absurd for our Ministers to go to England, for no English statesman or capitalist would deal with envoys of their foul reputation; then the scheme had failed, the failure being "complete, disastrous, crushing," and the latest phase is that the Ministers have succeeded, but as no details are given no criticism is possible, but that it will be an outrageous swindle on the Canadian people goes without saying.

FROM TEXAS TO MANITOBA.

"Wimpies" Times.—And still they come. We have received a couple of letters from Texas, asking for copies of the *Times*, the writers being desirous of getting posted on Manitoba matters previous to their removal here. Mr. Blake—or is it Mr. Mackenzie?—Texan dogs are learning that they would have been better off not to have placed so much dependence upon the glowing description of the American paradise given by the Grit statesmen.

A GOOD BAROMETRE.

The Montreal Gazette of the 14th says: "The Montreal Telegraph Company report that their business today was the largest ever done in the history of the Company. On enquiring at the Dominion office, we were informed that their business yesterday was one of the largest they had ever had. This is a good barometre of the improvement in the state of trade and business throughout the country under the National Policy."

The Dominion Exhibition.

The Dominion Exhibition opened at Montreal on the 14th inst. The new buildings, which cost some \$100,000 for those formerly erected, with the newly equipped grounds, make the finest buildings and grounds for the purpose in Canada. For a first day the Exhibition was most creditable. The only building not quite finished and ready for exhibits, is one which it was found necessary at the eleventh hour to erect for the fine display of Manitoba productions. Great exertions, however, have been made to get it ready, and the workmen are now giving it the finishing touch. The Exhibition on the whole exceeds anything ever before attempted here, or for that matter, in Canada. Many new and novel features have been added to it which cannot fail to be a great attraction, and all who come to visit it will be rewarded for their trouble. Every night from to-morrow there will be out-door amusements for the multitude. Every facility for getting to the grounds is presented by an increased service on the City Passenger Railway, and special trains on the Occidental from the centre of the city.

The Montreal Gazette, referring to the opening says:—"Outside of the Exhibition itself, attractions have been provided such as have never before, in this or any other city in Canada, been crowded within the short space of two weeks. The Officers' Committee, generously and unselfishly, as they have been by contributions from the citizens themselves, have worked like Trojans from the day of their appointment, and the result of their labors, for which they cannot be too warmly thanked, is a galaxy of attractions of the most interesting description. Concerts, fireworks, illuminations, races, national games, everything, in fact, which can afford interest to the visitor to this city has been provided in abundance. Those who come here and our information leads us to believe that probably not less than 100,000 people will visit Montreal within the next fortnight, will find themselves abundantly repaid for the trouble and expense of their journey. Montreal will put its best foot forward, and although it is not a boasting city, although perhaps its one fault is its absence of self-assertion, we have no fears whatever but that those who visit us will get home delighted alike with the city and with the attractions which have been provided for their entertainment while here."

News Condensed.

—The members of the North-West Mounted Police force have been constructed as a mark of esteem and respect to their late comrades, *Marmaduke Grayburn*, will be shipped to the North-West shortly, from Ottawa.

—With the arrival of the French contingent at Pagan, the European fleet intended to make the usual demonstration in the Atlantic coast is now complete. It consists of 17,700 men, 136 guns and manned by 7,300 men.

—On the 13th inst. Wm. O'Leary, from the steamship *Waco*, while in the act of crossing the foot of Merritt ship and fell into the water. The large and was cut off from the face and head, from which he died instantly.

Board of Education.

Thursday, Sept. 14.

The Board met at the usual hour. Present: W. A. Shepard, Chairman; Messrs. Willis, Tennant, Wensley, Tracy, Johnson, VanAllen, Macoun, I. Diamond, Northcott, Richards, McMillan.

The minutes of the regular and special meetings were read and approved.

A letter was read from Miss Bellard, stating that she had accepted a position as teacher in Kingston, and tendering her resignation to the Board, to take effect on October 1st.

A letter was read from Miss Lizzie Robertson, applying for a position as teacher in case of a vacancy.

A communication was also read from Miss Sangster applying for a situation as teacher.

The Committee on Printing and Supplies reported, recommending the purchase of 25 tons of coal from Messrs. Rathbun and Downey & Frost at \$5.90 per ton, also that the tender of J. C. Overall for stationery be accepted, it being the lowest.

The Committee on Finance reported, recommending that the Secretary-Treasurer be authorized to pay 50 per cent on accounts, properly certified, except in cases of contracts, which are matters of special arrangement.

The Inspector read the following letter from the Education Department:

TORONTO, 9th Sept. 1880.

Sir—Have the honor to state, in reply to your recommendation of the 28th ultimo, that the Honorable the Minister of Education has accepted the recommendation of the Board of Education for the lease of extended 3rd Class Certificate to Miss Jessie Macdonald, Miss Hattie Walton, and Miss Lillian Chambers. He has also considered the recommendation of the Board of Education for the lease of the City of Belleville on the subject.

The Minister, however, regrets that as the Board have already had at least one recommendation of the kind submitted would not justify further extensions.

I will thank you to communicate the purport of this communication to the Board of Trustees concerned.

I have the honor to be, Sir, Your obedient servant,
J. GEORGE HODGINS,
Dep. Minister of Education.

J. Johnston, Esq., Sec. Insp. Sch. Hastings, Belleville.

The Board of Education Committee on reports. Mr. Willis in the chair.

The report of the Committee on Printing and Supplies was adopted.

The report of the Finance Committee was taken up.

In answer to Mr. Diamond, Mr. Willis said the intention of the Committee was that the persons having done work or furnished materials should not be compelled to wait for a month before getting at least part of their pay.

Dr. Tracy thought they should adhere to their rule.

Mr. W. J. Diamond, the newly appointed member, came in and took his seat.

Mr. Wensley supported the report. It was all very well for certain parties to talk of adhering to the rules, but when it suited them the rules were as nothing.

Mr. I. Diamond considered the recommendation satisfactory.

Mr. Macoun asked why not pay the accounts in full, as had been done before, previous to their being passed by the Board?

Mr. Johnson said it was to prevent such a practice in the future.

Mr. Haynes came in.

Dr. Tracy still urged adherence to the rule.

The clause was passed and the various accounts recommended for payment were brought up.

Mr. T. Diamond asked information as to how the school had been supported on the several schools, particularly the Ontario Street School.

Mr. Hudson came in.

The items of the accounts were read.

Dr. Tracy and Mr. I. Diamond held that one year or two was a reasonable amount of time for the purpose of assessing and collecting the taxes in the part of Thurlow annexed to the city for school purposes, was brought up for a second reading, the rate being fixed at 44 mills, the same as the city rate.

Committee rose and reported.—Adopted.

Dr. Tracy moved that the resignation of Miss Bellard and the applications of Misses Robertson and Sangster be referred to the Committee on School Management.—Carried.

Mr. Johnson moved the reference of the letter from the Department to the same Committee.—Carried.

Mr. Macoun moved, seconded by Dr. Tracy, that the Committee on W. J. Diamond on the Committee on which his late brother Abraham was.—Carried.

Moved by Mr. Thos. Willis, seconded by Mr. Wm. Johnson.

That this Board very much regrets that Miss Templeton—who for so many years has been one of the most painstaking, diligent, and successful of the most public Teachers of the City—has severed her connection with this Board; and the members of this Board hereby express their high appreciation of her services, and of her many natural and acquired abilities as a Teacher.

The Board very heartily unites in wishing Miss Templeton success in her new position, and again assure her of the loss which is felt at her resigning her position as a Public School teacher.—Carried.

The mover said he had much pleasure in proposing the resolution. Miss Templeton was one of the best teachers the Board had ever had.

Mr. Willis, in answer to Mr. McMillan, said nothing had been brought before the Building Committee as to a site in Block B Ward.

Mr. Willis also stated in answer to Mr. I. Diamond, that the Building Committee met last night and discussed the matter of the Coleman Ward school site, but could not agree. Had Mr. Diamond been present, he would have known all about it.

Mr. I. Diamond was proceeding to discuss the matter, but was called to order by the Chairman.

The Board adjourned until the 23rd inst.

U. S. FOREIGN COMMERCE.—The American Bureau of statistics has furnished a statement of the foreign commerce of the United States for the fiscal year ending June 30th, from which it is ascertained that the total imports of merchandise amount to \$695,293,441, against \$373,679,124 for the fiscal year 1879. The exports of domestic merchandise are valued at \$523,946,333, as compared with \$695,346,770. The balance of trade to the credit of the United States, after making allowance for the movement of specie, is \$91,792,223, that for 1879 being \$293,392,107. Despite the falling off in favor of the balance of trade, this must be considered as on the whole a good showing.

The Train-Wrecking Outrage.

Investigation of the Affair—the perpetrators evidently Disturbed—Twenty-seven Dynamite cartridges Found.

LONDON, Sept. 14.
The excitement over the lately attempted to wreck the train from Edinburgh yesterday has scarcely abated. Today the officials of the road have gone to Bally, about sixteen miles from the Euston Square station, to investigate the circumstances. They are led by certain facts to think the conspirators were disturbed in their operations and did not complete the proper arrangements of their apparatus. Further search has revealed twenty-seven more pieces of explosive material, and there is every reason for believing that had the conspirators not been interrupted or in some way frightened off when setting the trap an explosion would have occurred involving awful loss of life. The package of dynamite which was first found weighed several pounds, and was sufficient to have blown the whole train into the air. The discovery of the misplaced flat-plates, which the conspirators had removed for the purpose of lifting the rails, and had evidently no time to replace them before their hasty flight, proves how narrow their escape must have been from detection. The detectives are following up the case, and it is reported that the clues already in hand lead in the direction of a certain circle of nihilist refugees in London.

There is little doubt that the placing of the dynamite under the rails of the London and North-Western line was a deliberate attempt to wreck the express train to Scotland, which passed over the rails two hours previous to the discovery of the mine. There were 27 dynamite cartridges, each about three inches long and an inch in diameter, connected with the rails by a rubber tube, filled with powder and caps. The dynamite was soaked by the recent rain. No theory is propounded to account for the attempt.

THE BALDWIN IRON MINES.—The Ottawa correspondent of the Montreal Gazette telegraphs:—"Two barges laden with iron ore will leave the Baldwin mines to-morrow for Kingston. The specimens are about the best dispatched yet, and will yield the largest percentage of pure iron. The mines are turning out better than the present proprietors ever anticipated when they purchased the property."

NEW INDUSTRY.—An Ottawa paper says: It is the intention of several parties to engage in the shipment of ice to New York next summer. During the coming winter, they will procure a large supply of ice from the river. The shipments made this summer proved so satisfactory that it is likely a large trade will be built up.

TORONTO FAIR.—Yesterday the Corporation of Buffalo and Rochester visited Toronto as the guests of that city. A large number accompanied them. After luncheon at noon, the party was driven about the city to various points of interest, then to the Exhibition grounds, where in the evening a grand banquet was held in honor of their visit. Amongst the guests was Mayor Patterson, of Belleville, who responded to the toast of "Agriculture, Commerce and Manufactures."

GOLD.—A Halifax despatch says: With-in the past fortnight some very rich gold-bearing lodes have been discovered on Salmon River, five miles west of Harrigan's Cove in this county, and a number of areas have been taken up in the vicinity. Small crushing of ten tons quartz, the first taken out of the lode at Harrigan's Cove, belonging to C. F. Mott and others, has yielded five ounces six pennyweights.

STORM IN GREAT BRITAIN.—The British Isles are being visited by heavy gales, severe rainstorms, and cold wintry weather. During a recent unusually severe thunderstorm in the vicinity of London a meteor fell into a lake and killed a quantity of fish. The gales are especially heavy along the south-west coast of England.

MORNING DESPATCHES.

EUROPEAN.

MADRID, Sept. 15.—The *Gazette* publishes amendments for political and common law offenders and reduces many sentences, in commemoration of the birth of the infant. The Government telegraphed the authorities of Puerto Rico to apply \$200,000 to aqueducts, forts, and other public works. All the crowned heads of Europe telegraphed their congratulations to the King and Queen.

AMERICAN.

NEW YORK, Sept. 15.—The *Sun*'s August says there is no longer much doubt that the Maine Legislature is Republican. The Democrats concede the lower house to the Republicans by a small majority.

The *Times* August special says Plaided will have a majority of about a thousand. He all the estimates the Republicans have a majority in both branches of the Legislature.

The *Herald* says the rumored acceptance of the mediation of the United States in the Chili-Peru difficulty is discredited.

The *Times* says Secretary Sherman regards the result of the Maine election as immaterial; it was brought about by a fusion between the Democrats and Greenbackers. So far as the effect upon the national election is concerned, it could not be regarded as a victory for either of the parties.

The *Tribune* says that a heavy adulteration of western butter with powdered soapstone has been discovered here. It adds material to the weight and nothing to the cost.

Arrived, the *Ligeris* from Liverpool, *Platyn* from Antwerp, *Holenzeller* from Bremen.

Chicago Ahead.

All the world now looks up to Chicago as the great western metropolis of America, being far ahead of all competing cities; but none the less, in its line, is Electric Bitters. From their real intrinsic value they have advanced to the front, and are now far ahead of all other remedies, positively curing where everything else fails. To try them is to be convinced. For sale by Jas. Clarke & Co. at the fifty cents per bottle.

"TAKENRY," the newest wonder for whitening the teeth, delightfully refreshing to the tongue, is a pleasant, popular Dentifrice of the day.

For Sale or to Let.

HOUSE TO LET.—On Pinnacle St. between Bridge and Dundas Sts. a two story brick house, in good repair. Possession given 1st Oct. Apply to James Glass, Executor.

TO RENT IN SUTHERLAND'S TERRACE.—The house at present occupied by Mr. Wolfe, of the Customs, also the house lately occupied by Mr. Frederick Lingham. Apply to N. B. FALKNER, 11401.

TO LET.—The store on the east side of Front Street next the Bank of Commerce, now under lease to Hartman & Sinstal. Possession given on the 15th day of October next, at which date present lease will have expired. JOHN BELL.

Dated 4th August, 1880. 6011

Cricket.

BELLEVILLE vs. SYRACUSE.

This long-expected game was commenced at 10:30 under conditions most favorable. The weather being fine and the ground in excellent order. Syracuse was first to the bat, sending in Millard and Danes to the bowling of Thomas and Peden. The first named hit up Thomas first, but the catch was missed and a run was scored. Danes followed with a second ball, and the second ball after, and Ballard, who replaced him had his stumps displaced by the first ball bowled to him. Two wickets for one run. Sharp followed when Millard hit one to leg from Peden for 3, but was out afterwards caught by Peden. There for 3. Fayette hit the wicket. Two last bays were then run, and in Thomas' next over Peden caught Sharp for 0. Four wickets for 5. Nevick was the next batter. One more leg bay was scored, and then Fayette was out before a straight out from Thomas. Five wickets for 6 runs, only 3 of which were made off the bat. Lightball went in and made 1, then Nevick was caught by Reeves. Six wickets for 7 runs. Benjamin, loaned for the occasion, the victor in the batting, then came in, and Lightball went out bowled by Peden. Seven for 7. Tarnet was eighth man, and a leg bay was scored. Benjamin then scored 1 and Tarnet a 2, when the latter was bowled by Thomas. Eight wickets for 12 runs. Coppins came in for 1st, and Benjamin yielded to a persimmon from Peden. Nine for 12. Wilson, another loaned man, went in last and made 1 off Peden. This he followed with another of Thomas. Coppins now made a good hit but was run out in trying to make a 2 off it. All out for 15.

For Stratford, Daily, at 8 a.m., and 2 p.m.
For Madison, Daily, at 2 p.m.
For Kingston, Daily, at 8 a.m., and 2 p.m.
For Trenton, Daily, at 3 p.m.
The stages arrive in Belleville about noon each day.

Daily Intelligencer.

BELLEVILLE, THURSDAY, SEPT. 16.

6 O'CLOCK EDITION.

City and Vicinity.

POLICE COURT.—There was no business in Court this morning.

THE GAIL.—There are at present twenty-one prisoners in goal. Of these 13 are females and 8 males.

REMEMBER.—Yachtmen are reminded of the meeting at Hambley's to-morrow night at 8 p.m., to make final arrangements for the regatta. Let there be a good attendance.

COMING.—Mr. Joseph Murphy and Company will present the "Kerry Gow" at the Opera House about a week hence. Mr. Murphy's company is said to be an excellent one.

YACHTING NOTE.—The yacht Bloodhound passed up the bay, bound for Trenton, this morning. It was expected that she would have taken part in the Hamilton regatta.

WEATHER PROBABILITIES.—The following are the Toronto probabilities: Light moderate to fresh westerly to southerly winds, fine and warmer weather, possibly showers in some localities.

OPERA HOUSE.—The new Opera House, to be opened to-night with the performance of "Esther," by local amateurs, under the direction of Prof. Lane, of New York. There will be about 90 performers.

THE RITZ.—At a meeting of the representatives of No. 1 Co. 15th Batt. and No. 3 Co. 4th Batt. yesterday, it was agreed to shoot a friendly match over the Belleville range on Thursday, the 23rd inst.—200, 500 and 600 yds six men per Company seven shots per man each range.

THE DUNDAS "STANDARD".—This journal has passed under the control of Mr. T. J. Bell, lately city editor of the Hamilton Spectator. Its first issue under Mr. Bell's management shows a decided improvement on the predecessors, although it has always been an ably conducted paper. We wish the Standard every success.

CRICKET.—The necessary arrangements have been made for the visit of the Belleville cricket team to Montreal next week. They will leave on Monday or Tuesday night next, and will play at Kingston and Prescott as well as at Montreal. The Kingston game will probably be played on the way down.

THE STRAIGHT CRICKETERS.—The members of the Syracuse cricket club who played here yesterday were entertained at supper last evening at the Dufco House by the Belleville club. A very pleasant time was spent and the conclusion of the entertainment the visitors made a tour of the principal streets of the city. They were well pleased with their reception here, and left for Kingston by the midnight train.

PROVINCIAL EXHIBITION.—The prospects of the Provincial Exhibition, which opens in Hamilton next Monday, are most encouraging, and there is now every prospect that it will be a great success. It is rumored that the Governor-General will extend his stay from Friday, the 24th inst., until the following Thursday. The Reception Committee are hard at work getting their plans into proper shape, and they expect to give the distinguished guests a royal welcome and reception.

SERIOUS BUSH FIRE.—The Napane Standard says:—"Bush fires have been raging furiously for the past two weeks in the northern and eastern parts of this county. Last week a portion of the farm of Mr. Gabriel Robinson, north of Clark's Mills, was overrun by the fire and 300 cords of wood destroyed, besides several thousands of rails which he had drawn from the back country last winter. On the same day the house, barns, stacks, &c., of Mr. Furlong, near Enterprise, were destroyed by fire which overran the entire farm, destroying every vestige of vegetation. Many other farmers in this neighborhood have suffered severely from this cause, fences, woodlands, barns &c., being destroyed."

LATE.—The mail from the west was 40 minutes late to-day.

SMOKE.—The air was filled with smoke last night, denoting that the bush fires have revived again.

LAID UP.—Sergeant Snider, of the police force, has been confined to his house for several days by illness.

DOMINION BANK.—We understand the Dominion Bank will open for general banking business on Saturday next.

FOR TRENTON.—A large number of the Old-fellows of this city, accompanied by their band and several Torontoists, left for Trenton after three o'clock to-day. The Oddfellows will take part in the great demonstration which is to occur in Toronto to-morrow.

PERSONAL.—Mr. A. C. Way, son of Jos. P. Way, Esq., will leave town to-morrow, having secured a position on the Chicago and Grand Trunk Railway. We wish Mr. Way every success in his new position, which he will doubtless fill acceptably.

A RIGHTOUS JUDGMENT.—On the 14th inst., a young man named Ferguson, was fined \$30 by the Police Magistrate, Montreal, with the alternative of going to goal for two months for non-payment, for having on his person a seven chamber revolver. The court refused to accept the plea of drunkenness as an excuse. A righteous judgment.

PAUL SEASON OPENING.—It will be seen by advertisement that Messrs. Barber, Original & Co., are early in the field with their fall importations. Some of the purchases of Mr. Barber, their buyer, who has just returned from Great Britain, being already to hand. They claim to have made some exceptionally good bargains in this trip. Their circular will bear a careful reading.

HYMNICAL.—Under the usual heading, will be found a notification of the marriage of the Rev. John Ferguson, M. A., of Chelvey, and Miss Harriet Emma Elworthy, which event took place at the residence of the bride's father yesterday, the Rev. D. Mitchell performing the ceremony. The Rev. bridegroom is known in this city as having aided the pulpit of John Street Church three years ago, during the absence of Rev. John Barton, its then pastor, in Europe. The newly wedded couple left on the noon train for New York and Philadelphia. We join with their many friends here in wishing them long life and happiness.

THE GREAT TWEED HOUSE OF BELLEVILLE is Hennessy's where you can get good wine full Tweed for 30c also Treads 45, 50, 60, 65, 100, 125, 150, 175, 200, 240. Hundreds of pieces to choose from, the cheapest House in the city Jas. Hennessy.

Campbellford Notes.

CAMPBELLFORD, Sept. 16th, 1880.

Last night after my arrival home, I heard that a man by the name of Plunkin, from the Township of Brighton, had committed suicide by drowning himself in the mill-pond at Meyerburg. This morning I drove down to find out particulars, and elicited the following facts: On Sunday, about 2 o'clock p.m., an old man was seen passing through the village with a cane in his hand, respectfully dressed, and of course no person made any particular observation, but some short time after, on the bridge a short distance above the village, a hat, handkerchief, jack knife and walking cane were found. On the case the initials of the unfortunate were found, which led to the discovery of the body, which was found between the grist mill at Meyerburg and the bridge. Mr. Plunkin had been in a deponding state for some time, and had on previous occasions, made an attempt on his life. It was not in consequence of the want of the comforts of this world that the rash act was committed, for deceased was in comfortable circumstances, but it appears family trouble in money matters hurried on his untimely end. A Coroner's inquest was held by Dr. McCord, of Warkworth, on Monday, the verdict of which was that the unhappy man came to his end in a fit of insanity.

Trenton Notes

Trenton, Sept. 15, 1880.

The Township of Murray Agricultural show will be held in Trenton, on Thursday, Oct. 12th. As there are a larger number of members than usual it is expected to be a good show this year.

All the ice-houses except one, have been sold, realizing good sums for those who went into the speculation.

There is a large fleet in loading lumber at Gilman & Co.'s dock. N. P. Deane is taking a load of grain from Conner's storehouse there is also a vessel loading with ice, which makes our harbor quite busy.

About a month ago, a stranger representing himself as a Fire Insurance agent, persuaded a farmer in Murray to give him a risk on his property. The farmer paid the premium, some \$20. In a few weeks he found he was swindled. Another warning to the farmer not to put his trust in strangers.

Marine.

The Oswego Palladium of Monday says: The steam barge Indian arrived from Trenton to-day with lumber. As she was leaving Trenton, drawing ten feet of water, she ran aground, and she had to be lighted by the schr. Nellie Sherwood. The Indian caught fire while the work was in progress and holes had to be cut through her deck and side before the flames could be extinguished, but this was done without very serious damage resulting.

THE MONTREAL GAZETTE.—The publishers of this excellent journal have enlarged it to an eight-page paper, during the Dominion Exhibition, making it the largest, as it is by far the best paper published in Montreal. We hope the enterprise of the Messrs. White may prove remunerative, and that the change will be permanent.

Enviied Beauty.

What is more handsome than a nice bright, clear complexion, showing the rosiness of perfect health? All can enjoy these advantages by using Electric Bitter. Impure blood, and all diseases of the Stomach, Liver, Kidneys and Urinary Organs are speedily cured. For nervousness and all attendant ailments, there are a never failing remedy, and positively cures all skin diseases. Get the Electric Bitter, and be convinced of their wonderful merit. For sale by Jas. Clarke & Co., 95 cents a bottle.

SPORTING NOTES.

The international cricket match at Philadelphia resulted in a draw. The United States twelve, it will be remembered, scored 70 in their first innings, while the Canadians offered 83; but in their second innings the United States ran up 168, by fine play, and the Canadians, who must have been completely demoralized, had made but 7 runs for the loss of six wickets, when time was up.

The Kingston Whig says the Belleville Lacrosse Club will be asked to cross sticks once more with the Athletics of that city.

FREE TRADE AND PROTECTION.—At the recent exhibition of the New England Agricultural Society, held at Worcester, Mass., Dr. Loring, of Trenton, the society, delivered an eloquent address on free trade and protection. He pointed out that ninety per cent. of the farm products of the United States were consumed there, thanks to the vast home market which the protective tariff had established. Since 1860 the crop of wool had risen from 60,000,000 to 250,000,000 pounds, and 50,170 square miles are now devoted to wheat; 80,010 to corn; 20,500 to oats; 42,080 to hay, and 2,630 to potatoes. "It is for our own market," said the speaker, "which consumes ninety per cent. of all this, that our Government exercises a fostering care; shall this home market be destroyed to propagate those who consume the remaining ten per cent?"

Chicago Ahead.

All the world now looks up to Chicago as the great western metropolis. America, being far ahead of all competing cities; but none the less, in its line, is Electric Bitter. From their real value they have advanced to the front, and are now far ahead of all other remedies, positively curing everything else fails. To try them is to be convinced. For sale by Jas. Clarke & Co. at fifty cents per bottle.

A LAD CAKE.—The Toronto World says: "Last night a wretched looking girl applied for shelter at one of the police stations; she had no money, no friends, her clothes were torn and old, and she was sick, hungry and tired. She asked but a place to sleep, and after she had been put in a cell she sent for the sergeant and made the old, miserable confession. She said she lived in Belleville, and there she had made an unfortunate attachment with one who had deserted her in her time of need. She was ashamed to stay at home, and had gone to Rochester for a purpose which can be too easily guessed. There she spent all her money without gaining her object, and reached this city last night in a cold shiver, but can go no farther. The magistrate sent her to the lying in hospital. She gave the name of Ann O'Connor."

THE ST. LAWRENCE ISLANDS.—The sale of the Thousand Islands lands in the St. Lawrence took place at Brockville on the 15th inst. The following are the purchasers: The leases extend over a period of twenty years, and the following is the rate per acre: Long Island, R. M. Fitzsimmons, \$15; Pitch Pine, D. F. Jones, M. P., \$11; Hackberry; Witdrawn, Hog, E. D. Sherwood, \$25; Citron, Chilton Jones, \$31; Princess Charlotte, A. P. Sherwood, \$11; Musk, or Fisher, P. Jones, \$20; Sandpiper, F. H. Chrysler, \$11; Movers, W. F. Powell, \$33; Wood, or Glenora, \$30; Bratt, T. B. Robb, \$50; Pine, F. C. Clemow, \$25; Ball, H. T. Fitzsimmons, \$22; Corn, R. R. Cook, \$25.

NEW MINING COMPANY.—The Kingston News says: "A powerful company has been formed for the prosecution of iron mining in this country, as it will have a capital of \$200,000, and is to consist of Messrs. James Swift, Folger Bros., R. P. Flower, of New York, M. J. Gray and J. M. Machan. The Company has already purchased several thousand acres of mining land, including the celebrated Roberts mine, which is now shipping eight carloads of magnetite per day to Charlotte."

MINING DISASTER.—On the 15th inst. a disaster occurred in a pit at Stellarton, Nova Scotia, which was fraught with extreme peril to the miners. By the stroke of a miler's pick a flood of water was let in from one pit to another, where 150 men were at work. All were eventually saved, but for a time it was feared that thirteen had been drowned. The Halifax Mining Company will suffer considerable loss by the accident.

The Greatest Remedy Known.

Dr. King's New Discovery for Consump-tion, certainly the greatest remedy ever placed within the reach of suffering humanity. Thousands of once hopeless sufferers now loudly proclaim their praise for this wonderful Discovery which they owe their lives. Not only does it positively cure Consumption, but Coughs, Colds, Asthma, Bronchitis, Hay Fever, Hoarseness and all affections of the Throat, Chest and Lungs yield at once to its wonderful curative powers as if by magic. Write for a copy of this book, and we will tell you what you are getting. We therefore earnestly request you to call on your druggist Jas. Clarke & Co., and get a trial bottle of this medicine, which will convince the most skeptical of its wonderful merits, and show you what a regular one dollar size bottle will do. For sale by Jas. Clarke & Co.

AFTERNOON DISPATCHES.

Owing to the prevalence of bush fire between Belleville and Trenton, the telegraph wires are down, and communication with the west interrupted. We are consequently without our afternoon dispatches.

No good preaching.

No man can do a good job of work, preach a good sermon, try a law suit well, doctor a patient, or write a good article when he feels miserably ill and full with a headache, brain and unsteady nerves, and none should make the attempt if such a condition when it can be so easily and cheaply removed by a little Hop Bitters. See other columns.

Snakes as life destroyers.

The loss of life in India, due to the ravages of venomous snakes is almost incredible. Yet the disease which is so widely and deadly as the deadliest India reptile is widely but not generally known. It has long been recognized as one of the most important of the present time. It has long been recognized as one of the most important of the present time. It has long been recognized as one of the most important of the present time.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a physician in South America. Send a self-addressed envelope to Mr. J. H. Ford, 100 Broadway, New York City.

"TADDER," the newest wonder for whitening the teeth, delightfully refreshing to the palate, irresistible, popular. Justification of the cry.

THE BEST BALNE in the world for Cuts, Bruises, Scars, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chapped Feet, Corns, and all kinds of Skin Eruptions. This salve is guaranteed to give perfect satisfaction in every case or money refunded. Price 25 cents per box. For sale by Jas. Clarke & Co., 95 cents.

MARRIED.

By the Rev. Wm. H. Peake, at the residence of the bride's father in Humberford, ARNOLD HANCOCK to ISABELLA, daughter of Mr. Blackley, on the 15th inst.

On the 15th inst., at the residence of the bride's father, by the Rev. David Mitchell, minister of John St. Presbyterian Church, BELLEVILLE, the Rev. JOHN FERGUSON, M.A., B.D., of Chelvey, to the Rev. Miss ELLA (HARRIS) second daughter of W. G. Elworthy.

Cheese Markets.

INDIANOLA, Sept. 14.—Five factories registered 3,250 boxes. Sixteen other factories were reported with more or less cheese, having sold their August make, and their September make not being ready to ship. No sales. Buyers and sellers agreed that Mr. J. G. Grant's sale preparatory to his leaving for England. Cable des.

Commercial.

BELLEVILLE MARKETS.

INTELLIGENCER OFFICE, Belleville, Sept. 16, 1880.

Grain is commencing to move more freely, as the markets are now opening, and the prospect seems fair for good prices. Rye advanced to-day to 80 to 81, and barley took a jump up to 70. With such prices as these prevailing, it would seem that the bulk of the crop will soon be marketed.

Daily Intelligencer.

BELLEVILLE, FRIDAY, SEPT. 17.
The Pacific Railway.

The announcement made by the Mail—presumably by authority—in its issue of the 16th inst., that the contract for the construction and operation of the Pacific Railway by a syndicate composed of British, French and American capitalists had been signed, subject to the approval of the Dominion Parliament, is in the highest degree satisfactory. A previous statement to the same effect proved to have been premature, but now happily there is no reason to doubt the complete success of the mission of Ministers to England. It is as yet unknown whether or not Parliament will be called together before the usual time of meeting, for the purpose of considering and determining upon the contract, but that no time will be lost unnecessarily in laying the details of the bargain before Parliament and the country, the public may be fully assured. The matter is in the hands of the gentlemen who originated the scheme and carried it forward successfully so far, and so to their care the whole subject may be left with full confidence that all that is necessary will be done in the premises.

The Maine Election.

The result of the election for Governor, held in the State of Maine on Monday, is no longer in doubt. Plaisant, the candidate of the united Democrats and Greenbackers, having been returned by a majority of about one-third of the vote. It is generally given a Republican majority averaging about 15,000, the defeat of that party, although led by James A. Blaine, and supported by the whole strength of the Administration, cannot fail to have an important bearing on the Presidential campaign, although it is not probable that Hancock will carry Maine. The Democrats will be encouraged to carry on the canvass with greater vigor than before, whilst the Republicans will be correspondingly disheartened. Ohio, Indiana and New York will now be the great battle ground, whilst in Pennsylvania the struggle will also be a severe one. The Democrats cannot win without New York and Indiana, of which they seem almost certain, but with those States arrayed on their side they seem certain of success. On the whole their chances appear more favorable than those of their opponents, and the Maine election seems to strengthen their position very materially.

Political Notes.

TIME TO STOP.
The Toronto Telegram pithily observes:—"There is no use of Reform journals trying to keep their spirits up by cheering over moral victories. They do not count much on a division and are about as valuable as an index of change in public opinion. Speculations based on a minority vote are worthless, and the sooner the Reform press casts this leak the sooner they will return to office. The by-elections have all shown that the policy of the Government is approved of by the people who will not pay heed to any reactionary proposals. The Reform press will be better employed if it direct its energies to the erection of a platform even more national in tone than the P. F. It is about time that the Reform press realized that no policy of inaction will please the Canadian electorate."

THE BY-ELECTIONS.

The Mail says:—"Since the 1875 election, not counting the return of the members of the Cabinet on accepting office, nine Conservative constituencies have been opened, viz., Beauchamp, Bonaventure, Cape Breton, Montserrat, Provancher, Three Rivers, West Toronto, Yale, and Yamaska; and all have been retained by the Conservatives. On the other hand eight Liberal constituencies have been opened, viz., Argenteuil, Charlevoix, Chateaugay, West Quebec, Centre Huron, North Lanark, North Ontario and Selkirk; and the Opposition have won five and lost three." Our contemporary omits East Hastings, which adds one to the constituencies retained by the Conservatives.

MORE PROGRESS.—A Cablegram says there is every probability that a large gun and shot factory will shortly be established in Canada, as it is found that heavy rifle ordnance can be manufactured as economically as in England, and provided the Imperial and Dominion Governments can arrange all the matters connected therewith mutually satisfactorily, it may be looked upon as an *un fait accompli*.

The Schoolmaster Abroad.

This lively little sheet, the Collingwood Messenger, is after the Councilors of that town with a sharp stick. Some of them don't show up very well, as the following reports of their work attest. The Chairman of the Board of Works presented to the Council at its last meeting a report, concluding as follows, which is copied verbatim in literature:

"As your Councilors would blossom the they Son of These Hundred More he gets all of which is respectfully Submitted Jam illu"

A few weeks ago the Chairman of Town Property presented the following report to the Council of the Corporation of the Town of Collingwood, which was adopted on August 12, 1880.

The following is a list of the entries received up to date for the Provincial Exhibition, which opens at Hamilton on Monday next:

Horses..... 221
Cattle..... 233
Sheep..... 451
Swine..... 451
Poultry..... 451
Agricultural implements..... 416
Grains and seeds..... 401
Dairy produce..... 338
Domestic wines..... 283
Fruit, flowers, etc..... 283
Fine arts..... 283
Paper, printing, &c..... 199
Cabinet work, &c..... 199
Machinery, &c..... 199
Saddlery, &c..... 199
Woolen goods..... 199
Groceries and provisions..... 199

A large number of entries are yet to be recorded, which will swell the total number to over 11,000.

Correspondence.

Whilst correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

To the Editor of the Intelligencer.

Dear Sir,—On Thursday the 9th inst., the pleasure loving inhabitants of Bangor repaired to the beautiful pine grounds in the vicinity of Otter Lake, in what is known as the "Bell's Rapid Settlement." Notwithstanding the difficulty that invariably attaches to the gathering of such companies in a new country, considerably over one hundred persons got down to the "growing board" which the energy and generosity of people and committee had provided.

After dinner the company was entertained by life and drum solo, violin selections, and several other performances, when the pie-eaters dispersed themselves in knots of two and three, to follow the beat of their individual drums in the choice of games and pastimes. For the high minded, good citizens had been assembled, while the more earthly had recourse to croquet, cricket, and base ball games.

After a few hours spent in the enjoyment of these games, the party assembled to listen to speeches from Messrs. Dr. N. M. Jones, of the Bangor and Brudenell Mission; and at the conclusion of which the National anthem was sung with natural independence, let me remark—and the party separated forthwith homes.

Asking that this be put on record as an additional proof of our progress in the march of improvement, I remain, HANSARD.

STORY OF PROGRESS.—A Montreal paper says:—"An effort is being made towards the construction of a railway car manufacturing at or near Montreal, and a circular on the subject which has been issued says:—"One of the oldest and most widely known car companies in the United States, impressed by the field left open to enterprise in this direction, is willing to take a considerable amount of stock in such a concern, and also assume its practical management, sending men for their own work to superintend construction in the different departments, thus ensuring perfection of workmanship from the very start. It is proposed to organize with the same corporate name as this Company, which is well known to all our railway men, and would be a great advantage in obtaining contracts."

GOLD EXPORTATION.—"An enormous exportation of gold to America is attracting public attention everywhere in Europe. The exportation from Germany is assuming alarming proportions, notwithstanding the efforts made to arrest its outflow by raising the rate of discount, the limited payment of gold to certain centres of disbursement, and the slowness with which even then it is counted out in single pieces. The exchange on London is 25.40, so there is no chance of drawing gold from that quarter. The stock bulletin in the Bank of France shows a tendency to decrease, but at a very slow rate. It still figures 1,990,000 francs. Every effort will be made to arrest the exportation of gold, but if the exchange in New York recedes, it will be difficult to regulate shipments. The magnificent outflow of gold in America this season will not doubt influence the exchange against France the next three months. Gold has been arriving at New York at the rate of nearly \$1,000,000 per day.

CANADA TO THE FRONT.—"The New York Sun says:—"Canada is pushing to the front as a field of investment for European capital. France has granted a subsidy of \$100,000 for a New France-Canadian line of steamers between Havre and Montreal; it has been officially announced that the sale of the stock in Great Britain for the Canada Pacific Railroad has exceeded beyond expectations; in Paris, a Credit Foncier has been formed, with a capital of \$20,000,000, to be invested in Canada real estate. We have been apt to look on Canada as a sort of territory, it may, in some respects, be out of the simile, like the tortoise in the race."

News Condensed.

—25,000 people attended the Toronto Exhibition yesterday.
—Dr. Schull, M. P. left Winnipeg for Ottawa on the 16th inst.
—Ten thousand visitors were at the Montreal Exhibition on the 16th inst.
—The Paris Journal Officiel announced the announcement of the Society Islands by France. Pottier's twelfth excursion to Manitoba left Toronto on the 15th inst., with 200 passengers.
—The Scotch iron masters have resolved to re-light half the furnaces put out during the recent strike.
—The condition of the Nile is causing considerable anxiety, water rising slowly and the cotton crop suffering.

—Advices from South America seem to indicate that preparations are being made for the removal of the war.
—Sergeant Marshman, who was accused of false marking at Wimbledon, has been acquitted by the Court-martial.

—It is thought that branches of the Imperial and British North America banks will shortly be opened in Winnipeg.
—Valparaiso advises allude to the extent of crime in Chile, murders and robberies with violence being very prevalent.

—The petition against Mr. Ferraull, the sitting member for Chateaugay, has been dismissed with costs against the petitioner.
—There is complaint that large accommodation for the grain trade is insufficient between Kingston and Montreal.

—A sea monster is said to have been seen at Hiale Varte by three men on the 9th. It was 30 feet long, and as large round as a large oak.

—On the 16th inst., Conductor J. Gagnon was killed in a collision between a freight and a ballast train near Revier du Loup. No other persons were injured.

—It is expected that about a hundred and forty million feet of lumber will be winched over by the Chaudiere boats this season, most of which has already been sold.
—May Fisk Blondes got into trouble in Toronto. They were unable to pay their hotel bill \$192, and their luggage was seized. They left for the East without settling.

—A farmer was charged before the Police Magistrate, Ottawa, on the 16th inst., with attempting to defraud by mixing four bushels of sand with 31 bushels of oats.

—Three prominent citizens of London paid the fine and costs (\$55.10) of Miss Annie Mendors, the blonde of May Fisk's troupe, who was fined for giving an immoral show.

—The report that the originators by the Saranac—200 in number—were destined to Manitoba, was incorrect. Only ten were bound for Manitoba—the rest remained in Ontario.

—It is stated that extensive bush fires are in progress in the counties of St. George and St. Francois de Beauce, on the south side of the St. Lawrence, and that a child named Roy has met his death.

—It is rumored at Ragusa that Riza Pasha has been assassinated, and that fighting has begun. It is known that the Montenegrin commander intends to reconnoitre the Albanian position to-day.

—On the 16th inst., while a young son of William Fletcher, confectioner of Parkdale, was playing with a loaded gun in English's shop he was fatally shot in the head, dying in a few moments afterwards.

—The official declaration for Selkirk village, Cant. Scotch, Conservative, a majority of 158, the votes in the parish of St. Norbert were having been thrown out altogether for irregularities caused by an incompetent deputy.

—The exports of wheat from the Port of Odessa during a heavy fog on the 16th inst. Thirteen cars were thrown from the track, and an engine and four cars burned.

—No one was injured.
—The largest ever new iron bridge was the largest ever launched in a single month, reaching \$19,924,000, as against \$35,166,000 during August, 1879. The exports for August reached \$38,849,000, over five millions more than during the same month of 1879.

—It is proposed to found an American, Canadian, and Australian Club in London next spring. The annual subscription will only be payable during a member's residence in England, the non-visiting members paying a small subscription. The entrance fee will be \$150.

—On the 16th inst., a driver named Walter White, Toronto, who was drunk, got into an altercation with a sharper, in Montreal, and was noticed by a policeman in time to save him from losing his money \$2000. Both were taken to the Station and locked up for the night.

—The \$40,000 museum to be presented by Mr. Peter Redpath to McGill University, Montreal has been raising rapidly throughout the summer, and Tuesday next, the 21st inst., has been fixed for the laying of the corner stone. His Excellency the Governor-General will officiate.

—It is now almost a certainty that the steam yacht, which sailed from San Francisco in July, 1879, to discover the North Pole, has been lost with all on board. She was commanded by Capt. De Long, a brave and experienced navigator, and carried a crew of thirty-two men.

—A Winnipeg despatch says the brakemen and firemen on the Canada Pacific Railway resigned their positions because an increase of wages was denied them, and it has been found the arrival and departure of trains for fear of the destruction of property.

—A young man nineteen years of age, named Edwi. Usher, belonging to Woodville, Cornwall, met with an accident on Tuesday, the 7th inst., from the effects of which he died Sunday. He was out gunning, and while creeping through a bush, he was caught by the gun after him. He was discharged, lodging the contents in his side.

—It is a despatch received from Olunwater, Mass., can be depended on there is likely to be a repetition of the Fortunate Bay dispute between the American and English Governments. Two American schooners are said to have been boarded by British gunboats, who wish to drive them away. In view of the readiness of Americans to complain, the other side of the story should be received before the report is accepted in all its details.

FEVER IN HORSES.—Great excitement has been caused in the vicinity of Portage road, Ont., by a farmer by the name of Hector McNeil losing a number of valuable young horses, and in some cases suffering from what was supposed to be an infectious disease. Mr. Gunn, veterinary inspector for the County, was sent for, and on investigation he found the disease to be typhoid fever, caused by impure water.

THE CANADA PACIFIC.

(Globe's Daily Correspondent.)

Thursday, Sept. 16.
The Times says:—"We are authorized by the Canadian Minister to state that a contract has been made by the Dominion Government with certain capitalists in London, Paris and America for the construction of the Canada Pacific Railway, such contract with all its details to be subject to the approval of the Canadian Parliament, which will meet in February next."

MORNING DESPATCHES.

AMERICAN.

WASHINGTON, Sept. 17.—The internal revenue receipts of July and August show an increase of \$2,000,000 over the corresponding months last year, and indicate great improvement in the general business of the country.

LOUISVILLÉ, Ky., Sept. 17.—The Louisville worsted mills were burnt yesterday. Loss \$50,000.

NEW ORLEANS, Sept. 17.—A suspicious sickness is prevailing 75 miles below this city. Last week it was pronounced yellow fever of a mild type. There have been 75 cases, and several deaths since the latter part of August.

NEW YORK, Sept. 17.—The World's Bazaar special says the Republicans are hard at work trying to count in Davis. By a careful estimation of the returns, allowing the Republicans all they claim, Plaisant has certainly a plurality of 500, probably considerably more.

The man giving the name of Harry Howard, sentenced last June to the penitentiary for burglary, and who died two months afterwards, is now said to have been Baron Herman Doreffberg, belonging to a very wealthy family in Belgium.

The Dwyer brothers yesterday purchased the two year old colt "Hindoo" for \$1,500. Capt. Eddy, of the brigantine Caroline Eddy, arrived on Wednesday, and reports his vessel was wrecked in the hurricane in which the Yera Cruz was lost. The brigantine crew remained three days in the rigging while their water-logged vessel was drifting towards the beach. It grounded two miles from shore, and the sailors finally reached the beach in the greatest distress.

The Sun's Augusta special says the Republicans holding back the returns give the foundation for the charge that the Republicans mean to seat Davis as Governor by fair means or foul.

The Times says the returns received from all but sixty-four divisions in Maine show Davis has a plurality over Plaisant of 878.

NEW YORK, Sept. 17.—Arrived Adriatic from Liverpool.

COMMERCIAL NOTES.

The value of live stock exported from Boston last week was \$242,010.00.

LOSSES ON CATTLE SHIPMENTS.—According to the New York correspondent of the Philadelphia Ledger, the exporters of fresh meat and live cattle from the United States and Great Britain have lately sustained heavy losses upon their consignments. In one case the transportation of 900 cattle realized on the average 25 per cent less than the cost of landing them.

The exports of horses for week ending Saturday, September 11th, were 111 horses, valued at \$11,394.50, averaging \$101.75 head, against 109 horses valued at \$9,227 for the week previous, averaging \$84.65 each.

PAN-PREBYTERIAN COUNCIL.—The most important coming event in the religious world is the assembling of the Pan-Prebyterian Council soon to gather in Pennsylvania, which will be regarded with a good deal of interest by Evangelical Christians of all denominations. The number of delegates will be about 300, but these will be but a small proportion of those attracted thither by the Council, as many more will attend as visitors. The Council includes all sections of those adhering to the Presbyterian standards, and as it is not legislative, but purely deliberative and advisory in its character, the proceedings will doubtless be marked by a freedom of utterance and a wide scope, which will render them of special interest. Among the topics to be considered are inspiration—this would give an opportunity to discuss Scripture revision—the Atonement, temperance reform, the training of the young, and popular amusements. These great themes will, no doubt, be ably and instructively handled by a body which includes so many of the leading religious thinkers of both continents.

Astonishing the World.
For a perfect renovation of exhausted and enfeebled constitutions, female weakness and general decline, nothing so surely and speedily produces a permanent cure as does Electric Bitters. Their wonderful cures are astonishing the world. For Kidney and Urinary Complaints they are a perfect specific. Do not give up in despair, for Electric Bitters will positively cure, and that where everything else fails. Sold by J. B. Clark & Co. at fifty cents a bottle.

Lost.

LOST, a bunch of Keys with the owner's name attached. Finder will be suitably rewarded upon returning same to the office of Duff House.

OPENING
OF
THE FALL SEASON, 1880.

Our buyer returned from Europe by last week's steamer, after having spent nearly two months in selecting and purchasing one of the largest and most attractive stocks of Seasonable Dry Goods ever imported into the City of Belleville.

We claim that the prices of our New Goods will be found lower than those of any other house in this section—from the fact that we were late in reaching the markets of Great Britain (later several weeks than any buyer east of Toronto). On our arrival in England we found that the Manufacturers had reduced prices within the 'previous three weeks' from five (5) to twenty (20) per cent. and were very anxious to make sales. Their expectations of a continued large trade were not being realized, and in order to push off their accumulating stock, they were compelled to come down with prices, and being on the spot ready to pay cash for what we wanted, we secured many lines at prices which surprised us.

We particularly invite the attention of the public to the decided advantage this gives us over any other Dry Goods House in this section of the country.

ALREADY TO HAND.

Nearly one hundred packages of British and Foreign Dry Goods from the largest Manufacturers and Warehousemen of Britain and the continent, including magnificent ranges of KID GLOVES, BLACK AND COLORED SILKS AND SATINS, SILK BEADED FRINGES, BLACK AND COLORED CASHMERES, &c., &c., and every day witnesses large additions to our stock, which, when complete, will be unequalled for value, variety and style between Toronto and Montreal.

The Family Library. Make a family library. The true home does not have to be without a library than without a dining room and kitchen. If you cannot afford to buy books, you can still have a great wood fire in the flaming fireplace, as Abraham Lincoln's was, do as Abraham Lincoln did—pick out one corner of your fireplace and use it as a bookcase. Even a child can provide for the brain as well as for the

This does not require capital; there are now cheap editions of the best books; it only requires time and forecast. We write in a private way, and find our way for working.

The *Frederic* reproduces the following words of St. John de la Croix, translated in the writings of Cassian: "The blessed angel was one day gently stroking a person when a young man, rich and powerful, came in and asked how a man as virtuous could spend his time in such a way. 'What have you got in your hand?' he asked. 'A feather,' he replied. 'Why is it not strong?' 'Because if it struck always it would lose the oil of its softness,' he answered. 'Do not be angry, then, my friend, if I sometimes in this way touch you with my hand, so that you may fall at the very moment when I

incomparably the best—a good Atlas and an Encyclopedia. Any school atlas will do (and a second hand one can be had for almost nothing) though, if you are able to purchase it, the *Book of the Year* is much better. There is, however, one more thing to be said in connection with this subject, and that is, the power of the mind.

[illegible]

Have a place for your library. Respectable hanging-shelves can be bought in our cities for less than a dollar.

and towns for a while, and the little mechanical still, will make a larger and better one. Varied pine is handsome enough to fill still it will be a good thing to have. I will get its prayer answered. Book shelves for some books. One shelf of books for the number scattered from Athia to collar.—*Christian Union.*

No good preaching.

No man can do a good job of work, preach good sermons, or do good things, as a doctor a patient, or write a good article when he feels miserable and dull, with atrophic brain and no vitality. It is a waste of time to attempt it such a condition when it can be so easily cured.

Daily Intelligencer.

BELLEVILLE, SATURDAY, SEPT. 18.

That Exodus Again.

The American visitors who have been enjoying the cooling breezes from the Atlantic and the Gulf in the Maritime Provinces are now returning to their homes, and the Grit press in that part of the Dominion take occasion to assert that another "exodus" of the residents of the country has commenced. The fact is as we have stated, and the Grit writers are perfectly well aware of it, but they nevertheless assert that the N. P. is depopulating the country. To say that people leave Canada with a 20 per cent. tariff, and go to the United States with a 43 per cent. tariff in order to prevent taxation on the Grits is a statement which is a self-evident absurdity, but this our Grit friends either do not see or conveniently ignore. The people who have left Canada for the United States have been allured by the higher rate of wages paid in that country. High wages result from protection to home industries, therefore to follow the argument of the free-traders to its legitimate conclusion, a greater degree of protection should be given to the manufacturers of the Dominion. When an exodus in the direction of a free trade country sets in, then, and not till then, will there be any force in the allegation that our people are leaving the country to escape taxation.

THE PACIFIC PROVINCE.

So much has been said and written by the creators and organizers of the Grit party in disparagement of the Pacific Province, that those who have not followed the dictates of experience and rejected as unworthy of consideration the statements of the Opposition when they have a political object to attain, have been led to believe that British Columbia, as Mr. Blake termed it, "is a sea of mountains," inhabited by a few Indians, with a sprinkling of whites and Chinese, and altogether a country inhospitable in character and of very little value to the Dominion.

Mr. F. B. McNamee, of Montreal, a well-known Reformer, who has lately visited the Province, does not entertain so poor an opinion of the value of the Pacific Province and of its capabilities as does the leader of his party. On his return from the Pacific coast to his home in Montreal, Mr. McNamee was presented by the St. Patrick's Society with an address expressing the pleasure of his fellow countrymen at his return to the city of his residence. In his reply Mr. McNamee said: "My journey has afforded me great satisfaction, for I may tell you that a visit to British Columbia will dispel the doubt from any man's mind as to whether or not it is a valuable portion of this Dominion. Having seen it from end to end; having talked with its leading capitalists and men of business; having seen the coast and the interior, and the beautiful scenery between them, and the more populated eastern Province, to make it one of the wealthiest parts of the country."

This is the disinterested testimony of an able and observant gentleman who has no party or personal end to serve, and who may therefore be presumed to speak disinterestedly of what came under his own observation. Such a statement must go far towards removing the false impression which has been created by the jaundiced strictures of Mr. Blake and his followers, whose object has been to prevent the construction of the British Columbia section of the Pacific Railway by the present Government, although the Grit party, when in power, were quite willing to have the work performed. In this unpatriotic work, however, the Opposition have signally failed, and now that the Railway is to be pushed forward to completion at the Pacific terminus, British Columbia seems certain, at no distant day, to become what nature evidently intended it to be, a highly prosperous portion of the Dominion.

The Toronto Collectors.

The Toronto Telegram says:—"The appointment of a successor to Mr. James E. Smith, in the Customs collectorship at this port, has been made, but will not be formally gazetted until Sir John Macdonald's return from the old country. We are in a position to say that the new incumbent will not be Mr. Mackenzie Bowell." We were in a position to make that statement, and did make it some time ago, but it didn't seem to believe it. And even now, if the Globe saw a chance to make any capital for its party, it would repeat the lie over again and stick to it.

News Condensed.

—The Bishop of Edinburgh has arrived in New York.

—Moody thinks that everybody should sing in church.

—The Governor-General will leave Quebec for Montreal on Monday.

—The receipts of grain in the Kingston market average 1200 bushels a day.

—There are upwards of 2,000 pleasure crafts propelled by sails on Toronto Bay.

—A large number of buildings have been erected in Winnipeg this season.

—Both St. Louis and Kent gates, Quebec, are regularly approaching completion.

—Matriculation examination for Victoria University, Cobourg, took place on the 22nd inst.

—It is said a public reception will be tendered to Sir John Macdonald on his return to the capital.

—At Canton, N.Y. yesterday, Ottawa firemen took second prize and Morrisburg firemen third.

—Sixty Ottawa aboriginals have been engaged for Lindsay and will leave for that place on Monday.

—The steamship *Canadian*, with 274 head of cattle, sailed from Quebec for Glasgow on Friday morning.

—Last evening the stables of the Black Horse Inn, Toronto, with a workshop adjoining, were burned.

—The hands of the barge *Ontario* at Kingston, were robbed of \$30 worth of clothing on Thursday evening.

—Mrs. Scott-Siddons will begin her season under the management of Mr. Harry Sargent, in Toronto, Oct. 25.

—All the Quebec French papers contain articles congratulating Sir John on the assured success of his mission to England.

—At the camp at London yesterday morning, Col. Atwood was thrown violently from his horse, sustaining severe injury.

—Late gold discoveries in the Province of Quebec are highly auspicious.

—A mill for quarries is to be erected shortly.

—Sir Robert Hodgson, late Governor of Prince Edward Island, died at Charlottetown on Wednesday, after a short illness.

—On the 16th inst., an explosion of sulphur occurred at a colliery at Sherbrooke, P.E., seriously injuring six men, most of whom will die.

—On Thursday ten miners were left 300 feet in a Nevada mine by the breaking of a cable. Nine were killed and one badly injured.

—Mr. Donald MacMaster, M. P. P., was married on Wednesday in Lancaster to Miss Macdonald, daughter of James Sandfield Macdonald.

—Rebecca Rothschild, a young Jewess of Indianapolis, assu Thomas M. Dikens, a wealthy Christian, for \$20,000 damages for breach of promise.

—Governor Laird, of the North-West Territory, arrived at London on Wednesday, after a short illness.

—Among the fish of the United States the cod comes first in money value, the salmon second, the mackerel third, and then the menhaden. In weight the last stands highest.

—Jamaica, the wild animal dealer of London, has exported the biggest orang-outang ever seen in Europe.

—The people of the United States have been led to believe that British Columbia, as Mr. Blake termed it, "is a sea of mountains," inhabited by a few Indians, with a sprinkling of whites and Chinese, and altogether a country inhospitable in character and of very little value to the Dominion.

The Fall Regatta.

A meeting of the Yacht Club was held last night, at which final arrangements were made for the fall regatta, which is to occur on Friday next, the 24th inst.

The location of the course was changed from Massena Bay to the inner harbor, in front of the city, in order to give all who are inclined an opportunity to view the race, which can be seen from the Grand Junction wharf (which Mr. Brennan has kindly undertaken to have cleared of rolling stock), Zwick's Island and Ferry 1.

The course will be as follows: A buoy off the Grand Junction wharf, thence back buoy off the city wharf, thence back to the starting point, passing on the north side of it; across the bay to a buoy off Cow Island, leaving it on the starboard hand; thence to a buoy off Gilligan's Point, turning it to starboard; return to the city wharf, turn it in the same way, back to the starting point and again passing it on the north side; three times around. The course thus sketched is an eminently fair one, and will allow of the positions of the yachts being easily seen all around, and it cuts off the usual just west of the harbor, which will be buoyed off for the convenience of strangers.

A doubt having arisen whether yachts under two tons should be allowed to start in this race, the matter was discussed at much length and decided in the negative.

Messrs. James Clarke, Thomas Willis and Morgan Jellett were appointed Judges; Wm. Webster Time-keeper, and R. S. Bell Starter. Messrs. D. B. Robertson and J. S. Bell were appointed to measure the winning yacht, if the latter is so close as to render it necessary, and a steamer was engaged to pay the buoys and for the accommodation of the Judges and other officials of the race.

Each yacht will be required to furnish a scrutineer, to be placed on some other yacht, at the discretion of the Regatta Committee.

The Regatta promises to be a great success, as the contest will really be for the championship of yachts under twelve tons on fresh water. In addition to the local craft, the *Survivor* of Trenton, *Emma* and *Udolpho* of Kingston, *Pericles* of Gananoque, and others, are expected to participate, and the race will consequently be one of the keenest ever witnessed. It will, in fact, be worth going a long distance to witness.

It is requested that entries be made to R. S. Bell, Secretary, not later than noon on Thursday, the 23rd inst.

The start will take place at 10 a.m., as the course is a very long one, and will occupy at least from four to six hours, according to the force and direction of the wind, in getting over it.

The Toronto Exhibition.

Amongst the prizes taken at the Toronto Fair, we observe that Francis Peck, of Albany, got first prize for bushel of buckwheat. In snow prizes, John G. Peck, of Albany, got third prize. Francis Peck took second prize for Waggoner; second prize for Talman Sweet; second prize for seedling fall variety; first prize for crab apples; first prize for St. Denis cabbage; second prize for white cabbage; third prize for red cabbage; first prize for buckwheat; third prize for small field beans (white); and second prize for early Ohio potatoes. John G. Peck took third prize for cucumbers; George A. Wynn, of Albany, took fourth prize for winter wheat; first prize for oats; fourth prize for white corn. The prizes for cheese were awarded as follows:

Best Cheese, best 6 factory, not less than 45 lbs. each, John T. Johnson, Buxton, Ontario. Gold medal presented by Messrs. Davidson, Smith & Co., Toronto.

2nd do. David Morton, Bathurst. 40 00

3rd do. Wm. Harris, Elmira. 20 00

4th do. Walter Russell, Napawa. 20 00

5th do. Jas. Elliott, Bownessville. 15 00

6th do. Andrew Aitchison, Listowel. 10 00

Best cheese, best dairy, not less than 30 lbs. Wm. Harris, Mt. Elgin. 5 00

2nd do. John Rowl, Nileswood. 4 00

3rd do. John Rowl, Nileswood. 3 00

Best cheese, 2 Canada Shilton, not less than 5 lbs. each, Mrs. Eliza Parsons, Guelph. 5 00

Best cheese, 1 Canada Shilton, not less than 5 lbs. each, John Rowl. 5 00

2nd do. Wm. Harris, Mt. Elgin. 3 00

Up to the 16th there were 85,000 visitors to the Fair, and yesterday the number was run up to 120,000. The Exhibition has been a great success—far greater than was expected, the attendance in two weeks being larger than in three weeks last year, when Royalty was present. On the night of the 16th, the hotel capacity of the city was taxed to its utmost, large numbers of cottages being called into requisition, and numbers were unable to obtain lodging.

Yesterday was what was called Oddfellows' Day. The Sovereign Grand Lodge of Oddfellows held their annual meeting in Toronto, and from all parts of Canada there were special excursion parties of Oddfellows, and a number coming from different places in the United States. A procession was formed in the afternoon, the largest ever seen in Toronto. It was composed of 49 bands, 908 musicians, 2,023 Oddfellows in regalia walking and 164 in regalia riding, and about a hundred carriages. The carriages contained the delegates; to each carriage was affixed small little banners, upon which was inscribed the name of the country or State from which the occupants of the carriage came. An amusing feature of the procession was a very much decorated but rather grotesque goat, which was led by a couple of lads. No doubt the goat was intended to represent the initiation ceremony through which new members have not to pass.

In the evening the Corporation of Toronto entertained the members of the Sovereign Grand Lodge at a banquet.

The Mail referring to the Exhibition which closed yesterday, says:—"Carping critics of some western journals indubitably state the report that the fair was proving a failure. Its success was, however, never in doubt. Yesterday 40,000 people were on the grounds. The total admissions during the two weeks were 120,000, as compared with 100,000 during three weeks last year, when there was the additional attraction of the presence of H. E. the Governor-General and Sir John Macdonald. The fair, in fact, has been a magnificent display in making such a magnificent display in the different departments, and the managers are to be congratulated on the success which attend their labors."

Stirling and Vicinity.

(From the *New Argus*, Sept. 17.)

Since Haggerty & Tulloch's elevator opened, 1,000 bushels of grain have been taken in. A car-load of barley was shipped this morning by Dr. Faulkner.

On Thursday evening, the 9th inst., a social gathering was held in Marsh Hill school-house, Sidney, many friends of the school and teacher, H. G. Parker, well known in Stirling, being present. The trustees, through Mr. T. Bird, presented Mr. P. with a purse containing a \$10 gold piece, and a beautiful bound bible.

Harold is excited over a very unsatisfactory elopement. His petticoat of all the romance usually attendant upon such affairs. As rumor has it, the son of a well known citizen of Rawdon wooed and won a fair maiden of rural birth, whose page vetoed the match. As is usually the case, this only made the young couple the more bound to "went and go and do it," and it was arranged clandestinely that the lovely Mary should repair to Marston, thence going to meet her, where her gallant lover would meet her, and the twain would become one. The young lady was evidently in good faith; but, alas for the petticoat of all the romance usually attendant upon such affairs. TO NERVOUS SUFFERERS—THE GREAT EUROPEAN
REMEDY—DR. J. B. SIMPSON'S SPECIFIC
Dr. J. B. SIMPSON'S SPECIFIC is a
positive cure for Spasmodic, Epileptic,
and all diseases resulting from Spas-
modic, Nervous, Irritability, Mental
Ailments, Languor, Lassitude, Depression,
Spleen and Functional Derangements of the
Nervous system generally. Pains in back or side,
headache, vertigo, etc., are cured.
Drops of the Specific will restore the lost func-
tions and restore Health and Vigor. The
Specific is being used with wonderful suc-
cess. Pamphlets sent free to all. Write for
them and get full particulars.
Bottle for \$2.00. Will be sent by mail on receipt
of money. Address all orders to
SIMPSON & LYMAN,
Toronto, Wholesale Agents.
Sold in Bellefleur by J. A. Clarke & Co., 100
Adelaide St. E.

LADIES'
RUBBER CIRCULARS,
AND
Rubber Newsports,
We have received a consignment of the
above Goods, which we will sell at
Wholesale Prices.

THE DECISION—A Fable
One day a bird of rare plumage and song
sat on the limb of a tree overlooking a
pond, when a cat came to the surface
and said:
"You may be able to fly through the
air, but you can't swim. You are not half
so big a snob as you pretend to be."
This salutation nettled the bird, and he
spunked up and replied:
"I am a better man than you are any
day in the week, and if you were up here
on this limb I'd prove it or break my wings
trying it."
"Pooh! If you were down here in the
pond I'd take the brag out of you in about
a York minute!" answered the catfish.
After some further "sass" it was agreed
that they should go to the pond and have a
test to see which could swim. It happened
that the cat was out to get some fish
when the bird came to the pond. The bird
swam like a fish, and the catfish was
astonished. "You can swim!" he cried.
"You can," began the cat as she stroked
her whiskers and looked wise. "This bird
cannot swim and the catfish cannot fly."
Therefore, you must meet on neutral
ground. It thinks his cause is right, and
you come to me to decide. The bird
swam to the bank and the catfish tried
to pull the bird up, and the other will
try to pull the bird down, and may the best
man win."

COVERED AND UNCOVERED

VALUABLE MILL PRIVILEGE
Premises for Sale.
THE subscribers offer for sale one of the
best Mill sites and water privileges on
the River Mira, just above the lower end
of the City of Bellefleur, a few rods from the Grand
Trunk Railway station. The main travelling
road from Bellefleur to the northern townships
and villages runs through the premises, and
crosses three acres on the west side, embracing
about a large island, 400 feet
long, 20 feet wide, and 10 feet deep, with water
6 feet wide and 4 feet deep; foundation depth
10 feet. Ten feet of water with the ex-
clusive right to use the farther shore for dam-
ing, giving the sole right to this magnificent
water power at any point. The dam is of
stone and brick, and is now in use. The
power available is about 1000 horse power.
On the east side of the dam are six and a half
acres of land, capable of being laid out in
building lots or being used in connection with
extensive milling. The manufacturing for yard
purpose, or both. The above is one of the
most valuable properties of the kind ever
offered for sale in the Province. For terms and
particulars apply to
BELL & PONTON,
Bellefleur, July 16, 1880.

To Let or For Sale.
A ROUGHCAST House on Lewis Street,
in good repair, with outbuildings, and
all the modern improvements, and a large
hard and soft water, and next to horse car
road. Apply to
BELL & PONTON,
April 17, 1880.

TO LET.
THOSE premises on Front Street, in the
City of Bellefleur, lately occupied by
Alexander Macdonald, and now vacant, are
first floor north of Robinson's Hotel. Apply to
BELL & PONTON,
Bellefleur, May 15, 1880.

CALL FOR THE GREAT
Sierra Nevada Smoking!
At McDonald's Tobacco Store, one of the
most delicious smokes ever smoked. Cakes
of cedar, catnip, and all the best of the
country. Singers and smokers use it exclu-
sively.
M. A. MITCHELL, Agents.
St. Lawrence Hall, Montreal.

THIS Hotel has been recently re-taken by
Mr. J. H. HOGAN, the former proprietor,
who has had the building thoroughly re-
novated and renovated the interior, and com-
pletely refitted the whole of the apartments
with new furniture. The Hotel is admirably
and contiguous to the General Post Office, the
principal banks, public buildings, law courts,
for 10 cents and 15 cents. For particulars
apply to
180 St. Lawrence St.

Daily Intelligencer.
BIDY'S SONG OF THE DRESS
Work I work I work!
While the chickens are crowing about!
While the cats are on the roof!
While the dogs are on the street!
For one who can make a dress!
Oh, how it will shine at the picnic and ball!
In its lustrous folds and before.
Work I work I work!
Till my brain begins to swim!
Till my hands are numb and sore!
Till my heart is in a flutter, and my brain in a
whirl!
Till I drop that is perfectly glad.
Oh, man will not share a word!
Oh, man will not share a word!
I'll show them such an elegant dress!
As they never saw in their lives!
But I'll not let it go!
This beautiful dress I'll keep!
Till the river can't take it away!
Till the sun can't burn it away!
Till the wind can't blow it away!
Till the rain can't wash it away!
Till the fire can't burn it away!
Till the ice can't freeze it away!
Till the earth can't bury it away!
Till the sky can't take it away!
Till the sun can't burn it away!
Till the wind can't blow it away!
Till the rain can't wash it away!
Till the fire can't burn it away!
Till the ice can't freeze it away!
Till the earth can't bury it away!
Till the sky can't take it away!

Humorous.
A party of Boston capitalists are reported
to be preparing to establish an Angora
goat industry. They will send a goat
to each of the thousands of Angora
goats they will want to go away with.
The owner of a pair of bright eyes says
that the prettiest complaint that she ever
received came from a child of four years.
The little fellow, after looking intently at
her eyes a moment, inquired, naively, "Are
your eyes now one?"
Tommy went fishing the other day with
out permission of his mother. Next morn-
ing a neighbor's son met him and asked
"Did you catch anything yesterday, Tommy?"
"No! Not a thing!" was the ready
reply.
"Hole on day," said a colored man,
hailing an acquaintance. "Does your cross
dear old lady drink it?" "There I was
sitting at home, and she says, 'No, she
won't!'" "What fur, don't?" "For keep
from being 'xated for it!"
Robinson (after a long whilst) sat at the
table with a sad and thoughtful air. "What
will you say to your wife?" Brown, in a
whisper. "Oh, I can't say much, you
know. I'm worried, dear, or something
of that sort. She'll say the worst."
A girl asked a druggist friend to tell an
easy way to take a glass of soda water, ex-
claiming, "I have tried every other way, and
I have taken the oil in that glass of soda
water." "Oh dear," she replied, "I am
so sorry, for it was for my mother I want-
ed it!"
Mr. Wendell Phillips is described by
The Boston Courier as riding up Mt. Wash-
ington and meeting on the summit a friend
who addressed him thus: "Well, Mr. Phil-
lips, I never expected to meet you up here
near heaven as this." "You never will
again," Mr. Phillips retorted, dryly.
Miss Murray, an elderly admirer,
who the other day presented her
handsome lace collar. "Now, do not," he
said, "to get of elephantine playfulness,
do not let me hear of you again." "No,"
said, answered Lavinia; "I will be careful
to take it off!"
When an Arab woman intends marrying
again, after the death of her husband, she
goes to the tomb of her late husband to pay
a visit to his grave. There she kneels and
prays him not to be offended, not to be
jealous. As, however, she feels he will be
offended by her return, she kneels and
prays him to be patient, and to wait until
she has a donkey laden with two goats' skins
filled with water. The prayer ended, she
proceeds to pour the water on the grave, to
keep the earth from becoming dry, and the
irritating circumstance about to take place,
and having well saturated him she then de-
parts.
Prince Talpaland once upon a time sum-
moned his wife, who was none other than
the great Carmine, and said to him, severely:
"I am greatly displeased with you. You
served me at 5 o'clock yesterday with a
dish of hot water, and at 7 o'clock you
served me with a dish of cold water, and
thus my evening's appointments were all
interfered with, and grave matters of
state were left unconsidered or only half
considered. You have been very foolish in
informing me that the dinner was good."
"It was delicious, sir," "That, Your Ex-
cellency, was the important point" and,
with a profound bow, the artist retired.

An Editor's Dream.
The editor fell asleep after a time, and
he dreamed a dream. And it seemed
to him in a vision that he was surrounded
by certain papers and books he turned
his steps once more towards heaven, and
knocked at the gate.
"Hello, is that you again?" said Peter.
"What do you want?" asked the editor.
"Let those persons again come forth,"
replied the editor; and Peter made them
pass through the gate and stand outside.
They came before and uttered the
same cry as before.
"Why didn't you notice the big egg I
sent you?" yelled the first editor.
"It was rotten," replied the editor.
"Why didn't you write up my soda foun-
tain?" cried the second editor.
"You had your tickets printed at the
other office, and the editor replied.
"Why did you write about old Tomlin-
son's hens and never speak of my new
gate?" shouted a third.
"Old Tomlinson paid for his advertising
and you didn't. Here's the bill," said the
editor in a rage, and he sent the editor
out.
"Why did you spell my name wrong in
the programme?" growled the local
talent.
"Take a look at this manuscript of yours
and see for yourself," replied the editor
with a grin and a nod.
The rest of the company yelled their
complaints in union, and the editor calm-
ly sorted out a pile of bills for unpaid sub-
scriptions and presented each with one.
It was so that when they received them
they all tore their hair and rushed wildly
down a steep to the sea, and St. Peter took
the editor calmly by the hand, led him
within the gate, and said:
"Come, friend; these chaps managed to
slip through here in spite of us, but thanks
to the press, we know what sort of fellows
they are. Come in and stay; we need a
few such men as you here."

Humorous.
If you will stop your extravagant and wrong
notions in the doctrine of the Editor, and
with expensive doctors or humbug cure-alls,
that do harm to all, and use only nature's
simple remedies for all your ailments, you
will be wise, well, and happy, and save great
expense. The greatest remedy for all the
great, wise and good will tell you, is Hop Bit-
ter—rely on it. See another column.

Daily Intelligencer.

Fall-Packed Butter.

The harvest of the "farm dairyman" is just at that time when the summer crops are cut, and the dairyman is left with a surplus of butter. This surplus is often sold at a low price, and the dairyman is left with a loss. The Intelligencer is now publishing a list of the best butter for sale, and the price is very low. The butter is of the best quality, and is sold at a low price. The Intelligencer is now publishing a list of the best butter for sale, and the price is very low.

The Best Vehicle.

An anecdote is told of a physician who was called to a foreign family to prescribe for a case of infantile convulsions. He gave them a prescription for pills, and wrote the directions. "One pill to be taken three times a day, in any convenient way." The family looked at the prescription, and then at the physician. They said, "We will take the pills, but we will not take the directions." The physician said, "Why not?" They said, "We will take the pills, but we will not take the directions." The physician said, "Why not?" They said, "We will take the pills, but we will not take the directions."

SUBSTITUTES.

The public are cautioned against a common which is getting quite common of late among a certain class of medicine dealers, and which is this: When a dealer has a supply of a certain medicine, and it is nearly sold, he will substitute a cheaper medicine for the one he has on hand. This is a very common practice, and it is very dangerous. The public should be cautioned against this practice, and should be told to buy only from a reliable dealer.

BELLVILLE, TUESDAY, SEPT. 21.

6 O'CLOCK EDITION.

City and Vicinity.

POLICE COURT.—There was no business in the Court this morning.

LUMBER.—Fourteen loads of lumber arrived by the Madeira train this morning.

THE RIFLE.—Members of the Hastings Rifle Association are reminded of the meeting of that body at Hamby's to-night, to determine as to the annual prize meeting.

INDUSTRIAL.—We hope to see a large attendance at the meeting of the Committee of Industries this evening. The subject which is to engage attention is a highly important one.

HASTINGS PONTON.—In the Court of Appeal on the 20th, Judgment given by Patterson, J. Appeal dismissed with costs. Meas, C. J., Burton, J., and Morrison, J., concurred.

THE RABBIT.—The Kingston News says: "The yacht *Anna* of this city will be hauled out and fitted up immediately for the yacht race which is announced to come off at Belleville on Friday, the 24th inst."

CRICKET.—The proposed trip of the Belleville Cricket Club to Montreal has been abandoned. The Club will, however, proceed to Kingston and play their return match with the children of that city.

ARRIVAL OF CHILDREN.—Two parties of little boys and girls just arrived for adoption have arrived from London and Glasgow per S.S. "Moravia" and "Buenos Ayres."

Parries desiring such adoption with reference to Miss Blough, Marchmont House, Belleville, Ont.

THE POLICE FORCE.—The City Council did last night what we urged it to do several months ago, namely, passed a By-law limiting the number of policemen and fixing their salaries. The By-law carries out the resolution passed by the Council on the 6th inst.

GRAND JURORRY.—The City of Grand Jurors. In the Court of Appeal, Toronto, on the 20th inst. McPhillips obtained an injunction restraining the defendants from leaving or removing the crossings of the defendants at the city of Belleville.

A GALE.—The equinoctial gales commenced yesterday, the wind blowing strongly during the whole of the day and continuing during the night with occasional powerful gusts. This is the season when many vessels lay up a week for repairs, as sailing on the lake is both difficult and dangerous.

LECTURE.—The opening lecture of the academic year in Albert College was delivered by Prof. Ball in the College Chapel last night. The subject—"The Biography of our Planet"—was ably and instructively handled, the closest attention being paid to the speaker's remarks. There was a large attendance.

THEY SING.—The City Council last night referred the matter of the railway siding which they authorized Messrs. Downey & Preston to put down, to the Public Works Committee, which action ought to have taken two weeks ago. It will now be the duty of the Committee to go over the ground and see it for themselves, and then to hear the parties interested before coming to a decision in the matter.

OUR MANUFACTURERS.—It was a feather in the cap of Alderman St. Charles to take the prize at the Toronto exhibition in competition with the largest concerns in the Province, for an omnibus manufactured in his establishment here, and this result has been followed by others equally pleasing. Mr. St. Charles has not only sold the prize bus on satisfactory terms, but has got two additional orders. This is a very satisfactory indeed, and an encouragement to our manufacturers to turn out the very best articles in their line, as Mr. St. Charles always does.

INTERMEDIATE EXAMINATIONS.—The following is a statement of the number who have passed at the late Intermediate Examinations at some few High Schools and Colleges in Ontario: Markham, 11; Pembroke, 21; Newmarket, 4; Campbellford, 7; Clinton, 6; Waterloo, 17; St. Catharines, 21; Ingersoll, 13; Barrie, 28; Weston, 11; Picton, 11; Cambridge, 19; Niagara, 3; Gananoque, 7; Brantford, 14; Dunnville, 2; Cayuga, 1; Colborne, 13; Hamilton, 34; Dundas, 2; Kemptville, 1; Barrie, 28; Farnborough, 16; Lindsay, 16; Berlin, 15; Morrisburg, 9; Arnprior, 3; Stratford, 11; Streetsville, 3; Perth, 20; St. Mary's, 20; Oshawa, 16.

THE UPPER FERRY.—The Amelburg Township Council met at Redville on the 20th inst., and transferred to the Trenton and Bay of Quinte Navigation Company the right of ferryage between Amelburg and Sidney, as acquired by them under lease from the Ontario Government. The Navigation Company met at the same place and decided the following gentlemen as the first Directors of the Company: J. W. Anderson, C. Graham, John Howell, James H. Peck, Philip Robin, Harford Ashley and R. S. Patterson. The Directors subsequently met and appointed the following officers: President—R. S. Patterson; Secretary—Jas. H. Peck; Managing Director—J. W. Anderson. They adjourned to meet in Belleville this morning.

PERSONAL.—HOB. S. C. WOOD, Provincial Treasurer, is in the city.

WEATHER PROBABILITIES.—The following are the probabilities—Lakes brisk to high south westerly to westerly winds, fine cool weather.

RIFLE SHOOTING.—The contest for the 4th Battalion champion cup, which took place this morning, was won by Lieut. W. H. Biggar, with a score of 72, including his start of 16. Corp. Vandervoort, of No. 3 Co., made the fine score of 33 out of a possible 35 at 200 yds., which is extraordinary work, considering the gale which blew at the time. Mr. W. H. Orchard, of Boston, shot with the competitors, and made the second highest score.

TAX COLLECTION.—The Council have adopted a plan of collecting the taxes, namely by appointing two Collectors, Messrs. Dunham Oskema and the old and faithful official of past years—and James Ross, the excellence of which appointments no one will question, as Mr. Ross, like Mr. Oskema, is a man of ability and probity. The system of collecting the taxes by a certain date and imposing a fine of 3 per cent. on those who pay thereafter has been done away with, and the whole roll will be placed in the hands of the Collectors, whose percentage has been reduced to 2½ per cent. By this means the Chairman of the Finance Committee states the expense of collecting will be materially reduced.

SHAWN RIVER.—This play, which is to be presented at the Metropolitan Hall on Thursday night by Mr. Joseph Murphy and company, has been played in Montreal with great success. The *Globe* of Friday last notices the play and its performance as follows: "It is impossible to do full justice to this splendid drama 'Shawn Rive,' or to the present company in which it is produced, in the limited space at our command. It must suffice to say that the play last night was large, and their applause was loud and prolonged, was fully commensurate with the merit of the performance. The cast was exceptionally good, and although it is scarcely just to particularize, special mention might be made of Miss Lohani as *Kate Donagh*, Mrs. E. Baird as *Younger*, and Charles O'Brien as *Patrick Donagh*. Mr. Murphy, famous song entitled 'Handful of Earth,' was enthusiastically received, as indeed it deserved to be."

THE LATE DROWNING AFFAIR.—The Kingston News of last evening says: "On Saturday last a party of medical students secured grappling irons and drove down to Professor Dupuis' camp, opposite Howland, where they took the professor's steam yacht to search for their unfortunate companion's body, but although they dragged the river for quite a distance around the shore where Keegan is supposed to have gone down, no trace of him could be found. Another attempt was made yesterday, but with no better result and the party was unwillingly compelled to return to the city with no more certain news of the unfortunate young man than before Keegan's mother, who has been in the city since Saturday, leaves for her home in Belleville by this morning's train, taking with her no trace of her son. We are informed that the police were notified of the affair at nine o'clock on Sunday, the night that he disappeared."

LACE CURTAINS.—The largest and most varied stock of Lace Curtains and Curtain Netts in this city, at prices from 50c. to the set of \$12. These are without exception, the best value in country of any house in Belleville. JAS. HENNESSY.

SPORTING NOTES.

THE ARGONAUT ROWING CLUB of Toronto, had their first regatta on Saturday. Six crews entered for the only race—that for four oared crews—which was won by Mr. Wallace's crew.

The Hop & Rogers Company have offered a sum of \$5,000 for a professional single scull race to take place in England, on the Thames or the Tyne, on November 22nd. The prizes are to be as follows: 1st \$2,500; 2nd \$1,500; 3rd \$700; 4th \$300, and \$200 additional as expenses to each oarsman who crosses the Atlantic to row in the race, which is to be open to not more than ten of the leading oarsmen of the world.

Foot Gaudaur won the race in eighteen feet skills at Hanlan's on Saturday. Maud S. made another attempt to beat the record at Chicago on the 18th and succeeded. The famous young mare's great achievement is thus described by a telegram: "It was nearly six o'clock and growing dark when Maud S. was brought on the track. The sky was cloudy and a strong south wind was blowing. At the first send of Maud soon left her foot and her driver spun her back for a fresh start. She then trotted to the starting point, and for a few moments, as her driver nudged her, quickly lengthened out her stride and got to the quarter in 34 seconds. It was then believed impossible for her to do better than 2:16 or 2:18, but when she got down to the second quarter at a 2:03 gait, the fastest quarter on record, there was breathless interest and expectancy. It was feared, however, that the strong head wind when she turned would slacken her speed materially, and render it still impossible to win. She kept straight forward, however, without break or skip, and reached the three-quarter mile point in 1:36. Barred her gently with voice and whip. She responded gamely, and the multitude was thrilled as she went the final quarter and thundered down the home stretch in 2:10. The time by three-quarters was—First, 34 sec.; second, 30½; third, 31½ sec.; fourth, 34½ sec. Loud cheers greeted her mare, her driver, and manager as they went to the stable. Maud S. carried two pounds overweight, and trotted in the face of a very strong wind."

The Shamrocks defeated the Montreal Club in their game of lacrosse at Montreal on Saturday, in three straight games. Time: 10m, 4m, and 5m. Hamilton very easily defeated Brantford at cricket on Saturday. Hamilton scored 175 in their game of lacrosse and Brantford 17. In their second essay Brantford lost four wickets for 8 runs.

THE CONCORDE BAY OUTRAGE.—The London Standard says in reference to the alleged violence shown by Newfoundland Indians to the American vessel *Concorde*, in the Bay of St. Lawrence: "We may state that her Majesty's ships *Druid*, *Conestoga*, and *Flamingo* have been ordered to the fisheries ground."

Serious Accident.

A Boy Badly Crushed.

Yesterday afternoon a boy about 13 years old, named Magnus Rogers, was severely injured on the yacht *Anna*, which was engaged in pulling the *Anna* to the bottom of the lake *Grovia*, which was being towed for Friday's regatta. The yacht was hoisted over, with the side next the west down, but the usual precaution of securing the hull in that position with a tackle had been neglected. A tremendous gust of wind from the westward heaved the hull to leeward whilst Rogers was under her side, and although some of those present saw the threatened calamity and shouted to the boy to get out of the way, he failed to do so, the yacht descending on him and crushing him, face downward, on a tie. Mr. W. H. Campbell, Mr. J. M. Roy and others saw the accident, and after strenuous efforts raised the boat and drew the boy from beneath. He was insensible and blood was gushing from his mouth, but was revived by the application of water to his face and head, and taken home. The services of Dr. Hope were secured, and he gives it as his opinion that the boy, although injured internally, will recover, when his wounds were broken. This morning the boy was much better, and is progressing as well as could be expected.

The Presbyterian Alliance.

The second General Council of the Presbyterian Alliance will be held in the Academy of Music, Philadelphia, commencing on Thursday next, September 21st, and closing on Sunday evening, Oct. 3rd. Papers will be read and reports on the state of religion given by delegates from all parts of the world. Principal Grant, of Queen's University will read on "Religion in Secular Affairs," Principal D. H. MacVicar, of Montreal, will read on "Presbyterian Catechism," and Prof. G. D. P. of Toronto, one on "Sabbath Observance." Other Presbyterian clergymen and laymen from all parts of Canada will be present, among whom are the following: Principal McKnight, of Halifax; Rev. D. McCrae, of St. John, N.B.; Moderator of the Presbyterian General Assembly: Rev. Dr. Matthews, Quebec; Rev. Principal MacVicar, Montreal; Rev. Principal Grant, Kingston; Rev. Principal Cavan, Toronto; Rev. Dr. J. McDonald, Toronto; Rev. Dr. Reid, Toronto; Rev. Dr. Jenkins, Montreal; Rev. Dr. Burns, Halifax, N.S.; and Rev. Dr. Gregg, Toronto. The lay representatives are Hon. Alexander Morris and Hon. J. McMurrie, Toronto; Messrs. T. W. Taylor, Toronto; James Croft, Montreal; Thomas McCree, Quebec; J. J. Fairbairn, Bowmanville; and Dr. McDonald Hamilton. Some of the most distinguished clergymen representing the various branches of the Presbyterian Church in all parts of Christendom will be present on the occasion and will take part in the exercises.

DEATH OF MR. WM. WARWICK.—The Mail of to-day says: "We deeply regret to announce the death of Mr. Wm. Warwick, the well known publisher. He died at his late residence, 37 Murray street, last evening. It will be remembered that Mr. Warwick was thrown from his buggy on the Exhibition grounds on the 4th inst. The horse being frightened by the steam roller and running away. His right leg was fractured in consequence. He was progressing favorably up to Wednesday last, when a change for the worse occurred, and he gradually sank, and expired last evening at 6 o'clock. He was a successful merchant, and highly esteemed by his fellow-citizens. His loss will greatly feel by his family and a numerous circle of sorrowing friends."

AFTERNOON DISPATCHES.

LONDON, Sept. 21.—A Berlin correspondent telegraphs that the chief subject of discussion in German papers is the ministerial crisis in Paris. Journals of all shades of opinion are fairly unanimous in expressing their suspicion and dread of Gambetta. The North German Gazette has not yet had time to receive an order of the day from the foreign office, but independent papers have fairly anticipated all that the Government is likely to say or even think the subject.

The *Antal Zeitung* (Liberals) says in no case will the crisis be interpreted as a peaceful symptom. The policy of revenge allied to in Gambetta's speech at Cherbourg, seems to be again in the foreground. The *Tagblatt* (Liberals) says that Germany knows too well that men like Waddington and DeFreycinet, with their independence of character, constituted in the Minister of Foreign Affairs a valuable pledge of good neighborhood with us and of peace in Europe than men who are really only marionettes of Gambetta, the apostle of revenge against Germany. The ultramontane question in the crisis was really whether the policy of moderation observed in domestic and foreign affairs shall be replaced by a policy of force.

The *Reichsblatt* (Conservative) says, in summing up this ministry, that President Grevy is digging his own grave. Gambetta will before long have filled all the ministerial and diplomatic posts with his creatures, and he will then replace Grevy. Gambetta's name signifies war to the knife against Germany. The ultramontane question in the crisis was really whether the policy of moderation observed in domestic and foreign affairs shall be replaced by a policy of force.

No good preaching.—No man can do a good job of work, preach a sermon, try to do his well, or write a patient, or write a good article when he feels miserable and dull, with sluggish brain and aching head, and none should make the attempt to do so, when it is so easily and cheaply remedied by a little Hop Bitters. See other column.

Its Just a Booming.

Such late expressions from all Druggists and dealers everywhere who are selling Dr. Kivo's New Discovery for Consumption, No. 1, are a preparation can begin to have such an extensive and rapid sale. And why? Simply because it is a truly wonderful medicine. No cough, cold, asthma, or any other disease of the lungs, can resist its healing qualities. Pain in the side or chest, Hay Fever, throat, and any lingering disease of the air passages. It will positively cure all these troubles, and everything else has failed. Rating getting of your Druggist, Jas. Clark & Co., trial bottle for ten cents, or a regular bottle for 75c. For sale by Jas. Clark & Co.,

"A profuse and many times excessively offensive discharge from the nose, with 'sneezing up' of the nose at times impairment of the sense of smell, and watery or weak eyes, impaired hearing, irregular appetite, general and pain over the eyes, and at times in the back of the head, cold feet, and a feeling of lassitude and debility are all of them not present in every case. Dr. Kivo's Catarrh Remedy cures catarrh in its worst form and stages. It is pleasant to use and contains no poisonous or corrosive drugs. So sure a cure is it that its former proprietor offered for years in all the principal Dispensaries of the land a standing reward of \$500 for a case it would not cure. Sold by druggists at 50 cents.

"THERMINE," the newest wonder for whitening the teeth, delightfully refreshing to the mouth. To try it is to become a friend to the dentist, irresistible, popular. Beware of the day.

A CARD.
To all who are suffering from the errors and indiscretions of youth, nervous weakness, loss of vitality, loss of manhood, &c., I will send a receipt that will cure you, free of charge. This great remedy was discovered by a missionary for years in all the principal Dispensaries of the world. Sold at 50 cents a bottle. Dr. J. M. Roy, Station D, New York City. — 40444444

Commercial.

Cheese Markets.

Little Falls, N. Y.
Sept. 20.—Quotes to-day, 12 to 13a; bulk, 12a.

News Condensed.

Typoid fever is very prevalent in Toronto.

No further deaths from smallpox are reported among the Mainway Indians.

The rain of Sunday and yesterday has completely extinguished the bush fires around Ottawa.

A Liverpool despatch says: The *Imman* steamship *City of Quebec*, which left New York on the 9th inst., has not arrived at Quebec.

The Hon. James Macdonald returned to the capital yesterday, and Sir Alexander Campbell and Sir Leonard Tilley are expected to-day.

On the 20th inst., as a policeman was attempting to arrest one James Fox, who was beating his wife, he was fired at by Fox twice, but fortunately the shots missed.

Four young men have just returned to Quebec from a hunting expedition near River du Loup. They succeeded in killing two moose, five caribou, and a bear.

A lady and her husband proceeding from Montreal to United States a few days ago, had some costly jewelry which was carried at the frontier for not declaring them liable.

It is reported that Mr. Fawcett, Postmaster General, England, will if he can find time, pay a short visit to New York this autumn, for the purpose of studying the American telegraphic system.

Mr. Schreiber, chief engineer, has returned to the capital after having made a careful inspection of the Canada Pacific railway route in British Columbia and Manitoba. He has been absent since the 1st of July.

Three women from Portland township have been arrested at Kingston for stopping cows on the road and milking them; they have done this repeatedly, and were finally caught, and are now awaiting their trial.

The crop prospects of India are improved on account of the rain which has fallen, and should there be a further moderate rainfall before the end of this month, there will be no immediate danger of scarcity.

On the 20th inst. a young man named Joseph Goulet while out shooting at St. Dominique, Quebec, was fatally shot by the accidental discharge of his gun. The ball entered under his chin and came out at the back of his head. He died from the effects of the wound shortly after.

A Havana despatch announces that the last body of insurgents in Cuba has surrendered, and that there is not one single armed insurgent in the whole of the island. This story has been told so often that people will begin to believe it by-and-by.

Barstow Hostilities.—Capetown advices state that Captain Carrington, while making a reconnaissance with seventy men of the Cape Mounted Rifles, was unaccountably attacked by 1,200 Boers. A lieutenant and two men were killed; the enemy suffered great loss. Carrington is being reinforced.

FLOODS IN ENGLAND.—The spell of rainy weather to which the British Isles have been treated during the past three weeks has evidently not come to an end yet. On Saturday and Sunday fresh floods occurred in Bedfordshire, Warwickshire and Yorkshire, causing further devastation among the still standing crops.

How to Get Rich.—The great secret of obtaining riches, is first to practice economy, and as good old "Deacon Snyder" says: "It used to worry the life out of me to pay enormous doctors' bills, but now I have 'struck it rich.' Health and happiness reign supreme in my little household, and all simply because we use no other medicine but Electric Bitters and only cost fifty cents a bottle. Sold by Jas. Clark & Co.

THE FRENCH CRISIS.—The crisis which occurred in the French Cabinet has resulted in the formation of the following Ministry: M. Jules Ferry, Premier, ad interim, and Minister of Foreign Affairs. M. Dupre, Minister of the Interior. The other ministers are unchanged. The new ministry seems only destined to await the meeting of the Chambers.

Daily Intelligencer.

British and Foreign.

It is stated that Sacerdotal Hall, an ancient historic mansion, has been sold to the community of French Jesuits by the owner, Mr. J. G. Riddell.

Drunkennes is said to be greatly on the increase in London.

The person arrested for drunkenness, or for being drunk and disorderly, numbered 21,000, whereas last year they had increased to 23,000, or by nearly fifty-seven per cent.

A return recently and privately compiled shows that insanity is largely on the increase among our poorer classes. It would appear that it is the lower and most degraded section of the poorer class which furnishes the great proportion of the lunatic cases.

From a Parliamentary paper just published it appears that the expenditure recorded in the 31st March out of the consolidated fund for the expenses of fortifications, amounts to £7,413,346. Of this sum £1,000,000 is for the year 1880, and £1,000,000 for the year 1879.

An old English miser named Rhodes, who began making money as a rubbish dealer, and lived on in a squalor, was bequeathed £300,000 between the Royal Free Hospital, London, and the National Lifeboat Institution, leaving his relations penniless. The miser stated that the charities have given him the five next of kin \$5,250.

The Iron and Steel Institute of Great Britain held its annual meeting at Durham last year, in accordance with an invitation issued by about thirty of the leading German iron works. Great disappointment was felt, however, because Messrs. Krupp, the well-known cannon manufacturers, refused to allow English visitors to inspect their works.

Edward Johnson, a veteran of the Peninsula War and the Battle of Waterloo, has just died at Brentwood, aged 90 years. His friends believe that he was the last survivor of the 7th Hussars, as the regiment was composed in the day of the battle. Johnson received a severe scalp wound at the storming of Badajoz, and therefrom was a silver pencil in the corner of his head. He was also struck in the head by portions of a shell at Waterloo. On leaving the service he received a pension of 2s. per day, but being in a comfortable financial position, he ceased after a while to claim it.

A return of the various orders of the Privy Council made between the 31st of December, 1878, and the 31st of March, 1880, for the prevention of cattle disease has been issued. Tables appended to the return show that \$50,000 was the total amount of compensation paid by the authorities in Great Britain for animals slaughtered during 1879. In the same year there were imported into England, Wales, and Scotland 105,000 foreign cattle, and 105,000 foreign sheep. From Canada, and 210,647 from the United States of America, the total number of animals imported from all foreign countries being 1,239,000.

Some of the features of taxation in England are peculiarly just and desirable. If anybody leaves you \$500, you have to pay \$10, and if he dies without a will, you will then pay \$10 to get the \$500. The Government for a \$50,000 legacy, is \$1,000, and \$1,000 if there be no will, and if the legacy is \$1,000,000, then the Queen's fee is \$77,000, or without a will, more than \$100,000. If you study and become a barrister, the admission costs you \$250, or as much as you are likely to earn the first year. When you graduate in medicine you pay \$50. If you become a mere notary public to administer oaths it costs you \$450. When you execute a lease to rent your house for any length of time, you pay about seventy cents. If you want arms and crest on your carriage, you pay \$11, and if you get these arms "granted" to you, and in a measure fully recognized, you have to pay \$30 for the right. One is taxed \$11 a year. Your dog costs \$10 a year. For a license to carry a gun you pay \$20. The tax for every male servant is \$4.

Probate of the will of the late Miss Neilson has been granted to Mr. George Lewis, her sole executor. The estate was sworn under \$25,000, but this, I understand, does not include her Chicago property. The testatrix appears as "Lilian Adelaide Lee, wife of Philip Lee," and it has been stated in some quarters that this lady, having been married, could not legally make a will, all doubts are set at rest, her right as a female sole, by reason of an order obtained at the Marlborough Street Police Court in the year 1876, whereby her earnings and property were protected against her husband and his creditors. In the year 1877 Mrs. Lee obtained a divorce in the Supreme Court of New York against her husband, who was married for the second time a few months after. She was bequeathed \$3,000 to be invested for her mother, and at her death the amount is to be divided amongst other relatives. To Mrs. Goldil, her companion, she leaves \$10,000, and to her son, \$10,000. The late Mr. Joseph Knight, the well known theatrical critic, £1,000, and the residuary of her fortune to her old and steadfast friend, Admiral the Hon. H. Carr-Glynn.—London World.

A memorial to the late Mr. Jenkins, one of the victims of the massacre at C. College, has been unveiled in the vestibule of the library of Kings' College, Old Aberdeen.

An agrarian outrage of an inhuman character has been perpetrated in a remote part of the celebrated Harrow estate, in Kerry, which was purchased in the Landed Estates Court some time ago by Mr. S. M. Hussey. A poor man named Donoghue, a caretaker on the lands, was attacked by a party of disguised men, who dragged him out of bed, beat him mercilessly, and then cut off his right ear. The victim of this dastardly outrage almost died to death, but is now progressing favorably. A large force of police visited the place, but made no arrests.

According to intelligence received from Comenara, an attack was made on Monday, the 30th ult., upon the Rev. Neville Sherbrooke, now in law of Earl Cairns, and Mr. Pakenham Law, Q. C. These gentlemen were on a tour in the district, and accompanied by the Rev. Mr. O'ory, of Orlifan, a Protestant. As the party were returning, some stones were thrown at them by children, and as the case proceeded, the labourers along the line of the road joined in the attack, and showers of stones were hurled at the travellers. All fortunately escaped unhurt, although the assault is described as a most determined one.

A great Orange demonstration was lately held at Florence Court, Fernagh, Ireland, the fine seat of the Earl of Enniskillen the Earl, Imperial Grand Master of the world, presiding. It was of this nobleman's predecessor that Tom Moore sang:

"For even Lord Cole himself could not
For the Orange party be more red hot."

The present Lord Cole, however, is less addicted to politics than his predecessor, and is a more moderate and reasonable man.

The cable announces the death, at the age of 84, of the Right Hon. Sir Fitzroy Kelly, Lord Chief Baron of the Court of Exchequer, Sir Fitzroy was the son of an officer in the royal navy, and was called to the bar at Lincoln's Inn in 1824. He was returned to the House of Commons in 1824, but being unopposed on the part of the opposition, he was not elected. He was defeated at the general election of 1841, but in 1843 was returned. At the next general election, in 1847, Sir Fitzroy was successfully contested by John Lubbock, but in 1852, having accepted office, he was returned for both North and East Suffolk, and elected to sit for the latter constituency. In 1860, on the resignation of Lord Palmerston, he was appointed to the position he held at the time of his death. During his political career he held the office of Solicitor-General, in 1847—when he received the honor of knighthood; of Solicitor-General in Lord Derby's first Administration, 1852; and of Attorney-General in Lord Derby's second Administration, in 1858. As a member of the legal profession, he was well known for his ability and his great energy. He was a distinguished lawyer, and by his defence of Frost and his brother Charistat, at Newport in 1840, his defence of the murderer Rawlin, the Quaker, in 1845, and his prosecution, while Attorney-General, of Dr. Bernard, for complicity in the Orsini conspiracy, in 1858.

Be wise and happy.

If you will stop your extravagant and wrong notions in doctoring yourself and families with expensive doctoring, and humbug pills, that do harm always, and use only nature's simple remedies for all your ailments, you will be wise, well and happy, and a great expense. The greatest remedy for all the great, wise and good will tell you, is Hop Bitters—rely on it. See another column.

You Have no Excuse.

Have you any excuse for suffering with Dyspepsia or Liver Complaint? Is there any reason why you should go on from day to day complaining with Stomach, Sick head, flatulency, constipation, indigestion, and all the other ailments of the stomach, and the liver, and the bowels, and the system, and the blood, and the nerves, and the brain, and the heart, and the lungs, and the kidneys, and the bladder, and the uterus, and the ovaries, and the prostate, and the testicles, and the penis, and the vagina, and the clitoris, and the vulva, and the anus, and the rectum, and the sigmoid, and the colon, and the cecum, and the appendix, and the pancreas, and the gall bladder, and the spleen, and the liver, and the lungs, and the heart, and the kidneys, and the bladder, and the uterus, and the ovaries, and the prostate, and the testicles, and the penis, and the vagina, and the clitoris, and the vulva, and the anus, and the rectum, and the sigmoid, and the colon, and the cecum, and the appendix, and the pancreas, and the gall bladder, and the spleen, and the liver, and the lungs, and the heart, and the kidneys, and the bladder, and the uterus, and the ovaries, and the prostate, and the testicles, and the penis, and the vagina, and the clitoris, and the vulva, and the anus, and the rectum, and the sigmoid, and the colon, and the cecum, and the appendix, and the pancreas, and the gall bladder, and the spleen, and the liver, and the lungs, and the heart, and the kidneys, and the bladder, and the uterus, and the ovaries, and the prostate, and the testicles, and the penis, and the vagina, and the clitoris, and the vulva, and the anus, and the rectum, and the sigmoid, and the colon, and the cecum, and the appendix, and the pancreas, and the gall bladder, and the spleen, and the liver, and the lungs, and the heart, and the kidneys, and the bladder, and the uterus, and the ovaries, and the prostate, and the testicles, and the penis, and the vagina, and the clitoris, and the vulva, and the anus, and the rectum, and the sigmoid, and the DELEWILLE, WEDNESDAY, SEPT. 22.

Manufactures.

At length a practical step has been taken in the direction of establishing additional manufactures in this city, as will be gathered from the report of the meeting held on the subject last night. It may be found that some industry other than the manufacture of railway cars would yield a better return for the capital invested, but at all events it is gratifying to be able to state that something is being done, and that results of importance are likely to flow from the action which has been taken. Our people, although the city possesses many advantages as a location for manufactures, must help themselves, and we certainly hope that they will commence to do so at an early date.

Canada's Harvest.

The Dominion Telegraph Company have gathered for the Montreal Gazette a large number of reports of the result of the harvest, from all sections of the Maritime Provinces, Quebec and Ontario, which are published in that journal. The following summary of these reports will be read with interest:—"The character of the reports from Ontario does not vary materially from those received earlier in the season, and the promise of a satisfactory yield, taking farming products as a whole, is fully sustained by the results. Wheat, unfortunately, is a light crop, and, from all that can be learned, will run considerably below the abundant yield of last season. The failure is attributable to frost in the early spring killing the white wheat, and rust in July deteriorating the spring wheat, which at one time promised a full average. These destructive elements have worked most injury in the highland and central Canada districts, about the counties of Northumberland, Ontario, Peterborough, Durham and Victoria in the west, and about Almonte and Pembroke, and Russell, Carleton and Ottawa counties in the east. In the extreme end of the Province, however, which appears to have given about an average yield, an analysis of all the reports producing this result; Fall wheat average 12; over average 3; under average 11; spring wheat, average 7; under average 16. There is little or no complaint of insect ravages, the unfavorable weather alone mitigating an unusually generous yield. The loss thus occasioned is, however, largely, if not wholly, compensated by a magnificent harvest of coarse grains, hay, root and fruit crops. Oats and peas, especially, have given a most prolific yield, the analysis of the returns being as follows:—Oats, average 12; over average 9; under average 3; peas, average 13; over average 17; under average 2. These crops were almost uniformly good over the Province, the only complaint being from the western section, where, in some instances, peas are "buggy," and the berries have been more or less discolored, and it is not likely that a good deal of the crop will grade No. 2. In Prince Edward county, the centre of the barley district, a larger average was sown than last year, higher prices prevail, and the result of the crop to the farmer promises to be eminent. It satisfactory. The analysis of the barley returns give as an average crop 16; over average 6; under average 2. The hay crop has been unusually abundant, 7 returns reporting more than average, 12 an average, and only 2 less than an average. The root and fruit crops in every section, and especially in the west, will give a very large yield, so that taking the result all round, as disclosed in our reports, it must be regarded as amply justifying the confidence placed in a large harvest, and of a continuance of recovered prosperity through its agency. From the Province of Quebec the reports received will be read with satisfaction; they point to a general average of all grain crops except wheat, which has been as in Ontario suffered from frost, while the root and fruit crops are progressing favorably. The ravages of the potato bug seem to have been more destructive in this Province than elsewhere,—many of the reports mentioning this fact,—but the destruction cannot be said to have been either serious or general. From the Maritime Provinces, including Prince Edward Island, and the reports are unanimous in declaring the harvest to have been the most abundant ever gathered, and farmers there have been abundantly blessed in the product of their soil. In recent years

little or no wheat has been grown in Nova Scotia, because of ravages of the weevil rendering the labor of husbandry unprofitable, but last fall, encouraged by recent experiments, a large quantity of land was seeded wheat, and the result has exceeded the most sanguine expectations, the injury by insect being little, and the yield per cent. large, so that it is predicted that a smaller quantity of flour, not more than half, the report says, will require to be imported from Ontario and Quebec, and in a few years the Province will come to be self-sustaining as regards her bread supply. In New Brunswick, likewise, a larger area than usual has been devoted to wheat, and the result has been very gratifying. In both these Provinces, and in Prince Edward Island, the potato crop, an important product, gives a generous yield. "It will thus be seen that there is cause for thankfulness on the part of our people, at the result of the harvest in Canada, which assures a continuance of the prosperity upon which the country has entered under the new fiscal policy."

News Condensed.

—The Emperor William is decidedly better.
—The Tamboque tribe has combined with the Basuto against the British.
—By a Bengal land slide 37 persons have been killed and four injured.
—The overland steamer City of Chester has arrived at Queenstown in a broken state.
—Mr. Sears, of Haverhill, Que., was injured, probably fatally, by a hay press falling on him on the 21st.
—The Central Fair at Guelph was opened yesterday (also the Nova Scotia Provincial Exhibition at Halifax).
—A petard was thrown in front of the great barracks at Tivoli yesterday. Nobody was injured. Several persons were arrested.
—The Missisquoi election case, which had been fixed for hearing in the Supreme Court, has been settled and Mr. Baker retains his seat.
—It is expected that the Biddulph murder trial will commence on Monday or Tuesday the 4th or 5th of October, at London, before Mr. Justice Armour.
—The French crisis is not yet over. Mr. Ferry finds difficulty in forming his Ministry, because the politicians expect that it will be overthrown when the Chambers meet.
—On Saturday night two men attempted to abduct a young woman in Toronto by dragging and walking off with her in a cab. She threw herself from the vehicle and escaped.
—Mrs. M. Hazard, the wife of a well-known citizen of Monticello, Ill., gave birth on Monday to five well developed babies, four males and one female. One boy and the girl are living, and the mother is doing well.
—Business on the Midland Railway is booming. There were no less than one hundred and seventeen loaded cars came into Port Hope on Friday. Parties requiring cars have to agree to load the same day or night, so great is the rush.
—The negotiations for the purchase of the O. M. & O. Railway have not yet been completed, while as to the Toronto and Ottawa Railway the promoters state that they hope to be able to submit a proposition to the municipalities in a few days.

Oddfellowship.

The following statement has been compiled from the information received from all sources, to exhibit the present condition and the entire work of the "Order" in this city.

FROM 1850 TO DECEMBER 31, 1879.

Supreme Lodge (Sovereign, German Empire, Australasia), State, District, Territorial and Colonial Grand Lodges.....	53
Grand Encampments.....	40
Subordinate Encampments.....	73
Encampment members, active.....	1,791
Subordinate Lodges.....	149
Lodge members, active.....	1,131,297
Lodge initiations.....	902,875
Widowed families relieved.....	120,615
Members deceased.....	86,331
Total receipts.....	\$29,233,536
Total disbursements.....	\$7,984,182.72

THE PROVINCIAL EXHIBITION.—It had been announced that the Judges would begin their labors on Tuesday morning, but the backward state of affairs in most of the buildings, prevented them from getting fairly to work. Goods were still arriving in every department, and for some time yet the exhibition would scarcely be open until Wednesday or Thursday. The fruit show is nearly complete, and is in excellent condition. The building is larger than that of any other of the same purpose in Toronto, and the exhibit is much finer. A splendid collection of pictures are to be found in addition to finer works shown in Toronto. There are numerous additions of a superior class of work, and there seems to be an entire absence of inferior painting. The weather was fine and there was a large attendance.

PARRICIDE.—A despatch from Stratford on the 21st says: "On Monday night a murder was committed near the Village of Kinkora, a few miles distant from Stratford, by the names of Thomas Kellan. Kellan was in Stratford yesterday on business, and on returning home it was supposed an altercation took place between him and his son, the son giving the blow which caused his death. The police had the parties arrested who are now in jail here awaiting the action of the authorities. The particulars are not yet fully known. A coroner's inquest will be held at two o'clock to-day. The affair has caused great excitement, and a large number of citizens have gone to the scene of the murder."

KINGSTON UNIVERSITY BUILDINGS.—The new University buildings at Kingston, which have been erected at a cost of \$60,000, will be opened on the 14th of October. Five days will be consumed by the opening ceremonies. On Thursday, the 14th, the building will be thrown open for inspection, and addresses will be delivered by the Moderator of the General Assembly, Mayor Carson, and others. On Friday Convocation will be held, and Chancellor and President. Address will be delivered by the Chancellor and President. In the evening a concert will be given by Mr. Leslie Janes, a concert, and the presentation of prizes will take place. On Sunday Convocation Hall will be opened with a sermon by the principal of the college. On Monday there will be a tree-planting on the Campus, and a banquet by the Alma Mater Society.

THE GOVERNOR-GENERAL.—The Governor-General arrived at Montreal on the 21st from Quebec. He subsequently left the foundation stone of the Redpath Museum on the McGill College grounds. He also received a deputation with an address from the Synod of the Church of England in Canada, and formally opened the Dominion Exhibition in the afternoon.

Manufactures.

A Practical Step at Last Taken.

A meeting of the Civic Committee on manufactures, called for the purpose of conferring with the citizens in relation to the establishment of a car factory here, was held last night in the Council Chamber.

There were present: The Mayor, Ald. Dickson (Chairman), Niles, Jas. Smith, St. Charles, Robertson, and Messrs. Thomas Wally, J. P. C. Phillips, W. H. Marsh, Jos. Feeney, H. A. Thompson, W. Bowdell, F. Clarke, James Gordon, Wm. Hopkins, and Alex. Brown.

The Chairman said he had called the meeting for the purpose of submitting something practical. The industry which he had selected as desirable to establish here, was not perhaps the best that could be chosen, but he had resolved to try and do something, as there had been enough of the discussion. He proposed to establish a car factory here, and had hoped for the presence of those who had a practical knowledge of the business. It was time, he thought, to help to help the city. The committee of capital to start the industry was comparatively small, and if it were a success they could increase its extent. His idea was to include the manufacture of cars, of charcoal, iron and of railroad supplies generally, such as locomotives, steel rails, etc., in its project. In his opinion a subscribed capital of \$25,000, with a paid up capital of \$10,000 would be sufficient for the car industry. A committee might be appointed to put the project before the public in such manner as they considered best. It would be advisable to have the shares at a low amount as possible. He presented a memorandum of association, with shares at \$10 each.

Some conversation took place, but nothing practical was elicited.

The Chairman said it was lamentable that nothing was being done here, while in other places new industries were being established. Something ought to be done to utilize our great natural advantages and to make our city a manufacturing centre.

Mr. Gordon wished to have definite information as to how much capital would be required.

Mr. Wally favored the scheme, and wished for the appointment of a small Committee to visit car works elsewhere and investigate, upon which report a scheme could be founded, as without definite information people would not subscribe. He would bear his share of the expenses. If a favorable site were selected, he had hopes that skilled persons would come in and carry on the work.

Mr. Marsh suggested that the Corporation should deal liberally with persons coming here to establish manufactures.

The Chairman said the utmost the Council could do would be to grant exemption from taxation and to give a site, provided the Corporation owns land suitable.

Ald. Robertson moved, seconded by Mr. Thompson, to appoint the Mayor to visit the iron manufacturing centres of the United States, to interest capitalists in the project of manufacturing iron here, and to obtain information as to car works.

The Mayor said there were others better qualified to perform this duty than he.

Mr. Wally moved to associate Mr. Brown and Ald. St. Charles with the Mayor.

Mr. Brown said it was of no use to appoint him to visit car shops, as he had been familiar with the details of that business for years. He did not think car works could be started under \$50,000.

The name of Mr. Gordon was substituted for that of Mr. Brown.

Mr. Brown said that two years ago he had looked into this business, and it would be useless for him to go.

Correspondence.

Whilst correspondence will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views expressed are simply those of the correspondents themselves.

The Twoed Boat Race.

Sir,—The reference to the above race in your issue of last week has a supplementary part in connection therewith. It appears the missing boat duly turned up after the time for the race had elapsed, when another was proposed by Mr. Wm. Henry Kinney's backer, for yesterday, but coolly refused by Mr. Brown, the other owner. The money was then demanded again by Kinney's backer, from Mr. Adam Macdonald, the state holder, who as before refused to deliver it up. Now, sir, the only reference to be drawn from this is to be found in the fact that Brown is an employee of Macdonald's, and together they are evidently trying to play the "cut-throat" trick—with this exception, that they have saved their boat. But it seems to the writer to be not only an ungentlemanly, but also a cowardly and dishonest act, to thus retain the money.

Tweed, 20th Sept., 1880. FAIR PLAY.

THE EASTERN QUESTION

The Naval Demonstration Fixed for Monday.

LONDON, Sept. 21.—The summons to surrender Delvino to Montenegrins arrived at the headquarters of Riza Pasha on Monday.

A Berlin correspondent says that Count von Hatzfeldt, the German Ambassador, has formally delivered to the Sultan a note of the European Powers, intimating that the naval demonstration will take place on Monday.

A Ragusa despatch says the fine weather is breaking up rapidly. There was a violent squall on Tuesday, but the cables of the men-of-war all held.

RAVUS, Sept. 21.—It is stated that Prince Nikita of Montenegro has issued another proclamation to his troops, saying it is almost impossible that the Montenegrins must fight for their rights. There is much sickness at Antivari. A sirocco is blowing.

BELOGRADE, Sept. 21st.—The tranquillizing assurance of the Porte with regard to the hostile attitude of the Albanians, appears to have been accepted by Serbia, as the guard patrolling the Servo-Albanian frontier number only 300.

In order to avoid bloodshed, if possible, in the settlement of the questions at issue, it is stated that the allied fleet will not bombard Delvino, but resort to a method of compulsion which it is believed will prove quite as effectual in bringing the Sultan to terms. It is understood that the same policy will be adopted as in Egypt, and that the fleet will immediately proceed to blockade the Danubian, and to depose the Sultan. In this, if the worst comes to the worst, the powers may perhaps resort to the aid of the disaffected Mohammedans, who have for some time felt and expressed a growing dislike to the Sultan, and would be glad to see him overthrown.

EXPORTS OF IRISH CATTLE.—During the year 1879, the exportation of live stock from Ireland to Great Britain was as follows:—Fat cattle, 247,397, store cattle, 320,244, other cattle, 6,845, calves, 66,384, sheep, 506,621, lambs, 166,750, fat pigs, 371,079, store pigs 58,584, making a total of 1,744,404 animals. In the same years the British markets received the following supplies of live stock from foreign countries, including British colonies:—Cattle 244,501, sheep, 943,754, pigs, 67,441, making a total of 1,239,696 foreign animals, being 504,708 less than the number imported from Ireland.

MORNING DESPATCHES.

AMERICAN.

NEW YORK, Sept. 22.—A pilot boat returned from a cruise yesterday reports that on Sunday she fell in with the schooner *Gladiator*, bottom up. The body of a man with a rope around his neck was discovered hanging from the bowsprit. The stench emanating from the cabin led to the conclusion that others of the crew were lying dead there.

Fred. A. Plaisted has challenged Courtney to row a two mile race in Jamaica Bay, with in 30 days, for \$500 a side. He has deposited a forfeit of \$250.

Two hundred members of the Brooklyn Republican organization, while marching to join a procession last night, were stoned by a mob. Many were struck and severely wounded, and others had their uniforms torn away. Only 50 of the original 200 were enabled to reach their destination.

A party of destitute boys, numbering 15, was started west yesterday by William Reid, through the agency of the Children's Aid Society. They go to Emmetburg, Iowa.

LONDON, Sept. 22.—Arrived out, the *Oder* and *Indra*.

NEW YORK, Sept. 22.—Sixteen recent deaths from diphtheria among children in an east 23rd Street tenement house led to an investigation by the Board of Health. The building was found out of repair, water in the cellar at high tide, and the sanitary condition otherwise dangerous. The premises have been ordered to be vacated within five days.

Astonishing the World.
For perfect renovation of exhausted and feeble constitutions, nothing so agreeably and speedily produces a permanent cure as does 1 Jetric Bitters. Their wonderful power in restoring the world, For Kidney and Urinary Complaints they are a perfect specific. Do not put off with delay, for electric Bitters will positively cure, and that where every else fails. Sold by Jas. Clarke & Co. At fifty cents a bottle.

supported by a full Dramatic Company, including MISS M. LEONSKI YOUNG, in the great companion Drama by the author of *Kerry Gow*, entitled

Belleville, Thursday, Sept. 23.
5 O'CLOCK EDITION.

City and Vicinity.

New Office.—The Dominion Telegraph Company has opened an office at Woodville, Ont.

APPOINTMENT.—The Kingston Presbytery has appointed Mr. Miller to preach at L'Amable, York River and Maynooth during the winter.

KNOWLEDGE.—This boy Rogers, who was recently injured by being crushed beneath a yacht, was about yesterday, seemingly almost as well as ever.

POLICE NOTE.—Again was the register at the police station blank, as last night no entries were recorded in its pages. The best the house affords awaits the coming of the first visitor.

WEATHER PROBABILITIES.—The following are the Toronto probabilities—Lakes moderate to fresh winds, mostly between south-east and east, fine weather, stationary or slightly higher temperature.

MYSTIFICATION.—The great popular favorite Mr. Joseph Murphy and his company will appear to-night in the excellent drama "Sham Rhee." They will doubtless be greeted by a well filled house.

THE TRAINS.—The express train from the east, due here at one hour late. This morning's train from the same direction was equally behind, whilst the mid-day express to day was forty minutes late. Heavy passenger traffic is the cause of these delays.

PERSONAL.—Mr. Wm. Hamilton, Collector of Internal Revenue, to day returned from a business visit to the northern portion of this country. His visit was for the purpose of inspecting and consulting business men in regard to the operation of the law regarding the removal of stamps from boxes, and with reference to the growth of tobacco in this district.

THE DOG TAX.—Although the public has been frequently warned through the columns of the press of the fines and penalties consequent on non-compliance with the provisions of the law relating to dogs, proper attention has not been paid to their repeated caution, and the delinquent number of dogs, for now over 500 numbers have been issued against persons who have neglected to register their dogs.

LARGE PURCHASE.—The Napolean Standard says: "During the past two weeks an American firm has purchased through agents, about 1,000 tons of hay in this county and Frontenac, for shipment to Uncle Sam's domain. The hay is to be pressed by the purchasers during this fall and winter, and is intended for the New York market. It is said that the result of the experiment last spring has induced large numbers of dealers to go into the speculation this year. The price paid here is from \$7 to \$9 according to quality."

WORTH SEEING.—Belleville is well known as possessing some of the finest dry goods shops in the Dominion, and we were fully impressed with the correctness of that reputation on passing to-day the very handsome establishment of Messrs. Barber, Brignall & Co. Their two large windows are now filled with the most beautiful patterns of Brussels and tapestry carpets we have ever seen, arranged with the best of taste and skill, showing the borderings to match, and we believe we are safe in saying that a finer assortment of carpets is not to be seen in any other house in Ontario. We strongly recommend any of our readers wanting carpets to pay this firm a visit before buying.

THE GRAND JUNCTION.—The Hastings Star says: "The track-layers are making steady progress westward, and the iron horse will, ere this number reach our Keweenaw readers, have crossed the Indian River, and will reach Peterboro' about the 10th prox. Mr. Peters shipped two car loads of barley on Monday last, and Mr. H. Fowlds has a large quantity to ship, so soon as the water is let into the race, so that he can use the machinery of the elevator for loading. One of Mr. Peters' cows, while perambulating on the railway on Monday last, had an interview with engine No. 11. The interview was (as the late Geo. Stephenson expressed it) "rather bad for the cow."

ATTENDED TRIP.—This morning, whilst a lady resident of the city was making purchases on the market, she incautiously retained in her hand her purse, but held it in such a manner that one with an eye to possess that which belonged to another would be temptingly inclined. And such a personage was on hand for the occasion, but his effort was unavailing, the lady's grasp of the pecuniary treasure more than counterbalancing the grab of the would-be thief. The lady shouted and made a general uproar, the would-be thief took to the situation and moved silently and swiftly eastward, and jumping into a farmer's wagon which was passing at the time, went up the street. The police were soon apprised of the affair and a search resulted in the discovery of the culprit, who was taken to the station. He gave the name of William Johnson and John Johnson, a stranger here, and a hard looking case generally. The merits and demerits of the charge will be fully explained in our next issue, provided there should appear "A woman in the case."

See Prof. Hatch's Springless Truss and Superior advertisement, in another column of this paper. Go and see him. He desires the hernia he cannot hold.

BOULEVARD.—A cheque was presented at the Canadian Bank of Commerce to-day for \$75, by a man named Mills purporting to be signed by Messrs. Philippen & Graham. The Teller of the Bank, suspecting something wrong, refused to cash the cheque without being sure that it was bona fide. The Manager, Mr. Thompson, then went to the office of Messrs. Philippen & Graham with the cheque, and when the cheque was shown to them, they said it was given him by a stranger who purchased from him a load of hides, and that upon having purchased the hides the stranger transferred the hides to him (the stranger's) wagon and left.

THE FAIR RESULTS.—Although it is not probable that more than six or seven yachts will compete in to-morrow's regatta, yet they are the very cream of the class, and as all are in the very best of trim, a race worth a long journey to see, that is by those who can appreciate fine craft and skill in handling, is sure to result. In fact, it is better that the number of entries should not be large, so that there may be nothing to interfere with the flyers, a contest between which, in as much as it is one of the ordinary craft of this class as would a race between thoroughbreds be to one in which cart horses only took part. The entries are: The Kathleen, twice winner of the Kingston summer regatta, of last fall's race here, and of not a few other prizes in good company; the Katie Gray, winner of the Governor General's medal at Toronto in 1876, the first prize at Toronto last year, and which, in the seven races which she has sailed during the past two seasons has won five first prizes and two second prizes; the Gracie, a hitherto unfortunate but very swift craft, which is now sailing much faster than ever before; the Emma, one of the fastest of her class; also, the property of that plucky and persistent yachtsman George O'Neil, of Kingston, who for years has endeavored to snatch the laurels away from the local fleet and would have done so at Toronto last year but for an accident, which none regretted more than the people of Belleville; the Petrus returns to her birth place—the source of some mishaps but not a few notable triumphs—to test the speed of the other flyers once more, and finally the Una, of Kingston, another very fast craft, is expected to take part in the race. The course selected was chosen for the purpose of giving the racers a full test on every point of sailing, whilst of such a length as to give mere luck the barest possible chance of having anything to do with the result, and at the same time of allowing spectators every chance to witness the race, as the yacht will never be more than three miles distant from the starting point. These conditions have been happily fulfilled, and nothing is now needed but a good breeze to insure the entire success of the regatta. The start will be as usual a flying one, and will be made at 10 a.m., or as soon thereafter as practicable.

THE "THOMAS KELSO."—This fine new locomotive which has been built at the Portland locomotive works for the Junction Railway Company, made her first appearance on Pinnas Street this morning. The "Kelso" is a 35 ton passenger and freight engine, and has great power, the cylinders being 17 inches bore by 24 inches stroke, and although purposely made very plain outside, is constructed of the best material and the workmanship is superior. It is fitted with all the latest improvements, including the Sellers Centennial injector, and is in every respect a first class machine. Another engine of precisely similar size and construction, from the same works, will arrive about ten days hence. They will be engaged in running the express daily to Peterborough, the line to which place will be opened about the 10th of October, when two trains of elegant new cars will be run daily each way. The new cars are now being built at Cobourg, and will be ready in time for the opening of the line, which will be opened through the night and day, and will be a great benefit to the Company on these important sections to their rolling stock.

STOCK COMPLETE.—Our stock is now complete in Gray Slat and fancy flannels, Wincies, Canton flannels, Oxford and Regatta Shirtings, Towellings, Calicoes, Damasks, prints, Dress Goods, Cottons, St. Louis, Silks, Gloves, Corsets, Hosiery, Laces, Frillings &c., &c., J. A. HANCOCK, the cheapest dry-goods house in the city.

FASHIONABLE WEDDING.—At St. Martin's Church, Montreal, yesterday morning Miss Brydges, eldest daughter of Mr. Chas. J. Brydges, was married to Mr. N. C. Connell, both of that city. The ceremony was performed by the Rev. J. P. Dumoulin, assisted by the Rev. Canon Brigstock. The church was well filled with a fashionable congregation, very prettily and appropriately decorated with flowers, and all went off as merrily as the merriest of marriage bells.

Mechanics' Institute.—At the meeting of the Mechanics' Institute Association at Hamilton on the 22nd, the following officers were elected: James Young, M. P. President; Ernest Jackson, of Newmarket, was elected representative to the Association and Agriculture Association. Mr. Edwards was elected secretary-treasurer. The following directors were elected:—Mr. McCrae, of Guelph; Mr. Parker, of Woodstock; Mr. Davidson, of Toronto; and Rev. Vincent Clement. Messrs. J. K. MacDonald and John Taylor were elected auditors.

THE KINKORA MURDER.—The inquest on Kinkora, the farmer who is alleged to have been murdered by Kinkora at Kinkora, was held on Monday, to await the result of the post-mortem. Kinkora's younger son and daughter were examined, and evidence thrown on new light on the tragedy. The prisoner stoutly protests his innocence, but preserves a calm, stolid demeanor.

TEMPERATE MORTALITY.—A fearful mortality is reported among the Turkish troops at Scutari, who are dying off at the rate of two hundred daily.

THE CLOSE OF THE YACHT RACING SEASON IN England under the famous Vandaurs at the head of the prize winning list, with fifteen prizes valued at about \$1,100, for his credit. The Vandaurs came in a good second, with the second prize close up.

The Mail advocates the offering of more numerous prizes in regatta to yachts of the second class, which craft it considers as the ruling class of the future. These prizes are conceded by the fact that but three prizes are offered to yachts of 12 tons and under in the Hamilton regatta. We agree with our contemporary in this view, and we think the Bay of Quinte Yacht Club, who always offer four prizes in the second class in their annual regatta, but even four prizes fail to induce a large number of entries here, as the local craft have proved to be of the second class. By-and-to-forth, however, the Murray canal has been constructed, thus saving about 200 miles of lake on the most dangerous part of the lake, the Bay fleet will extend their visits to the annual regatta of the Royal Canadian and Burlington Clubs.

The following are the entrances so far for the regatta to be held on Burlington Bay on the 25th inst.:—
First Class—Hawthorn, 53 tons, sloop, Alex. C. Hawthorn, owner; Buffalo, 40 tons, sloop, C. L. Hawthorn, owner; Oak, 35 tons, schooner, John Lays and others owners; Madcap, 17 tons, sloop, A. R. Basswell owner; Harriet, 22 tons, sloop, T. C. Hallett and others owners; Cogswell, 14 tons, sloop, J. F. Monk and others owners.
Second Class—Opey, 9 tons, sloop, M. Malone owner.
Standing Kool—Alarm, 35 tons, yawl, H. J. Gresham owner; Sylvia, 10 tons, R. P. Thompson owner.
Third Class—Kashah, 10 tons, R. A. Gann owner; Jessie, F. H. Mills owner; East Wind, G. E. Tuckett owner; Starling, John G. Gann owner; Ghost owner; Petrel, W. F. Johnston owner.
The term for entering has been extended to Friday next, the 24th inst., at 10 p.m.

THE EASTERN CRISIS.—No further decisive step has been taken by the Powers in the Eastern matter. The Sultan has declared his intention to resist the cessation of any territory and the Albanians are equally opposed to it, so that hostilities of some kind are inevitable.

CATCH AT LAST.—It seems that to British Columbia is to belong the honor of being the scene of the first capture of a genuine sea serpent. As it is said to have been seen in Victoria. It is described as having a head like a panther, a mane, and a sharp pointed tail, and as being about six feet in length. So many sea serpents of a dubious character have been seen and described that people will have some difficulty in believing in the existence of this one.

VICEROYAL.—The Governor-General's proceedings yesterday at Montreal included a visit to the exhibition and to the Canadian games and a dinner at the Windsor House in the evening. His Excellency starts for Hamilton at this evening.

MASONIC.—The Grand Lodge of A. F. & A. M. No. 10, of Belleville, held its annual meeting in Montreal. The most interesting portions of the business had reference to the dispute with the Grand Lodge of Scotland, and to the presentation of the original charter of Albion Lodge, Quebec, supposed to be the most ancient Masonic document in Canada.

Astonishing the World.—For a perfect renovation of exhausted and enfeebled constitutions, female weakness and nervous debility, nothing so effective and produces a permanent cure as does Electric Bitters. Their wonderful cures are astonishing the world. For Rheumatism and Gout, and all complaints they are a perfect specific. Do not give up in despair, for Electric Bitters will positively cure, and that where everything else has failed. See J. Clarke & Co. at fifty cents a bottle.

AFTERNOON DISPATCHES.—WASHINGTON, Sept. 23.—In view of the disclosure that Canadian bridge builders have been bringing barges to the United States and selling them at low prices to the injury of American bridge builders, Secretary Sherman has issued a circular enforcing the law imposing a tonnage tax on Canadian built barges.

QUEBEC, Sept. 23.—130 p.m.—The City of Chester arrived off Roche's Point about 11 o'clock this morning, 6 cabin and 17 steerage passengers and the mail were loaded by the City. The Chester is proceeding to Liverpool in the tow of tug. The progress is very slow.

BOMBAY, Sept. 23.—The following are details of the late Nani Tel, Bengal. Nani Tel, a well known and popular figure, died at the age of 40 years, and was buried in 40 hours. The effect which such an enormous mass of water pouring down into the confined atmosphere, which is simply a basin formed by a circle of hills, can be imagined. All the roads are cut to pieces. The City of Calcutta on Saturday it was rumoured that Victoria hotel was in a dangerous state. A land slip had occurred on the spot behind the hotel, which resulted in the collapse of the whole upper floor of the building, and the inmates were buried in the ruins. The police labored and soldiers were quickly on the spot. About noon a sudden rain and rumbling, followed by red clouds of dust and the whole place shook. The lake rose in a moment far above its usual height and swept in an enormous wave towards the ruin, which a large mass of land came down, burying the hotel and rescuers with the disastrous result already mentioned.

ITS JUNGLE BOOMING.—Such is the expression from all Druggists and dealers everywhere who are selling Dr. KING'S New Discovery for Consumption. No like preparation can be found to have such extensive and rapid sale. And why? Simply because of its truly wonderful merits. No cough or asthma, no matter how long standing, or how stubborn, can resist its healing qualities. Asthma, Bronchitis, Hoarseness, Hay Fever, breathing or any lung complaint, the Throat and Lung rapidly yield to its marvellous powers. It will positively cure and that where everything else has failed. Satisfyingly get your Druggist J. A. Clark & Co. a trial bottle for \$1. For sale by J. A. Clark & Co. No good pranking.

BUCKLE UP THE ARCHAIC NAVE.—The Buckle Nave in the world for Cuts, Bruises, Burns, Ulcers, Rheumatism, Tetanus, Chapped Hands, Chilblains, Corns, and all kinds of Skin Eruptions. This Nave is guaranteed to give perfect relief in every case or money refunded. Price 25 cents per box. For sale by J. A. Clark & Co. 95-1.

COMMERCIAL.—There is no change to note in the price of grain today.

THE STREET PRICE FOR RYE TO-DAY WAS STADY at 76c, which is 3c. better than the street price in Toronto to-day.

10,000 BUS. WAS SOLD IN MONTREAL ON THE 21st at 80c. In New York the market keeps very firm, several cargoes of No. 2, 3 and 4 rye having been sold there on spot at 76c. Barley is quiet. The ruling price on the street to-day was: 48 lbs. 60c.; 47 lbs. 25c.; 46 lbs. 55c.; 45 lbs. 10c.; 44 lbs. 45c.; 43 lbs. 40c.; 42 lbs. 35c.; 41 lbs. 30c.; 40 lbs. 25c.; 39 lbs. 20c.; 38 lbs. 15c.; 37 lbs. 10c.; 36 lbs. 5c.; 35 lbs. 0c. In Chicago yesterday Barley was quoted in fair demand, with sales of 20,000 BUS. No. 1 bright Canada at 80c.; 24,000 BUS. No. 2 to arrive, at 76c.; and 11,000 BUS. worse grade in color at 75c.

WHEAT—\$1.10. BARLEY—55c. to 60c. RYE—75c. to 80c. OATS—35c. to 40c. LAMB—5c. to 7c. per pound. HAY—\$1.00 to \$1.10. BUTTER—10c. to 12c. EGGS—10c. to 12c. CHICKENS—20c. to 25c. TURKEYS—30c. to 35c. DUCKS—20c. to 25c. GOOSE—20c. to 25c. CORN—30c. to 35c. POTATOES—40c. to 50c. per bushel. FLOUR—Wholesale, 65c. per bushel. RETAIL, 66c. per bushel. HAY—\$8.00 to \$10.00 per ton. Local Agents of the Intelli-
gencer.

The DAILY INTELLIGENCER is for sale every evening at the following places. Subscribers taken at these agencies by the week at ten cents.

RELEVILLE.
A. Robinson—Front Street.
J. O. Orrell—Front Street.
M. O. Dunne—Front Street.
J. C. Reynolds—Bridge Street.
MAISON.
O. G. Wilson—Drug and stationery store.
STIRLING.
Dr. G. H. Boulter—Drug and stationery store.
CAMPBELLFORD.
T. Oliver, and at the Windsor Hotel.
FRANCON.
J. B. Christie—at the Post Office.

Weekly Intelligencer.

Copies of the WEEKLY INTELLIGENCER in wrappers ready for mailing can be had at the business office, corner of Front and Market Streets, every Thursday. Price 6 cents.

J. R. HATES, NEWSPAPER ADVERTISING AGENT, 4 PARK ROAD, (Times Building), NEW YORK.
Is authorized to contract for advertisements in the DAILY and WEEKLY INTELLIGENCER at our best rates.

Daily Intelligencer.

RELEVILLE, FRIDAY, SEPT. 24.
The Terms.

The Ottawa Herald says:—"The question of the syndicate scheme having been settled by the signing of an agreement between the contracting parties, the next matter of public interest will, of course, be connected with the details of the scheme. In this the public will naturally feel some degree of curiosity, and will await the publication of information with very considerable interest. In the meantime we have authority for saying that the terms are very favorable to the country, and that when they are made known they will prove to be creditable to the Government and satisfactory to the great majority of the people. It is now exceedingly probable that the completion of this scheme will mark an important era—a period of prosperity and progress unexampled in the history of the country."

Grasping at Power.

The Peterborough Review says:—"We notice that some of our contemporaries of the Mowat persuasion are advocating that all the goals in the province should be placed under the immediate control of the Provincial Government, ostensibly on the ground that the County Councils are allowing them to fall into a dilapidated condition, but in reality with the view of still further increasing the patronage of the Mowat Government. If they pursue this policy a little further, they will soon have to take the appointment of pound keepers into their own hands." The so-called "Liberals" are consistently pursuing the policy of centralizing power in their own hands. They have grasped the patronage which the liquor traffic affords; they have taken the power to appoint Division Court Clerks in cities, towns and villages; they virtually appoint gaolers; they distribute printing patronage over which they really have no control, and by every means they seek to strengthen themselves by seizing patronage of every kind. Should the people whom they thus tyrannize over, keep them in power another four years they will probably seize the reins of municipal government by appointing Commissioners in place of elective Councils, and fill municipal offices with their own creatures. Professing loudly at all times their regard for the people, the Grits are in reality tyrannical in their ideas and in their procedure.

Houses of Industry.

The following facts will be of interest to the Reeve of Huntingdon and other members of the County Council who advocate the establishment of a House of Industry for the County of Hastings, as well as the public generally:

The Wellington poor-house is located near Fergus. There was expended on capital account \$26,439. The expense for 1879, including interest on capital account, is \$1,323 per week per capita, minus interest, 80 cents per week.

The Elgin House of Industry's expense on capital account was \$14,400. Rate per capita per week is 60 cents, exclusive of interest on capital account.

The Waterloo expenditure per capita is 73 cents per week, exclusive of interest on capital account. The original cost of the farm, 42 acres, and buildings, was \$26,000. In Wellington the total cost for indigent relief for 1876 including a year's interest was \$4,040.65; Elgin, interest included is \$3,432.63; Waterloo, including interest, \$3,506.69. Obviously it is to be borne in mind that Wellington is a considerably larger county than either Waterloo, Elgin or Perth. There is also a difference in the original cost, acreage and buildings.

The County of Perth—exclusive of the township of South Eastport, returns for which are not given—spent \$3,197.05 in poor relief in 1879.

The information here given may be of value if the subject—as it is not improbably may—come up for consideration at the next meeting of the County Council.

VISITING CANADA.—An Ottawa despatch of the 23rd says: "Mr. John Jacques, Canadian emigration agent at Pickering, Yorkshire, and special correspondent of several leading English newspapers, was in the city yesterday and left for the west last night. Mr. Jacques is making a tour through Canada for the purpose of publishing a series of articles on the country's advantages as a field for immigration."

N. P. Notes.

Mr. Samuel Milford has established a shoddy manufactory at Campbellford. The machine in Raymond's sewing machine manufactory at Guilford are working until 10 o'clock every night.

Messrs. William Bell & Co., organ manufacturers of Guilford, have received a cable dispatch from their Mr. W. J. Bell, stating that he has concluded arrangements with a European firm for the supply of a thousand organs per year. The instruments are to be shipped at the rate of twenty per week. This large order will necessitate the doubling of the capacity of the factory, and the "hum" in the establishment of Messrs. Bell and Co. will be greater than ever.

Joseph Condensed.

—Mr. Joseph Flury, Reeve of Aurora, died on the 23rd.

—Sir John Macdonald is expected at Ottawa on Monday.

—A posse exists in Cuba 15,000 Spanish troops will be by the end of the month.

—President Hayes is meeting with cordial reception in San Francisco.

—Two pickpockets were caught in the act in Montreal and arrested.

—An incendiary fire in Parkdale on the morning of the 23rd destroyed \$8,000 worth of property.

—A young man named Littlehales, accidentally shot himself with a revolver at Hamilton on the 22nd.

—The Dominion Government is expending some \$5,000 on improving the navigation of the Lenoir.

—Eighteen men have been arrested at Montreal, charged with selling liquor at the exhibition grounds.

—A Hamilton despatch says the display of fruits and flowers at the Provincial Exhibition is very fine.

—By the dragging of an oil lamp Putnam & Colby's boot and shoe factory, Hamilton, has been destroyed by fire.

—The Governor-General again visited the Dominion Exhibition on the 22nd and left for Hamilton in the evening.

—The Ottawa Licensing Commissioners have secured private detectives for the purpose of putting down the unlicensed sale of liquor.

—A Montreal lawyer was arrested at Ottawa on Saturday charged with obtaining money under fraudulent misrepresentations. Bail was taken.

—The Hon. Messrs. Bowell, Atkins and Macdonald left Ottawa yesterday for Hamilton, to be present at the opening of the Provincial Exhibition.

—It has been decided by the Industrial Exhibition Association to hold the next Toronto exhibition during the second and third weeks of September, 1881.

—Jesse Grant, third son of General U. S. Grant, and Miss Lizzie Chapman of San Francisco, were married at the Palace Hotel San Francisco on Tuesday.

—A libel suit of A. Baxter, of Toronto, vs. the Globe, will be tried at the Assize. Gordon Brown says the information furnished came from Mr. Frank Sharpy, late City Engineer.

—The case of Brockles vs. the Canada Central Railway, an action brought to recover damages for injuries received during a collision at Frankton, has been settled by the Company paying two thousand dollars and costs.

Large Lumbering Company.

A number of Scottish capitalists have formed a company, with a capital of \$1,000,000, to develop the lumbering capabilities of the country. It will be called the British Canadian Lumbering and Timber Company (Limited). Their operations will extend over an area of 1,300 square miles, covering territory along the Ottawa, in Muskoka and Perry Sound, and to Michigan and Wisconsin. Messrs. Cook & Graham, who formerly owned this great tract, will take a leading part in the business of the company, they holding nearly half of the capital stock. The directors are:—J. H. Menzies, W. S. Edinburgh; James Halpine, C. A. Edinburgh; James Balfour, W. S. Edinburgh; George J. Cook, Quebec; Donald Alexander Macdonald, Lieutenant Governor of Ontario; Herman H. Cook, and Jas. Scott, merchant, Toronto. The head office of the company will be in Edinburgh. In Canada the principal office will be in Toronto, but there will be offices also at Quebec and Montreal. The Bank of Scotland will be the company's bankers. The company have arranged to cut between 500,000 and 600,000 feet of timber on the Ottawa, and 5,000,000 at Midland, and they will employ during the winter somewhere in the neighborhood of 400 men. For wages and supplies they calculate to spend annually between \$200,000 and \$300,000.

AN OTTAWA DEPUTATION.—The Montreal *Witness* of the 23rd says:—"To-day a deputation from the Ottawa City Council, composed of Mayor Mackintosh and Ald. Lauder, E. L. Pasand, Ant. Gagnon, B. Thonox, Abille Gagnon, Geo. Gagnon, L. J. Cannon, L. A. Pepin, Eugene Gagnon, Joseph Lavigne, Auguste Quenneville, J. M. A. Payton, James H. Goodhue, and Thos. S. Barre, and a deputation also in answer to the deputation that the railway would not be allowed to pass under the control of the Grand Trunk."

A SUGAR MANUFACTURING SYNDICATE.—A syndicate has been formed at Arthursville for the cultivation of one thousand acres of sugar beet, composed of the following holders of land: The Hon. Wilfrid Laurier, E. L. Pasand, Ant. Gagnon, B. Thonox, Abille Gagnon, Geo. Gagnon, L. J. Cannon, L. A. Pepin, Eugene Gagnon, Joseph Lavigne, Auguste Quenneville, J. M. A. Payton, James H. Goodhue, and Thos. S. Barre, and a deputation also in answer to the deputation that the railway would not be allowed to pass under the control of the Grand Trunk."

A COMPLAINT.—Mr. E. E. Horton, official stenographer, has a long letter in the *Globe* on the manner in which counsel often conduct examinations in Court, making it exceedingly difficult or impossible for stenographers to do their work.

ATTEMPTED FORGERY!
John Nelson Dufco's Effort
in that Line.

As narrated in our issue of yesterday, a man who gave the name of W. H. Sills, was arrested for attempting to forge a cheque purporting to be signed by Thompson & Graham on the Bank of Commerce in this city.

When arrested the prisoner was desirous of retaining his liberty until Saturday on which day he stated he would return with the man who, he said, had given him the cheque. His desire, however, did not meet with the approval of the powers that be and he was provided with quarters in one of the cells. Some time after he was called into the Chief's office and whilst there gave an exhibition of his ability as a penman. In reply to the interrogative "what is your name?" he answered "John Dufco." He subsequently stated that his proper name was John Nelson Dufco. He is tall and slender in stature, of fair complexion and is ordinarily dressed. A light and youthful whicker ornaments his face, whilst his countenance presents an innocent expression not at all in keeping with his conduct of yesterday. Dufco says that he was born on Amherst Island from where he removed to the Township of Thurlow and from thence to the village of Londale in the Township of Tyndwade where he carried on business as a butcher. He says he is twenty-four years of age, is married and is the father of one child.

The following is a correct copy of the cheque which he presented yesterday to be cashed:—
No. 100. Pts.
Belleville, Ont., September 23th, 1880.

To the Canadian Bank of Commerce (Belleville Branch)
Pay to W. H. Sills the sum of One hundred and seventy-five dollars.
\$75.00

S. A. PHIPPS GRAHAM.
In his pocket-book was found another cheque filled out in handwriting similar to that in the above; a copy of it is annexed:—
No. 75. Pts.
Belleville, Ontario, Sept. 10, 1880.

To the Canadian Bank of Commerce, Belleville Branch.
Pay to Mr. S. A. Phipps and Graham, or Bearer, the sum of seventy-five dollars.
\$75.00

W. H. SILLS.
S. A. PHIPPS.
A blank cheque on the same bank was also found on the prisoner with the above. The following specimen of the prisoner's composition and orthography was made shortly after his arrest in the office of the Chief of Police.

September 23 100 Pts sold in a mass to me, he was short thick man with little mustache told the pet to S. A. Phipps Graham 75 Dollars seventy five dollars
W. H. SILLS.
Thurlow P. O.

The effort of the forger was a bold one, but the forgery was so plain and self evident that it is not to be wondered at that it was readily detected.

Sporting Notes.
At the Caledonian games at Montreal on the 22nd, Duncan Ross threw the 16 pound hammer 97 feet 10 inches, and took first prize. Smith took second prize with 92 feet 5 inches. Ross threw the light hammer 116 feet 9 inches, and won first prize, Smith 2nd, with 111 feet 9 inches. A. A. McDonald, of Loch Garry, a stout, raw-boned Scotchman of the agricultural class, threw the 21-pound stone 35 feet 3 inches; Duncan Ross 2nd, 34 feet 14 inches; Johnson 3rd, 32 feet 73 inches. McDonald won with the 14-lb. stone, which he put 45 feet 8 inches; Ross 2nd, 42 feet 7 inches; W. Robertson 3rd, 40 feet. D. Smith tossed the caber 38 feet 10 inches. 1st prize, D. Ross, 37 feet 10 inches. 2nd prize, Mr. W. Waugh, of Point St. Charles, beat A. Tattersall and Mr. Todd, of Almonte, for the quito prize.

J. M. Feeley, sculler, of Barrow-in-Furness, and others have written the *Sportman* inquiring whether the American firm which offers \$5,000 in prizes for an international regatta intends to institute a race for second-class scullers. The editor of the *Sportman* has mailed a letter on the subject to the American firm. The complete list of entries for the regatta has been forwarded. It is as follows:—Haulan, Trickett, Laycock, Elliott, Higgins, Blackman, Cannon, Nicholson, Hawdon, Kemper, Torrey, Clapper, Anderson and Feeley. The American firm has cabled to the *Sportman* that they have not yet decided on what water the race shall be rowed.

The *Globe* says:—"There is a prospect of another great yacht race for the Queen's Cup, which was won by the America several years ago, and has since been held in defiance of all attempts by British and Canadian yachtsmen to regain it. The new steel yacht *Vandua*, a Clyde-built cutter, has shown a clean pair of heels to every thing against which she has been matched. This yacht is not only built of a new material, but is on a radically different plan to the 'cracks' she has defeated. She is very 'deep', whereas since the America led the way at Cowes there has been a tendency to shallowness of build. The *Vandua*'s ballast, fifty-four tons of lead, was run in molten to her keel, and as she rises her weight thus low, nothing short of a hurricane can capsize her, while in an ordinary gale she stands almost upright. The English yachtsmen have another new yacht which has shown herself faster than vessels matched against her. She is the *Enchantress*, a large schooner built on the American plan. It is expected that both the *Vandua* and *Enchantress* will challenge the New York yacht squadron, and if a contest does come off it is to be hoped that the best boat will be allowed to win with less squabbling than attended the last attempt of the English to regain the cup."

We rather think our contemporary is mistaken in one regard in this matter, as the *Enchantress* is probably the American schooner of that name, which was sold by her former owners to parties in England. It is not at all likely that she will sail for the American cup, and the *Vandua* is too small to successfully encounter the risk of a 20-ton schooner, one of which would represent a New York fleet.

THE RIFLE.

No. 3 Co. of the 49th and No. 1 Co. of the 15th at the Butts.
THE FORMER THE WINNERS.

The challenge match between teams representing No. 1 Co. of the 10th Bat. and No. 3 Co. of the 49th Bat., took place yesterday afternoon at the usual range. The sun shone brightly during the contest and the air was pleasantly cool, but a strong wind from the west seriously affected the shooting. It was originally intended that the representative force of each company should number six, but as one of the Sydney men did not put in an appearance the opposing force were made even, the teams numbering five men on each side. Although the scoring was but fair and the shooting of the No. 3 team the most steady and effective. Appended is the score:

wind from the west seriously affected the scoring. It was originally intended that the representative force of each company should number six, but as one of the Sidney men did not put in an appearance the opposing forces were made even, the teams numbering five men on each side. Altogether the scoring was but fair and the shooting of the No. 3 team the most steady and effective. Appended is the score:

RECAPITULATION.
No. 3 Co. 250
No. 1 Co. 250
Majority for No. 3 Co. 13

In the evening Captain J. L. Bigger entertained the members of the teams and their friends at the St. George Restaurant where a very sociable time was spent by all present.

MORNING DESPATCHES.
EUROPEAN.

LONDON, Sept. 24.—Parnell intends to remain in Ireland and follow up the land agitation, and will not go to America as arranged.

ST. PETERSBURG, Sept. 24.—A telegram from Smolensk says 3,000 workmen at Jorssow recently struck in consequence of a reduction of wages and committed great excesses. Troops have been despatched there.

AMERICAN.

CINCINNATI, Sept. 24.—Marnot & Co's coal elevator was burned, and Lane & Bodley's machine works destroyed by fire last night. Loss \$62,000.

MONTREAL, Sept. 24.—Lard's coach factory was burned and several other buildings destroyed yesterday.

PHILADELPHIA, Sept. 24th.—The adjourned meeting of the International Sheep and Wool Growers' Association was held last night, commissioner of Agriculture Leduc presiding. The committee reported in favor of the necessity of making larger appropriations to the department of agriculture, to assist in distributing documents regarding sheep.

EAGLE PASS, TEXAS, Sept. 24.—Jose Bonaz's clerk was murdered last night and his store robbed by unknown parties.

SAN FRANCISCO, Sept. 24.—Davitt lectured before an immense audience last night on the land troubles in Ireland.

INDIANAPOLIS, Ind., Sept. 24.—The Supreme Court overruled the petition for rehearing in the case involving the validity of the constitutional amendments. The State election will therefore be held in October.

SANDWICH, Mass., Sept. 24.—Three hundred and eighty men are at work on the Cape Cod canal, which force is to be increased to 1,200. The length of the waterway will be 42.00 feet the breadth, at the bottom 66 feet, at the top 250 feet. The depth below low water is 25 feet, and the cost \$100,000. The saving of distance is 160 miles on a dangerous coast. This makes Boston nine miles nearer New York by steam. The time for building is two years. The canal is to be a tide level waterway without lock.

NEW YORK, Sept. 24.—Washington special.—The Times says the number of gallons of distilled spirits produced in the United States during the fiscal year ended June 30th, was 90,355,000 against 81,892,000 during the previous year. The treasury department reports for the fiscal year ended June 30th aggregate 333,626,000 against 273,827,000 of the preceding fiscal year. The expenditures aggregated \$284,347,000 against \$269,947,000 of the preceding year. A reduction of nearly \$10,000,000 was made in the annual charge for public debt interest. The surplus revenue for 1879 was \$6,579,000 and for 1880 \$68,678,000.

NEW YORK, Sept. 24.—The Chicago, Milwaukee and St. Paul Railway has declared a semi-annual dividend of 34 per cent on both preferred and common stock.

Another violent gale is reported by in coming steamships as having swept over the north Atlantic.

Kobbed of his Money.

Mr. George Schuch, of Berlin, has his Pocket Picked in Harrisburg and Loses \$4,100.

Yesterday afternoon Mr. George Schuch, of Berlin (formerly saloon keeper, of this city), was robbed of a wallet containing \$4,100—\$100 in cash, \$1,100 in bank cheques, and the balance in notes. Mr. Schuch has no very clear idea as to how he was robbed, but states that while on the platform at Harrisburg station he was passed by a couple of young men two or three times, and on one of these occasions he was slightly jostled, and supposes that it was then the wallet was taken out of the inside of his coat. The loss is a severe one, but it is to be hoped that the thieves will be caught. Means have been taken to prevent them repeating on the notes and cheques.—*Hamilton Times*, Sept. 23.

SHIPMENT OF CATTLE.—The following interesting item is clipped from the *Peterborough Review*:—"Mr. Fife, of Otonabee, recently shipped to Montreal two car loads of fat cattle, and intends to ship two additional car loads in the course of a few days. They were shipped by the Grand Junction Railway, which passes quite close to his residence. All he has to do is to build a pen, and driving his cattle into it, load them on the cars. Those he intends shipping are to be sent to Montreal, and if they cannot be disposed of there at advantage, the same as the others were, they will be re-shipped to Liverpool."

A Great Chicago Enterprise.
The Laboratory for the manufacture of Electric Bitters is one of Chicago's greatest enterprises, giving employment to a large number of hands. The extensive works already attained for this wonderful remedy is well known. It is almost to supply the demand, because of their merit—curing where all others fail—and at a reasonable price (fifty cents each)—Sold by Jas. Clarke & Co.

Wants.

WANTED.—A General Servant. Apply Merchants Bank between the hours of 9 and 4. High wages will be given for a first-class servant. 1214d

SERVANT WANTED.—A General Servant wanted for a small family. Apply at this office. 1214d

For Sale or to Let.
HOUSE TO LET on William Street, 7 CHAND. High water. Apply to fixo. 1212d

LAKE BARGE "Fortune" for sale. Offers desired. Will make an excellent steam barge. Address THOMAS ZEALAND, Hamilton. 1214d

HOUSE TO LET.—On Pinnacle St. between Bridge and Dundas Sts. a two story brick house, in good repair. Possession given 1st Oct. Apply to JAMES GILSON, Excavator. 1154d

TO RENT IN SUTHERLAND'S TERRACE.—The house at present occupied by Mr. Wolfe, of the Customs, also the house lately occupied by Mr. Frederick Lingham. Apply to N. B. FAIRBANKS. 80d

TO LET.—The store on the east side of Front Street next the Bank of Commerce, now under lease to Barman & Simons. Possession given on the 15th day of October next, at which date present lease will have expired. JOHN BELL. 80d

TO LET.—The store on the east side of Front Street next the Bank of Commerce, now under lease to Barman & Simons. Possession given on the 15th day of October next, at which date present lease will have expired. JOHN BELL. 80d

Weekly Intelligence.

Copies of the WEEKLY INTELLIGENCER in wrappers ready for mailing can be had at the business office, corner of Front and Market Streets, every Thursday. Price 5 cents.

J. H. BATES, NEWSPAPER ADVERTISING AGENT, at PARK ROW, (Times Building), NEW YORK.

I am authorized to contract for advertisements in the DAILY and WEEKLY INTELLIGENCER at our best rates.

Daily Intelligence.

BRILLVILLE, SATURDAY, SEPT. 25.

A Fall Session of Parliament.

The Mail intimates in its issue of the 22nd inst., that an extra session of Parliament will be called at an early date to consider the agreement which has been provisionally entered into by the Government and a syndicate of foreign capitalists, for the construction and operation of the Canadian Pacific Railway.

Our contemporary approves of the idea of holding an autumn session, against which but one objection can be urged, and that is the expense which it would entail on the country. This is an objection which would have had more force a twelvemonth ago than it has now, as the revenue returns for the first two months of the current fiscal year have been so favorable, and the prospect for the future is so encouraging that a surplus is almost certain at the end of the year. Thus the question of the mere expense of calling Parliament together, is not one calculated to prove very embarrassing at present.

The people are naturally anxious to know the terms of the agreement, which cannot be made public before its submission to Parliament, and as it is desirable to close the bargain, if satisfactory, of which we have no doubt, as soon as possible, it is quite probable that Parliament will be called at an early date to meet and ratify the agreement as soon as possible.

Of course, it would be desirable to save the expense of an extra session, but the matter is one of such magnitude and of so great importance to the country, that, if it is deemed advisable by the Government to have Parliament convened before the usual time, the people will yield a ready assent. Should they, on the contrary, consider such a proceeding unnecessary, their decision will be as readily acquiesced in by all but an insignificant few who are prepared to oppose anything which emanates from the present Government. The Ministers who have so successfully conducted the negotiations are in the best position to judge, and their decision will be made in the country's interest.

There are a few Grit journals clamoring for the submission of the railroad agreement to the people in a new election, but that which is not likely to be gratified, as the elections which have taken place of late show that the Macdonald administration are even firmer in the confidence of the people than when they took office, and the project for transferring the building and operation of the Pacific Railway to a Company has been generally endorsed by the press, irrespective of party. It is scarcely necessary to say that the newspapers which urge the holding of a general election, at a very heavy cost to the country, are the same which object to the holding of an extra session, on the ground of expense.

AN OTTAWA BOY BECOMES A MILLIONAIRE.
A telegram from Ottawa on the 23rd says:—Ridgeway, the residence of Mr. John Hill, was sold by auction yesterday to a Mr. Ryan for \$7,500. Twelve years ago Mr. Ryan left Pembroke for California, a poor boy. Before getting there however, Ryan, running short of funds, engaged with a farmer in Utah, and subsequently secured half of his land in payment for wages. This was a lucky stroke, for one day, whilst out prospecting for a site on which to build a house, he discovered gold. An assay showed that he had struck a bonanza, and a company was formed to work the mine. In a very short time he sold out a half interest for \$50,000. The fortune was wisely withdrawn altogether, the consideration being an additional \$25,000. He sent for two of his brothers, who went into business with him, and they too are immensely wealthy. After selling out, the brothers purchased another claim which they worked successfully. Yesterday Mr. Ryan purchased the property for his mother, who resides in the city on Church Street.

OVER THE CANAL.—Three hundred and eighty men are at work on Cape Cod Canal, Massachusetts. The work is to be increased to twelve hundred. The length of waterway will be 42,000 feet; the breadth at the bottom, sixty-six feet; at the top, 250 feet; depth below low water, twenty-five feet; the cost, \$10,000,000; the saving of a distance of 100 miles on a dangerous coast. This makes Boston nine hours nearer New York by steam. The time for building is two years. The canal is to be a tide lock waterway without locks.

THE MARCUS SMITH PARTY has completed the survey of the second one hundred miles of the Canada Pacific Railway west of Winnipeg.

News Condensed.

Sir Charles Tupper sailed for home on the 23rd.

The Hon. S. C. Wood, Provincial Treasurer, Sir Leonard Tilley and Hon. Mr. Baby are in Montreal.

It is rumored that Parliament is likely to meet on the 4th of November.

A party of about a hundred and sixty will leave Ottawa for Manitoba on October 21st.

Mr. Gordon Starr, of Brockville, will be in aid, succeed Mr. McKinnon on the Canada Central Railway.

Major Walsh, of the North-West Mounted Police, is in Ottawa. He is about leaving for the North-West.

The people of Lewis will give a public reception to Sir John Macdonald on his arrival from England to-morrow.

The Industrial Refuge for girls, situated in the Mercer Refractory building, received its first two inmates on the 23rd.

Six hundred and fifty-nine seagoing vessels have called at the Quebec Custom House since the opening of navigation.

The number of lives lost during the fiscal year 1880 by steamboat accidents is estimated at 185, against 177 during the previous year.

The Excellency of the Governor-General will visit St. Catharines on Monday, for the purpose of inspecting the new Welland canal works.

Code's woolen mills at Carleton Place, which have been idle for several years, are being made ready to resume operations at an early date.

H. M. S. the Princess Louise has promised to be present at the inauguration of the De Salaberry statue on the 1st July next at Chambly.

The number of ordinary visitors at the Dominion Exhibition up to the 24th inst., was 97,000; in addition to which were several thousand exhibitors, attendants, employees and others.

Le Journal de Quebec announces that in consequence of the failure of the railway the season of the coast of Quebec for the inhabitants of that country will be reduced to the verge of starvation.

A London despatch says:—Coal oil is still going up, and it is rumored that the intention is to raise the price to forty or fifty cents. Large quantities of the crude oil are coming into the city every day.

Mr. W. H. Walker, Secretary of the Dominion of Canada Plumbago Company, now in New York, has about completed arrangement with American capitalists for working the Dominion of Canada plumbago mine.

Pis Island in Thunder Bay, with the exception of some 200 acres belonging to Mr. S. J. Dawson, M. P., has been transferred to a syndicate of New York capitalists, represented by the Hon. R. W. Scott and E. D. Pew.

The Elsie Windmill Company, represented by Buchanan & Co., Montreal, has been given the contract for about forty windmills for the Canada Pacific Railway, to be used in connection with the Hagerwater elevator.

Word has been brought to San Francisco of an inscription against the French in the Marquesas Islands. Several whites and natives were killed. The inscription was finally suppressed.

At noon yesterday Governor Cornell, of New York was pronounced out of danger. On Thursday night he slept well, and yesterday morning his condition was more favorable. His recovery is now only a question of time.

Mr. Baker, M. P. for Russell, was entertained at dinner by the Hon. John O'Connor on the 24th. Hon. John O'Connor was present and made a speech, in which he said the Pacific Railway is to be finished throughout by 1890.

The hopes of peace in South America seem to have been ill-founded. Minister Christianity was not sent in the role of a peace-maker, but to look after compensation for damage done to American property. The Chileans again bombarded Callao on the 31st ult.

His Excellency the Governor-General met with a very cordial reception at Hamilton yesterday. To-day he will witness the promised regatta and some athletic contests in that city. On Monday he will proceed to Niagara Falls, where he will spend two or three days.

The Chief Constable of Port Hope was notified on Thursday that two men were secreted themselves in a Grand Trunk car intending to steal rails. There were locked in, so that their capture was an easy piece of work. The stowaways hailed from Oshawa, and were hoping to slide off near Belleville. They were arrested and brought up yesterday morning and remanded till to-day. Their names are Jas. Downs and Geo. E. Mason.

Colossal Wheat Farming on the Pacific Coast.
Speaking of the mammoth farmers and farming in California, a San Francisco correspondent of the St. Louis Republican says: "Dr. Hugh J. Glenn made his first purchase of the Jacinto grant, California, in December, 1867, and commenced farming in the wonderfully productive Sacramento Valley. He has now a farm of 65,000 acres, 45,000 of which are in wheat, and has 175 miles of fence. Of this year's crop Dr. Glenn says, although he has on hand 350,000 sacks each holding 140 pounds, he thinks they will not hold 140 pounds. He has his own machine and blacksmith shop, boring, turning and planing machines, buzz-saws, etc. He manufactures his own wagons, separators, headers, harrows, and nearly all the machinery and implements used. He has employed 60 in seeding and 100 in harvest, 200 head of horses and mules, 55 grain headers and other wagons, 150 sets of harness, 12 twelve foot mowers, 6 mule hay rakes, 12 eight-mule cultivators, 4 Gem seed sowers, 8 Buckeye drills, 8 mowers, 1 forty-eight inch separator, 36 feet long and 13 feet high, with a capacity of 10 bushels per minute; 2 forty-foot separators, 36 feet long; 2 forty-foot elevators for self-feeder, 1 steam barley or feed mill, and 3 twenty-horse-power engines. The forty-eight inch separator thrashed out 100 bushels of wheat, 1877, 67,799 bushels of wheat in one day.

THREATENED MARCH IN BANFOLAND.—A despatch from Cape Town says that a request has been sent from the front to send up every available man—volunteers as well as regular—with an object to the natives are massing in overwhelming numbers, threatening to massacre every white man.

AN ITALIAN RIOT.—A Rome despatch says:—A riot took place yesterday at Terni, forty miles north-east of this city. A sergeant of artillery was killed and seven soldiers wounded by the mob.

The Fall Regatta.
Light Weather but Fast Sailing.

The "Katie Gray" was the Winner.

The smart breeze which yesterday generally hoped for and predicted yesterday did not come, but still there was a nice sailing breeze and the fifth annual regatta of the Bay of Quinte Yacht Club proved to be one of the very best that had ever been sailed on the waters of the Bay.

There were but four starters, as the *Perlees* of Gananoque failed to arrive, and the *Una* of Kingston, which reached here about 9 a. m., did not start, thus leaving but four yachts to compete. These, however, were of such quality that the mere lack of numbers was not much to be regretted.

In light but slightly freshening breeze from the southwest, the racers were despatched in the following order:

YACHT. OWNER. TIME.
Grace..... P. C. Hopley..... 11:47
Kathleen..... E. J. Galt..... 11:52
Grace..... G. C. Hopley..... 11:52
Katie Gray..... W. H. Chapman..... 11:53

With all our eyes and ears including jib, mizzen, balloon jib, gaff topsail and weather sail, making of each yacht a moving pyramid of canvas, the swift little craft sped off at a race pace for the eastern buoy.

The *Kathleen* bothered the *Grace* on the down, and the *Emma* had some advantage from this, she turning the first corner ahead, whilst the *Katie Gray*, which had the luck of bringing the wind with her, closed rapidly on the leaders, and very soon assumed the lead, which she retained to the starting buoy and around the south shore buoy, but the *Emma* caught her under Ferry Point, crossing her bows twice. The *Katie* was first to stand for the north shore, on the port tack, and on this leg gained a lead which she kept increasing steadily through out the race.

Messing the *Grace* and *Kathleen* were having a hot contest for third place, and the first named, which had been last of all, did some splendid sailing, passing the *Kathleen* and going on in pursuit of the *Emma*, which she captured, just before the flag marked the western end of the course was reached. This mark was turned in the following order:

Katie Gray..... 1:43:30
Grace..... 1:46:00
Emma..... 1:46:25
Kathleen..... 1:48:00

It was now a run off before the wind, and again all light canvas was spread "to woo the freshening wind," the leading yacht adding to her lead, and the *Emma* and *Grace* having a sharp run down, the last named being the next two buoys in advance.

On the run down from the starting point, however, the *Grace* fell to the rear, and the *Kathleen* closed up on the *Emma*. The starting point was passed for the second time in the same order, but in working up to the western mark the *Kathleen* did some fine work, as did also the *Grace*, which at times showed wonderful bursts of speed, both going round it in advance of the *Emma*.

Around the last two flags the procession swept along in swift order, the *Grace* and *Emma* being close to each other, whilst the others maintained their relative positions, the *Katie* having now a very long lead.

The *Emma* finally came out ahead of the *Grace* and went for second place, which she actually gained on time, but the sun was setting and the wind dying away, and the *Kathleen* being favored by the breeze, finally, amidst the acclamations of the numerous spectators, who had watched the race with the deepest interest, now secured second place by 37 seconds only, the finish being made as follows:

Katie Gray..... 6:16:47
Kathleen..... 6:31:38
Emma..... 6:32:55
The *Grace*, which was left almost becalmed, drifted in several minutes later.

The *Katie Gray* thus wins first prize by 20 m. 59 s., the *Kathleen* second by 17 seconds and the *Emma* third.

The race for second and third places was the finest we have ever witnessed, the seeing between the three yachts—the bursts of speed which each would show in turn—the skill of their steersmen and the smartness of their crews in handling canvas being highly enjoyable to all. The course was fully 36 miles, and when it is considered that one half of this was a work to windward and the winner did the distance in 6 hours and 29 minutes, the speed shown is little short of wonderful, taking the lightness of the breeze into account.

The *Perlees* arrived at about 2 p. m., unfortunately too late to start. The magnificent yacht *Bluehound* also took a sail around the course and was much and deservedly admired.

The Club met at Hambley's in the evening, where all the prizes were paid, and in addition the *Grace*, which had won no money, was awarded fourth prize in consideration of the gallant struggle which she had made.

A TROTTING WONDER.—The Montreal *Witness* of the 24th says: "The celebrated trotting horse 'Tecumseh,' leaves the neighborhood of the Exhibition grounds to-day. He was captured by Mrs. Jane Willamson, near Shelburne, N. S., who has caught several of them. 'Tecumseh' is said to have trotted a quarter of a mile on Tautram Marsh in thirty-five seconds in a walk."

THE BROOKLYN MURDER.—The Coroner's inquest as to the death of Annie Broxup at Toronto, resulted in a verdict to the effect that she was murdered by some persons unknown. The husband of the deceased and a man named Noyes who were in custody on suspicion have in consequence been discharged.

A profuse and many times excessively offensive discharge from the nose, with "stopping up" of the nose at times impairing the sense of smell and taste, watering of the eyes, impaired hearing, appetite, pressure and pain over the eyes, at times in the back of the head, cold feet, and a feeling of lassitude, are all the symptoms which are common to catarrh of all of them are not present in every case. Dr. Nag's Catarrh Kidney cures catarrh in its worst form and restores the system to its normal and no poisonous or caustic drugs. No cure is sure that its former proprietor offers for sale in all the principal newspapers of the land standing at the head of \$200 for a case it would not cure. Sold by druggists at 50 cents.

MORNING DESPATCHES.
AMERICAN.

NEW ORLEANS, La., Sept. 25.—Reports from 54 central points in the cotton districts of Louisiana, Mississippi, Texas, Arkansas, Alabama, Georgia, Tennessee, giving the condition of the cotton crop on Sept. 24th, show that bad weather has damaged the crop in all the states excepting Georgia, but the yield generally will be good.

Boston, Sept. 25.—Dr. Page Higgs, of London, with S. P. Vanebo and other electricians, have been supervising the manufacture of new inventions for vastly improving the present system of submarine cables, which are to be supplied by a new American Cable Company, which proposes to lay some 4,000 miles of cable connecting New York city directly with several European Companies.

The new apparatus consists of a submarine repeater in front of a bronze globe six inches in diameter, to be submerged in mid-ocean. Hermetically sealed inside of it is a simple mechanism which performs the functions of the office and two operators. By the use of this instrument the cable may be divided in the center and two circuits thereby working. Speed can be had according to the established electrical law, four times greater on an electric cable of 2,000 miles.

LUMBERTON, N. J., Sept. 25.—Peter Leach, a disreputable negro, was hanged yesterday for murdering a negro two years ago. He said he died happy, trusting in God. After the drop fell he struggled frantically.

CHICAGO, Sept. 25.—Enterprising citizens in connection with Scotch capitalists have organized a great enterprise for the construction of a railroad from Chicago to the city of Mexico. The route is being surveyed. Dallas, Texas, will be made the initial point.

NEW YORK, Sept. 25.—J. & M. Levy, wholesale clothiers, Broadway, have failed. Estimated \$30,000.

The Times says the Delaware & Lackawanna earnings applicable to dividends are equal to 32 percent, and in view of the prosperous condition of the coal trade the company expect to continue regular payment of quarterly dividends. It is stated that the Delaware and Hudson company will commence the payment of dividends at the end of the year.

FROM NAPLES.
NAPLES, Sept. 25th, 1880.
Last night about midnight, a barn on the south side of the road owned by Nathan Empey, and used by James Craig, leasee, was destroyed by fire with contents, consisting of the year's crop, threshing machine, &c. Mr. Empey had only insured the barn on Thurs. day for \$300 in the Ontario Mutual Insurance Company. Mr. Craig is absent in Bradford getting repairs for his threshing machine, and it is not known if he is insured. It is believed the fire originated from smoking a pipe about the premises.

ANOTHER PAPER MANUFACTORY.—Several capitalists, one of whom is an Ottawa gentleman, have formed a company with a capital of \$80,000 to manufacture paper. It is their intention to establish the manufactory in Ottawa, but have not positively decided to do so. They are now in Boston purchasing the necessary material.

A Great Chicago Enterprise.
The Laboratory for the manufacture of Electric Bitters is one of Chicago's greatest enterprises, giving employment to a large number of men. The electrical steel already attained for this wonderful remedy is astonishing. Wherever once introduced and becomes known, it is almost to supply the demand, because of their merit—curing where all others fail—and at a reasonable price (fifty cents each).—Sold by Jas. Clarke & Co.

A CARD.
THOSE who desire a thorough knowledge of Dress and Mantle Cutting, staining and Dyeing to learn the Tailors or Geometrical System, will be taught on Front Street, opposite Roy's Brewery, Belleville.

Belleville, Sept. 25th. 12456

1880 1880.

GENTLEMEN!
INSURE YOUR LIFE IN THE
ONTARIO MUTUAL
LIFE ASSURANCE CO'Y.
OF WATERLOO, ONT.

GOVERNMENT DEPOSIT—\$25,224.00
FULL RESERVE—149,000.00
WHICH INCREASES EVERY YEAR.

Policymakers are not liable to assessment as the rates are on a CASH BASIS and self sustaining. It is the CHEAPEST COMPANY, because there being no stockholders all the profits go to the Policyholders, which reduces their payments annually after the first three years.

EXAMPLE.
Thomas Little, of Galt, in the County of Waterloo, insured in this Company in 1873 for \$2,000 at the age of 34. He pays annually for first
3 years was \$48 00
4th " 43 20
5th " 35 91
6th " 31 49
7th " 28 75
8th " 24 20

The above results show the advantages of insuring in this Company.
S. BURROWS,
Gen. Agent, Belleville.

F. M. CLARKE,
Local Agent.
Office—Ashley's Block, next door Bank of Commerce.

FACTS FOR THE PEOPLE.

THE HOLMAN LIVER AND STOMACH PAD, THE GREATEST SYSTEM REGULATOR IN THE WORLD.

HOLMAN LIVER PAD COMPANY,
71 King Street West, Toronto.
Trenton, Ont., Jan. 23rd, 1879.

Dear Sir,—I shall ever remain a strong advocate of the Holman Pad. Its effect on me has been truly marvellous. Since the third day after putting it on, I have been as well as ever in my life. It seemed to arrest my trouble at once. I have not worn it since about two months, and the symptoms have not as yet returned. I expect to keep a Holman Liver Pad in my possession as long as I live.

With sincere regard, yours, &c.,
REV. D. O. CROSSLEY.

(SECOND TESTIMONIAL).
St. Mary's, Ont., Jan. 11th, 1879.
Dear Sir,—I have much pleasure in stating that since I began to wear the Holman Liver Pad (about one year ago) I have enjoyed good health, although for several years previous, I was a sufferer from Bilemiasis and Torpid Liver. I earnestly recommend all bilious persons to give the Pad a trial, as I have known many to have done so with the most gratifying results.

Yours truly,
REV. JAMES G. CALDER.
Toronto, 19th February, 1879.

GENTLEMEN,—I have much pleasure in testifying to the extreme efficacy of your remedy for Dyspepsia. My mother, Mrs. W. A. Murray, No. 146 Wellington Street, has been a martyr to the sufferings induced by this malady for upwards of six years, obtaining but a temporary relief from the usual remedies so often had recourse to in these cases. After considerable persuasion she consented to wear one of your Liver Pads, and notwithstanding her want of faith in it she experienced considerable relief in the course of a few weeks. Since then she has used a second one, and now CLAIMS for your Pad the ENTIRE CURE of having brought about a CURE beyond expectation for which not only does she feel deeply indebted to you, but I must myself congratulate and thank you for a cure I could not at the moment have hoped for.

Yours most respectfully,
C. STUART MURRAY, M. D. L. R. C. P., &c.

HOLMAN LIVER PAD CO.
DUNDEON, Ont., Jan. 14th, 1879.
GENTLEMEN,—Please find enclosed \$4.05 for special Pad, two Back Plasters and 25 cts. we are owing you. Please send the Pad as soon as you can. The Pad has done me immense good. I am glad I got it. A friend told me the other day he set the highest value upon his.

Yours truly,
REV. JAMES CASWELL.
FERRISVILLE, Ont., 26th April, 1878.

HOLMAN LIVER PAD CO.
GENTLEMEN,—With feelings of gratitude and pleasure I add my testimonial to the many you have already received, as to the wonderful effects produced by your valuable Liver Pad. I commenced wearing the Pad five weeks ago. Previous to that time I suffered from indigestion, bilious headache and diarrhoea. When I had worn the Pad two weeks my health began to improve. My general health is now good, and I consider myself cured. Indeed you will find seven dollars for two special Pads, one for my wife and the other for a friend, my wife is suffering from Torpid Liver and constipation, the other from Dyspepsia.

Yours, etc.,
REV. W. M. LOCHHEAD.
DUNDEON, Albany P. O., Co. of Grey, Aug. 24, 1876.

Dear Sir,—Last March I met with an accident and broke my thigh bone, causing me to be confined

For BACON—Daily, at 8 a.m., and 2 p.m.
For TROTTER—Daily, at 3 p.m.
For PRINCE—Daily, at 3 p.m.
The stages arrive in Belleville about noon each day.

Daily Intelligencer.

BELLVILLE, SATURDAY, SEPT. 25.

6 O'CLOCK EDITION.

City and Vicinity.

ARRIVED.—The steamer *Sardinian* passed St. Felix at 5:45 this morning.

ANNOUNCEMENT.—Richard Costello will make his fall opening on Tuesday next.

OBITUARY.—Mrs. Jane McNeil, the oldest resident of Napanee, died there on the 21st, aged 84 years.

FALL ARRIVES.—The fall settings of the Court of Assize and Nisi Prius will open here on Monday next.

THE CHIEF.—Two prisoners who were classed under the head of vagrants were quartered at the police station last night.

DO KILLED.—A valuable retriever, belonging to Mr. R. M. Roy, was unfortunately killed by a street car this morning.

THE FASHIONS.—Messrs Barber, Brignall & Co., will exhibit their new fall styles in millinery, mantles, &c., on Tuesday next.

FALL OPENING.—Messrs Foster & Reid's display of fashionable articles for fall and winter wear will be held on Thursday, the 30th inst.

CHURCH PARADE.—The officers and members of No. 1 Co. of the 15th Batt. A. I. I. will attend divine service at the Bridge Street Methodist Church to-morrow morning.

WATER PROBABILITIES.—The following are the Toronto probabilities—Lakes fresh southerly to south easterly winds, fair, warm weather, to-day followed by mild areas to-morrow.

A SKELETON.—Last evening the members of the Oddfellows' Hall, proceeded to the residence of Mr. X. Verinder in Sidney, and complimented that gentleman and his wife with a serenade.

MEDICAL NOTE.—Dr. Verinder, organist of St. Paul's Church, St. Catharines, gave a recital on the organ of the Bridge Street Methodist Church last evening, to an appreciative assemblage. Dr. V. being with him the highest testimonials as to his musical ability, and the probability is that he may be engaged here.

COLD STORMY WEATHER.—The *Witness* says:—"Prof. Vennor's predictions for the remainder of September and the greater part of the month of October, as published some weeks since, are on the cold and stormy side. The latter month he sketches as not only fall-like, but wintry, with very early snow-fall and wet weather throughout. Between the 15th and 20th days there is likely to occur a few days of fine balmy Indian summer weather. November will be much more agreeable, with late frosts, but rather severe weather towards its end."

RAILWAY TO MILL POINT.—The Napanee *Beaver* says:—"The Mill Pointers are in real earnest about railway connection, and expect to have their wish granted by the time they make of public enterprise, they generally carry it forward to a speedy and successful issue. At a meeting of the Village Council on Monday, it was unanimously resolved to submit a By-law to the rate-payers for approval, granting a bonus of \$5,000 for the construction of a railway connecting the village with the Grand Trunk, at some point to be mutually agreed upon. Railway connection has become a necessity to the business and future progress of the place. To enable Messrs. Rathbun & Son to successfully operate the grist mill lately completed, and complete with other millers, it is strictly necessary that they have the best shipping facilities, both winter and summer. The expense of carting wheat to the mill, and of hauling the flour seven miles to be re-shipped, is more than the margin on the business will allow; the other growing industries of the place all demand railway facilities, and the people are not at all surprised to see the branch under construction this winter, and the line completed early next season. The distance is only three or four miles to connect with the Grand Trunk at a convenient point."

Such is the expression from all Druggists and dealers everywhere on the subject of Dr. King's New Discovery for Consumption. No like preparation can begin to have such an extensive and rapid sale. And why? Simply because of its truly wonderful merits. No Cough or Cold, no matter of how long standing or how stubborn, can resist the healing qualities of this medicine. It is a true and reliable remedy for Asthma, Bronchitis, Hoarseness, Hay Fever, Pain in the Side or Chest and difficulty of breathing or any lingering disease of the Throat and Lungs rapidly yield to its marvelous powers. It will positively cure and that where everything else has failed. Satisfy yourself as thousands have already done by getting your Druggist J. A. Clark & Co., a trial bottle for ten cents, or a regular size bottle for \$1. For sale by J. A. Clark & Co.

The Port and the Powers.

A REFUSAL TO CEDE DULCINO—REINFORCEMENTS FOR THE BRITISH FLEET—NO RELY TO ADMIRAL SEYMOUR'S ULTIMATUM.

LONDON, Sept. 24.

A Constantinian dispatch says that the Porte has sent a final note to the powers in which he refuses to surrender Dulcigno to Montenegrins unless the naval demonstration is abandoned, and the lives, property, and religion of the Mohammedans of the ceded territory are guaranteed to remain in statu quo, and the Polgorita line is recognized by the powers.

This note has caused great excitement. A Russian dispatch says:—The British consul has arrived from Scutari, where he deemed it dangerous for him to stay. The other consuls remain at their posts. Riza Pasha still awaits instructions from Constantinople and has not yet replied to Admiral Seymour's ultimatum. There are no Turkish regulars in Dulcigno. Two laborers who fraternized with the Albanians are camped near the town.

A Cettinjo dispatch says:—Admiral Seymour has returned to Gravosa with special delegate attached by Montenegro to the command of the squadron.

Admiral Sir Arthur Hood, in command of the Channel squadron, has been ordered to complete his ship with stores and ammunition, so as to be ready to proceed to the Mediterranean at an hour's notice. He will place himself under the orders of Admiral Seymour.

Given Under the Doctors.

Where doctors have failed to cure, and have given their patients up to die, Electric Balm, have often been used, and a cure effected greatly to the astonishment of all. Diseases of the Stomach, Liver, Kidneys and Urinary Organs are positively cured by Electric Balm. They invariably cure Constipation, Headache and all Bilious Attacks. Try them, and be convinced that they are the best medicine ever used. Sold by J. A. Clark & Co., at fifty cents a bottle.

AFTERNOON DISPATCHES.

GENEVA, Switzerland, Sept. 25.—The great-est of Valais, a large village in the canton of Vaud, has been burned.

MADRID, Sept. 25.—King Alfonso has commanded that to-day, the *fete* day of Santa Mercedes, be kept as an official holiday and gala day in the palace, in honor of Infanta Mercedes. The papal Nuncio was presented in a splendid marble and ebony casket, the gift of the Pope to Infanta Mercedes. A rich satin robe covered with lace, displaying the escutcheons of Spain and the Pope, was made and embroidered by ladies of the Roman nobility, at the request of the Pope.

New York, Sept. 25.—Arrived, the city of Montreal from Liverpool, *Douglas* from Bremen.

BIRMINGHAM FALLS, N. Y., Sept. 25.—Ad- vances paper mill and Appleyard's grist mill have been burned; loss \$10,000.

Stop that Cough.

If you are suffering with a Cough, Cold, Asthma, Bronchitis, Hay Fever, Consumption, loss of voice, hoarseness, or any affection of the Throat or Lungs, use Dr. King's New Discovery for Consumption. This is the great remedy that is causing so much excitement by its wonderful cures, curing thousands of hopeless cases. Over one million bottles of Dr. King's New Discovery have been used within the last year, and have given perfect satisfaction in every instance. We can unhesitatingly say that this is really the only sure cure for Cough, Cold, Asthma, Bronchitis, Hay Fever, Consumption, and all other lung affections, and can cheerfully recommend it to all. It is a true and reliable remedy for ten cents, or a regular size for \$1.00. J. A. Clark & Co.

No good praeaching.

No man can do a good job of work, preach a good sermon, try a law suit well, doctor a patient from a good article when he is miserable and dull, with sluggish brain and untidy nerves, and none should make a mistake in recommending it to all. It is a true and reliable remedy for ten cents, or a regular size for \$1.00. J. A. Clark & Co.

Buckner's Arnica Balm.

The Best Salve in the world for Cuts, Bruises, Sore, Ulcers, Salt Rheum, Tetter, Itch, Ringworm, Chalk, Corns, and all kinds of Skin Eruptions. It is a true and reliable remedy for ten cents, or a regular size for \$1.00. J. A. Clark & Co.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph L. Buxton, Station D, New York City.

Its Just a Booming.

Such is the expression from all Druggists and dealers everywhere on the subject of Dr. King's New Discovery for Consumption. No like preparation can begin to have such an extensive and rapid sale. And why? Simply because of its truly wonderful merits. No Cough or Cold, no matter of how long standing or how stubborn, can resist the healing qualities of this medicine. It is a true and reliable remedy for Asthma, Bronchitis, Hoarseness, Hay Fever, Pain in the Side or Chest and difficulty of breathing or any lingering disease of the Throat and Lungs rapidly yield to its marvelous powers. It will positively cure and that where everything else has failed. Satisfy yourself as thousands have already done by getting your Druggist J. A. Clark & Co., a trial bottle for ten cents, or a regular size bottle for \$1. For sale by J. A. Clark & Co.

The Port and the Powers.

A REFUSAL TO CEDE DULCINO—REINFORCEMENTS FOR THE BRITISH FLEET—NO RELY TO ADMIRAL SEYMOUR'S ULTIMATUM.

LONDON, Sept. 24.

A Constantinian dispatch says that the Porte has sent a final note to the powers in which he refuses to surrender Dulcigno to Montenegrins unless the naval demonstration is abandoned, and the lives, property, and religion of the Mohammedans of the ceded territory are guaranteed to remain in statu quo, and the Polgorita line is recognized by the powers.

This note has caused great excitement. A Russian dispatch says:—The British consul has arrived from Scutari, where he deemed it dangerous for him to stay. The other consuls remain at their posts. Riza Pasha still awaits instructions from Constantinople and has not yet replied to Admiral Seymour's ultimatum. There are no Turkish regulars in Dulcigno. Two laborers who fraternized with the Albanians are camped near the town.

A Cettinjo dispatch says:—Admiral Seymour has returned to Gravosa with special delegate attached by Montenegro to the command of the squadron.

Admiral Sir Arthur Hood, in command of the Channel squadron, has been ordered to complete his ship with stores and ammunition, so as to be ready to proceed to the Mediterranean at an hour's notice. He will place himself under the orders of Admiral Seymour.

Given Under the Doctors.

Where doctors have failed to cure, and have given their patients up to die, Electric Balm, have often been used, and a cure effected greatly to the astonishment of all. Diseases of the Stomach, Liver, Kidneys and Urinary Organs are positively cured by Electric Balm. They invariably cure Constipation, Headache and all Bilious Attacks. Try them, and be convinced that they are the best medicine ever used. Sold by J. A. Clark & Co., at fifty cents a bottle.

AFTERNOON DISPATCHES.

GENEVA, Switzerland, Sept. 25.—The great-est of Valais, a large village in the canton of Vaud, has been burned.

MADRID, Sept. 25.—King Alfonso has commanded that to-day, the *fete* day of Santa Mercedes, be kept as an official holiday and gala day in the palace, in honor of Infanta Mercedes. The papal Nuncio was presented in a splendid marble and ebony casket, the gift of the Pope to Infanta Mercedes. A rich satin robe covered with lace, displaying the escutcheons of Spain and the Pope, was made and embroidered by ladies of the Roman nobility, at the request of the Pope.

New York, Sept. 25.—Arrived, the city of Montreal from Liverpool, *Douglas* from Bremen.

BIRMINGHAM FALLS, N. Y., Sept. 25.—Ad- vances paper mill and App

PATENT S

obtained for new inventions, or for improvements in old ones. Caveats, Trade Marks and all patent business promptly attended to.

Inventions that have been rejected may still, in most cases, be patented by us. Being opposers of the U. S. Patent Office, we can secure patents in less time than those who are remote from Washington, and who must depend upon the mails in all transactions with the Patent Office.

When inventors send model or sketch we make search in the Patent Office and advise as to the patentability of the invention. Correspondence confidential. Price low, and no charge unless patent is obtained.

We refer to Dr. H. Foster, General D. M. Key, Rev. P. D. Fox, to officials in the U. S. Patent Office, and especially to our clients in every State of the Union and in Canada. For special references, terms, advice, &c., Address

VALUABLE MILL PRIVILEGE

Premises for Sale.

THE subscribers offer for sale one of the best mill sites and water privileges on the River Moun, just outside the limits of the City of Belleville, a few rods from the Grand Trunk Railway station. The main travelled road from Belleville to the northern townships and villages runs through the premises, leaving three acres on the west side, embracing land, excavated in a large outlet, 450 feet long, 25 feet wide, and 10 feet deep, with water line foundation; walls of mill 100 feet long, 6 feet wide and 4 feet high, foundation depth 6 feet, with necessary openings for six water wheels. Ten feet head of water, with the exclusive right to use the farther shore for damming, giving the sole right to this magnificent water power at any point in a length of 100 yards on the river. Any amount of water-power available nine months in the year, and from 30 to 40 horse-power the rest of the year. On the east side of the road are six and a half acres of land, just outside the limits of the City of Belleville, on being used in connection with extensive milling or manufacturing for yard purposes, or both. The above is one of the first valuable properties of the kind ever offered for sale in this Province. For terms and particulars apply to

BELL & FORTON, Vendor's Solicitors.

Belleville, July 16, 1880.

St. Lawrence Hall, Montreal.

THIS Hall has been recently re-taken by Mr. Henry HOGAN, the former proprietor, who has handsomely and appropriately decorated and renovated the interior, and completely refitted the whole of the apartments, being in the very heart of the city, principal banks, public buildings, law courts, commercial exchanges, railway and telegraph offices

Daily Intelligencer.

A Royal Enquirer.

I am told that a German emperor or

opera singer, or even a song to which

though they may be dying to hear it again

their good breeding usually preserves

them against receiving the compliment.

It is a pity that it is quite another

matter: it delights everything to see that

the King is pleased and as to the actor or

the artist the pride and gratification are simply boundless.

The King of Bavaria is a poet and has a

poet's conceit, with the advantage

of not being a poet, and he is a poet

no matter what form they may take.

He is fond of opera, but not fond of

sitting in the presence of the artist, and

the players are setting of their paid and

in any case, presently the King would

arrive alone and alone, and the players

would begin at the beginning and do the

audience in the presence of the artist, and

the players are setting of their paid and

in any case, presently the King would

arrive alone and alone, and the players

would begin at the beginning and do the

audience in the presence of the artist, and

the players are setting of their paid and

in any case, presently the King would

arrive alone and alone, and the players

would begin at the beginning and do the

audience in the presence of the artist, and

the players are setting of their paid and

in any case, presently the King would

arrive alone and alone, and the players

would begin at the beginning and do the

audience in the presence of the artist, and

the players are setting of their paid and

in any case, presently the King would

arrive alone and alone, and the players

would begin at the beginning and do the

audience in the presence of the artist, and

the players are setting of their paid and

in any case, presently the King would

arrive alone and alone, and the players

would begin at the beginning and do the

audience in the presence of the artist, and

the players are setting of their paid and

Josh Billings' Advice to Joe.

By awine, Joe, got married, if you

have a fair show. Don't stand shivering

on the bank, but pitch into it and stick

your head under, and the shiverer is out

of the water. You ain't a saint yourself

and don't expect to marry an angel:

there's a fellow has been picked long ago.

Remember, Joe, you ain't a saint yourself

and don't expect to marry an angel:

there's a fellow has been picked long ago.

Remember, Joe, you ain't a saint yourself

and don't expect to marry an angel:

there's a fellow has been picked long ago.

Remember, Joe, you ain't a saint yourself

and don't expect to marry an angel:

there's a fellow has been picked long ago.

Remember, Joe, you ain't a saint yourself

and don't expect to marry an angel:

there's a fellow has been picked long ago.

Remember, Joe, you ain't a saint yourself

and don't expect to marry an angel:

there's a fellow has been picked long ago.

Remember, Joe, you ain't a saint yourself

and don't expect to marry an angel:

there's a fellow has been picked long ago.

Daily Intelligence.

OVER THE SEA.

XXXII.

THE Editor of the Intelligence, HOLLAND.

Our correspondence is becoming so voluminous that we must necessarily confine it to brief descriptions of important places we visit, and the more interesting features of our travels.

We are greatly interested in the many strange sights to be seen in Holland and the peculiarities of the inhabitants. The notice of travellers from any other country in the world, they are so entirely distinct in their character. The eccentricities of the people are truly marvellous, more especially on festival occasions, when the sturdy peasants flock to the cities from far and near. Wonderful and stupendous are the crowds of people that are seen on the streets of the cities.

We are informed that it is by the head-dress that women of different provinces are distinguished from one another. The head-dress is uniform to all Holland, viz: A light flannel dress fastened in front and waistless, a small imitation cashmere shawl, thick woven and dark colored, which is worn over the head and in her ears, not in the form of real estate, but that of jewelry; the great head piece, which is made of the thick hair and look as though they were set into the head, are invariably of precious metal. The wealthy wear gold or silver, the poor wear brass or iron.

The gold plate over black lace, decorated with horns of black ribbon just above the outer corners of the eyebrows, the back of the head being covered by a brown addition, exactly like a small bronze coal scuttle turned upside down.

Our first important stopping place in Holland was the old historic city of ROTTERDAM.

The city is situated near the mouth of the Meuse (called by the French Meuse) river, and has a population of 132,500. On approaching the city one is attracted by the many lofty windmills, so common in all parts of Holland, and which are necessary for pumping the water out of the dykes that are built to protect the country from inundation. No less than sixty of these huge windmills are visible at one time, and as we glance away from the north-east of the city we see, dimly appearing in the big windmills, a dense smoke rising from the distillery chimneys of SCHIEDAM, where "Geneva" or "Holland" gin is manufactured in large quantities. Although the place contains only about 21,000 inhabitants, there are about 200 distilleries, the refuse grain from which furnishes food for 30,000 head of cattle.

Rotterdam, with its busy quays, old-fashioned houses, curious costumes, numberless bridges, countless trees, strangely-attired policemen and trim gardens, is a very picturesque city. The city is situated on a peninsula, and is a half of a series of magnificent quays, one of which is planted with stately lindens. The shipping and steamboat moor close to these quays, and the city is a very busy place.

BELLEVILLE, MONDAY, SEPT. 27.

The Pacific Railway.

AN IMPORTANT STATEMENT.

At the banquet given on the 24th inst., by the directors of the company of Russell to Mr. A. J. Baker, their representative in the Ontario Legislature, the Hon. John O'Connor was present and made a speech, which contained the following important and satisfactory statement in reference to the Pacific Railway: "He said that the present Government had felt it to be wise and more in the interests of the community at large, that an effort should be made to place the whole scheme in the position in which it was in 1873, when the Government of Sir John Macdonald resigned; and he could say to them now, and to the world through the newspapers, that the negotiations had been brought to a successful conclusion with a powerful syndicate, some of whose members resided in Great Britain and others in America, who had given the necessary guarantees, and who were ready to construct the railway, and to run it for all time to come. They were not to construct merely in one direction or another, but the whole Pacific Railway as an integral part of the original agreement between Canada and British Columbia in 1873. He might also state that the syndicate had to complete the road and have it complete running order by the end of the year 1880. He wished to be understood as saying that it was meant to construct the Pacific Railway according to the original agreement between Canada and British Columbia when British Columbia came into the union, thereby carrying out the pledged faith of the country, saving her honor and doing justice, not only to British Columbia, but to the Mother Country. There were some smaller details of the terms which he was not prepared to state, but would say that the contract was in its terms more favorable than he for one could have thought of two months ago. He had no doubt that Parliament would see the terms to be reasonable and sanction them, and the work would be proceeded with vigorously until completed. In ten years from now, perhaps in a less period, if they wished, they could start at the Atlantic and arrive on the Pacific. In conclusion he said that Parliament would meet in a few weeks, and perhaps in a few days, to consider the proposal."

Hard up for a Grievance.

It has been placed to the credit of Englishmen that they are habitual grumblers, but under the tuition of the Irish Canadian, some at least of their fellow subjects from the Emerald Isle seem likely to dispute the palm with the children of John Bull. A case in point is afforded by a correspondent who recently wrote from Ottawa to the receipt of Irish "grievances," explaining that one of his countrymen and co-republicans in the Ontario department at Ottawa had been badly treated because—if we recollect the burden of his complaint aright—on the death of an old official, this gentleman was appointed to the vacant position with an increase of salary, but that the place which he had himself vacated was not filled, the gentleman then promoted having theretofore alone done the duty which had previously been performed by two officials. As the correspondent also states that the official who died had performed but very little work for some years, we fail to see that any grievance has been made out. Rather, the public will agree with us that the head of the Department is worthy of praise for taking the opportunity presented of abolishing a sinecure and saving to the country the salary of a man employed to do nothing. We have no knowledge of the facts of the case beyond what the correspondent has stated, but we do hope and believe that a similar course will be pursued in all cases of a like nature that occur whilst the present Government holds office, whether the promoted official thinks he loses in dignity by not having some one appointed under him or not. People who condemn such a course of procedure must indeed be hard up for a grievance.

THE TORONTO COLLECTOR.—The St. Catharines Journal says: "The Toronto World announces that Hon. James Paton is to be collector of customs for the port of Toronto. Mr. Paton is well known as Sir John Macdonald's former partner in the law firm of Macdonald & Paton. Whether our contemporary is correct in this statement we will soon determine. One fact, however, is now generally accepted, namely, that the persistent assertion of the Ontario journals that the Ministry of Customs would appoint him to the vacant position was as baseless a fabrication as ever emanated from the experts' faltering of the opposition."

RECEIVER OF A FORGER.—A telegram from Napanea on the 25th says: "Chas. Stine, 18 years old, who was committed to jail last Thursday to await his trial for forgery, hanged himself in his cell this forenoon. He used his pocket handkerchief and suspended and hung himself to the bar above the door. Life was extinct when discovered by the turnkey. He forged an order on Slaven & Co., of this place, against his father, Charles Stine, of Denbigh, for a suit of clothes last Monday, and on Thursday attempted to get another order cashed for twenty dollars, when suspicion was aroused and he was arrested, and after arrest confessed his guilt."

THE EAST.—A despatch from Ragnatessa that Vice-Admiral Seymour has arrived at that port. The negotiations with Prince Paasha have been broken off, and it is reported that action will be taken immediately to compel the surrender of Duligno. The Albanian League have threatened to arrest the foreign consuls.

The Provincial Fair.

The first week of the Provincial Fair at Hamilton has passed over with much success, and now long lists of the prize awarded are being given to the public. As usual, this district stands well in the prize, the prizes awarded to local exhibitors being as follows: P. O. Dunspey takes prize for five Waggon; fourth for Roxbury runabout; 2nd for five other variety of winter; 2d for five winter seedling apples; first for four varieties of pears, five of each; first for White Doyenne pears; first for Bourne Hardy pears; 2d for Bourne Gris d'Hiver Novon pears; 1st for Doyenne Bouquet; 1st for Swan's Orange; 1st for Victoria of Wakefield plums; 1st for Souvenir de Congress; 1st for Bourne de l'Assomption; 1st for Mount Vernon; 1st for Seedling pears; 1st for any other variety of Winter pear; 1st for Seedling Winter pears; second for Burnet grapes.

THE FALL ASSIZE.

Monday, Sept. 27. The Fall sittings of the Court of Assize and Nisi Prius were to have opened at one o'clock today before Mr. Justice Burton, but as he did not arrive the Court adjourned until his coming.

The following is the list of cases to be tried with a jury:—John Vye vs. P. M. Norman vs. J. Dickson for piff, Douglass & Finkler vs. G. M. Co., Bell, Q. C., for piff, Dickson for deft.; R. M. Norman vs. John Hunter, Douglass & Finkler for piff, Dickson for deft.; James Bailey vs. George Mackenzie, Dickson for deft.; W. A. G. C. for deft.; C. H. for piff, W. A. G. C. for deft.; John All. Dolan, Black & Reesor for piff, Holden & Anderson for deft.; Elia Pawlis vs. the Prince Edward M. F. Co. Dickson for piff, Alcorn & Allison for deft.; C. H. Dietz vs. P. Fitzpatrick, Clute for piff, Holden & Anderson for deft.; Chas. Smith vs. the Sovereign Ins. Co., Clute for piff, Kitzpatrick for deft.; Chas. Kirk vs. Geo. Chown; Dickson for piff, Blecker & Henderson for deft.; Andrew Gavin vs. Patrick Turley; Blecker & Henderson for piff, Clute for deft.; E. A. Brinkman vs. W. Garbutt; Dickson for piff, Burdett for deft.; Murdock vs. Henry Vandusen; Burdett for piff, Stans for deft.; Barber & Co. vs. Green & Co.; Douglass & Finkler for piff, Bell & Panton for deft.; Ben. Hobson vs. Thurston Hall; Henderson & Henderson for piff; Bell, Q. C., for deft.; Mark Robinson vs. Thurston Hall; Henderson & Henderson for piff; Bell, Q. C., for deft.

The list without a jury is as follows:—Francis Twelvey vs. Jas. McCready; McMahon for piff, Flint & Jellist for deft.; W. L. Palmer vs. J. C. Rose; Douglass & Finkler for piff, Robertson & Thomas for deft.; H. Corby, Jr., vs. G. M. Brooks; Douglass & Finkler for piff, Burdett for deft.; E. Harri son vs. Billa Flint; Douglass & Finkler for piff, Flint & Jellist for deft.; R. M. Norman vs. John Vye; Douglass & Finkler for piff, Dickson for deft.; The Consolidated Bank vs. John White et al.; Dickson for piff, Fraclack for deft.; Alex. McKay vs. Thomas Kerr; Denmark & Northrup for piff, Fraclack for deft.; Alex. McKay vs. Darius Vandusen; Denmark & Northrup for piff, Fraclack for deft.; B. Brown vs. Samuel Nerris; Wallbridge, Q. C., for piff, Flint & Jellist for deft.; The Consolidated Bank vs. M. E. Rankins; Dickson for piff, M. E. Rankins for deft.; R. L. Chandler vs. Lucas et al.; R. L. Henderson for piff, Denmark & Northrup for deft.

The Grand Jury is composed of the following named gentlemen: W. Alford, W. Bullen, E. Burrell, J. Bush, N. A. Bonestell, T. P. Bell, D. O'Callaghan, J. Dryden, T. Deacy, W. Duffy, R. Elvins, H. Frost, J. Foster, J. Fraser, T. Fanger, J. Garfield, W. Gair, J. Graham, E. Herman, D. M. Hagerman, W. A. Mitchell, A. Morton, E. W. Rathbun, M. Robinson.

Canada Gazette Notes.

OTTAWA, Sept. 25. The Canada Gazette to-day contains a copy of a declaration between England and Prussia relative to the disposal of the estates of deceased seamen of the nations.

Notice is given of the incorporation of the Hull Iron Company, and also of the National News Company. The company is composed of S. E. Dawson and W. V. Dawson, of Montreal, and A. S. Irving, W. V. Copp, and H. J. Clark, of Toronto.

The circulation of specie returns shows the excess of specie and guaranteed debentures to be \$2,669,540. Deficiency of unguaranteed debentures, \$86,026. Total excess \$2,483,522. The imports for August were:

Total dutiable goods	\$6,338,609
Gold and bullion (except United States Silver coin)	302,734
Free goods, all other	1,002,413
Grand total entered for consumption	\$7,643,757
For the same month last year the imports of dutiable goods were	\$6,338,609
Free goods	1,172,901
Duty	1,270,311
The imports for August were:	
Produce of the fisheries	231,066
Produce of the forests	3,183,193
Dutiable and their produce	3,083,170
Agricultural products	3,115,542
Miscellaneous articles	348,025
Total	\$11,965,639
Gold and bullion	4,320
Grand total	\$11,969,959
For which \$8,330,366 was the proceeds of Customs, for August, 1879, the exports were	7,092,224
The increase is almost represented by the increased exportation of agricultural produce and products of the forest.	
The deposits in the Post Office Savings' Bank for the month of August amounted to	\$233,538
Notice is given of a meeting of the Grand Trunk Railway Company of Canada in London, Eng., on the 8th October, for the purpose of considering agreements made between the Grand Trunk and the Chicago and Great Northern Railways, Stratford & Huron and Montreal & Champlain Railways.	

THE EASTERN OMBUS.—There are some strange shiftings in the attitude of the Ottoman Empire. At one time all arrangements had been made and orders issued for the fleet to sail from Ragusa to-day, and the Prince of Montenegro stated his readiness to march at any time. Then the demonstration was postponed. It is said that the Prince of Montenegro is still at the disposal of the Porte, and the Albanians are determined to uphold the dignity of the great Ottoman empire and resist stoutly the taking of Duligno.

Church Parallels.

No. 1 Company of the 15th Battalion, accompanied by the band of the regiment, attended divine service at the Bridge Street Methodist Church yesterday morning, when an excellent discourse was given by the Rev. J. J. Jones, D.D., pastor of the church. The lecture, gentlemen took as his text, Deuteronomy 7th chap. 17th verse "The Lord did not set his love upon you, nor choose you, because you were more in number than any people; for you were the fewest of all people." He said that we were interested in this subject, the clearest account of which could be found in the Bible, there was no comparison between the clearness of the account in the Bible and the record of the monuments of antiquity, although they gave glimpses of antiquity that were nowhere contrived in the Bible. The Hebrew nation held the distinctive honor of being the only nation of antiquity who knew their own origin, as the word of God gives us an account of the origin of the Israelitish nation and shows how Providence dealt with them and trained them up. What makes them interesting in a religious sense is that God called Abraham, and it is this religious idea that is the key-note to their history, and there is something remarkable in the fact that their history in its clearest history is the calling of the Israelites into the world, as it gives but a slight account of the great cities of antiquity. Of their governments, palaces and extreme wealth, the Bible takes no notice, as its record of antiquity keeps to the record of one idea, the history of the religion. He drew a comparison between the calling of the Israelites and the history of the early days of our own country and said that the U. E. Loyalists, who were the forefathers of many present, came to Canada on the strength of a conviction and an idea. They did not come to this country, which was then a waste and howling wilderness, in the hope of becoming rich, or to make a life. Only a mere handful of men, they came here with the conviction of loyalty to the British Constitution. Acting upon that conviction showed the strength of their purpose. Let us be a people, he said, that do not act from mere policy, but a people that act from a conviction of what we believe to be true and loyal, and stick to it, never flinching, but always standing true to our principles. How apt, he said, were men to consider big things, and to shallow minds big things always meant great things, but with God quality alone made greatness; thus a nation with a character, if only a nation of a million of inhabitants, had more influence than an empire of fifty or sixty millions without character; as character makes greatness with God; for God said of the Israelites "I did not choose you because you were more in number than any people; for you were the fewest of all people." It was a serious question why the Jews were chosen, as they were a crooked generation and often as unstable as water, but we are all by nature fallen and prone to go astray; but God wanted a nation of saints of character, that would not be running after the fashions and the popular things of the day; he wanted people who have convictions and will stand by them or die for them, if necessary, as did the martyrs of old. The Jews were not a very good people, but they have that strength of character necessary to stick to a purpose, and in this sense they are of use to us, yet they are never of us, and that is the kind of people God wanted as a repository of his divine word. History teaches us that the cities of antiquity were of the greatest wealth, but their wealth was gathered and destroyed them, and those nations that had conquered their conquerors were noted for their character, as their strength was not in their arms or their wealth but in their character, as in the case of Israel and Greece, which look but little dots on the map, yet their influence was of the mightiest nations of antiquity. So with man, the moral nature is what makes man mighty so subject to the powers that are around, and young men that would come to the front should ever bear in mind that it is great strength of character that makes men remarkable.

MORNING DESPATCHES.

EUROPEAN.

STEAMER ASHORE.

THE NIHILISTS AGAIN.

Horrible Agrarian Murder in Ireland.

Lord Lountmorris Assassinated.

LONDON, Sept. 27.—The steamer Canopus was ashore in a dense fog while going full speed, and ran high on the rocky beach. Three hundred and fifty tons of cargo were thrown overboard. The passengers remain on board. Should the weather continue fine the steamer will probably get ashore. GLASGOW, Sept. 27.—A report that Nihilists were preparing to hide nitro-glycerine cloaks in the coal aboard the Car's new yacht Livadia, now being prepared for sea here, has resulted in the stationing of constables on the Livadia. DUBLIN, Sept. 27.—Lord Lountmorris, who was murdered on Saturday at Rathen, attended a meeting of magistrates on Saturday p.m. at Coleraine, and was seen to leave town about 8 o'clock. Half an hour afterwards his horse and carriage arrived at his residence, a mile distant, without him. This aroused suspicion and search being made, he was found lying on the road in a pool of blood, lifeless. He had received one bullet in his head, three in his neck and two in his body, any one sufficient to cause death. He was little known except over the neighborhood, and throughout Mayo and Galway he had small estates, which he farmed to some extent. He had 16 tenants, with whom he had most unhappy relations. Quite recently he obtained ejectment decrees against two of them. As a magistrate, he was unpopular, and at the meeting of Justices which he had been attending, a resolution was passed calling upon the Government to adopt coercive measures.

AMERICAN.

Washington special: The Times says the annual revenue receipts for the fiscal year ending June 30th, including seven thousand unclassified receipts aggregated \$124,000,000, the highest total since 1872. A statement of the emigration for the past ten years shows the arrivals at Atlantic ports north of Cape Henry to be 2,130,000; Atlantic ports south of Cape Henry 2,629,697; ports 47,239; lake ports 455,000; Pacific ports 145,000.

Robert L. Stuart has given a hundred thousand dollars to Princeton College and the same to the Princeton Theological Seminary for endowment to the new Professorship, which the Rev. Frank Patton, of Chicago, has been invited to fill.

Arrived, the Vandalia from Hamburg, and the Helvetia from Liverpool.

A Great Chicago Enterprise.

The Laboratory for the manufacture of Electric Bitters is one of Chicago's greatest enterprises, giving employment to a large number of hands. The extensive sale already attained for this wonderful remedy is astonishing. Wherever once introduced, it has become known, it is almost to supply the demand, because of their merit—during which all others fail—and at a reasonable price (fifty cents each).—Sold by Jas Clarke & Co.

Men Wanted.

WANTED, fifty men for working in drain in Towtown of Thurlow, east of Reid's Mill. Good wages will be paid to good men. Apply at works. 124433.

THURSDAY,

The 30th of September.

ON THURSDAY, the 30th September, we will show our Imported Pattern Hats and Bonnets, and stock of Millinery, with Mantles and other Seasonable and Fashionable Goods.

A vast variety of reliable and beautiful Goods will be shown, at most reasonable prices. Customers and others are invited to see, even though they may not desire to buy.

Geo. Ritchie & Co.

27th Sept. 1880.

THE PACIFIC RAILWAY.

Arrival of Sir John Macdonald at Quebec.

An Interview with the Premier.

From the Mail Correspondent. QUEBEC, Sept. 26.—Sir John Macdonald and Mr. A. P. Caron, M.P., arrived here last night per steamship *Sardinian*. The steamer arriving late was unable to go to her wharf, and therefore anchored out in the stream. The police yacht immediately proceeded to the steamer, and Sir John and Mr. Caron came ashore and drove to the house of the latter, where Sir John will remain till to-morrow morning, when he will leave for Ottawa. On interviewing Sir John this evening he informed me that satisfactory arrangements had been entered into with a syndicate for the completion of the Canada Pacific railway within ten years, and for the running of the road for a further term of ten years; also that they had obtained satisfactory guarantees for the performance of those arrangements, for the construction of the road as well as for the running of it for ten years. The syndicate was composed of eminent capitalists of Frankfurt, Paris, London, New York, and Canada, thus forming a combination of interests in order to further emigration from all those countries. On asking him if he would furnish any information as to details, Sir John stated that his two colleagues and himself were only a delegation sent abroad by an order of the Governor-General in Council, and therefore they could not take place on the result of their labor with all details to the Governor-General in Council, and that they would then discuss in Council whether it would be in the public interest to disclose any or all of the details of the proposed arrangement before laying them before Parliament. As to the rumors of an early session, Sir John stated that he could only take place on his advice, which he had not yet given, and that the subject had not yet received his consideration.

MORNING DESPATCHES.

EUROPEAN.

STEAMER ASHORE.

THE NIHILISTS AGAIN.

Horrible Agrarian Murder in Ireland.

Lord Lountmorris Assassinated.

LONDON, Sept. 27.—The steamer Canopus was ashore in a dense fog while going full speed, and ran high on the rocky beach. Three hundred and fifty tons of cargo were thrown overboard. The passengers remain on board. Should the weather continue fine the steamer will probably get ashore. GLASGOW, Sept. 27.—A report that Nihilists were preparing to hide nitro-glycerine cloaks in the coal aboard the Car's new yacht Livadia, now being prepared for sea here, has resulted in the stationing of constables on the Livadia. DUBLIN, Sept. 27.—Lord Lountmorris, who was murdered on Saturday at Rathen, attended a meeting of magistrates on Saturday p.m. at Coleraine, and was seen to leave town about 8 o'clock. Half an hour afterwards his horse and carriage arrived at his residence, a mile distant, without him. This aroused suspicion and search being made, he was found lying on the road in a pool of blood, lifeless. He had received one bullet in his head, three in his neck and two in his body, any one sufficient to cause death. He was little known except over the neighborhood, and throughout Mayo and Galway he had small estates, which he farmed to some extent. He had 16 tenants, with whom he had most unhappy relations. Quite recently he obtained ejectment decrees against two of them. As a magistrate, he was unpopular, and at the meeting of Justices which he had been attending, a resolution was passed calling upon the Government to adopt coercive measures.

AMERICAN.

Washington special: The Times says the annual revenue receipts for the fiscal year ending June 30th, including seven thousand unclassified receipts aggregated \$124,000,000, the highest total since 1872. A statement of the emigration for the past ten years shows the arrivals at Atlantic ports north of Cape Henry to be 2,130,000; Atlantic ports south of Cape Henry 2,629,697; ports 47,239; lake ports 455,000; Pacific ports 145,000.

Robert L. Stuart has given a hundred thousand dollars to Princeton College and the same to the Princeton Theological Seminary for endowment to the new Professorship, which the Rev. Frank Patton, of Chicago, has been invited to fill.

Arrived, the Vandalia from Hamburg, and the Helvetia from Liverpool.

A Great Chicago Enterprise.

The Laboratory for the manufacture of Electric Bitters is one of Chicago's greatest enterprises, giving employment to a large number of hands. The extensive sale already attained for this wonderful remedy is astonishing. Daily Intelligencer.

BELLVILLE, MONDAY, SEPT. 27.
6 O'CLOCK EDITION.

City and Vicinity.

BOARD OF EDUCATION.—An adjourned meeting of the Board will be held to-morrow night.

ANNOUNCEMENT.—On Thursday next Geo. Ritchie & Co. will make their fall display and will show the latest novelties in fashionable goods.

PERSONAL.—Hon. Mr. Bowell, who has been visiting the Provincial Exhibition at Hamilton, arrived here on Saturday night. He left for Ottawa on the mid-day train.

THE PROVINCIAL EXHIBITION.—There was a large attendance on Saturday, when the Governor General visited the exhibition and minutely inspected several of the departments. His Excellency also viewed the regatta for about an hour.

MIDLAND FAIR.—The fifth annual exhibition of the Midland Fair Association will be held at Kingston on the 6th, 6th, 7th and 8th of October, when \$8,000 will be distributed in prizes to the successful exhibitors.

RAIN.—A heavy rain storm set in on Saturday night and a succession of lively showers ensued, doing a vast benefit to this locality, but the area of the water visitor was limited. Last night, rain accompanied with a brisk wind again set in and lasted for some hours.

ANNUAL SHOW.—The annual exhibition of the West Hastings Agricultural Society will be held in connection with that of the Belleville Horticultural Society on Tuesday and Wednesday of next week, when prizes to the value of \$1,500 will be presented for competition.

THE CRUEL.—No visitors' names have appeared on the register of the police station since Friday night last. The atmosphere within the precincts of police headquarters is now quiet, still and placid and the usual monotony of the officers' life has again been restored, but how long it will continue depends on the weather.

INTERESTING.—Notwithstanding the fact that there were 40 cases for infirmity of the dog by-law before the court to-day; there are 83 still on the list, with more to hear from. The Magistrate this morning decided that a pup was a dog and therefore was liable for his little tax, a point which should be of interest to all owners of youthful canines.

SHARP WORK.—A paragraph appeared in the news columns of this paper recently to the effect that two men had dug 400 bushels of potatoes in fifteen hours. There was certainly smart work, but it stands in the shade when compared with the feat performed by Thomas Vanlombard on Tuesday last, when he dug 105 bushels in five hours, for William Peck. Next.

NOT SETTLED.—The Peterborough Review says: "The dispute regarding the right of way over a small portion of the route of the Grand Junction Railway Company, between that Company and the Midland has not been settled, and things stand just about the same as they were at the time of last writing regarding this matter. In the meantime track-laying is progressing rapidly from Hastings to Peterborough."

WINTER IS COMING.—Winter is coming, and all having farms or even garden plots will find valuable aid in the American Agriculturist for October, just issued with hundreds of practical directions, hints and suggestions. Among leading topics are Work for the Month; a \$1,100 Farm House, with plans and specifications; Shelter for Stock; Numerous Hints and Hints for Farmers; Humbugs exposed; a full Household and Children's Departments, etc.—15 cents per number; \$1.50 per annum: Orange Juice Company, publishers, 245 Broadway, New York.

OBTAIN.—The Kingston News of the 25th says: "Our advertising columns to-day contain the notice of the death of Dr. T. B. Tracy, youngest son of T. B. Tracy, Esq., of this city. Dr. Tracy, who was a smart student, graduated M. D., at Queen's University in 1865, after which he went to London and passed the Royal College of Surgeons there. Returning to this country he practised for several years in Montreal and afterwards in Gananoque, where his skill as a doctor was much thought of. The doctor was married to an English lady, who died some years ago, leaving one child, a little girl, who is at present staying with her uncle, Dr. Tracy, of Belleville."

IMPROVEMENTS TO THE COURT HOUSE.—During the past month, a variety of improvements have been made in the interior of the Court House. They were very much needed, and the changed appearance gives a cheerful one to what was once dull and disagreeable looking in the extreme. The court-room has undergone a great change, the ceiling has been frescoed in a handsome manner; the walls of the hallways have been painted and the woodwork grained and varnished, and that portion within the rails has been supplied with new chairs. The Judge's room has been newly carpeted and provided with furniture, the walls have been tinted and the room made more cheerful than it formerly was. The walls of the hallways have also been tinted and new chairs have been placed in this apartment. The heating of the court-room will hereafter be by coal stoves instead of by hot air, as formerly. Altogether the change is a desirable one, and will meet with the appreciation of all who may have business to transact in the Court House.

LEFT FOR HOME.—The Una left here on Saturday night for Kingston and was followed by the Emma yesterday morning.

WEATHER FORECAST.—The following are the Toronto probabilities: "A light easterly to south westerly wind, fair, cool weather."

WILLIAMS V. CONRY.—In the Court of Appeal, Toronto, on the 24th: Judgment—Appeal allowed with costs. Decree made for payment of amount due. If sum not agreed on, reference to be directed to arbitrator in usual way, without prejudice to application to Court of Chancery as to costs improperly incurred in paying custom of trade at Toledo.

STATION NOTES.—Hunter & Fuller, the owners of the patent cattle car, are fitting up one at the depot here in accordance with their invention. The invention consists in this, that each animal has a separate apartment to itself and in addition food and water can be given to the occupants of the car without unloading. Haywood's car, which carries over the road the members of the Montreal Herald, came up this morning on the mixed train. There was an object of attraction to all who visited the station to-day. It is painted white, is ornamented with the name of the troupe and is large and roomy. The shipments of iron ore average ten cars a day. The ore goes to Buffalo N. Y. The new scales for the weighing of heavily laden cars are now in operation at the east end of the yard. Traffic generally is now light, the rush to the large fair having subsided.

STOCK COMPLETE.—Our stock is now complete in Gray Scarlet and fancy flannels, Vincennes, Canton flannels, Oxford and Regatta Shirtings, Towellings, Table linens, Damasks, prints, Dress Goods, Cottons, St. Louis, Stripes, Gloves, Corsets, Hosiery, Laces, Frillings, &c., &c., J. A. HENNESSY, the cheapest dry-goods house in the city.

FORCE COURT.
(Before Thos. Holden, Esq., P. M.)

THE LIQUOR LAW.
The adjourned case against Patrick Connors charged with selling liquor to an Indian, was to-day disposed of, the charge being dismissed.

THE DOG BY-LAW.
There were forty cases before the court to-day for non-compliance with the provisions of the above By-law. Several were dismissed, a number of persons who had registered their canines since the summons were issued were allowed a week in which to pay the cost of the summons (\$1.00) or submit to the penalty imposed by the By-law (\$5.00) while those who had not registered at all were advised to do so and pay the costs within a week or submit to the penalty the By-law imposes.

Marine.
The following named vessels passed by for Trenton, light, on Saturday: *Phil Bennett*, *Enterprise* and *Nellie Sherwood*. The *O. S. Store* and *M. O'Gorman* with lumber for Oswego passed down yesterday. The schooner *Fabula*, light, from Oswego, arrived here yesterday and is loading lumber at the Eagle Mill. The steamer *Albion* brought in a large load of freight from Montreal on Saturday night and left this morning for the same port.

Sporting Notes.
The Hamilton regatta, sailed on Saturday, was highly successful. There was a light breeze from the north-east, and the entries in the principal races were as follows: First class—Brunette, Coquette, and Cascade, of Hamilton; Oriole and Madcap, of Toronto; and Eagle, of Cobourg. Second class—Ferry, of St. Catharines (6 tons) and Lady of Hamilton; and Judge Jellott and Mystery (5 tons) of Toronto. Standing keels—Alarm, Coral, and Escape, of Toronto.

The winners were: First class—Coquette; 2nd—Madcap; 3rd—Brunette. Second class—Alarm; 2nd—Mystery; 3rd—Santander. The race for open boats was won by the *Patrol* of Toronto. The London *Sportman* prefers Laycock's style of rowing to that of Trickett, to whom it applies the epithet "clumsy." Hanlan is expected to be on the Thames on Tuesday. On Thursday morning he was slightly indisposed and taking medicine.

The wrestling match at New York, Friday night, between Thibaud and French, champion, and Edwin Bibby, English champion, resulted in a draw. Bibby won the first and twenty-two minutes, Bibby won the second fall. This is the first match in this country in which Bibby has been defeated.

Whitely defeated Uxbridge at cricket on Saturday. Score: Whitely 89 and 125 for three wickets. Uxbridge 84.

St. Julien tried to reduce the record again at Boston Park, Boston, on Saturday. His best time was 2:13.

Warren Smith, the Halifax sculler, is to go to England this fall.

LONDON, Sept. 25.—The *Sportman* says: Trickett and Laycock, the Australians, did some moderate practice yesterday, but nothing eventful occurred. Hanlan and Elliott rowed together to Stills at a smart pace, and returned at a fast rate. In the afternoon, they again went out together, rowing a rapid pace. The effect of this hard work on Elliott was to make him sick after disembarking, but he finished as fresh as when he started. Elliott lost Weisberger in a three mile sculling race at Saratoga on Saturday. Time: 21:13 for Riley; 21:24 for Weisberger.

The professional skill of Riley on Ottawa on Saturday was won by Macdonald, of Ottawa; Quinn, of Prescott, second.

THE ATLANTIC CABLE COMPANIES.—At the meeting of the joint board of the Anglo and Direct Cable Companies held on Friday last, in London, M. M. Foyle-Queller and Monier, on behalf of the Foyle-Queller company, signed the working agreement by which the receipts of the three companies are to be pooled, and the tariff from New York and Canada to the United Kingdom will be increased to 10 cents per word. English, French and American Government messages one-half cable rate; press messages will be 25 cents with a deferred rate of 12 cents. The rate to France and places beyond the United Kingdom remains unchanged at 12 cents, but on and after December 1st it will be increased to 10 cents, and English, French and American Government messages one-half cable rate.

COMMERCIAL NOTES.

APPLES.—The shipment of apples from Montreal is assuming large dimensions. The shipments last week amounted to 5471 bbls against 6760 bbls for the week previous. The *Quebec* of the 25th quotes the following as the ruling prices in that market: "Sales were reported of pretty fair fall apples at \$1.03, per barrel, 3 cases of good fall fruit at \$1.25, 140 bbls good country stock at \$1.50, and 200 bbls, at the same figure. Cables advised from Liverpool yesterday quoted prices from 11s 6d to 12s 6d per bbl. To-day, however, a cable reported sales at \$1.91, but it is believed the apples must have arrived in bad condition. In Boston, apples are selling at \$2 per bbl. for choice eating fruit, and 60c to \$1.25 per bbl. for common apples and good shipping fruit.

Given Up by the Doctors.
Where doctors have failed to cure, and have given their patients up to die, Electric Bitter, have often been used, and a cure effected. It is the Stomach, Liver, Kidney and Urinary Organs, and is a powerful medicine. They invariably cure Constipation, Headache and all Bilious Affections. Try it, and you will be convinced that they are the best medicine ever used. Sold by Jas. Clarke & Co. at fifty cents a bottle.

THE DOMINION EXHIBITION.—The Montreal papers state that the Dominion Exhibition, held in that city during the past two weeks, has been a great success. The gate receipts netted over \$75,000, there will be a surplus after all expenses are paid, and the amount expended by strangers in the city during the exhibition is estimated at \$50,000, whilst the number of visitors was about 100,000.

AGRICULTURAL FAIRS.
WEST HASTINGS AGRICULTURAL SOCIETY AND BELLEVILLE HORTICULTURAL SOCIETY, at Belleville on Tuesday and Wednesday, October 5th and 6th.

RANDOLPH TOWNSHIP. at Stirling, Friday, Oct. 8.

NORTH HASTINGS. at Gardner's, Huntingdon, Thursday, October 7th.

YREDAING TOWNSHIP. at Shannonville, Saturday, October 9.

EAST HASTINGS. at Thrasher's, Corners, Wednesday, October 13th.

HUNTERFORD. at Twiss, Thursday, Oct. 14th.

DUNGLAN AND FARADAY. at L'Amable, Oct. 15th.

PRINCE EDWARD COUNTY. at Pictou, Oct. 15th.

AMELIASBURG TOWNSHIP. Saturday Oct. 9th.

SOPHIALSBURG. at Danversville on Saturday, Oct. 16.

HILLAR. at Pleasant Valley, Saturday, Oct. 16.

LENNOX. at Napanee, October 5th and 6th.

ADDITION COUNTY. at Newburg, Saturday, Oct. 16.

PROVINCIAL. at Hamilton, Sept. 20th to October 2nd.

WESTERN. at London, October 4th to 8th.

MONTREAL CENTRAL. at Kingston, October 5, 6, 7 and 8.

SOUTH VICTORIA. at Lindsay, October 1 and 2.

CENTRAL. at Port Hope, Oct. 5, 6 and 7.

EAST PETERBOROUGH. at Newwood, Oct. 12th and 13th.

WEST PETERBOROUGH. at Peterborough, Oct. 14th and 15th.

From Morrisburg.
MORRISBURG, Sept. 27th.

The premises of Messrs. Smith & Montgomery, merchant tailors, was entered by burglars last night and a quantity of clothing stolen. The loss is estimated at \$150. The entrance was effected through the back door.

AFTERNOON DISPATCHES.
LONDON, Sept. 27.—P. Moller, of St. Petersburg, has failed in consequence of speculation.

PARIS, Sept. 27.—Five men suspected while cleaning sewers.

LONDON, Sept. 27.—Plaiated, the American cartoonist, asks that his name be added to the list of competitors in the International regatta for prizes offered by an American firm.

CANADIAN, Sept. 27.—Two officers have been arrested in connection with the defeat of the *Patrol* of Toronto.

SIMLA, Sept. 27.—The defeat of Ayoub Khan caused the Amerer the greatest satisfaction and has had some quieting effect on the country. Some days previous to the receipt of the news of the defeat a rumor circulated a report that Ayoub Khan had captured Roberts. For this the Amerer caused the rumor to be fogged so severely that his life was endangered.

NEW YORK, Sept. 27.—The Wall St. *Advertiser* gives credence to a statement that Gould has purchased from Moses Taylor that gentleman's interest entire in the Delaware, Lackawanna & Western Railway.

CONVENTION OF THE 27th.—A spirit of reckless defiance is becoming more intense at the palace. For several days the Sultan has refused to listen to any objections by the Minister to his policy. He has issued an order that any official who has heard expressing a contrary opinion shall be exiled. Never before since the time of Mahmoud the Terrible has such an order been issued.

FALL RIVER, Sept. 27th.—Spinners committee have decided to recommend a strike at the mill in the city, in case a reduction of wages takes place.

WASHINGTON, Sept. 27.—Indications: lower lakes, rain, partly cloudy.

Stop that Cough.
If you are suffering with a Cough, Cold, Asthma, Bronchitis, Hay Fever, Consumption, loss of voice, sinking in the throat, or any affection of the Throat or Lungs, use Dr. King's New Discovery for Consumption. This is the great remedy that cures so much excitement by its wonderful cures, curing thousands of hopeless cases. Over one million bottles of this King's New Discovery have been used within the last year, and the cure is complete, satisfaction in every instance. We can not state that this is the only cure for throat and lung affections, and can cheerfully recommend it to all. Call and get a trial bottle for ten cents, or a regular size for \$1.00. Jas. Clarke & Co.

TALBERRY.—The newest wonder of the world, the Talberry, is a new and beautiful method of photographing, which is being used by the piquant, irresistible, popular District of the day.

No good preaching.
No man can do a good job of work, preach a sermon, or write a good article when he feels miserable and dull, with sluggish brain and languid nerves. He should make his brain active and his nerves strong. This can be done by using a little of the "Brain Tonic" of Dr. King's New Discovery. It is a powerful medicine, and will cure you of all brain and nerve troubles. It is sold by all druggists.

BOOKS OF THE ARMY.

Deinard Government at 85 each. The whales are flayed by two sets of twelve men or five days each. They will take from 200 to 500 hogheads a night. A hoghead is estimated at five barrels. Large boats with skiffs are chiefly used in bringing them to the fish, and, when they first start through the process, treading to take the scales off. This is done by the men put on thick boots and walk through the ice until this is done. They are then hoisted and floated in large vats filled with water or strong brine from 24 to 43 hours. The next step is to wash them out of this vat and lay them upon large of this vat. They are then hung upon large stringing to dry. They are then hung upon sticks, and the sticks are laid upon a herring-boat. The sticks as two men pull on the herring-

BEAVERVILLE, WEDNESDAY, SEPT. 29.

An English Opinion.

The London (England) Economist is a matter of course opposed to the protective policy which the present Government inaugurated in March, 1873, but that fact does not prevent it from admitting that the result of the revolution in our fiscal policy has been of great benefit to the country, and that the calculations of the Finance Minister have been fully realized.

In its issue of September 11th, it gives the figures showing the estimated revenue and the actual receipts for the last fiscal year, and with a candor which ought to put to shame our Grit contemporaries, remarks that "the close similarity between the estimates and the actual receipts is remarkable."

The Economist goes on to say "The deficit remains at \$347,190. On this deficit, however, the Finance Minister attributes \$1,300,000, or during fiscal year 1878-79 on goods consumed during fiscal year 1878-79, and entered in anticipation of the change in the tariff. He, therefore, professes calling his deficit \$21,000, although the \$347,000 has to be provided for. During the first two months of the current financial year he has been enabled to make good the \$1,300,000, which he was compelled to sacrifice last year, with something to spare. This is indicated below:—

1879. 1880.
July & Aug. July & Aug.
Customs..... \$1,223,994 \$2,974,776
Excise..... 492,870 792,014
Other sources..... 505,154 792,569
\$3,122,018 \$5,559,359

Increased revenue, July and August, 1880..... \$1,447,341

"By the aid of the protective tariff adopted last year, it is apparent that the Customs are expected to constitute about 60 per cent. of the total revenue, and we regret to see that a large section of the Canadian press undoubtedly uphold the present protective policy."

The tone of these remarks of the leading financial journal in England is highly satisfactory. The Economist admits, on principle, as a free-trade advocate, agree with the mode adopted by the Canadian Government to replenish the exchequer and restore the equilibrium between income and expenditure; but that it approves of the result which has been achieved is quite evident. This is the general opinion in England, and the consequence is that Canadian credit now stands higher than ever in the great money markets of the world; that foreign capital is seeking investment in the Dominion; and that the country is being more and more favorably looked upon as a field for emigration. The result will be that money will become so cheap that every industry in the country will be stimulated into healthy activity and the unemployed lands of the Northwest and of Ontario will soon be peopled with a thriving and industrious population.

Political Notes.

THE RAILWAY COMMISSION.

The Globe instructs that the money paid by contractors to contract brokers, as disclosed by the evidence taken before the Pacific Railway Commissioners, has found its way into the hands of members of the present Government. The imputation is characteristic, thoroughly contemptible, and beyond doubt utterly untrue. The very fact that the present Government appointed this Commission is evidence enough to thinking men that they have nothing to fear from any disclosure that can be made. Guilty men shun inquiry; Sir John A. Macdonald and his colleagues desire it. Perhaps the organs of the opposition may be able to suffer by evidence yet to be taken. If disclosure to that effect be made, we venture to say the Globe will not judge its friends by the same standard as it applies to its opponents, as it always holds.

That in Jeffersons but a venal fault Which led the Tories to rank villainy.

A MORFOLOGY SMASHED.

Says the Globe: "The returns for August show that the value of cotton goods imported was \$245,373 more than for the same month of last year." What, then, becomes of the alleged "monopoly" of the cotton manufacturers in Canada, of which the organ has at various times told its readers? If foreign manufacturers are increasing their sales in our market, there is not much room for monopoly in the cotton business in Canada.

Board of Education.

Thursday, Sept. 29.
The Board met pursuant to adjournment.

Present: Messrs. Wensley, Macdonald, Wilson, Johnson, Wilson, Burke, Tennant, Haynes, W. J. Diamond, Melnick, L. Diamond, Richards, VanAllen, Newberry.

In the absence of the Chairman Mr. Wills took the chair.

The minutes of the last meeting were read and confirmed.

Mr. Newberry, who acted as Secretary in the absence of Mr. Crozier, read the following: A communication from Miss Diamond, applying for the position of teacher.

From Miss Harold to the same effect. A letter was read from Miss Ballard with drawing her resignation was referred to their respective Committees.

Mr. Newberry said that they had called three meetings of the Committee on School Management and had not been able to get a quorum until to-night. He read the report of the Committee as follows:

To the Chairman and Members of the Board of Education, Belleville:

GENTLEMEN:—Your Committee on School Management, to which a communication from the Minister of Education was referred, and the resignation of Miss Ballard and the application of Miss Robertson for a situation as teacher, beg to report as follows:

The Committee recommend the Board to make the division of the school into two parts, the first part to be the primary school, and the second part to be the intermediate school.

The Committee recommend the Board to make the division of the school into two parts, the first part to be the primary school, and the second part to be the intermediate school.

The Committee recommend the Board to make the division of the school into two parts, the first part to be the primary school, and the second part to be the intermediate school.

The Committee recommend the Board to make the division of the school into two parts, the first part to be the primary school, and the second part to be the intermediate school.

The Committee recommend the Board to make the division of the school into two parts, the first part to be the primary school, and the second part to be the intermediate school.

The Committee recommend the Board to make the division of the school into two parts, the first part to be the primary school, and the second part to be the intermediate school.

The Committee recommend the Board to make the division of the school into two parts, the first part to be the primary school, and the second part to be the intermediate school.

The Committee recommend the Board to make the division of the school into two parts, the first part to be the primary school, and the second part to be the intermediate school.

The Committee recommend the Board to make the division of the school into two parts, the first part to be the primary school, and the second part to be the intermediate school.

The Committee recommend the Board to make the division of the school into two parts, the first part to be the primary school, and the second part to be the intermediate school.

The Committee recommend the Board to make the division of the school into two parts, the first part to be the primary school, and the second part to be the intermediate school.

News Condensed.

—More boats have been recovered from the Hudson River tunnel.

—Silver of a superior quality has been found near Sarnia, N. B.

—A cabinet meeting was held at Ottawa yesterday afternoon.

—The Premier received a hearty welcome on his return to Ottawa.

—The Bishop of Liverpool was stoned by an Irish mob on the 27th.

—Three prisoners have escaped from the Ganacque lock-up.

—The business of the Occidental Railway shows a large increase for the present month.

—The sixth ship of the new railway line, across the Ottawa will be in position this week.

—A despatch from Simla says another rising of the Afghan tribes is feared early in October.

—The Express-Eugenie has purchased the Farintosh Hall estate in Hampshire, paying therefor £50,000.

—Anderson's confectionery, Kingston, was gutted and the piano factory slightly damaged by fire on the 28th.

—A horse and wagon were stolen from the vicinity of the Union Station, Toronto, on Tuesday in broad daylight.

—Diphtheria is reported to be very bad in Arrapric, and many deaths, principally among children, have resulted therefrom.

—The freight train men on the Northern Railway are on strike for an increase of pay, or a return to the prices paid two years ago.

—Since the Canada Temperance Act went into force at Woodstock, N. B., the fines collected for the violation of it amount to \$300.

—"Married—In Chill chole, September 12, Herbert L. Rollingsworth and Emma J. Moss. These two once familiar proverb receive a death blow."

—The cheese factories of Lennox and Addington will net \$70,000 for the production of the months of August, September and October.

—Four highway robbers were caught in the act of robbing a man at Montreal on Monday. All were arrested after a struggle with the police.

—A despatch from Simla says Ayoub Khan's Cabuli troops have reached Kabul, and have submitted to the Ameer. Ayoub Khan has fled to Seistan.

—It is understood that the decision in the Argenteau election case will not be delivered until the end of November or beginning of December.

—After the next session of Parliament the old portion of the Russell House, Ottawa, is to be torn down, and one of the finest hotels in Canada put up.

—An insurance of \$50,000 has been effected on Queen's University in three companies, one having a policy for \$3,000 and two more policies for \$10,000 each.

—The Hon. J. C. Pope has returned to Ottawa, as has also Lady Macdonald. The Hon. H. J. Pope has gone to Compton, but is expected at Ottawa in a few days.

—A Berlin despatch says:—By an explosion in the fire-damp in a mine near Hermin, in the Prussian district of Essen, eleven workmen were killed, and the same number reported to be a movement on foot among Toronto capitalists to establish a syndicate with a capital of one million dollars to further develop the livestock export trade.

—Considerable coal oil has been seized at Morrisburg, samples of which were tested at Ottawa by the Collector of Inland Revenue.

—John Jay entered a Texas explosion, and said: "Every politician is not a statesman."

—Den Moore, the "Tow" constable, regarded this statement as a personal reflection and shot Jay on the spot.

—An indignation meeting is to be held in London to protest against the un-English delivery results, as they did not wish their intentions to be published at present, until they received further information from headquarters.

We learned, however, that Mr. Bickford and some of the other head men of the road had been communicated with by telegram, and probably we shall hear more regarding this matter in the course of the next day.

The men expect to complete the work they are now at by Wednesday at noon, and if necessary a large number of additional hands are to be put on to finish by that time.

We do not pretend to know what right either of the two lines has to run over the road, and it is altogether likely that this question will have to be fought out in the courts of law, unless, which appears a very unlikely thing, at present, the matter is amicably arranged.

However it may be fixed or whichever line runs over the disputed portion, the Dickson estate are sure to be benefited by getting the switch that has been talking of so long. The place where they are laying the track has been already graded by the Grand Junction, preparatory to the rails being laid, so the Midland men have plain sailing and very little trouble. It is hard to say what the upshot of the matter will be, but at present it looks as if the Midland had the "whip" hand and were bound to maintain it by any means.

All kinds of rumors are in circulation regarding an attack by the Grand Junction employees, one of which is that a large body of men are marching up from Hastings to attack those working here, but upon diligent inquiry we can find no foundation for such a thing. The rumor was probably started by some joker for a "lark."

A Cheering Prospect.

The Montreal Witness of the 23rd publishes some of the talk on the street in that city, regarding the Pacific Railway, the general character of which is highly favorable.

We make the following extract: "I have just met a friend who has been in Europe for some time," remarked another, and who informed me that he was much interested in the Pacific scheme, and that he had awakened on the continent of Europe. He said that the English people had long looked with envy and some concern on the great number of their people who were yearly leaving their shores for the United States, and that now that they feel that one of their own colonies had been secured, and that the surplus population, they feel like doing every thing they can to assist the enterprise, and some family hope that the great Northwest may eventually even rival the United States in its greatness."

bellford and Hastings this morning was made up of 8 cars of grain, 2 cars of way freight and 1 car of cheese.

FALL OPENING.—Mr. Thomas Muir—

(late Muir & Lawrence)—will make his fall opening to-morrow, when he will show the latest novelties in all new and fashionable articles, suitable for feminine wear.

ASTRONOMICAL NOTES.—The attention of

the reader is directed to a selection under the above caption which will prove of interest to all who have a study of the heavens and have the necessities for viewing their attractions.

TRENT OFFICERS.—A proposal to appoint

Mr. James Ross as treasurer officer for the city was introduced in the Board of Education meeting last night, and negatived.

THE ONLY EXCISE FOR TRANCY NOW

lies in the vigilance of parents and scholars informing on one another.

ANNOUNCEMENT.—Foster and Reid will

on to-morrow make their annual fall display of the season's importations of fashionable mantles, hats, and bonnets, with a large and attractive exhibit of these goods will be made.

PILLOW SHAM HOLDERS.—Any one who

has had the experience of folding pillow shams will be glad to hear that a simple invention for lifting them is being introduced in the city. The invention will be heralded with delight by long suffering humanity.

KITCHER & Co.—This firm will to-morrow

make their fall display of mantles, bonnets, hats and other fashionable novelties. All necessary preparations have been made for this event, and it should therefore be as it doubtless will be, well attended by those in search of new and fashionable goods.

THE CANINE WAR.—The police authorities

are carrying the war against the canine tribe even to the uttermost part of the city, and are determined that the owner of every dog must pay the stipulated tax. The better to assist that object, fifty more summonses were issued, and now the pitiful wail of the delinquents is once more heard in the laud.

CHURCH OPENING.—The Methodist

Church at Bogartville is to be opened on Wednesday, October 13th, when the Rev. W. Jeffers, D.D., will preach at 10 a.m., and at 4 p.m. the same Rev. gentleman will deliver his celebrated lecture on "The New Dominion." Tea will be served immediately after morning service. On the following Sabbath the Rev. E. Clement, of Trenton, will preach in the morning, afternoon and evening.

ELECTION OF OFFICERS.—At a regular

meeting of the Workingmen's Temperance Association held last Tuesday evening, the following officers were elected for the ensuing quarter:—President, Bro. Neil McArthur; 1st Vice-President, Bro. Hugh Walker; 2nd Vice-President, Bro. John R. Aris; Treasurer, Bro. W. Jeffers; Diacon, Bro. Recording Secretary, Bro. A. D. Walker; Financial Secretary, Bro. Joseph Madoc; Warden, Bro. M. Kelly; Conductor, Bro. S. Shuman; Assistant-Conductor, Bro. P. Serris.

THE LUMBER TRADE.—Sutherland's

steam saw mill closed yesterday afternoon for the season with festivities somewhat unusual to such an event. The men regaled themselves with ale and a light lunch, which the owner of the mill had provided, and the work suspended with the best of good feeling animating all. The cut since the beginning of work amounts to the vicinity of 2,000,000 ft. and the greater portion of it has been sent to the United States. Preparations for next season's work are now being made and next week a gang of men will be sent to Mr. Sutherland's limits, on Loon Lake, to provide the requisite supply. It is expected that the cut will amount to 30,000,000 ft.

WEATHER PROBABILITIES.—The following

are the Toronto probabilities:—Lakes brisk to fair, very cool weather, with passing showers.

JOURNEN and others in want of Shirts

and Drawers, Towels or Clothing, would save money by calling on James Hennessey, 332 Front Street. He has the largest and cheapest stock in the city.

THE FALL ASSIZES.

CORRY vs. PROOKS.—This was an action on a promissory note. Verdict for plaintiff for \$430.88. Dougal & Falkner, plff.; Burdett for deft.

MURPHY vs. VANDERK.—This was an action on an account for money paid and services rendered to one William Murdoch, deceased. The action is against the defendant as executor of the said deceased. The defendant is the son of deceased, and as he alleges worked for his father under an agreement for wages. The case occupied nearly all day, and at the conclusion of the plaintiff's case the parties agreed upon a verdict for plaintiff for \$350 against the defendant in his representative capacity. Burdett for plff.; Beiton & Stone for deft.

RANKY vs. NORMAN.—This was an action on a promissory note. Verdict for plff. for \$1,863.07. Dickson for plff.; Frankel for deft.

HAY vs. HAYKINS.—This was an action of ejectment to recover possession of the property known as the Wallbridge foundry. Verdict for plff. Dickson for plff.

PAINTER vs. ROSE.—This was an action on a promissory note. Verdict for plff. for \$487.20. Dougal & Falkner for plff.; Robertson & Thomas for deft.

The Grand Jury came into Court with two true bills against John Nelson Dufco for forgery.

ATTEMPTED MURDER.

George Litton was arraigned and pleaded not guilty to the charge of having on the 30th of March in Trenton, attempted to murder Anthony Golding.

The prisoner is an elderly man with dark complexion and gray hair, and was neatly and plainly dressed. His wife was in court, and occupied a seat near him within the rail.

R. M. Britton, Q. C., appeared for the Crown, and J. B. Birdsey defended the prisoner.

In opening the case Mr. Britton said the offence charged against the prisoner was the most serious on the calendar with but one exception. It was no fault of the prisoner that Golding was not killed, but it will be after the testimony was heard that the motive or intent of the prisoner will be determined. The facts of the case disclose a serious state of things, and there was a feeling of bad blood between Golding and the accused. The former was working when he was fired at from behind a stump. He then went and grappled with the person who had shot at him and the result was that a gun and revolver came into Golding's possession. Golding's boy came to the rescue with an axe, but the weapon was taken from him by Litton, and thrown away. After the fight the prisoner went away and remained three months when he returned and was arrested. This is a case that should be pronounced upon by a jury and the evidence fully given, no matter what would happen.

The trial lasted until about 3 p.m., when the jury, after about one hour's deliberation, returned a verdict of "Not guilty." A report of the evidence will be given to-morrow.

Ameliasburgh Correspondence.

RENNERTVILLE, Sept. 27th.

Nothing worthy of note has taken place during the past week. I suppose the starting of the ferry is something. The long looked for, announcement was given on Monday last, that the *Mary Ethel* would commence her regular trip on Thursday, and was received with not a little delight.

On Saturday, upwards of 80 rags went across the bay, the reduced fare will increase travel. There is some talk of making arrangements with one of the hotels in Belleville, to feed horses and give dinners at reduced rates to all crossing the ferry from this county.

The Grange dock now being built at Bay Side, will be ready for the shipment of grain the last of the week. The following figures have been received from Mr. Davis: Dock, 75 ft. long; depth of water 9 ft.; high water about 14 ft.; length of track from weigh-house 90 ft.; weigh-house 165x30 ft.; furnished with scales capable of weighing 4 tons; hopper to hold about 100 bush. This is a good idea; no grain will be allowed to go in a vessel unless up to sample. The dock is to be expressly for the Grangers.

Quite a number of farmers from Hastings purpose storing grain at Rennertville.

William Brickman, son of Benjamin Brickman, Esq., died suddenly, on Saturday of heart disease, aged 21 years.

The young woman who was accused of smothering her child at the Carrying Place, a short time ago, has been sent to Pictou to stand her trial.

Tweed Notes.

Tweed, Sept. 27.

The farmers in this vicinity are to hold a public meeting in the Town Hall next Saturday, for the purpose of entering into some scheme for the disposal of their grain.

We have had two or three fine showers lately. They were greatly needed; grass was burned up; now the farmers are jubilant, as the prospects look bright for everything.

The annual meeting of the Tweed Branch of the Upper Canada Bible Society, will be held in the Methodist Church on Monday, the 4th of October, at 7:30 p.m. The Rev. Mr. Manly and other gentlemen will deliver addresses on the occasion.

Sporting Notes.

The Kingston *News* says: "Running on a wind" is good. We always thought yachts did their "running" before or off the wind.

The Kingston yachts had some very rough weather during their homeward journey on Sunday.

The lacrosse clubs of New York are being revived and strongly organized. Next season the Toronto and Shamrock clubs will visit the Metropolitan and play a series of international matches with picked twelve of the United States, on the polo ground.

MILWAUKEE.

WELLSINGTON, Sept. 29.—The schooner *Parthoon* went ashore here last night from the dock where she was discharging coal. She is pounding badly under a very heavy west wind.

The steam barge *Saxon* arrived this morning and will load for ryrie and barley for Oswego.

AMHERST, Sept. 27.—Arrived—J. N. O'Brien, of Pictou, accompanied by United States Government st. R. B. Hayes.

Vessels are wanted for the Port Hope barley trade.

According to the Kingston *News*, the schooner *Potomac* is the oldest vessel on the lake. She was built in 1842 at Cape Vincent, and rates B1, which allows her to carry grain.

The schooner *Potomac* is engaged in the work of unloading the cargo of the *Trenton* that was sunk last fall in the Presque Isle channel.—*Whig*.

The prop. *Lake Erie*, that ran ashore on Club Island on the 19th, has arrived at Oswego Sound on Tuesday after being eight days ashore, during which time she was under the care of the most severe gales known on Georgian Bay. The *Erie* was relieved by the wrecking tug *Madhar* and *Mary Ann*. The cargo is not damaged, and the vessel but slightly injured.—*Id.*

THE BIDDULPH TRAGEDY.—The trial of the Biddulph prisoners at London is fixed for tomorrow before Mr. Justice Atkinson. They were arraigned yesterday on the separate charges of murder and robbery, all pleading not guilty as before. The idea of summoning an extra panel seems to have been abandoned, and the jury will be elected from the ordinary panel.

Cheese Markets.

The cable remains steady at 64s. In the Montreal market cheese is quoted 13s to 13½s for fine September make.

A report of the New York cheese market says: For choice and fancy stocks a firm one is preserved, and outside figures can be obtained for perfection of quality, but not much difficulty, while other grades are held steadily in sympathy. Buyers, however, will not handle "off flavor" lots unless they carry a pretty full allowance, and on these the feeling is somewhat unsettled.

The following is a comparative quotation for cheese during the last three years:

September 29, 1877..... 61s. 6d.

" " 1878..... 61s. 6d.

" " 1879..... 61s. 6d.

" " 1880..... 64s.

UTICA, N. Y., Sept. 27.—7,991 boxes cheese sold at 12½ to 13½; 1,350 boxes commissioned.

LITTLE FALLS, N. Y., Sept. 27.—Quotation to-day, 12½ to 13½; bulk, 13s.

Ironmont, Sept. 23.—Sixteen factories offered 16,775 boxes cheese September and balance of season make, which represents about all the factories would in this district; 1,600 boxes sold September and October make at 13½ and balance of season's make at 13½. Cable sixty-four shillings.

AFTERNOON DISPATCHES.

ROMA, Sept. 29.—In resigning their seats in the *Deputati*, Garibaldi and his state they are unable to remain as *Deputati* in a country where the law is trodden underfoot. The real reason is believed to be that Major Canzio, Garibaldi's son-in-law, has been placed under arrest.

ROME, Sept. 29.—In reference to the resignation of Garibaldi, the truth doubtless is that he is mortified at the non-acceptance of his old comrade, Premier Cairoli, to prevent execution of the sentence of the Italian Parliament by a tribunal at Genoa against his son-in-law for participating in a revolutionary demonstration.

BERLIN, Sept. 29.—It is reported that the result of Bismarck's recent correspondence with Friedrichshagen with a skilled economist and economical experts is the projection of a bill aiming at the formation of a State Workingmen's Association, and Mutual Assistance Society, to which laborers and employers will be bound to contribute. The system will be first tried in Prussia.

GRATIOSA, Sept. 29.—Rear Admiral Sincati, of the Italian fleet, was nearly drowned here through the upsetting of his rig.

CONSTANTINOPLE, Sept. 29.—The Emperor of Germany, in replying to an appeal by the Sultan, expressed his regret that the necessity for executing the treaty of Berlin precluded separate action on his part.

LONDON, Sept. 29.—A Berlin despatch says Great Britain and Russia are using the assembling of an International fleet before St. Petersburg.

CINCINNATI, Sept. 29.—It is reported that Mike McCoolle, a famous pugilist, was one of the dead hands that were drowned by the sink of the steamer *Pierce* after.

WASHINGTON, Sept. 29.—The Secretary of the Treasury to-day authorized the purchase of \$2,000,000 in bonds for the sinking fund.

NEW YORK, Sept. 29.—The *S.S. Westphalia* left Lake station on a slight fall, 2000 gold.

The remains of Gen. Torbert arrived to-day from Florida. They are lying in state. The funeral will be held at Trinity church.

WASHINGTON, Sept. 29.—Indications lower Lake, stationary or slight fall, 2000 gold, clear or partly cloudy, local rains in north.

Given Up by the Doctors.

Where doctors have failed to cure, and have given their patients up to die, Electric Bitter, have often been used, and a cure effected greatly to the astonishment of all. Diseases of the Stomach, Liver, Kidneys and Urinary Organs are positively cured by Electric Bitters. They invariably cure Constipation, Headache and all Bilious Attacks. Try them, and be convinced that they are the best medicine ever used. Sold by Jas. Clarke & Co. at fifty cents a bottle.

No good preaching.

No man can do a good job of work, preach a good sermon, try a law suit well, doctor a patient, or write a good article when he feels miserably dull, with sluggish brain, unsteady nerves, and none should make the attempt it such a condition when it can be so easily and cheaply removed by a little Hop Bitters. See our column.

Stop that Cough.

If you are suffering with a Cough, Cold, Asthma, Hoarseness, or any of the lung troubles of voice, tickling in the throat, or any affection of the Throat or Lungs, use Dr. Kiro's New Discovery for Consumption. This is a grand remedy that is causing so much excitement by its wonderful cures, curing thousands of broken cases. Over one million bottles of Dr. Kiro's New Discovery have been used within the last year, and have given perfect satisfaction in every instance. We can unhesitatingly say that this is the only cure for cough and lung affections, and can cheerfully recommend it to all. Call and get a free bottle for ten cents, or a regular size for \$1.00. Jas. Clarke & Co.

BUCKLEY'S ATLAS Salve.

The BUCKLEY'S ATLAS Salve, for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Tetter, Itch, Chapped Hands, and all other skin diseases, is a grand remedy, and is sold in every box of ointment. Price 25 cents per box. For sale by Jas. Clarke & Co. 95-17

DIED.

At Frankford, on Monday, Sept. 27, REMCO, the beloved wife of William Walter.

At his residence, Sidney, Sept. 28, 1880, SAMUEL WALKER, aged 65 years.

Commercial.

RELEVANCE MARKETS.

INTERVIEWING OFFICE, Belleville, Sept. 29, 1880.

The market for very little fluctuation in price. The street price for barley during the past week has been from 45 to 60¢. Buyers claim that for a first class article, both as to color and weight, more would be paid. Yesterday barley was quoted at \$1.00. In Oswego with sales of 10,000 No. 1 Bright Canada at \$1.00, 10,000 No. 1 Canada 85¢, and 10,000 No. 1 above at 85¢. In Toronto to-day barley is quoted dull and weaker at 45 to 70¢.

Rye remains steady at 75¢. In Oswego yesterday rye was quoted quiet, with 80¢ offered for Canada in bond. Enquiries are made in the Montreal market for cargo lots of rye at 85¢, but none are offered.

The offerings of peas are small, the ruling price during the week has been 60¢. In Montreal to-day peas sold at 55¢ per 68 lbs. Oats in demand at 32¢.

No wheat is offered on this market, as millers purchase all that is offered at \$1.10.

A few dressed hogs were offered during the week for which \$6.00 to \$7.00 per 100 lbs. was paid.

Butter is quieter, the demand for quantities is falling off in sympathy with a decline in Montreal.

Considerable discussion is indulged in daily respecting the comparative merits of Belleville and Trenton markets. The following is the Trenton market report to-day—

Rye—... 75¢ to 80¢.

Barley—... 65¢ to 75¢.

Peas—... 55¢ to 75¢.

WHEAT—\$1.10.

BARLEY—45¢ to 60¢.

RYE—75¢ to 80¢.

OATS—72¢ to 80¢.

PEAS—60¢.

LARD—5 to 10¢ per pound.

HOGS—Dressed, 36.50 to \$7.00.

CLAMS—85¢ to 10¢.

BUTTER—Tub, 15¢ to 18¢.

BUTTER—Roll, 20¢ to 25¢.

HOGS—10¢ to 12½¢ per pound.

HIDE—Hough, 67¢, butchers inspected;

... 30¢.

SHEEPSKINS—50¢ to \$1.00.

DEAKINS—50¢ to 60¢.

ADAMS—10¢ to 15¢.

WOOL—28¢ per lb.

LARD—30¢ to 10¢.

TALLOW—Rough, 34¢.

TALLOW—Refined, 44¢.

CABBAGE—30¢ per bag.

POTATOES—40¢ to 50¢ per bag.

Flour—Wholesale, \$5.50 per bbl.

Flour—Retail, \$5.00 per bbl.

Flour—\$10.00 to \$11.00 per ton.

Flour—20¢ to 40¢ per pair.

Flour—35¢ to 50¢.

Flour—35¢ to 50¢.

BELLEVILLE, THURSDAY, SEPT. 30.

Nothing to Fight About.

The Globe, in its issue of September 28th has the following:

The other claim made for the National Policy, that it is giving to our market, the returns for August show that the value of cotton goods imported was \$212,373 more than for the same month last year; of iron and steel manufactures, \$23,115 more; and of woolen goods, \$379,414 more. The duty on these commodities was largely increased, especially to give our own manufacturers a larger share of the home market. —to use as N. P. phrase, to give us "Canada for the Canadians." It has largely increased the price to consumers, both of the home and foreign made product, but it has not given us Canada for the Canadians. On \$3,445,757 worth of goods imported during the month of August, this year we have paid an duty of \$1,690,554, while on \$9,013,711 imported in 1875 we paid only \$1,174,072.

If our country's statement be correct, then it has left nothing to fight about as regards the N. P., which the Globe thus makes out to its own satisfaction to be a revenue tariff only—just such a tariff as it professes to desire. It cannot be denied that last year, and for several years previous, the amount of revenue raised was not sufficient to meet the expenditure. This state of affairs could not be allowed to continue; so the people demanded of the incoming administration that they should make revenue and expenditure balance. Thus it was absolutely necessary to increase the revenue, which has been done by altering and readjusting the tariff. The effect of these alterations has been to comply with that requirement and to so add to the revenue as to bring it up to the required standard. The Opposition organ asserts that foreign manufacturers have not been shut out by this increased tariff, which therefore, if that statement be correct, cannot be of a protective character. The additional money must be had; the tariff supplies the want; therefore, according to our contemporary, we have what it contends for, a revenue and not a protective tariff. Thus, we hold, the Opposition have left themselves nothing further to contend about as the character of the tariff, which yields enough money to meet the country's expenses and liabilities, and nothing more.

The Pacific Railway Bargain.

The more that is learned of the bargain which the Ministers have succeeded in making with the capitalists who have undertaken to complete, equip and operate the Pacific Railway, the more satisfactory does it appear. As a matter of course, some of the organs of the party who failed, despite their unpatriotic and unscrupulous opposition to every step taken towards the accomplishment of the great object in view, have tried of criticizing in a hostile manner that of which they have no knowledge but whose success has fallen upon dead ears, because its true intent was so easily discerned, and the great body of the people are rejoicing at the success of the Premier and his colleagues.

So far as the details have been given to the public—and the Premier is entitled to credit for taking the people so far into his confidence—we learn that the amount which is to be paid to the syndicate is smaller than was to have been given to Sir Hugh Allan and his associates. In the next place, they are to build the road within ten years. Thirdly, the work of construction is to be carried on simultaneously on all the sections—a provision which will be extremely satisfactory to the people of Ontario and Quebec, as had the work remained in the hands of the Government, a good many years must have elapsed before the section of the line to the north of Lake Superior could have been undertaken. Fourthly, the syndicate will be bound to operate the road for ten years after its completion; and lastly, to put the lands granted to them into the market forthwith. This final provision is calculated to be of immense benefit to the country; for the syndicate will thus be obliged to use great diligence in disposing of their lands, which it is safe to say they will do more effectually than could any Government hampered as ours is, by an obstructive and do-nothing Opposition. By this means the lands remaining in the hands of the Government and lying alongside the railway lands will also be sold, and just as rapidly as those belonging to the syndicate.

The question as to whether or not an autumn session of Parliament will be held, will probably be decided within a few days, and that the public interest will form the basis of the decision arrived at in the promise we are perfectly satisfied.

THE ASSIZES.

ATTENDED MURDER.

(CONTINUED.)

ANTHONY GOLDING, sworn.—I reside in the 8th con. of Tyndalburgh, and have known the prisoner for 18 years; we were neighbors until about 12 years since; our properties adjoin; on the 20th of March I was splitting rails on my own place—between the hours of 7 and 8 in the morning; my boy was with me; I was working and he was working and I felt the first thing I heard was a shot and I felt a wound in my arm; I went toward where the smoke was from behind a stump; I saw the prisoner and asked him what he wanted to shoot me for; he did not answer; I picked up a gun; he pulled a revolver on me; I clinched him and we fought for a while, when my little boy came to my aid; the boy had an axe; I took it from him and I took it from him; I was relieved by the little fellow I got up and struck the prisoner twice with the gun; I took the gun home; it was in three pieces when I got it and took it from the ground; I thought it was broken over my head; I brought it up where the light took place; I laid an information against the prisoner; I did not see him for three months after the fight; the revolver was loaded, all the chambers but one were full; my boy found a hole in the wall where the struggle took place; I was badly hurt, the struggle I could not get home; I was bleeding so much; I gave him my shirt and hit me on the arm; I gave him no provocation to commit this act and did not ask him to go there; the trouble was on my own property.

Cross-examined.—I never saw the prisoner any previous to the day anything to me; I never did him or any one five cents worth of harm; I am a mild dispositioned man; I can get a character and would not poison a horse and ask his tongue out; I was sworn before the Police Magistrate about this case and swore to the truth; I had not been there where the row was for two weeks before it occurred; I know Tom Mullaney, but I do not want him to come near my place; he wanted me to show him the place where the shooting occurred; I was six rods from the prisoner when he fired at me; I shot from behind a stump a little bigger than my arm; the shot has grown since I spoke of it before; (laughter) I was scared to death after the shot was fired and walked up to the prisoner who did not speak to me; I did not knock Litton speechless the first blow; the stump I speak of stood in the clearing; I did not see him until after he fired; he rested the gun on the stump and it was there when I walked up to him; he then pulled a revolver; he is a poor shot; I heard of the prisoner shooting other people; I heard that he shot Bill Hugg's in the parts and he went to the States; I never told me he was a soldier; I struck the prisoner on the head and arm after he fired off the revolver; I found one bullet and one passed close to me; one of the bullets struck a stump; the prisoner had a gun in his hand when I went up to him; he also had a revolver; I struck him; there was a little break between myself and the prisoner; I got a bucket near where the fight was on that day; I went there to show some men where the fight was; I struck the prisoner twice with the gun barrel and then went home; I have not spoken to the prisoner in twelve years.

Re-examined.—I showed two men where the place was where the row occurred. I cannot read or write.

During the hearing of the testimony of this witness the audience gave frequent expression to their feelings in subdued language, caused by the account of the prisoner's manner of speech and the cross-firing between himself and the counsel for the defence. Mrs. Litton and the prisoner exchanged smiling glances and appeared unmoved by the situation.

THOMAS GOLDING, sworn.—I am the son of Anthony Golding; on the day of the fight I was chopping brush; I went to do so after breakfast; when I got there the first thing I heard was a shot; I did not see Litton; father walked to where the smoke was; I went to; Litton was there; father asked him what he was doing there and Litton did not reply; Litton pulled a revolver out of his coat pocket and fired at father; father struck Litton with a basswood rod over the shoulder and the latter hit my father with the gun; a clench followed and father was thrown; I ran away with me which Litton jerked out of my hands and father jerked it out of his and threw it away; I went home with father and when we left Litton was getting up on his knees; he afterwards apparently went home through the woods; I heard no words or blows until after the shot was fired and neither spoke until then.

Cross-examined.—My father and the prisoner were fighting when I first saw them; I did not see the gun until they were fighting; I did not raise the axe to strike the prisoner.

PATRICK HEFFERNAN, sworn.—I saw the place where the fight occurred on the same day, and I saw blood there; I did not hear the prisoner say he would do anything to Golding; when I saw Golding he was all over blood and had a handkerchief over his face; I did not see his wound.

Cross-examined.—Litton used to go out at night and carry a gun with him.

JOHN EVAN, sworn.—I heard the prisoner say that Golding was not a good neighbor and that he would put some lead in the lady to make them feel it; he was talking generally then; he said the Goldings were bad neighbors.

Cross-examined.—I think Litton a good neighbor; I would not think it strange if he took a gun to go and find a horse; the conversation (alluded to above) took place after Litton's cattle had been poisoned.

JOHN EAGAN, sworn.—Litton complained about a shot; I heard he took his revolver and went away with the intention of shooting Golding, who when he saw Litton near his field, went home; I have heard Litton say that Golding was a bad neighbor.

Cross-examined.—I had trouble with Litton about a horse; he owes me, and has not paid me.

CHIEF MCKINNON testified that the gun and revolver produced had been in his custody, and that when Golding appeared before Mr. Diamond, he had a cut on his face and blood upon him.

DEFENCE.

THOMAS HOLDEN, sworn.—I took down the deposition of Anthony and John Golding as they were made by them.

THOMAS MULLANEY, sworn.—The prisoner had often gone hunting; he told me the night before the fight that he would have to be up early in the morning to look for his horse; the next morning he came back about nine

o'clock with his head out open; he was not able to go to a doctor; the next day Dr. Tracy dressed his wounds; I found no mark of a shot where the light took place; Litton was in the hospital until he bled.

Cross-examined.—Litton intended to sell his land and go away from Golding's locality; Golding and the prisoner were not good friends; his (Litton's) cattle were at my place with the exception of one horse, which got away from the boy, and which he went for on the morning of the fight; I saw Litton passing home; he said Golding and his boy had nearly killed him; I took him to his brother's in Belleville and brought him back the next day.

PHILIP LITTON, sworn.—Mullaney brought the prisoner to my house; he was in a bad state and his head was badly cut; I told my brother to go to an hospital and come back in time for court.

This closed the evidence, and after address by the counsel His Lordship summed up. A deliberation of an hour resulted in the return of the jury into court with a verdict of not guilty. The prisoner was then discharged.

Grand Jury came into Court with a true bill against James Marsh for libel.

QUEEN V. ALBERT PRIMO.—Larceny from the person. No bill.

Fall and Winter Fashions.

Display at G. O. Ritchie & Co.'s.

The old-established house above named, made to-day a display of the goods purchased in the European market for their fall and winter trade by Mr. Thos. Ritchie. There was a large attendance of ladies, who thronged the spacious show rooms and minutely inspected the extensive and varied stock of millinery, &c. A feature of the display is the great variety of cloaks and mantles of various materials, some of them lined with fur, plush, and other materials. The bonnets and hats include patterns from Paris and London, of various and beautiful designs, amongst which are the Directoire, the Godefrans, and many more taking styles. A remarkably pretty bonnet was one which combined the different shades of heliotrope, ornamented with gold. Tam O'Shanter of silk, velvet and plush were numerous, and there were many designs of hats in French and English fashions, very light yet comfortable. Old gold, garnet, and bronze appear to be the leading ornaments. To the credit of the establishment it may be said that some of the most elaborate bonnets, cloaks and mantles were manufactured therein. Their assortment of silk pocket-handkerchiefs is likewise worthy of note.

Of tapestry carpets, carpets of all descriptions, floor oil cloths, and house furnishings, Messrs. Ritchie carry a very heavy stock, whilst in dress materials they are usual have an extensive variety of fashionable fabrics. In staples, also, they deal largely, and customers will find that anything in the dry goods line can be had from them at the most reasonable prices.

T. MUIR'S.

Mr. T. Muir had his fall display to-day in his new premises, next door north of the Nelson block. This place of business now has a neat front and the interior has been recently improved and altered so that it now compares favorably with many in its locality. The show of hats, bonnets, &c., in this establishment, though not as large as that of others, is yet attractive and neatly arranged. There is a very large supply of hats in feather and heavier felts, almost every imaginable shape, whilst the array of bonnets is tastefully arranged and well displayed. In goods for trimming there are ribbed and broadened velvets, as well as a large contribution of flowers, feathers, &c., all of which go to make up a very neat and stylish array of fashionable goods.

FOSTER & REID'S.

Foster & Reid made their fall opening to-day and the event was attended by numbers in quest of fashionable novelties. The several articles exhibited were so arranged as to show off their attractive points to the best possible advantage and the exhibit of mantles and millinery was very varied. There was a neat show of mantles, a good display of bonnets and hats, whilst the array of flowers, feathers and trimmings was an extensive one. Appended is a description of what is seen at this establishment in its various exhibits:

The display of millinery for the autumn and winter is characterized by richness of effect rather than intrinsic beauty. In size and shape there is much variety; sizes running through all degrees, from small to large, and shapes comprising many styles directly opposed one to the other. The result of all this will be that as fashions differ, so will the hat or bonnet worn to correspond; and here the exercise of good taste is most essential in making a choice. In general we observe bonnets are small and hats are large, but neither are these rules exclusive, since there are some few small hats and some large bonnets. Crowns are seldom conspicuous when unusual dimensions are attained. Some have quite high square crowns as well as increased breadth, but other crowns are round, low and broad, with brim of equal width rolled upward. Some shapes can be rendered serviceable either as hats or bonnets according as they are worn with or without strings. Turbans, in several pretty shapes, are apparent, and are destined to find favor amongst young ladies. An entirely new and rather daring cap has been introduced for fresh young faces. It fits closely to the head, without any brim, and has a flat, soft crown projecting quite far over, in much the same way as the ecclesiastical berretta. Felts of beaver and plush and fur felts are extensively shown. Both bonnets and hats in color follow in the wake of dress goods, and the rich plum, garnet, bronze, marine, and gentian and other shades are faithfully reproduced in plush and other trimming materials. Ribbons, in general, are wider than formerly, and there is much room for selection. Outside feathers are already used and are placed on hats that already are so large as to require a process of subtraction rather than addition. Flowers are used but not to any large extent, but nevertheless there are some very rich flowers and leaves. This firm make the finest display this season that they have ever made.

A New Lighthouse.

We are glad to learn that the efforts of Alderman Robertson, Chairman of Harbor and City Property, to obtain assistance from the Government towards a new lighthouse, have been successful. A letter received by Mr. Robertson this morning from the Department of Marine and Fisheries, announces the gratifying fact that the Government have decided to place Belleville on the same footing as other ports, and will build a new lighthouse on a place as may be selected by the Council, and will light the same. Mr. Robertson deserves great credit for the manner in which he has managed this matter, which will save the city a large item of expense.

News Condensed.

—Hon. H. L. Langevin is to be knighted.
—The Hon. Mr. Aikins has returned to the capital.
—The Provincial Fair is to be held in London next year.

—Wm. Arthur & Co., dry goods merchants, Toronto, have failed.

—The Governor General opened the Southern Counties Fair at St. Thomas yesterday.

—A party of 160 persons, with 18 car-loads of freight, leave Ottawa, October 6th, for the North-West.

—It is rumored that the Kingston lead works have been sold to United States capitalists for \$25,000.

—Francis Gannon of Ballinrobe, has been arrested for complicity in the murder of Lord Mountmorris.

—Mr. Wm. McArthur, Liberal member of the House of Commons, has been elected Lord Mayor of London.

—The nomination will take place in Brombe on the 11th October, and polling will take place on the 18th.

—It is understood that the representatives of the Pacific Railway Syndicate will assemble in Ottawa on the 12th proximo, to sign the formal contract.

—A nine year old boy whose father is employed on the Canada Central Railway extension was trampled to death by a companion a few days ago.

—Hough's saw mill and tannery and factory in Prescott, took fire on the morning of the 29th, and were completely destroyed, by fire, loss \$11,000.

—Nothing has become public regarding the business transacted at the Cabinet meeting on Friday, but it is believed that nothing of importance will be done until after the return of the Governor General.

—The assessment Commissioner of Toronto has completed the assessment rolls for 1881.

—The total increase as compared with the assessment of the present year is shown to be \$3,000,000. The increase is shown to be due to the abolition of exemptions on incorporate companies, lawns, paddocks, and farm land.

THE EASTERN TROUBLE.—The town of Dulcigno is reported to have been burned, but a doubt yet remains as to whether it was the work of the Albanians. The situation remains practically unchanged, but it seems that the French vessels have been ordered to refrain from firing a shot if the bombardment should take place.

RAILWAY STRIKE.—A telegram from Toronto on the 29th says:—"The strike of brakemen on the Northern Railway has not ended yet. Efforts are being made to effect a settlement. The way freight men on the Northern Railway, to the number of several hundred, quit work this morning and joined the train men's strike. The brakemen on passenger trains will also strike, it is believed, as they have been asked to work freight in connection with passenger trains. The strike is assuming greater proportions and it is very probable it will spread to the Grand Trunk and the entire railway system."

MORNING DESPATCHES.

EUROPEAN.

LONDON, Sept. 30.—A Dublin correspondent says the state of the country has been anxiously considered by the executive. No decided action will be taken before the Cabinet Council. Private accounts say that the state of the west is very alarming. It is well known that other landlords are marked for assassination on the first opportunity. Quantities of arms have been brought into the country.

Rev. Dr. John Waddington, an eminent divine, is dead.

LONDON, Sept. 30.—The commander of the *Chelye*, who has been in three Arctic expeditions, asserts that Franklin and his party perished because the tinned meats furnished by his contractor proved to be disgusting stuff when opened in the Arctic regions.

NEW YORK, Sept. 30.—Over 21,000 barrels of apples were shipped from this city to European ports last week.

Mrs. Lizzie Raynor, wife of a prominent real estate broker, yesterday was found guilty of petit larceny, in stealing a woman's pocket book in an up town store, and sentenced to one day's imprisonment. It is claimed that Mrs. Raynor's mind was disordered.

Arrived, the Bristol from Bristol.

A Great Chicago Enterprise.

The Laboratory for the manufacture of Electric Bitters out of Chicago's greatest enterprises, giving employment to a large number of hands. The extensive sale already attained for this wonderful remedy is astonishing. Wherever once introduced and become known, it is almost to supply the demand, because of their merit—being sold at all other fair prices (reasonable prices) (50 cents each).—Sold by Jas. Clarke & Co.

The Queen's Hotel, Toronto, A Cuisine Unsurpassed.

NOTED for its tasteful elegance, superior appointments, and "home" comfort. The desirable location of this Hotel, with its fine ventilation and extensive grounds, make it especially adapted for transient or permanent residence. The coolest house in the city in hot weather.

McGAW & WINNETT, Proprietors.
